The Infantry Concert Group. regular Army musical organization composed of former top-flight or-chestra and symphony musicians, will present a program of modern and classical music at George Washington Hall, Phillips Academy, on Tuesday at 8:15 in conjunction with the community's Seventh War Loan campaign.

A typical concert includes classical compositions by Debussy, Rimsky-Korsakoff, Smetana and Johann Straus, as well as masterful arms. terful arrangements of the music of Jerome Kern, Morton Gould, Hoagy Carmichael and David Rose.

During the first fifteen years of his administrations the Academy has grown from a school of less than 100 boys with largely New England patronage to a nationally known and respected institution of one hundred and seventy-five boys. Additions to the plant have included modern dormitory space for 53 additional boys; the splendid new Phillips Building with its well-equipped kitchen and dining room, spacious living room and modern offices: living room, and modern offices; and many other improvements.

There has been another big food item which has joined the list of scarce items—ORANGES WHERE HAVE THEY GONE TO?

In looking around to find oranges to sell, we came across a broker who had some of the best tasting pure orange juice you've ever tasted. We have it in large and medium containers—Come in and see our floor display of this fine product. One medium tin has the equivalent amount of juice of 15 good-sized oranges—the large tin would easily equal better than three times that amount. Two years ago we wrote in this column of the pressure that the grocers of America were under in shifting to the "new order" of things. Buying, pricing, points, shortages, delays, lack of experienced help, etc.

THE PICTURE HASN'T CHANGED—IF ANYTHING, IT'S WORSE— When we tell you we haven't got what you're asking for—believe us, it would please us just to hand it to you. Unfortunately, we can't do that in the MAJORITY of articles that you have been so long accustomed to having.

A WAR?

As soon as we can, we'll bring to bear on the Japs all the additional might we've been using against Germany.

. What will it cost, this Moving Day of War?

Estimate it in these terms: The job of moving millions of men from one front to another. Thousands of ships to carry the supplies of battle. Swarms of new-type aircraft to blast the path into enemy territory.

You can get an idea of the cost from the fact that Uncle Sam needs 7
