Tax Rate Held At 1944 Figure

Andover's tax rate will again this year be \$29.00 per thousand, according to an announcement made by the assessors this week. rate was held at the previous level despite increased town expenditures of \$53,000, due mostly to increased payroll costs in all departments.

State assessments were down \$17,000, while receipts held at about the same level as last year. There was very little change in the valuation, since the war has brought construction to a virtual standstill.

The figures are as follows:

After weeks of delay and in-decision, during which the public was given no idea of what was holding up the garbage collection plan, a statement was released by the Board of Health last night explaining that the reason for the hold-up was that the present licensees have contracts which in the opinion of the town counsel should be allowed to run until their end-of-the-year expiration.

The statement was signed by Dr. Look and Dr. Emmons. Secretary Franklin H. Stacey stated this morning that his not signing was intentional, and that while he agreed with portions of the statement and the general reasoning, he felt that it should be qualified to some extent. He at present is preparing a paper on the situation.

Edinburgh Child Art

In Library Display
On display in the library is an exhibition of examples of child art from primary, junior secondary and senior secondary schools in Edin-burgh, Scotland.

The subjects show a variety of interests and an amusing use of color. The young artists range from five to 16 years of age.

The course of instruction in art in the primary school is for the

most part given by the classroom teacher. These primary schools vary in size from 150 to 1000 pupils,

according to the locality.

On reaching the age of 11 or 12, the children are advanced to a junior or senior secondary school. Here in the junior secondary school the girls are given a domestic course, and the boys a technical training, and usually these pupils leave after two years to take their places as machine operatives, craftsmen, laborers or shop assist-ants. Few of these continue their art study.

To The Andover Baseball Fans

To date your "Townies," or Andover Town team, have won ten games and lost one game, 1 to 0. Not a bad record considering what we have gone through so far this season. We have lost three of our key players to the Lawrence entry in the New England league, our No. 1 nitcher will need a short-stop to replace Captain "Flash".

2. We need one more outfielder who can hit. We need another pitcher to replace Arthur Del Ducca, who entered the Navy Wednesday. Fowler, No. 1 nitcher will need a short-stop to replace Captain "Flash". in the New England league; our best pitcher, with a bad arm; one to the Navy; a first baseman with a bad shoulder and arm; and soon others must go. Still a 10 won, 1 lost record to date is a fine one.

Fans, we don't want to quit. We in town kept the game alive, played top-flight ball, brought in fine visiting teams. We have gained a high ranking position in baseball in New England, and we have plenty of good games to come if we can stand the pace. There are many players who want to play for Andover from Boston, Lynn, Acton, Salem, Cambridge, Malden, etc., but \$10 and \$15 per man comes a little too rich for our financial standing. We're going out and get several ball players: We need a third baseman, who

can hit. We need another pitcher to replace Arthur Del Ducca, who en-tered the Navy Wednesday. Fowler, No. 1 pitcher, will need some help, and if Warren Schiller's arm and shoulder don't react to treatment shortly, we'll have to replace him. We think we'll be able to get the players, if the team can have your support. We will not continue the game with a poor team. We've had a darn good one right along, and we'll still field a fast club, but we need your help, if you want to continue with us.

Here are some of the reasons. We have received to date a total of \$1265.73 in gate receipts, gifts, donations, and sale of baseball game tickets, plus \$100 we started with; total \$1365.73.

We have spent, for new uniforms and property realizations greaters.

Mr. Frank L. Brigham has been a great helper in his business management and handling of finances; he personally has raised, through his friends, enough money to pur-chase the new uniforms and much of our equipment. He is due a lot of credit for our carrying on thus far, but we are now on thin ice.

We have several big games due that call for high guarantees. We don't know if we will be able to make the grade, but we'll go along a while and hope for the best. We have given a lot of good baseball for 25 cents a game. Maybe we should have raised the price; we don't know. However, if any of the fans have any suggestions to offer, we would appreciate hearing from them. The big question is, should we continue, or had we better call it a day? We anxiously await your approval or suggestions. Mr. Brig-

Vacation Plans at Library Announced

As has been the custom in previous years, the library will close on Tuesday, Wednesday and Thursday evenings at 6:00 during the summer months of July and August. The Young People's Room will be open daily from 9:00 to 12:00, and 2:00 to 5:00 daily, except Saturday, when it will close for the day at 12:00 noon.

Books are being charged for Va-

cation Loan, when desired. Any book or books that have been in the library for a year may be borrowed on this extension, which makes them due on September 15. Each year more borrowers take advantage of this offer, and find that the longer loan period gives them a chance to enjoy their books at leisure. There is a generous allow-ance made for children's books, too.

The majority of the pupils se-lected for senior secondary school are those who show high intelligence quotients in examinations given in the primary school. These schools provide a five or six years' course leading to the Higher Leav-ing Certificate. Art instruction is provided by teachers specializing in the subject, and consists of two hours of art instruction each week. From this school, the pupils enter Civil Service, the University, or business. A very small group be-come artists but many continue to find interest in art and art craft.

The pictures on display are unusual and well worthy of a moment's inspection.

How About Some Support?

Elsewhere in this issue the Andover Town Team makes a plea for its continued existence. It's too bad that this aggregation has to speak for itself in this manner, for its performance on the diamond has been such that it deserves the support of Andover's townspeople without any verbal or written solicitation.

It's by far the best team the town of Andover has ever had playing under its name. The boys play a grand brand of baseball, and their almost undefeated record testifies both to the character of their playing and of their coaching. They've brought here to Andover some of the best teams in New England, and they've gone out of Andover to meet these same teams on their home grounds. Wherever they have gone, they have given a performance of which Andover can be justly proud, for it has added immeasurably to the town's good

If you don't go to the games on Sundays or Thursday evenings, you certainly should, because you'll be seeing a snappy brand of baseball and also doing your part toward keeping this team in existence. It can't carry along on its present support. If you do go, think of how much you would have to pay to see the same type of game elsewhere, and when you make your contribution, don't shirk your duty by just putting in a small pittance. what you'd have to pay if there were a box office. Pay more

if you can.

We've got a fine team and we want to keep it here in Andover.

Time To Collect It

Does anybody remember 'way back in March when a Town Meet-ing did a bit of rebelling and decided to inaugurate a long overdue something about some hobby in garbage collection policy here in which she is interested.

Andover? We really showed quite emphatically that we wanted the town to collect our garbage, and it's getting a little difficult for people to understand why no start has been made on the collection in spite of the fact that the contract war awarded some time ago. Obviously from the statement released by the Board of Health a prize job of bungling was done by whoever drew up the specifications.

There's no excuse for this delay, no really valid excuse. The townspeople of Andover are getting pretty impatient and something very definite had better happen pretty quick.

Safety First Urged

Safety first and Victory first on the Fourth of July is the substance of an appeal issued by Chairman Roy E. Hardy of the Board of Selectmen this week.

The appeal follows:

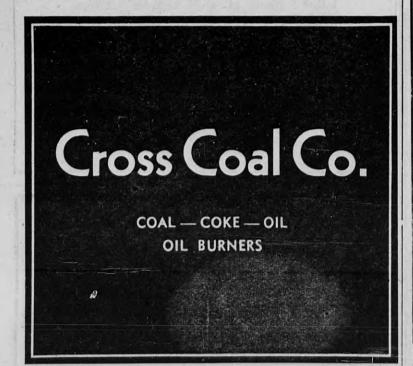

"I request every citizen of this town to accept personal responsi-bility for avoiding accidents over the Fourth of July holiday period, and thus enable our community to take an active part in the nationwide Fourth of July Safety Cam-paign now being conducted by the National Safety Council to hold down the holiday toll. "With our fighting men massing.

for the final knockout of Japan, let us make this Fourth of July a day for civilians to dedicate themselves to the cause of final and

complete victory.
"This year, of all years, we must put victory first on the Fourth!

Garbage -

(Continued from Page 1)

The licenses were granted as of my friends and cus-tomers for their loyal did not at that time feel the town would adopt the garbage collection article. When the specifications were released, the contractors ap-parently believed that it covered the entire town, since no exceptions were mentioned. One of the most luwere mentioned. One of the most lu-crative sources of garbage is the Phillips Academy dining hall, and the contract for this is held by Win-throp White under his license granted in January for the full year. Mr. Chadwick of North An-dover, to whom the contract was will sell Plants and lection, feels that this should be in-cluded in his contract. He intends to use all his garbage for his hogs, not selling any, which of course constitutes a serious feed problem for local hog-raisers.

The statement of the Board of Health follows:

The Board of Health feels that the problem of the collection of garbage in the town should be re-

viewed at this time.
At the last Town Meeting, Article
27, sponsored by Mr. Franklin H. Stacey and others, was voted upon favorably. Subsequently specifica-tions were drawn and advertised with the result that three (3) bids were received. The decision of the Board of Health and the Selectmen was to award the one-year contract to Mr. Stanley Chadwick of Andover. A formal contract was Andover. A then written.

At a meeting held June 11, 1945, the Board of Health, the Selectmen, Town Counsel, and Mr. Chadwick discussed the contract terms and verbally agreed to sign the contract after minor changes were made. However, on the next day, Mr. Chadwick, upon advice of his coun-sel, refused to sign.

The delay arises primarily on the question of cancellation of licenses now outstanding. The Town Counsel advises that it would seem that the present licensees should be allowed to continue their services until December 31, 1945, the expiration date of their licenses. This situation prevents the immediate inauguration of the plan of col-lection which had been anticipated. Another question is whether or

not stores, restaurants, and dining halls should be included or only residences. In many towns and cities it has proved better to limit the contract collection to resi-dences while allowing the others to sell or dispose of their refuse as they see fit to properly licensed collectors. If this method were put into effect here in Andover, cost would be more than the \$4000

The proposition still needs much study and we sincerely hope a satisfactory solution will soon be found.
