NEW AUDITORIUM AND GYMNASIUM SHOULD BE KEPT IN USE AS MUCH AS POSSIBLE

Even before the new auditorium and gymnasium were actually completed there were many requests made for the use of the new facilities, and since school bas opened there have been many more applications from groups in the town. At present the advisory sub-committee of the school board is considering the applications with a view of establishing a definite policy as to preference, charges, supervision, etc.

It seems however that at present the building cannot be used until some more of the P.W.A. red tape which has delayed the project and raised its cost is disposed of T. The building is being used by the school authorities, but legally it has been loaned only for school purposes, it being the property of the contract until it is actually accepted by the town, and acceptance will of course depend on just when the P.W.A. feels it can make a final check-up.

When a business firm purchases a piece of property or adds a new piece of equipment, it must make that investment yield a return, and it cannot do that by letting the new property stand idle. The sooner hat building is put to use, the sooner hat building is being used to the project so not one of the very few P.W.A. jobs which have been well-done, and idle. Hidden Taxes

"If the major portion of the government's income is obtained from indirect and hidden taxes—taxes upon such things as food, clothing, gasoline and cigarettes—then the main burden falls upon those of small income and the cost of government is hidden. In this case, it is the wage earner, the salaried worker, the farmer, and the small business man, who have to pay most of the bill."—Alf M. Landon at Buffalo, N. Y., August 26, 1936.

advised. The committee also wishes to advise the public that only course tickets will be sold now at these special course prices.

The appearance of Mr. Kreisler on any program in almost any part of the world is an event of major importance, for it is not without reason that Fritz Kreisler is known as the world's most beloved violinist. Andover feels that it is indeed fortunate in being able to present him as the first artist on its celebrity Series this season and feels the musical audiences of Andover, Lowell, Lawrence and surrounding communities will appreciate the opportunity that will be theirs to hear sominent an artist near to home. Mr. Kreisler has but recently returned from Europe and Andover will be one of the first appearances on his American tour. A recent interview with the great artist is most interesting since it gives his views on artistic creation. Mr. Kreisler who feels that the world is too turbulent today for the production of great art said? "Humanity can advance on but one front at a time.
