PEOPLE'S ICE CO. IS SOLD

Metropolitan Takes Over Long Established Business — History of Ice Business in Andover

The business of cutting, storing, and delivering ice to Andover customers carried on for seventy years by Andover men passed into the hands of outsiders when the People's Ice company owned and managed by Joseph H. and T. Frank Nuckley, was sold to the Metropolitan ice company on October 1. The deal included the icehouses at Ponds and Hussey's pond in Shawheen, together with the land on which they stand and all equipment — in fact everything but the Park-street property.

In 1899, Joseph H. Nuckley, then a resident of Ballardvale, started in the ice business, one horse and wagon being adequate to meet his requirements. He acquired the Hayward ice houses at Ballardvale and in 1901, his brother-in-law, William Haggerty, went into business with him. Two years later, his brother, T. Frank Nuckley, bought out the Haggerty interest and the Andover Ice company was formed. In 1905 this company was bought out by Brooks F. Holt and for one year the Nuckleys were out of the ice business.

In 1906, a new corporation called the People's Ice company was formed with Joseph H. Nuckley and T. Frank Nuckley as owners and general managers, a company which merged with B. F. Holt's company in 1914, and has ever since supplied the people of Andover with ice from North Reading to the South Lawrence line.

In the hot weather of summer, two deliveries a day were sometimes made, and no emergency call, either by day or by night, has ever been denied.

From the small beginning with one horse, the business grew to a size which required the owning of as many as twenty-four horses at one time. This, however, was before the days of gasoline, with the aid of which ice is now grooved, scraped, hoisted, and delivered.

Since 1919, trucks have taken care of transporting ice from the ice houses up into town and the present equipment includes seven horses, three wagons and six trucks. The employees number thirty. As many as 131 horses have been owned by the Nuckleys, fifty dying in the service. Several to which they were especially attached have been kept.

NEW COLONIAL MANAGER

Photographic Baby Show to Be Run in October in Freshly Painted Theatre — Three Shows Daily

W. H. Wolfe of Boston, has assumed the management of the Colonial theatre on Essex street, succeeding Samuel Resnik, who needs more time to devote to other interests.

Mr. Wolfe was at Wildwood, N. J., for three years and at Paragon Park, Nantasket Beach, for ten years. He comes to Andover directly from York Beach, where during the past season he managed the theatre, ball room, great white way and "everything but the ocean."

The theatre is now being completely renovated and beautifully redecorated both inside and out.

Mr. Wolfe has many new plans for the theatre. Beginning Monday, October 11th, there will be three entire shows daily. The first evening show will commence at seven o'clock. This will give the patrons an opportunity of seeing the feature picture from the start since each performance will commence with a news picture and a comic picture. This will permit the feature picture to be exhibited about 7.30 and 9.15, the same time that they are shown in Boston and New York.

In addition to the regular performance commencing Monday, October 18th, a series of Popular Voting Contests will be inaugurated. The first one will be a Photographic Baby Show which will run for a week. The picture of the babies who are entered in the contest will be shown on the screen and each will be numbered. Each patron in the audience, after he has seen the photographs, may cast his ballot for the one he likes best.

The winner at the end of the week will be given fifteen dollars in gold. The second prize will be a five-dollar gold piece. One can vote early and often. A vote will be given to each purchaser of a ticket to the theatre.

Manual Training and Sewing for the Outlying Schools

The school committee voted at the monthly meeting Tuesday evening to have all the seventh and eighth grade children of the Shawheen and the Bradlee school in Ballardvale brought to the central schools for manual training and sewing. This will be done once a week and will give the children in the outlying districts of the town the same opportunity as those in the central schools. Aside from the Stowe school the Shawheen and Bradlee schools are the only schools where there are seventh and eighth grade rooms.

The committee voted to accept from the Lions Club of Lawrence several framed copies of Moral Code for Youth. These will be placed in various schools.

It was moved to send a vote of thanks to Mr. Bailey of the Phillips Corporation for the use of the Balmoral playing field for the Pynchard football team.

In many a New England home the Globe serves as guide, counsellor and friend

That unmistakable charm about a home amid New England's hills

WHAT is the secret of the charm of a New England home? Not expensive furnishings, certainly, nor obeisance to every new whim that fashion dictates.

No, it goes deeper than that. These New England women—and they have a reputation as good housekeepers to uphold—know how to rearrange, to redecorate, to refurnish; to make evident the beauty of old furniture, draperies, rugs.

How do they do it, you ask? Look through the Household Pages of the Globe and you will see New England women chatting with each other on these and many other subjects. For the Globe's Household Department is written by New England women themselves. Not a day goes by but you will find in the Globe something you can put to good use in making your own home brighter and happier.

Would you, too, like to join the Globe's Household Club? It costs such a trifle, only 2 cents a day, and you don't even have to leave your own front porch to attend its meetings.

DAILY AND SUNDAY

A Boy's Life is the Life for Me!

Oh a boy's life is as happy as anything could be, they never have a worry, as do grown folks like you and me, from early in the morning till they close their eyes in sleep, they yell and sing and jump and play, don't have hardly time to eat; but when the dinner bell is sounded you can bet they'll be right there, sitting at the table awaiting mother's bill of fare; soup and mealy potatoes, and a glass of ice cold milk, just add some slices of **20th Century Bread**, here's a meal "as fine as silk."

WILBUR THEATRE

"One Of The Family," John Tuerk's highly popular and successful comedy, is at the Wilbur Theatre, beginning Monday, October 11, for an indefinite period. This is the Kenneth Webb drama which played for eight straight months in New York last season, first at the Klaw and later at the Eltinge Theatre. The star of the piece is Grant Mitchell, of the many pleasant memories and it is said that as Henry Adams in this comedy he has the most satisfying role that he has played since he was seen in "The Tailor Made Man." The company is the same in all the important roles as that which kept Broadway chuckling for so many weeks last year. Louise Closser Hale is the spinster Priscilla Adams, and the other roles are played by Edward Donnelly, Lella Frost, Beulah Bondi, Fleming Ward, Lorraine Frost, Jean Arden and Robert Montgomery. The plot of this hilarious comedy concerns the Adamses of New England, or, to be specific, the Adams family of Boston from the walls of whose home look from heavy and revered frames the likenesses of three signers of the Declaration of Independence. The Adams household consists of Henry Adams, his two sisters, his brother and his brother's wife and his maid and his brother's sister, Priscilla Adams. Henry Adams, the elder son, is the underdog of the family. The rest of the circle sponge off him, heckle him, and generally subject him to unspeakable treatment. One day he is permitted a vacation and comes home with a wife, Joyce Smith, plebeian stenographer. This outrages the traditions of the Adams family and they

Looking Back Twenty-five Years

W. D. Smith has entered the employment of an electrical concern in Boston. John N. Cole acted as chairman of the Republican county convention at Salem, Monday. Miss O. Neal has moved from Draper's block into Mrs. C. M. Baldwin's house on Summer street. Joseph W. Smith and family have returned from Biddeford Pool, Maine, to their home in Frye Village. At a recent golf match at the Myopia Hunt club, Hamilton, A. L. Ripley participated in a match play for the Myopia cup. Mr. and Mrs. Joseph A. Smart and daughter, Miss Annie, left Wednesday on a trip to Buffalo, and the Pan-American exposition. Mr. and Mrs. Burton S. Plagg have reached Andover, after their wedding journey and taken up their residence on Bartlett street. Arthur Bliss, George W. Foster, Frank E. Gleason, John N. Cole, and William H. Higgins attended the county convention at Salem, Monday. John H. Flint and family have returned from New Castle, N. H., where they spent their summer and have re-opened their Elm street residence. Mrs. James N. Smart has been entertaining this week, Mr. and Mrs. Thomas S. Woods and family of Boston, at her beautiful residence on Gardner avenue. Miss Alice French (Octave Thonet), is visiting her cousin, Miss Kate Roberts of Abbot street for several weeks. Miss French is a graduate of Abbot academy. The senatorial convention was held at Lawrence Wednesday afternoon and was attended by Andrew McTernan, H. Bradford Lewis, Dr. C. H. Shattuck, G. A. Higgins, and John W. Bell. Work has been begun on grading the Salem turnpike in North Andover over which street the new Middleton, Danvers and Lawrence road will be run as far as the Wilson place. F. P. Higgins catered at the reception after the Trull-Bailey nuptials on Porter road. A Syracuse paper says: "Mrs. David Shaw of Andover, Massachusetts, a member of the Raymond & Whitcomb party stopping at the Crossman house, Alexandria Bay, caught the largest pickerel taken from the St. Lawrence river, at this place this season. The fish measured about 30 inches in length and weighed 8-12 pounds. Dr. Bancroft died at 2.30 p.m., October 4, 1901. At the South church lawn last Friday afternoon, the Christian Endeavor society held a sale of potted plants, candy, chocolate and jelly, to raise funds for flowers to adorn the church during the winter. The sum of \$21 was realized. At the potted plants table were Miss Edith Hunter, Edith Valpey and Grace Morse. In charge of the candy table were Misses Grace Cheever, Marion Chamberlain and Rena Hemenway. Misses Alice McTernan and Dorothy Logan poured chocolate, while Misses Ethel Hemenway and Minnie Barton dispensed tempting looking jars of jelly. The directors of the Andover Guild held their first meeting for the new year of work at the Guild house last Tuesday evening. The treasurer reported that the gross expense

of the Summer school had been \$346.30, and that the subscriptions for the support of the general work of the Andover Guild during the year amounted to \$215. The directors acknowledged the receipt of \$162.50 as a contribution from the November club for work for the ensuing year among girls. They took steps for the appointment of a matron to preside at the girls' club, and the evening classes at the Guild house and also for the appointment of a janitor to succeed the late Robert Cuthill. The case committee reported that three cases of sickness had been aided, one attendant having been provided for six weeks at the Guild's expense. Four calls for nurses had been received, which could not be filled. Clothing had been furnished to six families. The emergency closet had been of much use to the physicians of the town and others and its crutches and wheel chair had been sent out several times on loan. It was voted that a clothing sale be held later in the season; and plans were made for the cooking class, the kitchen garden, the sewing school, the dolls class, and the girls' club. The Andover club held its annual meeting and election of officers at its room in the Musgrave block with a large attendance of members. The result of the election of officers is appended: President, George H. Poor; vice president, Peter D. Smith; treasurer, Barnett Rogers; clerk, Charles L. Whitte; Directors, I. A. Belknap, chairman, and Mrs. C. A. Booth, J. Newton Cold, M. F. D'Arcy and the president, vice president, treasurer and clerk ex-officio. With the ushering in of October and its accompanying symphony of handsome autumn foliage, came the celebration of several weddings of well-known young ladies of this place, all of whom married out-of-town men. Porter road has so far this fall been the most matrimonial of all the streets in town, with two weddings on the same day and the promise of another the latter part of the month. At seven o'clock on Wednesday evening, Miss Clara Louise, second daughter of Mr. and Mrs. Samuel H. Bailey, was united in marriage to Herbert L. Trull, the ceremony being performed by Rev. E. W. Peirce of Tewksbury. The marriage of Miss Sophronia Adaline Orcutt and George Daman Fairbanks, took place at the home of the groom's parents, Mr. and Mrs. James E. Fairbanks of North Reading. Rev. Frank R. Shipman performed the ceremony. The home of Mr. and Mrs. Henry K. Flint on Porter road was the scene of a very pretty home wedding when their daughter, Charlotte Elizabeth, and Arthur Holt Farnham were united in marriage by Rev. G. A. Andrews. The marriage of Margaret Knowlton, daughter of Mrs. Alfred H. Hall, to the Rev. John H. Grant, pastor of the Center Congregational church of Meriden, Connecticut, took place Tuesday afternoon, October 1, at the home of the bride on Bartlett street. The officiating clergyman was Professor Egbert C. Smyth, D.D. The bride was attended by her sister, Miss Delight W. Hall, as maid of honor. Rather, "The Enemy" shows the reaction of a small group of people in Vienna to a reaction that would have been the same on any group anywhere. Professor Andrus's daughter, Pauli, loves and is loved by Carl Behrend. The latter's father is a business man, with no sympathy for or understanding of his son. Bruce Gordon is an English student taking a post-graduate course under Professor Arndt. Fritz Winkelman is a Vienna journalist married to Mizz, by whom he has had a young son, Kurt. These are the principal characters, whose story is told. The Professor is impoverished by the same economic conditions that enrich the profiteering Behrend; Carl's marriage to Pauli, his death on the eve of his return home to see the son born to him after his departure to the front; Fritz and a servant, Jan, suffering from shellshock and the horrors they have gone through; and the silent but more devastating mental anguish experienced by the two girls, Pauli and Mizz—a simple, tear-compelling story admirably told by an excellent cast. Manager Crosby Gaige, collaborating with Dramatist Channing Pollock, has gotten together a company that for individual performances and team work cannot be beaten. It includes names like Russ Whytal, Charles Dalton, Olive May, Florence Rittenhouse, Leslie Barrie and Donald Hughes. Mail orders will be filled at the Plymouth in the order of their receipt. "The Berkshires" Excursion A wonderful trip, through the picturesque Berkshire Hills, now in the glory of their brilliantly changing autumn foliage, and the never-to-be-forgotten ride through the electrified Hoosac tunnel, is announced by the Boston & Maine railroad for Sunday, October 10th. This excursion, through picturesque countryside and mountainous regions, will present features of delight to the excursionist, and even the most confirmed motorist will be glad to take this wonderful trip along the "Mohawk Trail by Rail" and exchange the strain and worry of motoring over congested roads on the week-end, for the comfort and pleasure to be gained by train. There will be an opportunity at North Adams to go by motor over Hoosac Mountain to Charlemont and return in time to connect with the excursion train. Tickets for this final excursion of the season will be good on regular trains from Andover to Boston on Sunday, October 10, for train leaving the North Station at 9.00 a.m. The round trip fare for this popular excursion has been specially reduced to \$3. Garfield Whist Party A successful whist party was held on Tuesday evening in Fraternal hall under the direction of Garfield lodge, Knights of Pythias. There was a large number of prizes and a special door prize of a fine cake, donated by Jesse West. This was won by Mrs. Ralph Berry. Other prize winners were Ralph Berry, perfume set; Elmer Philbrick, candy jar; Mrs. Z. L. Casey, flashlight; Mrs. Robert Lockhead, sugar; George Carter, stationery; James Douglas, stockings; Mrs. E. Copley, cards; Mrs. James Craik, stationery; Harry Hurwitch, sugar; Edward Downs, glasses; Mrs. Sydney Batchelder, candy; Mrs. E. C. LOCAL ICE COMPANY SOLD

(Continued from page 1)

in idleness years after their usefulness was passed. The 10,000 tons of ice cut annually in Andover was not nearly enough to supply the trade and ice in carload lots was shipped from Milton and Brookline, N. H. A carload may weigh from 20 to 35 tons and before Andover ice was harvested it was necessary to buy two carloads a week and sometimes in August, a carload a day. According to Charles P. Rea, the first man to carry on an ice business in Andover was George Abbot, who lived on Gray road in the Holt district. The brook running through the meadows was dammed, and the ice was cut and stored in a house erected nearby. This original house was removed to Brooks Holt's place on South Main street, when he built the dam and made an ice pond there. About the year 1859, Mr. Rea being then a boy of twelve and able either to drive a horse or manage a pair of oxen, was employed to drive the horse which hauled the ice up the run to fill the ice house, the horse being obliged to go to the top of the house to place the last loads in position in those laborious days. He tells a story of a mishap which befell

Brooks Holt in "Noah Abbot's time." The dam had been placed in repair, the pond filled and the ice was nearly ready for cutting when some enterprising muskrats undermined the dam, letting out all the water, leaving the ice in such a condition that it was not safe for man or beast. Confronted by the prospect of no harvest, ice was cut on Pine Hole pond and the empty ice houses were filled. So far as can be ascertained, ice houses were first built at Pomp's by a man named Weld in 1864.

C. E. Founder Observes 50th Anniversary

Fifty years ago Dr. and Mrs. Francis E. Clark were married at the then newly built Chapel at Phillips academy and this week-end they quietly celebrated their golden wedding anniversary in Andover. They were given informally a reception by the young people of various Andover churches who called to pay homage to the man who is the founder of the Christian Endeavor society. Dr. and Mrs. Clark stayed at Phillips Inn, and Sunday afternoon hundreds of members of the Christian Endeavor society who had learned that they were there called upon them.

4 MAIN STREET - ANDOVER

THE ANDOVER TOWNSMAN

ANDOVER MASSACHUSETTS

PUBLISHED EVERY FRIDAY

AT THE PRESS BUILDING BY THE ANDOVER PRESS

Entered at Andover Postoffice as Second Class Matter

For a New Postoffice Building

In this issue of the Townsman, our readers will find a view of a new building which has been proposed for a post office, revealing in a very striking way the attractive front of the structure. As between the propositions submitted there should be no doubt in the minds of the people in Andover favor. For many reasons the consensus of opinion is practically unanimous in favor of the erection of a new building on Main street.

The place near the Savings bank is one of the few sites left on Main street where it is possible to build, but it is eminently suitable for the purposes intended. It will be situated far enough from the bank so that the present attractive lawn will remain almost intact. The style of the facade will harmonize with that of the bank, and the height will be in keeping with the buildings across the street. The brook, which now is an unpleasant spot, will be completely hidden from view.

An attractive front is not the only advantage of the proposed building. The fact that it is intended exclusively for, and is to be occupied entirely by the members of the postal service is distinctly to its credit. Its four walls will be built to give a maximum amount of light to the interior and the roof will also afford light.

The location of the proposed structure is very desirable. Situated on Main street near the heart of the business district and the center of the town, it is easily accessible to all. It is near

enough to Chestnut street so that ample parking space is near at hand for those coming to the post office by machine. Parking in front of the building could either be prohibited altogether or limited to a very few minutes. The private entrance behind the Savings bank and the space behind the building are sufficient to permit convenient loading and unloading for the delivery trucks.

The interior promises to be well arranged. Equipment will be new and of the most up-to-date sort and arranged for the greatest convenience of the public and postal employees.

When the post office took up its present quarters on Essex street, the number of boxes rented took a decided slump due to the inconvenient location of the building. If the proposed structure is erected, a large section of the public would again avail themselves of the opportunity to call for their own mail rather than wait for delivery by a mail man.

If the Government were to erect quarters in Andover it could hardly improve upon the proposed plans. Since it may be many years before we would hope to get a federal building, the Andover public is strong for a federal lease of this privately-erected structure. This would eliminate the need for a federal post office, prove very satisfactory for Andover, and save the federal government the added cost of owning its own building.

We ought to have a new building for the post office and apparently this building ought to be on Main street, beside the Savings bank.

Overcome by Gas

Mrs. Mary Keith, 33, wife of George Keith, of 175 North Main street, and mother of one child, has an excellent chance of recovery from gas poisoning following her discovery in an unconscious condition on Wednesday morning in the home of her mother-in-law, Mrs. Keith of 177 North Main street.

The woman was found in the kitchen, overcome by the fumes of gas that were pouring from the jets of a gas range. Mrs. Bella Wallace, with whom Mrs. Keith shared her home, missed her during the morning and in searching for her, found her unconscious on the floor in the next tenement.

Firemen from the Andover fire station worked on the woman as she was rushed in the ambulance to the Lawrence General hospital. When admitted there, a house physician attended her. Her name was not placed on the danger list.

League of Women Voters Entertain at the Phelps House

Through the courtesy of Mrs. Horace M. Poynter, president of the League of Women Voters, the Phelps house was opened to the Andover League of Women Voters and their friends on last Friday afternoon, and a substantial sum was realized for the work of the organization.

Guests were greeted at the door by Miss Louisa Eaton and Miss Mary Bell. Those who poured were Mrs. R. N. C. Barnes, Mrs. Frank McLanathan, Mrs. Charles H. Forbes, and Mrs. Warren K. Moorehead. Mrs. Poynter was also assisted by Mrs. Oswald Tower, Mrs. Percy J. Look, Mrs. John Avery, Mrs. Thaxter Eaton, Mrs. Grace Goodville, Mrs. Arthur Bliss, Jr., Mrs. Frank M. Benton and Mrs. Gilbert Francke.

There was music by a trio composed of Mrs. Philip Ripley, piano; Miss Susan Ripley, violin, and Richard Bennett, P. A. '27, cello.

The Phelps house which is the finest architecturally on Andover hill was begun in 1809, and finished in 1811. It was the gift of William Bartlett of Newburyport, to the Andover Theological seminary. He gave Dr. Edward Dorr Griffin, at that time president of the seminary, carte blanche in its building and happily for succeeding generations, he took it at his word, making the mansion far more luxurious than its donor had intended. When the shipowner protested mildly against the gorgeous parlor wall paper at a dollar a roll, Dr. Griffin hastily had the room redecorated with paper of a twenty-five cent grade—also at Mr. Bartlett's expense. By 1811, when the beautiful home was completed, Dr. Griffin had resigned to accept the pulpit of the Park Street Church in Boston and Dr. Ebenezer Porter, his successor in office, was the first actually to occupy the building.

The perfect proportions of the house, the arched windows and doors, so delicate and beautiful, and the interesting carvings both within and without were much admired by the visitors.

Historically the house is noteworthy as the residence of Professor Austin Phelps who was Professor of Sacred Rhetoric at the Andover Theological Seminary from 1848 to 1879, and of his gifted daughter, Elizabeth Stuart Phelps. It was on Andover hill that she conceived the plan of "The Gates Ajar" (1869) which gave her a reputation almost in a day. In the little summer house still standing in the garden, she used to sit at her table writing a long series of novels and stories, many of which are deeply affected by the atmosphere of the circle in which she grew to womanhood as the daughter of the first Professor of Sacred Rhetoric of the Andover Theological seminary.

Entertains at Afternoon Reception

Mrs. Henry W. Barnard entertained at the "Punchard Elms" in honor of Miss Winnifred MacNaughton on Wednesday afternoon. They were assisted in receiving by Miss MacNaughton's mother, Mrs. Ada MacNaughton of Methuen.

The rooms were beautifully decorated with autumn leaves and fall asters and the centerpiece on the tea table was of pink roses. Those who poured were Mrs. Nowell Kinney and Miss Edna Cloutier of Lawrence, Miss Marion Gay of Brookline, and Mrs. Francis Bergstrom of this town. Mrs. Foster Barnard, Mrs. Arthur Cole, and Mrs. Kenneth E. Fiske acted as ushers.

Invitations are now out for the wedding of Miss MacNaughton and Shirley Barnard, younger son of Mr. and Mrs. Henry W. Barnard, which will take place on October 28th.

CROSS WORD PUZZLE

HOW TO SOLVE A CROSS-WORD PUZZLE

When the correct letters are placed in the white spaces this puzzle will spell words both vertically and horizontally. The first letter in each word is indicated by a number, which refers to the definition listed below the puzzle. Thus No. 1 under the column headed "horizontal" defines a word which will fill the white spaces up to the first black square to the right, and a number under "vertical" defines a word which will fill the white squares to the next black one below. No letters go in the black spaces. All words used are dictionary words, except proper names. Abbreviations, slang, initials, technical terms and obsolete forms are indicated in the definitions.

Bad Accident Narrowly Averted

At half past seven Sunday evening, a serious accident was averted on Andover street near the center of this town. As a Dodge touring car and motorcycle with side car which were on the way from Lowell Junction to Lawrence reached Andover street near the entrance of Dale street, the motorcycle driver endeavored to pass the Dodge on the left side and as he did so he noticed a Ford roadster approach at a rapid rate from the opposite direction. Seeing his predicament the driver of the motorcycle cut directly in front of the Dodge and was headed toward a telephone pole. With presence of mind he swerved the car enough to avoid the pole and go over the side track which enters the mill territory. In doing this the occupant of the side car, a man with a German police dog, was thrown to the ground and the machine continued its way riderless to a brick building several yards away.

The occupants of the motorcycle were badly shaken and were taken away by friends in the Dodge car.

A manufacturing company shipping its product long distances from the factory by truck utilizes this means of transportation every hour of the day and night by providing a sleeping compartment above the seat of the driver. One man sleeps and the other drives. The bed is similar to a Pullman berth with windows on three sides to provide ventilation. In this way practically all bills for lodging are eliminated and considerable time is saved on the way.

Solution of Last Week's Puzzle

Punchard 13, Manchester 0

The Punchard High School football team won a victory at the expense of Manchester High at Manchester Saturday. Batchelder, Punchard halfback, excelled, scoring both touchdowns. Cronin and Gazava starred for Manchester.

The losers were completely outplayed by the Andover school boys, threatening to score only once, and on that occasion were held for downs on Punchard's 20-yard line. The lovely-coached eleven allowed two first downs during the four periods. Punchard scored as follows:

In the second period, Gillis, the Manchester captain, punted to Batchelder on his 30-yard line and the latter raced back 20 yards before being downed. The Punchard eleven then started a drive from midfield that carried 50 yards, and "Batch" plunged over the line for the first score. Gallant attempted a drop kick for the extra point, and when one of the officials caught a Manchester linesman offside, the point was awarded Punchard. In a drive for the first score, Edmonds, Whitcomb, Gallant, and Batchelder took turns in smashing the right side of the losers' line, Morrissey and Nichols opening holes in splendid fashion that enabled the backs to plough through for four and five-yard gains.

After the kickoff in the third period, Punchard again started off and the four backs steadily marched down the field for the second score. Lining up for the extra point, Jimmy Gallant crossed up his opponents by calling for a line plunge, and Batchelder never stopped until he had crossed the goal line for the final point.

The Andover boys showed a smashing attack for so early in the season, and Gallant, playing his first game for Punchard, did an excellent job at the signal-calling berth. Walter Batchelder lived up to predictions that he would be a tower of strength for Coach Lowely this fall, for he was untoppable Saturday. Whitcomb and Bill Edmonds gained many yards and when this backfield faces Belmont on Columbus day it should be a smooth working unit.

Summary: PUNCHARD: Murphy, l.e.; Morrissey, l.t.; Nickolas, l.g.; Stickney, c.; Doherty, r.g.; Lawrence, r.t.; Hall, r.e.; Callahan, q.b.; Batchelder, l.h.b.; Whitcomb, r.h.b.; Edmonds, f.b. MANCHESTER: r.e., Cronin; r.t., Bell; r.g., Wiggins; c., Wetherlow; l.g., Burgee; l.t., Babcock; l.e., Andrews; q.b., S. Gillis; r.h.b., Capt. T. Gillis; l.h.b., Scott; f.b., Gazava.

Score: Punchard 13. Touchdowns: Batchelder 2. Points after touchdowns: Edmonds 1. Referee: Edwin Harrison. Umpire: Murphy. Linesman, Conaley.

Captain Danny Doyle and Willie Murphy, two veterans of the Punchard High football team, worked out with the team Tuesday afternoon after being absent for a few days. Neither played in the opening game against Manchester last Saturday afternoon when the Punchard team won, 13 to 0.

The addition of these two players greatly strengthens the team for its next game with Belmont at Shawheen next Tuesday afternoon, on Belmont field. The visiting team has already defeated Wakefield High, winners over Punchard's rival, Methuen. The Belmont team will have seven of last year's team in the lineup that will face Punchard on the holiday. A good game is expected and a large crowd is looked for, as it is the only Punchard game which will be played in Andover until the Methuen game.

The game on Tuesday will commence at 2.45 o'clock.

TOWN OF ANDOVER

Office of the BOARD OF SELECTMEN

You are hereby required on or before Dec. 1, 1926, to declare the gypsy and brown tail moths on your property in this town.

This notification is in accordance with Chapter 132, General Laws, which requires cities and towns to destroy the eggs, caterpillars, pupae and nests of the gypsy and brown tail moths under heavy penalty for failure to comply with the provisions of the law.

If a property owner fails to destroy such eggs, caterpillars, pupae and nests, then the city or town is required to destroy the same and the cost of the work, in whole or in part, according to the value of the land, is assessed upon and becomes a lien on the land. (Section 18, Chapter 132, General Laws, on reverse.)

The Selectmen ask owners and tenants to co-operate with the town in its work on highways and other public grounds by doing effective work on their premises. Citizens who have cleaned their premises of the moths, but find their trees endangered by the neglect of owners of adjoining estates should make complaint to the Selectmen. The infestation of a residential neighborhood by the neglect of a few will not be tolerated.

The eggs of the gypsy moth should be destroyed at once with creosote. They should never be scraped off the object on which they are laid. Careful search should be made for gypsy moth egg clusters, not only on trees, but also on house walls, stone walls, fences and in rubbish heaps, etc. Trees in which cavities occur and which it is not desirable to cut should have the cavities tinned or cemented. This is important. The present and future cost of combating this insect can be greatly reduced by cutting and burning worthless brush, hollow trees, etc. A few trees well cared for are more valuable to the property owner and the community than a large number of neglected trees.

The nests of the brown tail moth should be cut from the trees, carefully collected and burned in a stove or furnace.

Full instructions as to the best methods of work against the moths may be obtained from the Local Superintendent, E. Burke Thornton, or from the State Forester, Room 519, State House, Boston, Mass.

Work done by contractors should be inspected and approved by Local Superintendent before payment for the same is made.

ANDOVER RESIDENTS PRAISE THE FAMOUS REMEDY OF CLAUDE A. BELL

Dr. Hermance's Asthma and Hay Fever Medicine Has Given Great Relief—Old Reliable Compound Manufactured Since 1847

ATTRACTIVE VEHICLE USED FOR LOCAL WHOLESALE DELIVERY OF DR. HERMANC'S ASTHMA AND HAY FEVER MEDICINE

"I have as very close friends a number of Andover residents that have obtained relief from Dr. M. Hermance's Remedy both for Hay Fever and Asthma and it can be purchased at any of the local druggists."
"Since 1847 Dr. Hermance's formula for the relieving of suffering from hay fever and asthma has been helping humanity and it will continue to do so for the next eighty years. I think that is proof of its value as each year the numbers of its users grow until now in all parts of the civilized world there are those who praise its benefits." Thus speaks Claude A. Bell of Tyngsboro, manufacturer of Dr. Hermance's famous asthma and hay fever remedy.

Mr. Bell's files are bulging with testimonials from persons in all walks of life who sing its praises and in many cases physicians use it almost entirely in their practice. Dr. Hermance was a physician with a large practice in Brooklyn, New York, and saw the need of a remedy for these two maladies that have caused humanity much suffering as early as 1847. In his drugstore in Brooklyn he perfected the formula, and at the time of his death in 1867, A. W. Bell, also a proprietor of a druggist's shop in Brooklyn, continued its manufacture. It was then that the product, through nothing but mouth-to-mouth advertising, gained hundreds of boosters throughout the United States and Canada. Many actual cures were traced through the use of this medicine. When A. W. Bell died, his widow continued the manufacture of the product and soon the business passed into the competent hands of Claude A. Bell, its present head.

Claude Bell has placed the manufacture of the remedy on such a plane now that it is possible for you to purchase it at your neighborhood drug store anywhere in the civilized world.
Fine Plant
An inspection of the plant and laboratories shows clearly why this remedy enjoys such a sale. Nothing has been left undone to make the remedy one of the finest of its kind. The very latest of equipment, every possible known device for sanitation and cleanliness, coupled with labor saving and efficient machinery.

In a sense the remedy is one of the old-fashioned "kitchen remedies" as it is composed almost entirely of roots and herbs, carefully blended, compounded and thoroughly dextrinized and tested. It is absolutely free from opium, morphine, cocaine, stramonium or other habit-forming drug and, unlike other remedies, it helps the heart, according to its manufacturer.
One of Mr. Bell's most enthusiastic workers around the laboratory is his wife, Mrs. Bell, who says: "One reason I am so interested in the work is because of the results the remedy obtains. Honestly, it would do your heart good to read some of the letters which we receive from those who have been helped by it, thanking us. Sufferers that for years had no relief, but now are entirely cured from asthma and hay fever. I get particular delight in healing the children."
Not only does Dr. M. Hermance's medicine help in asthma and hay fever, but it also gives great relief in the case of head colds, chest colds, bronchial troubles and catarrhal troubles.

CLAUDE A. BELL

What Is Hay Fever?

"Hay fever is a reflex disease of the nervous system of the same class as ordinary spasmodic asthma, and embraces various forms of periodic influenza known as hay fever, summer catarrh, summer fever, rose cold, rag-weed fever, etc. Hay fever chiefly affects the upper air-passages, causing difficult breathing and discharge of mucus, and occurs periodically, usually at a fixed date in spring, summer or autumn," says Dr. Bell.
"The best medical authorities are agreed that in every case of hay fever two things are present: first, an exciting agent or irritant, and second, a nervous system predisposed by debility to the influence of this irritant. While some cases of hay fever may be caused by light, heat, dust, etc., the chief irritant is the pollen of grasses and flowers, which floating in the air, is inhaled in breathing. But no difference what the exciting cause of hay fever, it is a well established fact that the disease is of spasmodic nervous origin and of the same class as ordinary asthma."

Some Exceptional Cases

"While all cases of asthma and hay-fever are alike in that the underlying cause of the disease is to be found in the nervous system there is sometimes a great difference in regard to the nature of the symptoms and severity of the malady," continues Mr. Bell.
"In addition to this, asthma and hay fever usually produce very evil effects on the heart, kidneys and organs of respiration, so that there are in most cases complications to be met and overcome before a complete recovery can be effected. It is not reasonable to expect immediate results when the disease has been attacking the sufferer perhaps for years, impoverishing the blood, injuring the structure of the affected organs, and undermining the nervous system, and there is really no good reason why the patient should become discouraged if, under these circumstances immediate relief is not speedily effected," he further says.

The Procter Memorial Spring Cross Cemetery, Cincinnati, Ohio, is a modern obelisk of rare beauty. It tapers at a more acute angle than other shafts of this character, but its simple, well modeled base makes such an arrangement an artistic one. Its base has a beveled treatment that is modern and pleasing.

If you are considering having a shaft erected or a simple stone placed to mark the grave of a loved one, you will find it a common-sense arrangement to do business with us. We place no extra tariff on sorrow, but charge just what our work and materials are worth.

Violin Lessons

Now is the time to start the young people with their music again. Prof. Joseph Emile Daudelin has resumed his classes in Andover after spending a summer vacation in Paris. He can accommodate a few more pupils and may be seen every Thursday at Wm. H. Gibson's, 33 Chestnut street. On other days at Steiner Hall, Boston. Prof. Daudelin is a former pupil of the famous Paris Conservatoire and an instructor of exceptional merit.

Food Elements Studied

More and more attention is being given to the quality rather than the quantity of food eaten, says the Massachusetts Department of Public Health. The best conditions of health are obtained by a well-balanced diet, which must include five kinds of foodstuffs:

1. Tissue-building, or protein, obtained from milk, eggs, fish and meat.
2. Bone-building, or mineral, obtained from eggs, milk, green vegetables, and coarse cereals.
3. Heat-giving, or sugars, starches and fats.
4. Regulating—water.
5. Protective, or vitamins, obtained from butter, cream, milk, leafy vegetables and raw fruits and vegetables.

A common fault is to depend almost entirely on meat and potatoes, white bread and coffee, neglecting the leafy vegetables, coarse breads, and milk. The diet which contains these last-mentioned foods will make for better general health, stronger teeth and bones, and greater vitality and resistance to disease.

There are only 180 whites on the Samoa Islands. The entire population is 8,058. The purchase of land by whites is forbidden.

Songs of the Cossacks

No other portion of the population of Russia has appealed quite as much to the fancy of the rest of the world as the Cossacks. Unfortunately, this appeal has in the past years been intermingled with a feeling of awe, when the old Czarist government has used these Cossacks as unwilling tools for the suppression of all sorts of insurrections, revolutions and riots. As a matter of fact, the Cossacks are perhaps one of the most enlightened and most democratic parts of all the Russians. They are also the most law-abiding, which made them submit to the will of the Czar, as a part of their strongly developed code of ethics. When the Czar was overthrown, the Cossacks threw their physical and spiritual treasures to the command of the new government. This obedience to existing power springs from the old tribal instincts of the Cossacks. In the early centuries of the Christian era, before Russia had been consolidated into one great Empire, there were several tribes of Cossacks in various parts of Russia. The Cossacks have a very rich folk-lore and a number of their folk-songs were appropriated by the Russian nation as a whole when the Cossacks became a part of the consolidated empire.

These folk-songs are characterized by a unique spirit of abandon, freedom and gaiety with the usual Russian undercurrent of sadness. A number of these songs will appear on the program of the Russian Symphonic Choir, which will appear here at George Washington Hall on October 23.

Jays Lead League

The Andover Square and Compass club bowlers started off in earnest last Tuesday night on their second league season on the polished lanes and some exceptional scores were turned in. The teams were picked on the averages turned in during the practice matches, but apparently some of the bowlers were lying down in these preliminary games or else they were bowling away over their heads Tuesday night.

The Jays, who turned out to be anything but, hit a team total of 1617, winning the pinfall by 85 pins from the Tyreans as well as all four points and took the league lead. Foster Robertson had the best totals of the night with 117 for high single and 325 for his three strings. "Capt." John Ralph also rolled well and hit them for 112 and 302. Ralph Hadley was high for the losers, rolling 278, and J. P. Christie had the high single of 98.

The Cains, although rolling the next to the lowest team total of the night, managed to win three points from the Tubals, tying for second place with the Hiramans who took three from the Biffs. In the Tubals-Cains match Thompson and Higginson tied for high single with 94 and the latter had the best triple of 264. Wadman of the Hiramans did the best rolling in the Hiram-Biffs match, hitting 104 and 278. Hardy of the losers had 101 and 277.

The matches next week will be rolled on Wednesday night so as not to interfere with the holiday. The schedule for the remainder of the first round is as follows:

Wednesday, Oct. 13—Hiramans vs. Tyreans; Biffs vs. Cains; Jays vs. Tubals.

Tuesday, Oct. 19—Hiramans vs. Jays; Biffs vs. Tubals; Cains vs. Tyreans.

"Aberfoyle" Is Sold

"Aberfoyle," former home of George M. Wallace, and one of the most attractive estates in Shawshoan, has been purchased by A. B. Sutherland of the A. B. Sutherland company, prominent Lawrence business man.

The property, which is situated on one of the imposing corners in the center of the village, will be the gift of Mr. Sutherland, to his daughter, Miss Isabel Sutherland, whose engagement to William Kurth, son of Dr. and Mrs. G. E. Kurth of East Haverhill street, Lawrence, was announced a few months ago.

"Variety," German Film, A World-wide Success

"Variety's the spice of life." And incidentally, it's supposed to be a great picture. "Variety," Germany's latest contribution to the world's cinema mart, has been received with enthusiasm in all cities. Metropolitan critics, in whatever country "Variety" has been shown, have greeted it with superlatives.

They've raved about the acting of Emil Jannings and Lya de Putti, the featured players, of the story, and direction by E. A. Dupont, and of the marvelous photography of Carl Freund. Paramount heard the praise and decided, on seeing the picture, that "Variety" was just as good as the best which had ever left an American studio. Therefore, "Variety" comes to the Colonial on Monday for a run of two days.

ANDOVER GOLFERS WIN

Defeat Merrimack Valley Country Club in Easy Fashion. John Keenan, Local Pro, Plays Brilliantly

John Keenan, professional at the Andover Country Club, featured the visit of the Merrimack Valley golfers to the Andover course Wednesday afternoon. He and James H. Eaton, the club champion, defeated David D. Hackney, professional, and Dr. C. P. Gabeler, champion, representing the V. C. C. by the margin of 2 and 1 in 36 holes.

In the inter-club tournament Andover won 21 to 8, turning the tables on their friendly rivals who won when the same club met a few weeks ago at the Merrimack Valley course.

Keenan was in rare form and registered a 146 for the 36 holes, which is two strokes over par. His 71 in the morning round was just three strokes over the course record made by Walter Hagen recently. Par for the course is 72.

The other members of the club played fine golf and made up for the defeat at the M. V. C. C. a few weeks ago.

Andover Bowlers Defeated

The Andover bowling offered little opposition to the Shawshoan bowlers on the Balmoral green last Sunday afternoon, the village team piling up 25 points to their opponents' 9 in 21 ends. Andover started strong and scored three in the first two ends. From there on their points were few and far between and from the eleventh end to the finish they only tallied once.
