#### FINDING MEN FOR FEDERAL JOBS

WASHINGTON.—Few people realize it but President Truman spends a lot of time these days trying to persuade people to take important federal appointments.

An illustration was the tussle he had with astute 40-year-old Wilson Wyatt, mayor of Louisville, Ky., just appointed federal housing czar.

Wyatt was first offered just about every job in the book. Postmaster General Hannegan tried to get him to serve on the important civil aeronautics board, also to accept the job Jim McGranery wants to resign as assistant to the attorney general, one of the key spots in the justice department.

The civil aeronautics board job really tempted Wyatt, and he asked for a few days to think it over. Next day he got a phone call.

#### TRUMAN PLEADS.

"This is the President calling," said a voice at the other end of the phone.

"Mr. President, I've been thinking," Wyatt said, "and I'm afraid I'm going to have to turn down that civil aeronautics job."

"That's swell," replied the President. "I have a more important job for you. Please come back here right away."

Next day, Wyatt appeared at the White House, where Truman told him about the tough job of coordinating housing.

"I consider this housing situation the most important problem confronting the country today," explained the President. "If we don't solve this one, we'll really be in

trouble in a year and a half."

"But, Mr. President," said Wyatt. "I'm afraid I can't afford a federal job. I want to go back home and practice law. I need the money."

"I know you want to go back to your law practice," Truman said. "I know you want to make some money. But I don't like being President either. However, I feel I have to do it, so I'm doing it."

Then, staring at Wyatt sharply, he said, "How can I do a good job if fellows like you aren't willing to come up here and help me?"

This made a deep impression on Wyatt. Next day he called at the White House for five minutes. Walking into the executive office, he said, "Mr. President, I've come in to surrender."

Ordinarily it is the work of a cabinet officer to tender a man a job. But now Truman finds he has to phone men personally and beg them to work for the government. The other day, Truman who resents criticism of his numerous Missouri appointments, told one visitor:

"People complain about all these Jackson county (Kansas City) appointments. But whenever I try to appoint someone else, they are too busy making money. At least the Jackson county boys are willing to take the jobs."

**NOTE**—Actually most top federal appointees can get jobs paying twice as much outside the government. Wyatt received only \$5,000 a year as mayor of Louisville, could be making \$50,000 a year practicing law.

#### IKE'S FIRST SENATE SESSION.

Gen. Dwight Eisenhower went over big at his first meeting as chief of staff with members of the senate military affairs committee. It was an off-the-record affair, for which the senators went across the Potomac to Eisenhower's office in the Pentagon building for luncheon.

Sitting over coffee and French fancy which he had just brought back, Eisenhower spoke frankly about Soviet Russia and other matters, including co-operation with congress in running the army. Discussing his experiences as the chief U. S. representative on the Allied control commission in Germany he declared:

"If the American people had a chance to study the Russians at close range, and vice versa, I am certain there would be a fine mutual understanding and respect between the two peoples. I rubbed elbows with Marshal Zhukov and others and have a high regard for them. We enjoyed splendid co-operation. I was always able to get along with them.

"What most people don't realize is that the Russians are a good deal like us. They enjoy life like we Americans, are full of fun and have a fine sense of humor."

The general said he held no fears about future amicable relations between our own country and Soviet Russia. There will have to be some

give-and-take in our relations, he said, but eventually things will work out well.

Regarding his own relations with congress, Eisenhower declared:

"This is a people's army and I intend to run it like one, along democratic lines and in close accord with congress. I am especially anxious to get along with the military affairs committees of both houses."

"If you would be wealthy—

think of Saving as well as Getting." It was Benjamin Franklin who gave this sound advice decades ago.

Now is an ideal time to appraise *your own* buying and saving habits to determine whether you are practicing the kind of thrift that leads to wealth.

Are you saving as much as you can out of your income? On pay day do you set aside your savings *first* before buying anything? Do you put your savings into a bank account where they will collect interest?

If your answer is "yes", you have found the key to Security and Wealth.

## SUGAR—

### JUST WHAT HAS BECOME OF YOUR SHARE?

There is in this area over 12,000 No. 39 Sugar Stamps. It seems as though every one in Andover wants to cash them for their sugar at once. We've taken a goodly number of them and have presented our sugar supplier with these stamps. NOW—He tells me he cannot give me sugar to the amount that the stamps total to — for the SIMPLE REASON THAT HE Cannot get that amount from the refinery.

That makes ME, HIM, and YOU Mad, very Mad. When the War was at its height they told us that there was plenty of Sugar, but could not spare the ships to bring it in. The War has been over for several months but we have less Sugar than during the War.

Let's find out who is bungling up the situation—write your Congressman—your U. S. Senator—ask them to tell us the truth. They asked for our Votes to send them to Washington — it's up to all of us to tell them to go to work and stop all this bungling that is going on.

It is the duty of all of us to find out (and fast), just why there is no Sugar behind your Number 39 Sugar Coupon.

### Three Boys Injured While Riding A Bicycle

Three boys were injured Wednesday shortly after-noon, one seriously, when they ran the bicycle on which they were riding head on into a moving truck. The three boys, Hadem Daly, son of Mr. and Mrs. Leo Daly of 8 Canterbury street; Allen Gannem, son of Mr. and Mrs. Elias Gannem of 20 Canterbury street; and Billy Bird son of William F. Bird of 12 Canterbury street; were all riding on a bicycle owned by Allen Gannem. They had just turned on Lowell street and started down the hill when they hit a truck operated by Ralph Philsbury, operator for the Bolta Rubber company.

The Bird boy was riding on the back fender, the Gannem boy on the seat, and Hadem Daly on the front bar. The Gannem and Bird boys were taken immediately to the hospital. It was determined that Gannem had his leg broken in two places, in addition to several scratches and bruises. Bird was treated for scratches and bruises and discharged. Daly received several scratches and bruises.

It was reported by Officer William Stewart that the truck was almost stopped, and that the bicycle was on the left side of the street when it hit the truck.

### Old Clothes Drive To Be Held Soon

In answer to the question "Will there be an old clothes drive," which everyone seems to be asking, the answer is, in all probability, yes.

Again this year the drive will be in charge of the Andover Service Club, and they are holding a meeting Thursday evening to form their committees. Andover's quota and the dates of collection will be announced later.

### School Committee Approves Public Kindergarten

At the school committee meeting held Tuesday evening, two special articles were adopted for the town warrant, the first calling for \$900 to maintain state-aided vocational education, for which the town would be reimbursed by the state, and the other asking for \$3200 for the establishment of four kindergartens in the schools.

It was explained by Superintendent Sherman that the cost of kindergartens the second year would be \$6,500 and remain about that figure thereafter. Mr. Sherman advised the committee that considerable interest has been shown by mothers and a definite request made for establishment of the kindergartens. He said he was neither for nor against the plan and explained that if the town meeting sees fit to approve the measure, the department will install the kindergartens as an educational feature and not merely to look after the children for the parents. He reported that Miss Marion Remon, elementary school supervisor in the Melrose public schools, will be here January 16 to address the mothers at 2:45 p. m. in the auditorium. The committee voted to approve the article.

### Edward P. Hall Will Not Run For Office

Selectman Edward P. Hall announced Tuesday that he will not be a candidate for re-election to the board of selectmen, assessors and board of public welfare at the annual town election in March. He will also retire from the town planning board, the board of appeal and the board of survey. Mr. Hall plans to give his entire time to his business. He and his son, Ernest Hall, will go back into the contracting and building business as E. P. Hall and Son. Ernest Hall has just returned from Okinawa and received his discharge from the Seabees after three and a half years in the service and 33 months in the Pacific.

Selectman Hall served four years as selectman, succeeding Howell F. Shepard when the latter resigned to enter the service. He was acting chairman of the planning board last year, and chairman of the board of survey on which he served for seven years.

Mr. Hall has served 16 years on the town planning board, and formerly served three years on the Board of Public Works. He will remain on the board of trustees of the Cornell fund. During the past two decades Mr. Hall has given much of his time to public interest and civic affairs.

### Garden Club Makes Trip To Ft. Devens

Andover Garden Club—On December 18, twelve members of the club went up to the Peabody House and made swags for Devens, with the beautiful greens from Miss Goldsmith's woods.

The blizzard on the 19th, made everything seem impossible but the 20th, found six members headed for Devens in two beach wagons, (Mrs. Phillip Allens' and the Andover Red Crosses') piled high with the precious load, knowing that the boys at Lovell would appreciate their efforts on end. They did.

The swags were made no coat-hangers, making them easy to hang, so by noon-time we had the recreation hall a thing of beauty. The large cones and red-ribbons made it all very festive.

All this work had to be passed by the fire-chief and his assistant.

Andover Garden Club—On Tuesday morning January 8, after the morning coffee, Mrs. Frank C. Smith of Worcester, gave a very interesting class-talk with colored slides, on Ferns.

Houses to let in Quincy! Three separate apartments at Quincy-Neck for \$3.00 to \$5.00 per month. In Chelsea, three brick houses, ten rooms each, modern built, gas and water, Mansard roofs, all within five minute walking distance of the square. Rent for each is \$10.00 a month, with liberal reduction to anyone who wishes to pay a years rent in advance. This tempting little announcement appeared on the page facing the title page of one of the old cook-books loaned by friends of the library and now on exhibit in the reading room. This particular volume was published in 1878 under the heading -- "M. W. C. T. U. Cuisine; a compilation of valuable recipes KNOWN TO BE RELIABLE!" In keeping with the other cook books of that day this has the common failing of omitting all procedures for assembling ingredients... The housekeeper must have had innate talent or long-time training to prepare delicacies in the 19th century.

Perhaps the earliest dated book is the "Royal Parisian Pastrybook and Confectioner, from the Original of M. A. Careme of Paris." It was edited by John Porter, formerly cook to the Marquis Camden, subsequently (cook) at the Senior United Service and Travellers Clubs, and now (1834) at the Oriental!

This masterpiece of fine pastry-cookery bends over backwards to include the fine art of assembly. The ingredients are something to dream of, and the finished products are deliciously described. Hot Snipe Pie, with Truffles! Hot Lark Pie, with Sweet Herbs! Any variations of a recipe are called "Ditto, with Chocolate"! Or, "Ditto, with Pistachios!" etc. The nearest thing to a recipe for an apple pie was called "Apples In A Crust" and "Apricot Tartlets. Ditto, with Pippin Apples"!

And with the modesty of the times, the preface or Advertisement, as it was entitled, promises that this absolutely new work "will throw additional lustre on our national cookery"!

The next oldest in the display is the American Economical Housekeeper and Family Receipt Book, of Mrs. A. E. Howland, published in 1845. It contains, in addition to its recipes, a Medicinal Department and a Miscellaneous Department, under which section is most valuable advice on thawing a frozen pump handle when the thermometer falls to 10 or 20 degrees below zero. 1848 produced a momentous tone called "McKenzie's Own... Arts." It covers, among other things, Ag... Bees; Bleaching; Brewing; Calico Printing; Carving at Table; Cements; Confectionery; Cookery, etc. A medical section was "carefully revised and adapted to the climate of the United States BY AN AMERICAN PHYSICIAN."

This is the interesting title of an 1848 publication -- "The Improved

carving. By a married lady, alike experienced in the vicissitudes of life and in housewifery; whom admonitory years now invite to a more retired and less active life, cheered by affectionate remembrances of patron-friends."

Of interest to the people of Andover is the "Young Housekeeper's Friend; or, A Guide To Domestic Economy and Comfort." This is the work of Mrs. Mary Hooker Cornelius, who at one time lived in Andover in the Farrar House, on the site of the Archaeological Building. For a while she lived in the Samaritan House, and later she resided in the house owned by Walter Buck in 1914, in which the first edition of Mrs. Cornelius' Cook Book was written. The book was famous in its day, and ran into the six thousands by 1849, four years after its publication. The book opens with a dissertation on "Counsels and Suggestions" which would do justice to one of Mr. Shaw's modest introductions. Even at this date standard measuring cups and spoons must have been unknown, for Mrs. Cornelius says, "The cup used as a measure for the receipts in this book is not the tea-table china cup, but the common large earthen tea-cup, except where a small one is specified; and the teaspoon used is neither the largest or the smallest but the medium-sized."

In 1869 the "American Woman's Home" by Catherine E. Beecher and Harriet Beecher Stowe was published. This is more than an encyclopedia on the care of the home, with interesting chapters on decorating healthful ventilating, good temper, children, servants, and yards and gardens. For after a chapter on the care of domestic animals and the last word in contemporary plumbing comes a section entitled "Care of the homeless, the helpless, and the vicious!" This is probably the forerunner of our modern books on home economics.

Still no directions for assembling ingredients appear in the 1869 publication "Mrs. Putnam's Receipt Book and Young Housekeepers Assistant." But a lavish hand combines cups of butter with cups of sugar and pints of cream!

On the first pages of "Camp Cookery" dated 1878, we learn to leave crockery at home, to take spoutless teapots with well-riveted lips, tin plates that may be scoured with beach sand or ashes or SAPO-LIO, and a farina kettle, with which one can be assured of oatmeal, rice and hominy in an unburned state, IF one is ever mindful to keep water in the bottom kettle. (Could this be their feathers, clams in their shells, and potatoes in their skins. All puddings are to be served with sugar and cream!

The "Tried and True Cook Book", published in connection with the Fair in Aid of the Building Fund of the Free Congregations' Church, in Andover, 1903", published by the Andover Press, has the

and the well-known Anonymous 211 supply observations on the recipes, each of which bears the name of the person who contributed it.

"Mrs. Lincoln's Boston Cook Book", 1883, had neatly tucked into its section on cooking poultry a clipping on the correct method of roasting half-a-turkey, a contemporary art! The illustration shows a rosy-tinted fingernail on the hand that spreads a cheese-cloth cover over the bird.

One old edition of this is a delight to handle. It has all the earmarks of personal devotion, with recipes pencilled on the fly-leaves and clippings pasted on the inside covers. One browned clipping is pinned to a page, mute testimony of its value. It is this humanity in cook books that makes their place in the literature of the world one of permanent interest and delight.

### SAVE WASTE PAPER UNCLE SAME NEEDS IT

Now that the war is over, it seems that people are inclined to relax their patriotism a little, and forget that there is still a critical shortage of many materials. This

is a natural occurrence, and is to be expected at wars end.

These people must be reminded to keep on doing the excellent job they did throughout the war. That is to Save Waste Paper!

Because of this slackening on the part of the average citizen, the paper situation is more critical than at any time during the war, and it is Mr. Average Citizen's job to save old cartons, magazines, newspapers and the contents of waste paper baskets and give them to the local salvage drive.

A paper drive will be held on Sunday, January 20, starting at one o'clock. Householders should place all their waste paper out in front on the curb, so that it may be

## Editorial

Now let's get going on this coming election! Edward Hall is retiring as selectman. Let's get somebody in there that we'll be proud of — somebody virgorous, progressive, clear-thinking, able, with that much desired quality of saying what he thinks regardless of any other consideration than the best interests of Andover. Ed Hall has served the town well; let's not let his position on the board go by default to somebody who won't fill the job the way it should be filled.

And there's a vacancy on the school board. We're losing our businessman member, but fortunately we already have a good businessman candidate in the field in Gordon Colquhoun. Incidentally isn't it time that something was done about that school board? Nine members are too many; why not take steps now to cut it down to five?

And there should be a couple of replacements on the Board of Public Works. The two members whose terms are expiring could be improved on without a great deal of difficulty.

The time to act is now. Election-day—or any day after nominations close—may be too late. Too often in the past the ballot has offered a very meager bill of fare to the voter on election day; that is why some of the present unsatisfactory officeholders were elected. There was nothing better on the ballot. But there is something better in Andover. We've got many, many men who could fill town office very acceptably. They should be encouraged to take out their nomination papers, and then a campaign should be run for them. Last year we had some good candidates, but nobody made much of an attempt to put them across.

Start thinking now. Find some one who is quite well-known, well-liked—some one who has the courage to say and do what's right — some one who has an ability to use common sense — some one who will be vigorous, progressive. Let's not let the position go by default this time. If the day after election we can say "well, what could we do? There was nobody better in the field," it will be our own fault. Let's get somebody worthy in the field right now.

## This Sober Town

Isn't that snow-loader something? It does a swell job during the winter, and we assume as a sand-loader it does pretty well, too. But as we watched it chop ice on Main street the other day, we couldn't help but wonder what a very valuable adjunct it would be to any kitchen, not only for shopping ice but also for chopping meat. (Meat is a commodity that used to be familiar to the people of America before World War II, and presumably someday it will again become part of the American subsistence.)

It has saved the town quite a bit of manpower, especially in these days when no one wants to shovel snow anyway. Even young men have set a new all-time high in their prices for shoveling that little bit of front walk. As we watched it the other day, however, the loader was doing a swell job in front of our second-floor window, and very longingly we wondered if the Board of Public Works mightn't just leave it there as an escalator for our convenience. Very longingly we wondered but not very long, because we suddenly remembered that maybe the Board would rather put us through the ice-chopper first.

Looking over some old copies

(old meaning about two or three years ago) we notice that there was a lot more "Sober Town" than we have in these post war days. The reason, we feel sure, is that the town was much "soberer" during the years of war, that is to say every one was busier.

For instance, remember the trial blackouts, when the Nazis bombed Maple avenue and several other streets right out of existence, along with all the people who lived there? In those days, you could only get one cup of coffee to a person, you could only get cigarettes if you were lucky, and butter was even scarcer (believe it or not) than it is now.

And then every one used to take an hour off about every three months, and give a pint of blood to the Red Cross. We had a dim-out, too, and plane-spotting, because in those days, who could tell?

The point is, things are much quieter. Our street lights burn brightly every night; it's an anticlimax to have all the cigarettes we want, and instead of planes, we are thinking about a new truck and grader.

I guess they call it a "post-war slump."

It's been almost four years since sugar supplies were frozen and rationing began. The situation hasn't got any sweeter since then, has it?

## School Committee Adopts Budget

The school committee voted to adopt a budget of \$209,828 to be presented to the annual town meeting in March, at its meeting held Tuesday night. It was the largest budget in the history of the department, being slightly over the 1945 budget of \$205,940.50. Superintendent Kenneth L. Sherman explained to the committee that he had made every effort to keep the budget down, but that salaries guaranteed to teachers for the current school year with veterans returning to the system bring the total figure up to this amount. Otherwise, he explained the total would be less than last year's figure.

Chairman William A. Doherty of the sub-committee on buildings and grounds presented the recommendation of the sub-committee that the committee sponsor a special article in a warrant asking for \$8300 for improvements in the heating and ventilating system in the buildings at the central plant in accordance with recommendations of C. C. Waterman, consulting engineer.

Chairman Arthur R. Lewis read a letter from Carl F. Willgoose who served as a military substitute when Donald D. Dunn entered the Navy in 1942, and expressing his desire to return to the school system when he is released from the Army.

## Lieutenant Doherty Gets Commendation

Lieutenant Joseph B. Doherty, U. S. N. R., 21 Harding street, has been awarded a letter of commendation by Rear Admiral Felix Gygas, Commandant of the First Naval District, for outstanding service rendered as assistant to the director of training for the First Naval District since April, 1942.

The commendation follows:

"During the period from 6 April, 1942, to the present you have been Assistant to the Director of Training, First Naval District. During this period your performance of duty was characterized by a clear understanding of the many prob-

lems, a willingness to undertake the tasks incident to their solution and sound judgment in the making of decisions. These tasks were many and there was not available to you any precedent upon which to depend for guidance. Your work is considered to have been of an outstanding character. You provided experience which would not otherwise have been readily available.

"For the reasons set forth in the foregoing paragraph, I commend you for the high efficiency with which you discharged your duties during the period from 6 April, 1942, to the present.

"A copy of this letter will be attached to your next report of fitness."

Lieutenant Doherty is on military leave from Punchard High school.

### Quick Thinking Saves Cargo

The quick thinking on the part of Leo Ruel, 39, of 93 North Main street, operator for Shattuck's Express company of this town, is believed by Stoneham police officials to have saved valuable cargo and a considerable amount of money from being stolen when he was held up on Route 27 about 7 o'clock Wednesday evening.

Ruel picked up a sailor just before leaving Medford as he was coming toward Andover on the Felsway. He was conscious of a gun being stuck in his back, at a point near New South street, Stoneham. The sailor ordered Ruel to drive up the road, but the driver grabbed the keys from the ignition and threw them out the window. The sailor immediately got out and ran off in the direction of Stoneham.

Having got a good look at the sailor, Ruel described him as being about 24 years of age, with red hair and a ruddy complexion.

Sgt. William H. O'Toole of the Stoneham Police department, notified Metropolitan Police headquarters and a check was made of the area, with the result that several sailors were picked up for question-

ing, but were later released.

Ruel, who was later able to drive off by using a spare set of keys he carried on his person, told authorities that the cargo being carried on the truck was valued at approximately \$20,000 and that he was also carrying \$54 of the company's money at the time.

### Evening Classes For Veterans

The evening classes for returning veterans being conducted by members of the Punched high school faculty reopened Thursday evening, after the Christmas recess.

Many young men returning from the service are obtaining assistance and advice in education through Bernard M. Kellmurray, director of guidance at Punched high school, and his staff. Young men interested in furthering their education are welcome to make appointments in order to discuss their problems.

Miss Pauline MacMackin has returned to her studies at Bates college after enjoying the Christmas recess at her home Carisbrooke street.

Mr. and Mrs. Melvin Richards have returned to Washington, D. C. after spending the holidays with relatives on Fletcher street.

### Calling Mr. Grover

Is Mr. Grover there? Well, no he isn't in. But we could help you, or at least we'd do our best in trying.

That's what the employees here at the Townsman have been saying this week, and if you think the Townsman itself seems a little different, that's the reason. The editor is home sick, and has been since last Sunday.

He's not seriously sick, and we expect him back next week, but in the meantime, bring your jobs in, and you'll be well taken care of by the job printing department.

So for a few days, anyway, when you call 1943, you'll hear "No he isn't in," and you'll know we mean it.

THE NEW Golden Age of sport, following the latest world war, has had only a few months in which to get underway. So far it has begun to outclass the so-called Golden Age that followed the First World War in the way of attendance, gate receipts and increasing public interest that in 1946 will crack all former marks if we can settle a few problems, and someone doesn't get careless with an atomic bomb.

But looking through the mists and fogs on ahead we still fail to see any sign that the performers can compare in crowd appeal with Babe Ruth, Jack Dempsey, Bobby Jones, Bill Tilden, Red Grange, Rogers Hornsby, Tommy Hitchcock, Man o' War, Walter Hagen and a few others of that former period who happened to be blessed with that indefinable flair known as "color."

Grantland Rice

Most of the star actors we have left to open or carry on the 1946 program go back well before the last war started. In this list you will find Joe Louis, Billy Conn, Byron Nelson, Ben Hogan, Joe DiMaggio, Hank Greenberg and others who had reached, or at least had come to their peak before Pearl Harbor.

It is faintly possible, but highly improbable, that you and I will see another Ruth, Dempsey, Jones, Hitchcock or Tilden in action with as much combined skill and crowd appeal.

### Still Great Fighters

No one can say yet just how much fighting ability Joe Louis and Billy Conn can bring to the ring next June. Louis has almost certainly taken a number of steps over the hill. The odds are that Conn won't be as good as he was in his last attempt to reach the top. Both may have enough left to give a record paying crowd an interesting show. We'll know about this later on when the two get in better fighting shape.

There is no other heavyweight in sight who compares with either, at his best. Someone may come along later on, but he is still some distance away. High-class heavy weights arrive at wide intervals. The 4-Fs produced little and neither army nor navy has any sensation showing along the horizon.

It might be suggested here that the Army's football team has taken the lead in the new Golden Age. It is better than any football team that followed the first war. Blanchard and Davis have been mentioned more than any two football players one can recall off hand. And both will be around next fall, with another fine Army team that might

easily set a three-year record.

What about baseball? Most of the stars will be found among such former stars as Joe DiMaggio, Hank Greenberg, Joe Gordon, Bobby Doerr, Marty Marion, Terry Moore, many members of the old Yankee and Cardinal casts.

But there is still hope for such young entries as Dave Ferriss of the Red Sox, Wakefield of the Tigers, Stirnweiss of the Yankees, Schoendeinst of the Cardinals and a few more who may develop rapidly.

### Old Stars Returning

The majority of baseball eyes will be focused on former stars who should, in the main, be ready for baseball again next spring. Al Newhouser will again rate high up after a brilliant two-year record.

After the First World war, the ill-fated White-Black Sox of 1919 and the Giants and Yankees of the early '20s were unusually strong.

What about golf? So far, among the professionals, the top men are still Nelson, Hogan, Snead and McSpaden, who have been around quite a spell. We have no record of any young new pros crashing the spotlight at this moment. But the amateur side with Haas, Stranahan, Middlecoff, Doering and Givan will be above the 1919-1920 average. This list will hardly include a Bobby Jones, but in medal play against the pick of the pros they have been outscoring any set of amateurs we can now recall.

Professional golf may have to wait a while before giving the game a young star as good as the veterans still left.

Tennis? Not yet. Amateur tennis has no chance to match the Big Bill Tilden and the Little Bill Johnston of 1919 and 1920, on through 1925. Some of the kids may start moving up, but hardly in time for any 1946 or 1947 championships.

### Revival of Polo

Polo will be in for an even tougher touch. Most of the better polo ponies are now missing. Polo went almost 100 per cent to war and little competitive polo has been played in the last four years. Polo will need a longer road for its comeback to the days of Hitchcock, Milburn and others who were around in 1920 or 1921. But in spite of a lapse in form and class from 25 years ago there will be far more competitors in the field and a greater kid crop coming on.

The Varsity Club, made up of all Punehard lettermen, senior cheer leaders and senior band members, met Thursday in the auditorium and elected their officers for the year. They are: president, Philip Markey; vice-president, Walter Demers; secretary, Caroline Maylum; treasurer, Robert Moore.

#### INTERMURAL BASKETBALL

Boys' intermural basketball started Monday at 2 o'clock. The boys from Punehard who signed up are: P. Southwick, J. Pengree, B. Henderson, G. Haselton, T. MacLeish, R. Kydd, P. Jackson, D. Porter, J. Wood, B. Fairburn, R. Northam, R. Martin and T. Cavallaro. The boys are divided into color teams which compete on schedules made up by Mr. Dunn.

### At Abbot . . .

The winter term at Abbot Academy begins with the return of students and faculty on Wednesday, January 9. Classes met on the regular schedule on Thursday, January 10.

Two new names will appear in the faculty lists. Mlle. Marthe Baratte will join the French department taking the place vacated by Mme. Jean Leisner. Mlle. Baratte was educated in her native France until she reached college levels at which time she came to the United States and entered Connecticut College where she took her A. B. degree. She returned to France and studied at the Sorbonne University specializing in Phonetics. Returning to the United States she became a student at Cornell and took her Master's degree from that university. She has been a member of the faculty of Connecticut College, and Elmira College, and has been a member of the staff in Fine Arts at the Lyman Allyn Museum at New London.

The second addition to the Abbot Academy staff is Mrs. Alexander Calhoun who was last year a member of the Abbot faculty and teacher of Mathematics. It is with special warmth that Abbot welcomes the return of Mrs. Calhoun, and it is with special pleasure that Miss Hearsey makes the announcement to Andover where Mrs. Calhoun has many friends. During Mrs. Calhoun's absence from Abbot she has been with her husband who has now returned again to assignments in the Far East.

On Sunday evening the Vespers services will be conducted by Mr. Baldwin of Phillips Academy.

### THE WORLD AT ITS WORST by Gluyas Williams

THE END OF A GOOD TIME AT A PARTY COMES WHEN A HOSTESS ASKS A GUEST TO SING HIS COMIC SONG AND THE GUEST, REALIZING THAT EVERYONE HAS HEARD IT A DOZEN TIMES, DEMURS; WHICH MAKES THE OTHERS, THINKING HE WANTS TO BE COAXED, REDOUBLE THEIR PLEAS, WHICH HE RECOGNIZES AS MERE POLITENESS AND REDOUBLES HIS REFUSALS AND BY THAT TIME NOBODY KNOWS HOW TO LET THE MATTER DROP AND A WRETCHED TIME IS HAD BY ALL.

### Man in Search of Hotel Room

**Applicant.**—Can I get a suite?  
**Clerk.**—You're in the wrong line; all psychopathic cases are in that other one.  
**Applicant.**—I'm not crazy; I'm just over-planning.  
**Clerk.**—Please stop annoying me.  
**Applicant.**—Very well, I want to be reasonable . . . I'll forget the suite and take a double room with bath.  
**Clerk.**—You just wish to be real fair?  
**Applicant.**—That's it. I might even consider a single.  
**Clerk.**—For what week next July?  
**Applicant.**—Don't make it that difficult. I've got to have a place to sleep tonight.  
**Clerk.**—Anybody who sleeps here tonight has been booked since Pearl Harbor.  
**Applicant.**—There must have been somebody cancel since that time.  
**Clerk.**—There is no such thing as a cancellation any more. If a man decides not to come he raffles off his reservation.  
**Applicant** (confidentially).—Listen, I have a reservation. I wrote in four months ago.  
**Clerk.**—What was the name?  
**Applicant.**—Eisenhower.  
**Clerk.**—There are 26 Eisenhowers here now.  
**Applicant.**—Come to think of it, my name is Chester Bowles.  
**Clerk.**—We have 11 Chester Bowles, 18 General Marshalls and 7 MacArthurs ahead of you.  
**Applicant.**—You look like a feller I went to school with back in Ansonia.  
**Clerk.**—That's an old one.  
**Applicant.**—How's your mother?  
**Clerk.**—That's been tried, too.  
**Applicant.**—What of democracy? . . . the pursuit of life, liberty and indoor sleeping?  
**Clerk.**—Don't rub it in. I tell

you flatly there are no rooms.

**Applicant.**—Then why do they put clerks at these windows?

**Clerk.**—We're being DISCIPLINED!

### THOUGHTS IN A HOUSING CRISIS

The woodchuck now seems smart to me—

On me he has the laughter:

He digs himself a winter home—  
 And pulls the thing in after!

I'm even jealous of the skunk—  
 His odor I'm forgivin':

I'd gladly smell that way if I  
 Could dig a place to live in.

The housing crisis has reached a point where it is suggested that "Tenting Tonight" or "Home, Sweet Home" was an American folk song.

Six Argentina autoists have completed a trip from Buenos Aires to New York by automobile over the Pan American highway. They report the most disturbing feature of the trip to have been those constant cracks, "Hey, where do you think you're going?"

The German general staff ranked Ike Eisenhower as the greatest military man on our side, with Patton the most feared commander in the field. They reached the conclusion upon recovering consciousness.

Elmer Twitchell is writing a book about congress. Title: "Forever Yammer."

Henry Ford is considering an annual wage for employees instead of a weekly one. Under such a plan a worker will know that there will be no season of the year when he will be driving in neutral.

The Office of Price Stabilization says the cost of living increase since January, 1941, has been 33 per cent. You can tell from this that it hasn't tried to buy an apple pie, a pair of socks, a bathtub faucet or toy for Junior in all that time.

Barney Oldfield has remarried the wife he divorced almost a quarter of a century ago. The old models are the best.

MacArthur's war criminals hunt is now so close to the throne that Emperor Hirohito must feel as if he were sitting on one of those disappearing chairs at Steeplechase Park.

There is every indication that among their New Year resolutions for 1946 many people took a pledge to give up working.

### Travel Note

Let grandma tote the suitcase,  
 Let baby fetch and carry,  
 For now, alas, the Red Cap  
 Is purely legendary.

The sentence imposed on Yama-shita ends the philosophy of the Japs that no noose is good news.

One billion, three hundred and six million dollars were bet on horses at the tracks this year. This is not hard to explain: Horses were the only things not hard to get.
