### Nearly All Have Filed Their Papers

All nomination papers must be filed by five today, and indications are now that J. Everett Collins will be the first selectman to be unopposed for re-election in years. The really serious fights will come in the Board of Public Works, tax collector, school committee and tree warden races, although in the past week several of the candidates for the first three positions have dropped out of the race.

At five last night fourteen candidates had not filed, but it was definitely known

that of these Francis Kelly would not file for tax collector, William McCoubrie for Board of Public Works, Winthrop R. Newman and Dr. Harry C. East for school board. J. Lewis Smith and Carl Lindsay both planned to file on Friday, while Roy A. Russell could not be reached for a statement. Sidney P. White, Arthur E. Steinert and James J. Sullivan all stated they would file on Friday for Board of Public Works. Ralph T. Berry said he would file for tree warden, and Julie S. Musk and James W. O'Donnell were definitely going to file today. Franklin B. Collins who had taken out papers for board of health could not be reached. All the others who took out papers for office had filed.

### ARRESTED AFTER CRASH

Crashing into a sedan of Everett M. Lundgren's parked on Salem street Wednesday evening brought Seymour A. Collings of Lawrence into district court yesterday morning on charges of operating under the influence, to endanger and drunkenness. Officer Deyermund made the arrest. The case was continued until Monday. Collings was injured slightly.

### WOMAN'S ALIANCE TO MEET

On Thursday at 2.30 the Free church Woman's Alliance will meet, with the devotional service in charge of Mrs. David May. Rev. Donald Savage of the West church will speak. Members are invited to bring a guest.

### Historical Society Open House Tuesday

The Andover Historical society, keeping open house for its members and their friends during the afternoon and evening of Washington's Birthday, will display three special exhibits, partly from its own collection, partly borrowed. Two of these have been arranged by local experts who will be on hand to discuss the objects and answer questions in the general fields. The third will be amply labelled.

Miss Fannie Davis will have charge of the glass. To the society's pieces, she will add some of the choicest of her own.

Horace Killam, already widely known to Andover music lovers as organist, teacher, and especially as Director of the Boxford Oratorio society, is also an authority on the history of musical instruments. He will discuss and demonstrate the society's examples, of which there are some dozen. One of these, at least, dates back into the eighteenth century, while others were played in the South Parish church in days before church organs were taken for granted. The society now owns the concertina which David Shaw's mother imported from

#### APPEAL FOR CLOTHING

The Andover Chapter of the Red Cross asks you to help in providing clothing for the needy of the town. Warm winter clothing, coats, shoes, underwear, etc., is very much needed both for adults and youngsters. Won't you help by leaving your old clothing at the town house with welfare agent Arthur W. Cole?

### Truck Rerouting Hearing March 1

A hearing on the truck rerouting bill sponsored by the Andover Safety committee will be held at the state house on Tuesday, March 1, at 10.30. The bill would enable the state department of public works to reroute trucks around towns, and is of special interest to Andover in that the department could then stop through truck traffic on Main street. All interested are urged by the committee to appear at the hearing.

### BAKERY SALE TOMORROW

The church periodical club of Christ church will hold a bakery sale in the vacant store in the Musgrove building from 1 to 5 Saturday. Home-cooked food, lemon pies, doughnuts, fancy breads, cakes, etc., will be on sale. Mrs. Ralph T. Berry, Mrs. Robert Clements and Mrs. Charles Warden are on the committee.

The town faces a tax rate of \$32.65 according to the finance committee's report, if all the expenditures recommended by the committee are approved at town meeting. This represents an increase of \$5.85 per thousand over last year's rate. It allows for \$618,907.66 in departmental expenditures, and \$52,795.75 in special items, for a total recommended expenditure of \$671,703.41. It also includes free cash of \$30,000, which is probably as much as the town can use from this account.

The finance committee completed its work on Sunday evening, and recommended that the warrant close one or two weeks earlier next year in order to allow time for more deliberation.

Special articles approved include: moth sprayer, \$695; brush fire truck, \$3500; B.P.W. truck, \$620; B.P.W. car, \$810; B.P.W. dump truck, \$1030; pumping station boiler, \$8000; hard-surfacing, \$5000; Elm street, \$4500 and sidewalks, \$1700; W.P.A. work, \$10,000; High street sidewalk, \$2400; purchase of Cheever water mains, \$4088; of Cairns water mains, \$817.87; of Hamel water mains, \$1134.88; reappropriate \$1000 West Center playground; diverting drain in Shawsheen village, \$7500; provided W.P.A. labor is used and town not responsible for easements, etc., (Andover-Shawsheen Realty to pay \$2500 for materials).

### Disapproved

Articles which were not approved were: Chandler road water main, \$11,275; Blanchard street, \$7800; Brundrett avenue, \$4400; Stratford road hard surface and sidewalk, \$3150 (recommend it be done out of regular B.P.W. budget); skating area, \$500 (no one appeared); Boutwell and Haggetts pond road water main, \$18,700; bacteriological equipment, \$760; Canterbury street main, \$2200; Woodland road main, \$1120; The latter disapproval, it was stated, was made with the approval of the petitioner who said it could wait.

Only slight changes were made in the departmental budget figures previously published in connection with taxpayers' association meetings. The sum of \$200 was added to the municipal buildings account for the selectmen to fix up an office for the board of health in the town hall, and the health item has been reduced about \$300 on rent and heat. A few changes were made in the board of public works account and \$2500 was cut from the school department.

### Warrant Has 48 Articles

The warrant is a long one, with 48 articles. Other articles not financial and so not mentioned above include: removing old steam pump and use salvage for re-

### A Man Is Known by the Company He Keeps

Selectman J. Everett Collins will be very much relieved at five this afternoon if no one files some surprise papers for selectman, because it will mean that Ev will be able to say "Hello" to some of his friends who are running for tax collector. A few weeks back Ev got a call one night from a friend who said: "Ev, is it true you're supporting so-and-so for tax collector?" Answered the selectman: "I haven't said whom I'm supporting." "Well," replied the friend, "somebody told me you were supporting so-and-so because they saw you talking with him Tuesday night at Balmoral Spa!"

Now with sixteen candidates in the field at that time, it would have been pretty hard for anyone, most of all Ev, to refrain from speaking to one of them at some time or other. But if he has no opposition of his own for re-election, he can go along the street and say "Hello" to George, Jim, two Daves, Phil, two Johns, Percy, two Franks, Bill, Lew, Carl, two Rolands and Roy. Guess we got 'em all.

### MEN PLAN ANNUAL SUPPER

The men of the West Parish church will hold a supper and entertainment on Thursday evening at six in the vestry. There will be a moving picture, "Wheels Across Africa," musical selections by Miss Doris Newton and Mrs. Donald Savage, and accordion selections by twelve-year-old Albert Johnson.

The committee: Norman Humphries, chairman; Arthur Lewis, Lawrence Wood, Winthrop Boutwell, William Corliss and William Trow.

## Plan to Enlarge Abbot Academy Plant

Mrs. Charles H. Sawyer

Announcement of a building campaign for \$150,000 to enlarge the plant of Abbot academy, Andover, Mass., first incorporated school for girls in New England, was made Tuesday night at a dinner at the Somerset Hotel, attended by nearly three hundred alumnae and friends of this pioneer institution. Channing H. Cox, former governor of Massachusetts, presided and the Rev. Sidney Lovett, D.D., chaplain of Yale University, acted as toastmaster. The speakers included Miss Marion Edwards Park, president of Bryn Mawr college, Miss Marguerite Hearsey, principal of Abbot academy, and Dr. Claude M. Fuess, headmaster of Phillips academy.

Three memorials, appropriate to the character and attainments of the educators to be commemorated, will be included in this building program, Miss Hearsey stated. These are, the Means Memorial

Mrs. William W. Kurth

Library, in honor of Emily Adams Means, principal of the academy from 1898 to 1911; the Bailey Memorial Social Hall, to commemorate Bertha Bailey, principal from 1912 to 1935; and the Chickering Reading Room, in memory of Rebekah Monroe Chickering, whose death last year ended thirty-nine years of teaching of English literature at Abbot.

In addition to the library and social hall—new buildings to be added as wings to Draper Hall,—the lower floors of this building, constructed almost half a century ago, will be remodelled to create larger dining and kitchen facilities, additional classrooms, and up-to-date administrative offices, changes which are necessary to maintain the educational standards of the school, it was pointed out by Miss Hearsey.

"This building plan is one which looks well into Abbot's second century, yet is one which is immediately needed," Miss Hearsey declared. "Abbot's vitality and its ability to meet the needs of each generation of students has been amply demonstrated in more than a century of growth and progress. The present needs for greater library space, and more adequate equipment cannot be neglected if Abbot is to maintain its standards."

Ex-Governor Cox pointed out that in Abbot's long history, this is the first time that an appeal for funds has been made outside of the alumnae group.

"Such schools as Abbot train young women to build successful homes and to act as leaders in community enterprises... they are more than ever needed in this age of complex demands and changing standards," Ex-Governor Cox declared. "Throughout its long history this academy has attracted girls from every state in the Union, as well as from many foreign countries. It has maintained a strong hold upon the affections and loyal-

ties of New England people because of its conservative development and steady progress, which has held it consistently in the front ranks of secondary schools for girls. The plans described for its second century are carefully conceived and conservative. They deserve widespread and generous support."

The former governor heads the executive committee for the Abbot Second Century Fund. Assisting him is Mrs. Charles H. Sawyer, vice-chairman, Burton S. Flagg, treasurer, and George F. Sawyer, secretary. Other members of this committee are George E. Abbot, Miss Jane B. Carpenter, E. Barton Chapin, Mrs. Reeve Chipman, Victor M. Cutter, Claude M. Fuess, Mrs. William Haine, Miss Marguerite Hearsey, Mrs. William W. Kurth and Alfred L. Ripley.

The following present and former residents of Andover were present at the Abbot Alumnae banquet held at the Hotel Somerset in Boston Tuesday evening: Mr. and Mrs. Claude M. Fuess, Mr. and Mrs. Burton S. Flagg, Mr. and Mrs. Reeve Chipman, Mr. and Mrs. Frank L. Brigham, E. Barton Chapin, Mrs. Annie S. ### Urges Women Jury Service

Informing the Andover League of Women Voters that women are eligible for jury service in 23 states at present, Atty. Elizabeth M. Curry of Boston urged in an address at the November clubhouse Tuesday afternoon that the members support Senate Bill 22, filed by her to provide for jury service for women in this state. Not one of these 23 states has returned to the old jury system, she said.

Miss Curry, state legislative chairman of the Massachusetts Federation of Business and Professional Women's clubs, traced briefly the history of jury service for women, revealing that as far back as 2200 B.C. women served in Babylonia. It is a right, she said, that is possessed by every person who has the qualifications of American citizenship, good moral character and sound judgment. Women are qualified by education and experience today to weigh facts and come to conclusions and otherwise fulfill the functions of jurors, the Boston attorney added. "A jury should represent a cross-section of public opinion—since the public is made up of both men and women, both sexes should be represented on the jury." Miss Curry also stressed the need of reform in criminal law administration and the part women jurors could play in that reform.

In charge of the meeting was Mrs. William Crowley, chairman of the legal status committee of the local league. A luncheon in Miss Curry's honor was held at the Andover Manse prior to the meeting.

The third meeting of the study group on America's Stake in the Far East will be held at three today with Mrs. John S. Barss in Hidden Field. At this meeting the group will discuss the trade agreement and commercial aspects of China, Japan and other parts of the Far East. So far the groups have held two interesting meetings, studying the history, commercial and industrial development of the Far Eastern nations. Since this is a non-partisan group conducted by the League to offer information and stimulation, all interested members and friends are welcome to attend.

On the Voters' Hour Tuesday afternoon, February 22, at 3.30 over WEEI the Consumer and Milk will be discussed by Mrs. Roger Corbett.

## THE ANDOVER TOWNSMAN

Published on Friday at the Press Building, Andover, Mass., by the Andover Press.

ELMER J. GROVER, *Managing Editor*  
Entered at Andover Postoffice as Second Class Matter

### Were You Frozen?

How many of you used the expression: "I'm half-frozen" during our chilly days this week? What were you wearing when you said that? You probably had on a nice heavy coat, fur-lined gloves, well-soled shoes; in fact, as far as clothing manufacturers can help you, you should have been pretty warm.

But there were others in Andover who could have said: "I'm half-frozen" with much more truth than you. Some of them don't have a winter coat; if they have gloves, there are holes in the fingers; and their shoes may be porous, top and bottom. The Red Cross is again issuing an appeal to you to help out the unfortunate residents who need clothing for themselves and for their kiddies. Why not look around in your closets and take the clothes that you don't need down to the town house? There are people who do need them badly.

### How Much Should We Spend?

When you read the finance committee's recommendations on the front page of today's Townsman, you probably said a capital-letter "OUCH!" at the sight of the \$32.65 estimated tax rate. There will be some who will say: "Why, \$32.65 isn't so much compared with Lawrence and Methuen and North Andover." Others will say: "It's entirely too high; we've got to keep it down to last year's rate of \$26.80."

In between those extremes lies the realm of common sense. In the first place, it's true: \$32.65 is low compared with the surrounding communities, but what of it? If Lawrence spends \$40 per thousand, there's no reason why we should spend that much. And similarly, just because last year we spent only \$26.80 per thousand and is no reason for assuming that that is all we should spend this year. Andover's tax rate should reflect what Andover has to spend, not one cent more and not one cent less. And Andover's tax rate should not reflect what Lawrence thinks it has to spend, nor should the town's 1938 rate reflect what the town had to spend in 1937. In other words the voters of this town must study Andover's 1938 problems without consideration for anything else except this one thing: "Exactly how much do we HAVE to spend this year?"

It means we'll have to eliminate the things on which it would be nice to spend money, for the first consideration this year must be the taking care of those who were thrown out of work by the Roosevelt recession. Yet the current depressed state of business has also cut down on the income of the taxpayers, and they have less with which to meet their tax bills this year. Therefore in order to solve the dilemma of decreased ability of taxpayers to pay and increased need of taxation income, it is apparent that all unnecessary even if desirable items must be stricken out.

If the Federal Government had done this, had taken care of the unemployed by eliminating the many extravagances which have grown up in the Federal administration, instead of just piling needed expenditures on top of unnecessary ones, very probably Andover would not have the heavy welfare problem we have today. Let us not fall into the same error into which they plunged headlong, for it only means more grief in years to come.

Nothing great was ever achieved without enthusiasm.—Emerson

## THE NEW SCRUB WOMAN

### Siftings

March 8 is a Tuesday, but it's the day in Andover when all the political strategists who figured it wrong become Monday morning quarterbacks.

All the merchants are holding mark-down sales because of bad conditions. For the same reason maybe we can have a mark-down on that \$32.65 price of the finance committee.

Most economical of the town departments last year was the finance committee. The town appropriated \$20 for them, and they didn't spend a cent of it.

If nothing happens before five today, the Townsman will probably concede Everett Collins' election.

### To Present Motion Pictures on "Phones"

Edwin L. Bramley, manager of the Lawrence district for the New England Telephone and Telegraph company, will present motion pictures entitled: "Voices in the City," "Network Broadcasting," "Communications: News and Views," "Voices in Paper," "Far-Speaking" and "Getting Together," at the meeting of the Service club next Thursday evening in Square and Compass hall. Mr. Bramley, a resident of Shawsheen village, has presented the films in several other places recently and they have always been well-accepted.

### ADVENTURERS PLAN SPRING PRODUCTION

Plans for the next production of the Adventurers, tentatively set for Tuesday evening, April 26, were discussed at the meeting Monday evening. Parts of "Duley" were read by members, this taking the place of a previously scheduled play.

### Engagements Announced

Mr. and Mrs. G. S. B. Trott of Central street have announced the engagement of their daughter, Miss Dorothy Clark Trott, to Walter Herne Partridge, son of Mr. and Mrs. Parmenas W. Partridge of Walnut avenue.

### Reports on Town Office Building

The committee on centralization of town offices which was appointed after the last town meeting is recommending that the town instruct the moderator to appoint a committee to study the location of a new municipal building, to report back in 1940.

The committee does not feel that it should recommend an addition to the present town hall, costing \$30,000, or remodelling of the second floor of the town hall, costing \$20,000. These solutions in the committee's minds offer but a temporary solution, and instead it suggests a new municipal building to be erected possibly for the 300th birthday in 1946 when the annual debt payments will be much less than they are now.

The committee found that the town is paying for office and headquarters rent \$1920 per year and for storage and garage \$740. Some town records are not under a municipal roof. The space required is about 3000 square feet plus a hall of 1200 square feet.

### NOVEMBER CLUB TO HOLD OPEN HOUSE

On Monday afternoon from 4.00 to 5.30 o'clock, the November club will hold its annual Open House. Members and their guests (the usual guest charge being omitted) will be cordially welcomed at the clubhouse to enjoy a social hour and tea in the very charming setting which an efficient committee of hostesses is arranging.

### Rescues Child at Silver Lake

James Williams of Bartlet street, filling station proprietor, rescued a youngster from drowning in the icy waters of Silver lake, Wilmington, yesterday afternoon. Mr. Williams was playing hockey when he heard a cry for help, and he noticed a pair of arms flung in the air down the lake. He skated down, lay flat on the ice and extended his hockey stick to the youngster, about eleven years old. A group of other players formed a human chain behind Mr. Williams and helped in pulling the boy to safety.

### JUNIOR KING'S DAUGHTERS TO SPONSOR CARD PARTY

On February 28 there will be a card party in the Crystal ballroom under the sponsorship of the Junior King's Daughters. It will begin at 1.30 when dessert and coffee will be served and continue until 4.30. Bridge and whist will both be played. Eleanor Bishop, a senior; Ruth Holt, a junior; and Norman Drouin, a junior, are the three students whose work in pastels was judged of sufficient merit to be included in the exhibit. The show is

being held to encourage the creative urge in public and private school systems.

### COSTUME TEA PLANNED

It was on March 3, 1932, that Salvatore was alleged to have stabbed a fellow workman, Richard Lavery, at the Shawshen mills, and last Friday night he was taken into custody after having jumped his bail and fled to Italy. He had been held for the grand jury.

Chief Dane, then a captain, had a tip that Altomonte was fleeing to his homeland back in 1932, and he sent Officers Gillespie and Stevens to Boston to watch a boat leaving for Italy. When the boat was ready to leave, the two officers were rushing from deck to deck, but Altomonte had gone on to New York instead.

Last Friday night the police had a call from the Boston police, saying that they could get Altomonte if the Andover police still wanted him. Assured that the local department was very much interested in the alleged stabber, the Boston police picked him up and held him for the arrival of local officers.

# Springfield Gym Team Here Next Week

The Springfield College Gymnastic Team coming to the Memorial Gymnasium on Friday evening, February 25, provides an evening's entertainment that appeals to both young and old. From the time when the team members are introduced by their coach, Professor L. J. Judd, to their rendering of the college yell at the close, these athletes have the audience marvelling at their versatility and daring. The program has thrills and novelties in plenty and skilled feats that denote hours of practice and any amount of fun and comedy. The tap dancing specialty is of an unusual type and is interesting to watch. The electric club number by a member of the team is thrill-

ing and reaches a high climax of flashing color seemingly in one continuous circle. The audience gasps as the gymnasts swoop and dive around the horizontal bar. The swinging and handstands of these men on the parallel bars are sure to attract attention, as is the exercise of several of the Springfield men on the side horse. The usual comedy act performed by some members of the team amply repays the audience for their visit. Another interesting feature of the program is the skating rhythms. That these amateur performers possess real talent is shown by the fact that a number of them have won honors in the New England Amateur Athletic Union, Junior and Senior Gymnastic Championships.

## Abbot Academy Notes

The Gargoyles and the Griffins, rival athletic teams, clashed last Wednesday afternoon in their annual ice carnival held on Abbot pond. While the Griffins had the greatest number present and the largest representation in the grand march, the carnival was won by the Gargoyles with a score of 35-29.

merchant in Asia who has participated in the distribution of oil for the lamps of China—a colorful discourse on some of the punishment a western personality takes when thrown against a Chinese background. This lecture will be at 7.30 o'clock in Abbot hall. Friends of the school are cordially invited to attend.

## Art Education

### Subject of Talk

D. A. Hiscoe, professor of art education at the Lowell state teachers' college, gave a very interesting talk on Contemporary Art in American Life at the meeting of the Andover P.T.A. Wednesday night. Prof. Hiscoe emphasized his opinion that schools place too much stress on fine arts and not enough on such more practical arts as proper dress, hanging pictures, lawn-trimming, etc.

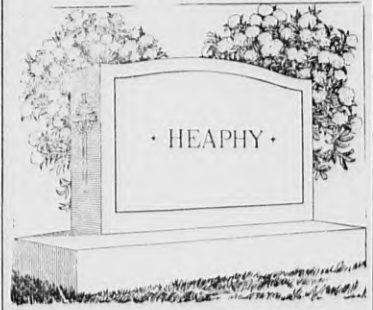

In the course of his talk Professor Hiscoe lauded the beauty of Shawsheen village and Andover in general.

Plans are being made by the association to hold a bridge party for raising funds.

### SAYS "DIZZY" DEAN IN GOOD CONDITION

"Dizzy" Dean, enigmatic pitcher of the St. Louis Cardinals, is looking forward to a good year, according to Attorney Alan T. Polgreen who with Dr. Thomas Kyle is stopping at the Park avenue hotel, Miami beach, where Dizzy is also stopping. He has not yet signed his contract, but he expects "that will work itself out OK." His arm is in good shape. The local lawyer says of Dean: "He is a very regular fellow, well met, and mild-mannered."

## CHARGED WITH STEALING POLICE INSPECTOR'S CAR

Speeding on the by-pass Sunday has landed Edward A. Arsenault in the toils on a charge of stealing a police inspector's car in Portland last November. He has already paid fines of \$40 for speeding and operating without a license, and he is being held in \$2000 for the grand jury on the larceny charge. The Portland police are also wondering if he is the man they want for passing worthless checks. State

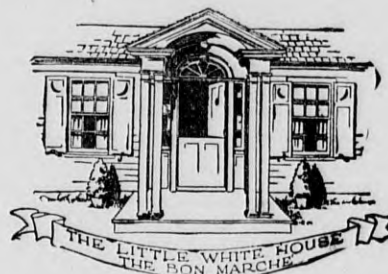

Trooper Arthur McCabe apprehended the man when he noticed the car speeding by without any front license plate.

## TALKS ON BURNS

"The Life and Works of Robert Burns" was the subject of talk given by James Gillespie at the meeting of St. Matthew's lodge Monday evening. About 100 were present. During the talk Mr. Gillespie rendered several of Burns' selections. Refreshments were served in the social hour.

## Historical Society Open House Tuesday

"Liverpool Ware," old pottery being one of Mrs. Little's fields. Mrs. Little will be a guest of the Andover society on the twenty-second, to point out to its members merits of their own treasures, much as she did at the Tercentenary for those of Harvard college.

President and Mrs. Trow, the directors with their wives and husbands, and several other members of the society will be hosts and hostesses. Tea, with sandwiches and cakes will be served, both afternoon and evening, with punch—quite of the old-fashioned sort. Since no individual announcements are to be sent out, it is especially urged that all members of the society, in addition to inviting such of their friends as may be interested to accompany them, will take pains to inform or remind other members of the affair and its date. All members of the North Andover Historical society and Boxford society are also included in the general invitation.

The long-standing custom of a Washington's Birthday Ball for the Historical society had for its chief object to bring members and friends together, all at the same time, to become acquainted with one another. The hope is that, under changed conditions, this open house at 97 Main street will function to the same end. In addition, now that the society has a house and a collection, the hope is that members will get to know their home as it usually appears,—when not upset for formal meetings,—and will examine its treasures at leisure under expert guiding. The three special exhibits are offered as suggesting a way in which one may make a hobby for himself.

### School Board Cuts Budget by \$2425

The school board last night cut its budget \$2425 and also launched an investigation to see if some saving can be made in the large transportation item. The principal item dropped last night will represent a yearly saving of \$900, and this year a saving of \$600. The committee voted to eliminate the noon-day care of children item, beginning April 1, saving \$23.75 a week. Part-time employees have been brought in at the central grammar schools and at the West Center school for the past few years to supervise the children who remain at school during the noon-hour, but under the new plan the teachers themselves will handle this. Each teacher at the central schools will be required to stay noon-hours on the average of one week a month, while the two teachers at the West school will alternate. There is no problem at the one-session junior and senior high schools.

Other minor decreases were made as follows: teachers \$150; lab equipment \$300; paper \$200; textbooks \$200; practical arts \$200; brushes \$50; janitors' items \$50; heat controls \$250; and miscellaneous \$425. The total of \$2425 brings the appropriation at the figure of \$189103 set by the finance committee.

On transportation it was suggested that there might be a saving in the \$4000 railroad and \$2000 street railway costs if a new school bus were hired at about \$3500, and the present bus routes changed. This matter will be studied by the superintendent. He will also investigate the possibility of a saving by increasing the present transportation limits of a mile and a half for high school and a mile for grammar grades. The state law sets the limit at two, with the local regulations well under that.

There was some discussion of the need for a clerk for both the high and junior high principals. This will also be studied in an endeavor to see if one of these positions can be abolished.

### Bacteria Count

The only other business transacted was a report from Milk inspector Alfred Stacey of the school milk supplied by Sidney P. White. Mr. Stacey took samples last Friday morning and had them analyzed for butterfat and bacteria count. The butterfat averaged over four percent, being well over the standard, and the bacteria count ranged from 4200 to 17000, also an excellent showing. The committee expressed itself as well-pleased with Mr. Stacey's findings.
