### Guard To Spend Week In Camp

Andover's State Guard company will leave Sunday morning for a week's encampment with other units of the 24th Regiment at Camp O'Connor in Framingham. Over 20 men will go from Andover.

The Andover company will leave here by bus for Lawrence, where the bus will become part of a six-bus convoy which should pass through Andover during the morning. From all over the county and from Lowell in Middlesex county other convoys will head for Arlington, the Initial Point from which all units will head for the camp. The Lawrence convoy will include besides the six buses a detachment of state police on motorcycles and a civilian car. Major Millea of Lawrence will be in command of the convoy.

Captain W. R. Hill, local hardware merchant, will have charge of the Lowell Convoy of four buses, state police and a civilian car. He is the commanding officer of the 11th Company in that city, and is the senior officer of the four companies in the Third Battalion.

Kenneth S. Minard of the Andover company has been advanced from second lieutenant to first lieutenant, it was announced this week.

### Clothing Exhibition Now On at Addison Gallery

Clothes are like houses. This is the theme of the exhibition now on display at the Addison Gallery until July 16. Prepared by Bernard Rudofsky, an architect who has designed dwellings in Austria, Germany, Italy and Brazil, the display comes from the Museum of Modern Art in New York to show that the clothes we wear may be analyzed, designed and constructed in much the same way that we approach problems in architecture. The three principle influences on clothing are protection, ornamentation, and modesty. Comfort and convenience which play such an important part in the designing of a modern house are only just beginning to affect costume design. Separate sections of the exhibition examine these various influences with humor as well as acuteness. The ridiculous taboos which convention imposes on the style of our clothing are pointed out clearly and then swept aside by examples illustrating the present day trend to overcome them. These examples have been selected by the Addison Gallery with the cooperation of local merchants: Cherry and Webb; Rose Frank Dress Shoppe, A. B. Sutherland Company in Lawrence, and Michael Jay's Shop and the Carriage Trade Shop.

### LST To Be Named "Andover"; Drive Ends

The Seventh War Loan Drive has ended with Andover probably going over the top on the over-all quota. Figures later than last Saturday are not yet available.

According to Attorney Walter E. Mondale, who was in charge of the district solicitation, the response to the Seventh War Loan was sufficiently strong to make possible the purchase of an LST to be named "Andover."

The "E" bond response came to about 70% of the quota, which is about the level of the rest of the state.

Late returns are expected to swell the total.

### Vacation Bible School Opens Monday Morning

At the end of the two weeks, on Friday the 20th, closing exercises and an exhibition will be held.

The staff of the school includes: Principal, Rev. Elton Smith; Asst. Principal Fannie E. Davis; Superintendent of the Junior Department, Mrs. Elton Smith; Superintendent Primary Department, Mrs. P. L. Wilson; Superintendent Beginners, Mrs. Charles Cole; Asst. Mrs. Joseph Dahle; Teachers, Mrs. Will G. Brown; Mrs. Henson H. ### Suggests Special Town Meeting To Revoke Outstanding Garbage Permits

#### Health Board Member Stacey Presents Minority Report on Situation — Court Action Feared

Warning of the danger from a possible infantile paralysis epidemic, Franklin H. Stacey of the Board of Health, writing only as a member, and not for the Board, this week communicated with the Board of Selectmen in regard to a special town meeting authorizing the revoking of all 1945 garbage permits. The pre-Town-Meeting award of yearly contracts is apparently the stumbling-block that has held up the town's municipal collection of garbage.

The letter to the Selectmen follows:

Gentlemen:  
I believe the present situation in regard to the garbage is a very dangerous menace to the Health of Andover. If Infantile Paralysis is the result of a bite from some fly or insect, it is quite possible that accumulated garbage might be the breeding place for them.

Will you kindly advise if a Special Town Meeting should vote to authorize the Board of Health as a matter of public health to revoke any or all Permits issued for 1945; it would be permissible and their duty to take such action, and award the contract according to the vote at the Annual Town Meeting.

I would appreciate an early reply that the potential danger might be lessened.

Yours very truly

Franklin H. Stacey

A minority report on the situation was issued by Mr. Stacey this week. It follows:

For over 38 years as milk inspector and a member of the Board

of Health, I have made a careful study of the garbage situation. Have always considered it a serious menace to the public health, but at the present time under our emergency living conditions our resistance is lowered and it might be dangerous. This has been brought before the town on several occasions but either on the cost or lack of details has been postponed for Further Study. This can not go on forever.

Last year I contacted 27 towns with the average population of Andover. Twenty-two of these did collect the garbage at an average cost of \$3,600. In none of these places were any separate contracts mentioned, that is commercial or residential. It is a fact however, that in many cities there are arrangements made for collections from cafes and restaurants. This is done mostly because the collections are made after 10 p. m. and before 6 a. m.

As a result of this survey I had an article in the last warrant calling for the collection in Andover at a cost not exceeding \$4,000. This was passed by an overwhelming vote. Feeling sure that it would pass, I wanted to issue all the permits as temporary, to expire when, and if, a contract was signed. They were however issued for One Year. The specifications were drawn up by the Board of Health and the Board of Selectmen, then revised by the Town Counsel. Receiving them from his office, they were

one initiation I'll never forget," each new shellback confessed to his shipmates, proudly displaying his official membership card — a newly bald head and a big grin.

Newest members of the select nautical club are awaiting two things—more "pollywogs" to come aboard for initiation, and the next meeting of the equator.

The ordnance men were turned into combat soldiers doing depot work as the Germans advanced to within 28 miles of the depot. With loaded rifles on their backs the men continued their work during the day and maintained a diligent patrol at night. During this period, the depot's personnel increased their tonnage of shipments to the First, Third and Ninth U. S. Armies as the need for supplies became greater.

## Special Town Meeting?

Mr. Stacey of the Board of Health has implied in a letter to the Board of Selectmen that it might be well to have a special town meeting to give his Board authority to cancel all outstanding permits for garbage collection. Mr. Stacey feels that there is a very urgent need for having the town garbage collection instituted at once in order to prevent an outbreak of infantile paralysis.

It doesn't seem quite that urgent somehow, because apparently the thing that is holding up the municipal collection of garbage is the fact that garbage IS now being collected, privately, under permits issued by the Board of Health before the meeting. Mr. Stacey seems to imply that there are accumulations of garbage. While we feel that municipal collection is far the best and fairest manner of handling this problem, we do know that under those permits no one need allow his garbage to be accumulated to a point where it would be a serious detriment to the public health. Nobody wants to go to a town meeting on a nice summer evening unless it is absolutely essential, and this matter certainly does not require such an extreme measure.

We do feel that some solution can be worked out so that the municipal collection can be gotten underway. That was the wish of the voters and it is unfortunate that technicalities have arisen which make the public vote apparently useless at the moment.

Somewhere in Andover there

must be heads which can reason out this problem and come to a successful conclusion.

## Town Team Needs \$500 To Continue

An appeal is being made this week to Andover's citizens in an endeavor to get the Andover Town Team rolling again when the second half of its season is scheduled to start on July 15th. Unless a generous response comes forth to the appeal, the team will go into the discard.

The receipts per game have averaged about \$40.00, which is a net loss of \$51.50 per game. To complete the season it is estimated that around \$500.00 will be needed over gate receipts, and since the treasury is at present practically

non-existent, this amount will have to be raised by private subscription.

Any who are willing to assist in continuing the work of Andover's excellent team are urged to mail their check at once to Frank L. Brigham, treasurer, 9 Punchard avenue, made out to the Andover Town Team.

## After The Fourth of July

Before the Fourth we wasted 10 whole days trying  
to get Fresh Salmon—Nice Young Lamb, and some kind

had a very good July 4th dinner with what Beef we had.

Now the time has come for the new Boss of the  
Food Control to make good. We will give him just 15  
days. If he doesn't, he will be no better than the men  
whose place he took.

One year ago, we wrote in this column about an-  
other Fourth of July having come and gone, and devoid  
of the usual demonstrations which we Americans al-  
ways looked forward to on the Fourth.

This article is being written on the eve of the Fourth  
1945—From 1944 to 1945 PLENTY has happened (and  
in our favor) with the furtherance of the War. It could  
be that by the Fourth of July 1946 we'll see the Japanese  
threat fully throttled and they subdued as Germany is  
now. A fervent prayer by all Americans, that it will be  
realized.

adopted and bids called for, as per these specifications. The contract at a joint meeting was awarded to Mr. Chadwick. The contract was then drawn up by the Town Counsel and signed by Mr. Chadwick. He presented the bond and evidence that he had complied with all the details, insurance, etc. Before the Town Boards signed the Board of Selectmen requested the Board of Health to ascertain if there was any danger of an injunction or legal action against the town if the outstanding permits were revoked. The Town Counsel expressed an opinion that there was some danger. Mr. White claimed he had, and had had, a written contract with Phillips Academy for 15 years to collect the garbage from the Academy Dining Hall. Another meeting of the Board of Health and Board of Selectmen was held with the Town Counsel and Mr. Chadwick both present. The original contract called for daily collections from Restaurants, Dining Halls, hotels and other eating places. With the Phillips Academy dining halls out it meant that three days a week it would be necessary to send a truck and two men to collect from Scanlon's, Shawsheen Manor and Spa. This was of course out of the question as he had depended on the dining halls and the Phillips Inn. The Town Counsel ruled that the contract could not be changed, but might be modified. It was altered to read: "In regard to daily collections, but this provision in whole or in part, may be waived or varied between July 1st, 1945 and January 1st 1946, by and with the sole discretion of the Board of Health." There was also added

against my objection: "Nothing in this contract shall be construed as an agreement upon the Town and/or the Board of Health to revoke existing licenses (permits) for the collection and disposal of garbage affect the right to issue any such licenses during the term of this license." Mr. Chadwick was advised by his counsel not to sign this. It has been suggested the work be done by the Board of Public Works. There is no doubt that this would cost the Town from \$12,000 to \$15,000, from 8 to 10 thousand more than the present plan. The garbage would then have to be sold, probably not over \$3,000. Before being removed, would it be stored on Park street, or Buxton court, or the Shaw Estate. I believe the original contract should have been signed by the Boards, the permits or licenses revoked, and let the court decide if any one should take action against the town, if the public health and vote of the Town was not sufficient cause for such action. Special permits or licenses could be issued for collection of ashes and rubbish.

Respectfully submitted  
Franklin H. Stacey.

With  
3 telephone poles  
taking the place of 4

Skipping every fourth pole in setting up new telephone lines in the post-war period will help serve many New England farmers who heretofore have been without telephones. This will be possible because of the development by telephone engineers of a new high-strength steel wire which can be strung on spans of 350 instead of the present 250 feet.

Thus the savings in construction and maintenance costs will make it practical to serve many more people in the remote areas. For the most part, however, New England farmers are fortunately situated, since 90% of all farm homes in the areas we serve are now adjacent to existing lines.

Technical developments, such as this new transmission wire, show how telephone engineers are always searching for ways to make telephone service available to more and more people at reasonable cost.
