## Finance Com. Sees \$7 Increase In Tax Rate

### FINANCE COMMITTEE REPORT 1951

	1950	1951
Budget Appropriations	1,029,701.65	1,086,944.10
Recommendations of Special Committee on Salaries (April 1 to Dec. 31.)		42,000.00
		1,128,944.10
Special Articles		
1950 Appropriations	98,531.00	
*1951 Recommendations		35,372.00
	1,128,232.65	1,164,316.10

\*Not including articles for which amount has not been determined.

The finance committee has given its approval to special articles in the town warrant totalling \$35,372., or about half the sums called for in all the articles.

In its annual statement the committee says it sees higher taxes at the national, state and local levels, consequently it recommends only those expenses deemed essential to the health and well-being of the community.

With the new school building appropriations, a reduced amount coming back from the state, ordinary budgetary increases, and salary increases for town employees it sees all making a total increase of about \$7 in the tax rate.

Its statement is as follows:

"Taxes will be greatly increased for all Andover citizens in 1951. Federal taxes will be higher to meet in part the demands of national defense. The state budget, the largest in history, will require a substantial increase in the state levy—an increase which will be further inflated by some fifty million dollars should the courts hold valid the larger old age benefits voted at the last election.

"Under these conditions the finance committee believes that the affairs of the Town of Andover must be conducted with the strictest economy. Accordingly in their study of the various department budgets and of the special articles in the warrant they have disapproved all projects not deemed essential to the health and well-being of the community or to efficiency of operation, and the proper maintenance and improvements of town property. In these troubled times all necessary services must be maintained at full efficiency but non-essential (Continued on Page Four)

a Maine camp for several years.

Mr. Chapin is married and has two children, E. Barton Chapin III, and Catherine Gansevoort Chapin. Mrs. Chapin is the former Jane Woodman of Westbrook, Me., a graduate of Wheaton college, and taught at Shady Hill school before her marriage.

**Shawsheen PTA**

If noise and crowds are any criterion the Shawsheen PTA "Fun Night" program, last Wednesday evening in the school hall, was a "howling" success. Practically all the children, their parents and the teachers of the school turned out to enjoy an evening of games, prizes, bargains, and refreshments. The games were under the general chairmanship of Paul McKinnon. He was assisted at the auto game, name game, fish pond and darts by Norman Miller, Alan Dunlop, Rudolph Dietrich, Walter Caswell, John Lowe, Herbert Orstein, Dr. Alan Woodcock and Edward King.

Mr. and Mrs. Gerald Pelletier, Mr. and Mrs. Frederick Maxwell and Mr. and Mrs. John Galan were kept busy selling hot dogs and coke. Rocco Mirisola sold balloons and Miss Eunice O'Donnell analyzed their parents' handwriting. The grab barrel was an extremely popular place presided

over by Mrs. James Byrnes, Mrs. John McCarthy and Mrs. James Nangle. Beautiful cakes and cookies were available at the bakery table, sold by Mrs. Wilfred Dwyer, Mrs. Thaddeus Michalski and Mrs. Joseph Gaudette; and Mrs. Rudolph Dietrich.

Mrs. Alan Dunlop, Mrs. Douglas Howe and Mrs. John Reilly had plenty of candy to satisfy everyone's sweet tooth. The white elephant table had plenty of bargains which were in great demand and Mrs. Walter Caswell, Mrs. Wallace Fiedler and Mrs. Albert Carpenter were in charge of them. Mrs. Byron Wiener decorated the hall with valentine hearts and Mrs. Alan Flye was general chairman of the whole affair, which was declared a great success both socially and financially.

**Woman's Club**

The literature department of the Shawsheen Village Woman's club met at the Andover Inn last Wednesday morning and listened to another in the enjoyable series of book reviews by Mrs. Lewis Putnam. Mrs. Andrew Sullivan opened the meeting in the absence of Mrs. Norman Miller, chairman, and Mrs. Jack Barry presided at the coffee table.

**Dramatic Department**

The dramatic department of the club met at the home of Mrs. Richard Himmer, Virginia rd., last Friday afternoon. Miss Mabel Marshall, of the junior high school faculty, spoke to the group on the art of stage and character make-up. She showed the various materials needed in a complete make-up kit and demonstrated on two members the characteristics of extreme youth and age. Dessert and coffee were served by the hostesses, Mrs. Arthur Janes, Mrs. Richard Sullivan, Mrs. James Gorey, Mrs. James Dean, Mrs. Charles Fowler and Mrs. Himmer.

**Valentine Play**

A group of children on William street, recently made a contribution of \$3.45 to the Heart Fund; the money having been earned completely on their own initiative and effort. Susan Bradley, Donna Kent, Cynthia Thompson, Kathy O'Shea, Anne Benedetti, Richard Jolliffe, Charlene and Corinne Benedetti and Lisa Thompson presented a program of entertainment at the home of Mr. and Mrs. Fred Bradley, 9 William st., one day last week. They presented a play called "Be My Valentine" which they found in Child Life magazine, and picked out, memorized and trained themselves in the parts. They also sold "grabs" and pop corn to the many children and adults present.

**Personals**

Mr. and Mrs. Stafford Lindsay, 6 Argyle st., left last Friday for Detroit, Mich., to be gone about a week. They will also visit with their son and his family, Dr. and Mrs. Stafford Lindsay Jr., in Rockford, Ill.

**Says U. S. "Way Of Life" Is Best**

"Never in the history of the world has any country, once it started down the road to socialism, ever successfully turned back and restored its democratic form of government; instead, it ceased to exist."

This was one of the many pertinent statements made in an address before the Andover Service club last Thursday night by Herman W. Seinsworth, industrial relations director of the A. C. Lawrence Leather Co., of Peabody, discussing a condensed report of the "Freedom Forum" developed by Harding college of Searcy, Ark., on "The American Way of Life."

Citing many facts to show the American way of life was superior to any other he reported that with only 6 per cent of the world's land and only 7 per cent of the world's population the United States has created 45 per cent of the world's total wealth.

"We have a marvelous story which needs to be told," he went on to say. "So far our system has preserved the liberty of the individual to a degree no other economic system ever has. It has produced the greatest productive machine in history and made it possible to win two world wars."

Communism, he told his audience, has made great inroads in this country. The plan calls for infiltration in the government, army, navy, religion, education and organization of workers.

The Freedom Forum movement, he said, is not a political movement. One of its aims is to arouse people to a point where they will let our representatives at Washington know by letter or by vote what we want.

Referring to planned economy he asked where is the working model to follow? England? France? Russia? None, he said, could be compared to the American system with its great accomplishments.

There is one common denominator of human progress, he claimed—

## Finance Com. Sees Tax Rate Increase

(Continued from Page One)

projects, however desirable under normal conditions, must be deferred for a more stable future.

"Despite every effort to control expenses we face in Andover a substantial increase in the tax rate due to the school building program and to the fact that there is a reduced amount coming back to the town from the state. These two items alone will increase the tax rate approximately \$5. The ordinary budgetary increases that cannot be avoided will add further to the tax rate, and finally the decision of the town on the question of increasing the salaries and wages of all town employees in accordance with recommendations of the committee appointed at the special town meeting last November will determine whether there will be another \$2 to \$2.50 increase in the rate.

"It will be remembered that the article calling for a \$10 per week across-the-board increase in the salaries and wages of all town employees was, by vote of the town at the special meeting, amended to provide for the appointment of a committee of three citizens to study the question in cooperation with the heads of the various town departments and to submit a report and recommendations to the next annual town meeting. The committee has published its report which will presumably be acted upon at the town meeting in March. If its recommendations are accepted the above mentioned \$2 or \$2.50 increase in the tax rate will result, making a total increase in the tax rate of perhaps \$7 or 19.5%.

"In the aggregate the additional sum required to pay the salary and wage increases recommended by the committee is \$42,000, for 1951, and since this amount covers only three-quarters of a year's cost the amount that will have to be expended in the full year 1952 will be \$56,000. The finance committee has carefully computed the amount of the increase recommended for 1951 allocated to each of the town's departments and these figures will be found in the report on the budget later in this report.

"We wish to call attention to the fact that there is no power in the voters to fix the salary or wage of any town employee other than regularly elected town officials. The limit of the voters authority is to appropriate sums of money as requested by department heads for the operation of their departments;—it is the responsibility of the department heads to use such part of the sums appropriated as they consider proper for the salaries and wages of their personnel. The finance committee deprecates what appears to be a growing tendency of town employees to appeal directly to town meetings for adjustments of their compensation. Their proper recourse is to their department heads with whom the responsibility lies for establishing proper salary and wage scales within their departments."

Articles disapproved are: 7, for \$1500 to improve Shaw property; 18, \$4500 to purchase land and widen curve on westerly side of Shawsheen road; 19, \$1500 to acquire land on Greenwood road and relocate roadway; 24, \$2100 to improve lighting in library; 26, \$1300 plus turn-in value of old tractor and mower for new mower for tree department; 30, \$4500 to extend water main on Spring Grove road. It recommends this application be referred to the board of public works.

The committee also reports that the following articles are to be withdrawn; 11, \$1300 and old car for new car for chief of fire department; 12, \$2500 for improvement of Lowell street near Argilla road; 13, \$14,000 to enclose Roger's brook as it flows through the park; 14, \$4700 to buy land at Argilla road and Lowell street to improve road. These total \$22,500.

## Use Your Vote

In discussing "The American Way of Life" before the Andover Service club last week the speaker, Herman W. Seinsworth of the A. C. Lawrence Co., of Peabody, called attention to the importance of making our wishes known at Washington by letter and by vote.

He went on further to point out that at the last presidential election with 94 million eligible voters only 49 million bothered to cast their ballots!

The right to vote is a basic part of our way of life, and whether on the national, state or local level, should be exercised on all opportunities by those qualified to participate in voting.

We are approaching another election here in Andover with contests for several offices which should command the attention of all voters.

Three of the town's citizens are presenting themselves as candidates for two seats on the board of public works; three more are candidates for just one vacancy to be filled on the school board; two are candidates for the one post open on the housing authority, and four are running for constable with three to be elected.

These offices are important ones in the progress and future development of our community. They should be filled only by those best suited to perform the duties they require.

In order to vote intelligently next March 5, voters should make it a point to become familiar with the record of each candidate so that those best qualified may be selected to take their part in directing the business affairs of the town.

In order to give the voters a guide in this direction The Townsman next week, in cooperation with the Andover League of Women Voters, a non-partisan organization, will publish brief sketches of the candidates who are engaged in contests for office.

It is important to vote. At the last town election only 3344 of the town's 7151 eligible voters, or about 47 percent, cast their ballots.

For the coming election the number of eligible voters will be slightly more than the 7151 of last year. True, several town officials will be returned to office without contest but a healthy, active interest in town affairs should bring more than 47 percent of the voters to the polls.

Dollars will be steadily cheaper and buy less as wages and prices continue to rise, despite theoretical controls.—Berea (O.) Enterprise.

If the American way of living is not the best, no other nation has been able to prove it.—Dillon (S. C.) Herald.

## VITAMINS...and their use -

A great many people are in better health as a result of using vitamin preparations.

For example, many persons have had bad diets for long periods. For such persons even a good diet is inadequate; they often need special treatment. There are others who will not give up their bad food habits.

Elderly people often do not eat enough, even of a good diet, to obtain all the vitamins they need. Others keep their food consumption down in order to be slim and may eat too little to provide adequate amounts of vitamins.

Few people know enough about vitamins to select them properly so they wisely rely upon their physician to advise them and their pharmacist to supply them with the vitamins they need. There is no substitute for professional guidance in matters affecting your health.

## INTERNATIONAL WHIRLIGIG - By John Fisher

### Kremlin Dreads Growing Anti-Soviet Block

The tense free world is not the only combination that is watching the simmering Balkans with apprehension at the approach of spring and fighting weather.

Stalin and his Soviet bloc consuls have their worries, too, lest a Balkan Communist Federation emerges, fused by Titoism and no longer subservient to Mother Russia, or a pro-West regional alliance is formed by Yugoslavia, Greece, Turkey and eventually Italy and the Arab States.

The reported massing of the Rumanian, Hungarian and Bulgarian armies may be intended for a knock-out slug at Tito. It may be the mobilization of a huge "police force" to deal with an anticipated defection of pride-stung Czechoslovakia and with deviationist trends in her neighbors. It may be assembled to stiffen the spines of loyal Italian Reds, now beset by internal dissensions.

Yugoslavia, Greece and Turkey form a "firm shoulder" or "defense anchor" to any Soviet military stab into Europe.

Turkey has approximately 400,000 men under arms. Yugoslavia 400,000 and Greece 150,000—with reserves quickly available. Tito in a recent speech declared that Rumania has 300,000 men under arms, Bulgaria 195,000 and Hungary 165,000—backed by ample reserves and, of course, by the giant Soviet army.

### Allies Could Protect Flanks

A powerful Allied flank build-up in the Balkans—threatening the Soviet Ural, Baku, Turkestan and South Russian industries—and another in Scandinavia for use by air forces, would menace any Soviet advance on Europe by way of Germany. In the event of such a thrust, either flank would give the West a base for A-bomb strikes and eventual ground counter-attacks.

To mitigate these dangers, Stalin, as in the case of his Red Chinese and North Korean dupes, is using his European satellites.

The isolated peoples of Hungary, Rumania, Bulgaria and Albania are subjected to a blaze of anti-American and anti-Tito propaganda so that their hatred will be at the boiling point should their stooge armies be ordered into battle by the Kremlin dictator.

About 75,000 Hungarian workmen are taking courses in rifle practice. "Our aim," admitted Istvan Kenez, head of the project, "is to develop target shooting which is highly significant from a military point of view."

The army also has stepped up its marksmanship. Rifle ranges contain such signs as: "With a bull's-eye hit, you protect peace." The Budapest radio announces, "Our youth yearn for the day army camp doors open for them."

Magazines are distributed, listing the American diplomat, John Foster Dulles, as Public Enemy No. 1. The slander reads, "Occupation: murderer. Any court with a spark of decency would sentence Dulles to death."

### Russia Rules Rumanian Army

The Rumanian army is completely under the Moscow thumb. Its old, non-political, professional officer class has been purged. Almost the entire officer corps is composed of former war prisoners in Russia, who were indoctrinated in Communism. They are compelled to continue their ideological studies and to impart Red ideas to their men. They must also

learn the Russian language to cooperate smoothly with Soviet army officers.

Even better trained Marxists are the police force under the ministry of the interior. Army enlisted men and policemen wear the same uniforms. In addition to being schooled in terror measures for civilian suppression, the police are taught military science. The force, approximately 300,000 men, could be swiftly dove-tailed into the army system.

Among the many anti-American slurs of Radio Bucharest is this latest scurrility: "The Pope and his cardinals, on orders from their American masters, are engaged in new plots, including a two-year school course in which Catholic priests are trained as spies."

New military classes have been called to the colors in Bulgaria. Units normally scheduled for demobilization have been retained in service, including those in the small Bulgarian Black Sea navy.

### Army Loyalties Doubted

Each soldier takes a loyalty pledge, vowing, "If I violate this oath, let me be punished by the law and the hatred and contempt of the working people."

Apparently the army is not yet sufficiently indoctrinated for aggression. Its own newspaper, Narodna Voiska, is demanding harsher penalties for insubordination and disaffection. General Dikoff recommends more effective communist cells within army units and additional "peeping Tom" commissars to spy and squeal on troops during off-duty hours.

Fresh fury against Belgrade, London and Washington is being manufactured in Sofia. The Communists had been gleefully licking their chops as the Yugoslav drought brought on the famine which, in turn, weakened Tito's military might. Then the wicked Americans spoiled the Red fun by shipping grain to the starving people.

Bulgarian government spokesmen declared that such aid proves that the "American imperialists have bought the Tito gang of international spies. Judas Toto, for a few million dollars from Wall Street magnates, has bartered the vital interests and the national independence of Yugoslavia."

### Denounced for Accepting Aid

"The Tito clique," cried V. Poptomov of the Bulgarian Politburo, "reveals itself the foul agency of American-British imperialism. With lackey servility

the Titoites are performing the  
task assigned them by Washington,  
that of turning Yugoslavia into a  
springboard for aggression. . . .  
for the sake of realizing the  
lunatic plans for world domination  
by the American monopolists."

Poptomov maintains that Wash-  
ington is "knocking together a  
Balkan military alliance of Yugo-  
slavia, Greece and Turkey." He  
quotes Ulus, a Turkish paper, that  
this "Balkan bloc is essential,  
useful and possible for the struggle  
against Bolshevism." He also  
cites Premier Venizelos and other  
Greek leaders as advocates of  
such a team, which, according to  
Venizelos, "would have 80 divi-  
sions at its disposal."

Sofia broadcasts that both  
Greece and Yugoslavia are mass-  
ing troops for an attack on Bul-

garia and Albania and warns the  
Turks that action against Bulgaria  
will involve Turkey in hostilities.

This two-way war of nerves in-  
dicates that Stalin dreads an anti-  
Soviet toehold in the Balkans. So  
long as a strong Yugoslavia,  
Greece and Turkey stand on his  
flank, a move against Europe is  
in some jeopardy.

## PUNCHARD HIGH

By JANET THOMPSON

**Excursions**

During the past week various groups of Punchard students have been making excursions either to museums, a conference, an art gallery, or industrial plants. Monday, Feb. 12, Miss Frances Dalton of the art department took her pupils to the Addison Art gallery at Phillips academy, while on Tuesday, the practical arts girls, accompanied by Miss Margaret Hawkesworth, visited Playdon's flower shop. The girls saw and learned much that was of interest to them in their study of potted plants and cut flowers.

A total of 48 biology and practical arts students went into Boston Wednesday, and visited both the Boston Museum of Science and the Harvard Museum. The glass flowers and mineral and lighting exhibits were of particular interest to the group, as were the live animals at the science museum. The students were "acquainted" with a number of these animals which Gilbert Merrill brought to Punchard for an assembly program this year.

Owen Hinkley and about 50 boys visited the Ford assembly plant in Somerville Thursday, where they were guided on a tour throughout the place.

Finally, eight Punchardites and Mervin E. Stevens made an all-day trip to Boston, attending a high school drama conference at Emerson college in the morning and afternoon and witnessed a performance of "Romeo and Juliet" in the evening.

**Biology Lecturer**

Oscar M. Root, biology teacher at Brooks school in North Andover, gave a lecture on New England birds Thursday before the biology students. Mr. Root discussed the mating and nesting habits, the coloring and migrations of many birds which he brought for inspection. He also gave an interesting demonstration of the proper manner of banding a bird, performing on a live purple finch.

**Novel Exhibits At The Library**

There are two unusual exhibits at the Memorial Hall library, one of miniature objects, the other of Indian relics. Both may be seen for a short time, and both are loaned by Andover residents.

In the entrance to the main reading room, the glass case holds the Indian collection of Thomas H. Richardson; it includes stone objects, such as a net sinker, charm stones, tomahawk, grain grinder, scrapers and a flint chisel. Among the arrow heads mounted on two large sheets of board, are dog ears, flying birds, half moons, saw edge, barbed, "owls on limb," bat wings, willow leaves and bevel types. The relics were found in many states in the union. Each object has been carefully marked and the spot in which it was found has been noted.

The exhibit in the young people's room will have much to charm both adults and children. This collection of "little things," loaned by Mrs. David Darling, is composed of such objects as ivory carved animals, horses, camels, rabbits, etc., each an inch long. There are carved bears made from inch blocks of wood, silver objects among which is a llama less than an inch long. Perhaps the most unusual is the bull fight scene, a fine collection of figures less than an inch tall, even to the bull.

**P. A. Sports...**

Phillips academy's athletic teams enjoyed a memorable day Wednesday, Feb. 14. The hockey team won 5-0 over rival Exeter in dedicating its new skating rink; the basketball team edged Tilton school 49-48; and the wrestling team took a 31-3 triumph over Tufts Fresh. In a dual meet the track team dropped a 53-46 decision to Dartmouth Fresh.

Mr. and Mrs. Clester Matthews are ill at their home on Center st.

Mr. and Mrs. Allen LeLacheur, 34 Elm st., enjoyed a recent performance of the Ice Follies.
