### Raises Question Of Flag Etiquette

Flying of the United Nations flag alone on Oct. 24, United Nations day, has brought about considerable discussion with conflicting views largely because there is as yet no clear ruling by congress on UN flag protocol.

The Andover League of Women Voters, which has made inquiry into the matter, points out that the five-year-old United Nations flag is historically unique, and congress has still to act on several bills concerning its proper place.

According to army use, the league notes, the UN flag is treated.

Andover has subscribed \$10,034. to the community chest drive or 53% of its quota of \$18,979, it was reported at the "dutch treat" meeting at the Lawrence YWCA Monday night as the half way mark in the campaign was reached.

The 300 or more workers under James R. Adriance, Andover chairman, are still engaged in their canvass and will make a further report of their progress at tonight's meeting in Lawrence.

The final and last report meeting of all chest workers will be held Monday, Nov. 5 and an all-out effort to attain the goal of \$201,824 for the 14 Red Feather agencies serviced by the chest will be made during the remaining days of the drive.

## Town Acquires Basso Property

Negotiations have been completed for the acquisition by the town of the Basso property off Chestnut street which borders the playstead.

This parcel of land, which is just under five acres, includes a 30-foot strip which will give an exit to Chestnut street, and another about 40 feet wide which will give an exit to Whittier street.

The town, with the cooperation of Fred E. Cheever, has taken over this property to be used in the future development of the central schools area. The authority to conduct this transaction was voted at the last town meeting.

The area lies easterly from the present baseball field and is bordered on the northerly side by Rogers brook.

Firemen will join with police in a temporary arrangement to provide better traffic safety for the school children of West Andover and Ballardvale.

This action was taken at a conference Monday night which the board of selectmen held with Police Chief George A. Dane and Fire Chief C. Edward Buchan. It follows petitions of delegations from both outlying districts of the town asking for more adequate protection for school children.

As a consequence it was agreed with the cooperation of the school department that in West Andover the dismissal time be set ahead 10 minutes in each case so that one police officer could cover that

We lived in a house numbered eleven, and I arrived on the course at eleven minutes past eleven. Later in the day I found out that eleven horses were to run in the big race, so I backed the eleventh horse on the card."

"And it won?"  
"No. It came in eleventh."

### Motorist Appeals Accident Fines

Arraigned in district court at Lawrence last Monday on charges of drunkenness and operating under the influence of liquor which grew out of a local accident, Thomas E. Reilly Jr., of Dover, N.H., was found guilty and appealed fines totalling \$50. Bail was set at \$350.

Officer Calvin Deyermund testified that Reilly was involved in a collision on Lowell street with a car driven by Warren Tyler of Washington ave., on the night of Oct. 21. Officer Robert Deyermund testified that Reilly told him he had been drinking several bottles of beer. He also testified he did not call a doctor at the request of the defendant after he had been taken to the police station, but he did call the man's wife.

Reilly testified that he was returning from Lowell where he had spent about half an hour with friends in a liquor establishment in the afternoon and had only a couple of glasses of beer. He said he was driving toward Shawsheen Village when he suddenly saw the other car come out into the street and that the accident occurred about the center of the road.

Tyler said he was making a turn in the roadway when he saw the other car approaching and stopped to let it pass behind him. He said he was waiting to back up when his car was hit.

The only way we can expect to get better legislation is to elect better legislators — which places the responsibility squarely in the hands of the nation's voters.

Those who plan to attend are reminded that there is a change in the days for different age groups to come. This time the older pupils come on Monday, the younger on Tuesday.

### DAVID AND BATHSHEBA COMING TO PLAYHOUSE

Darryl F. Zanuck's epic production, "David and Bathsheba," co-starring Gregory Peck and Susan Hayward and filmed in color by Technicolor, is now definitely set to open Nov. 6 for three days showing at the Andover Playhouse, where its forthcoming engagement has been a matter of top interest to filmgoers for some weeks. Rare-

ly has public enthusiasm been whipped up so far in advance for a motion picture, but rarely has a screen project so warranted it.

**Appeals For Skilled Nursing Personnel**

Mrs. Alvin Zink Jr., nursing recruitment chairman for Andover Red Cross, is renewing her appeal to the women of the community trained in this field to sign up with Red Cross for assignments in case of a disaster.

Although shelter quarters have been arranged by the civil defense authorities, they are at present considered to be inadequately manned with skilled nursing personnel. Although the offer of service would be appreciated at the time of such disaster, it is felt that time, and probably human life as well, would be saved in such an event if people had been assigned in advance to definite posts and knew without waiting for further directions where they could be of most help.

Registered nurses, nurse's aides, and certified members of Red Cross home nursing courses would be very welcome as members of Mrs. Zink's group, and may register by calling Red Cross headquarters.

school and then go to North Main and Union streets where he could cover the crossing of the children from the Shawsheen school.

Arrangements in Ballardvale are to have the one man stationed at the Ballardvale fire station step outside to the junction of Andover, Clark and Center streets to cover that intersection, and the police secure services of a special officer for duty at the railroad crossing. The latter would be on duty only a few hours each week.

Meanwhile, the state traffic engineers have started their study of vehicular traffic in the West Andover district, following a communication from the selectmen regarding the conditions there. A similar study will be made in Ballardvale.

The arrangements thus far made are considered only temporary until the surveys made by the state and also by the selectmen have been completed.

## A Public Trust

The recent disclosures of irregularities, influence-peddling and various unsavory practices in government departments have been an eye-opener as well as a profound shock to every thoughtful American. These evils gnaw away at the very foundations of the nation.

This is not just a matter of bribes and other clearly illegal acts. The law can deal with them. But there are certain borderline practices which are beyond the reach of law, and which lie within the realm of human conscience.

In the recent investigations, men of great political power, who used that power to influence the policies of government bureaus, said that they violated no law. That may be true—but they did something as bad or worse—they violated every concept of decency, morality, and honor in government.

This is not a partisan matter. The old, degrading techniques of city - machine politics have been brought to Washington. The flies have found the sugar.

The American people must make it unmistakably plain that in the conduct of their government they demand old-fashioned decency and honor, and that, as Grover Cleveland said, "A public office is a public trust."

\*\*\*

Lincoln's deathless words, "this government of the people, by the people and for the people" expressed exactly the intent of the founders of this republic. That intent assumed the existence of an alert legislation-conscious citizenry, passing necessary restrictive measures through duly elected representatives. Thus was the greatest degree of personal freedom to be maintained that was consistent with an orderly society. — Reading (Mich.) Hustler.

\*\*\*

On the average, only 10 per cent of the nation's forest fires are started by lightning and other natural causes. Most of them are caused by burning cigarettes. The rest are started by smoldering camp fires. — Greenville(Texas) Banner.

The knowledge and skills involved in the modern treatment of disease are so vast that they are far beyond the reach of any one man. That is why the health team includes many different professions, each of which makes its own important contribution.

Our contribution to the field of public health consists of filling prescriptions in such a manner as to satisfy the most exacting requirements of the prescriber. We make this statement with confidence because no prescription leaves our pharmacy until we are certain that it complies with the highest pharmaceutical standards.

### New Books

The Lobbyists, Schriftgiesser.

The first amendment to the constitution gave us all the right to petition for a redress of grievances. Here is the history of that petitioning from its early, simple stages to the present. Here are the good and bad effects and a discussion of the 1946 law which made some order out of the chaos.

Yangtse Incident, Earl.

In April, 1949, the little British frigate H.M.S. Amethyst went up the Yangtse on a peaceful mission. The Chinese Reds, who held the north bank, opened fire and for 101 days held the frigate immobilized. This is the story of the efforts of the British fleet to rescue her.

Lore Of The Old Testament, Gaer.

The author has sifted thousands of legends, parables, beliefs and romantic stories from a library familiar only to scholars and he has selected 300 of these and arranged them chronologically; this beautiful, interpretive work is the result.

Once Around The Sun, Atkinson.

The chronicle of a single year in America, as lived by an American newspaperman, a New Yorker, who spends as much time as he can at his country home. Lovely, well written and thoughtful book!

Toward Better Teaching, Assoc. for Supervision of Curriculum Dev. Excellent material on such sub-

jects as these: What does better teaching involve? Fostering security and satisfaction; Helping pupils develop self-direction; Providing opportunities for social action, etc.

Cable Car Carnival, Beebe.

In the forward, the authors point out that the cable car would be as out of place in Chicago or Kansas City as a swanboat would be anywhere but in the public gardens.

## New Phone Service Effective Dec. 25

Elimination of the toll charges on calls between Andover and Lawrence will be effective next Christmas day when extended area telephone service will become operative.

This means that on and after Dec. 25 the town's 3500 telephone subscribers can make calls in the Lawrence, Methuen and North Andover area without a toll charge.

For subscribers of residential phones in Andover this will mean a monthly increase of 50 cents, and 75 cents for unlimited service lines.

This will also mean an increase from 25 to 60 trunk lines between Lawrence and Andover. It will mean an increase in the number of operators here, and a decrease in the Lawrence exchange.

Equipment for the new service has arrived here and is being installed.

## PLEGED TO FRAIS

Two students from Andover have recently been pledged to fraternities at Bowdoin college where they are freshmen. James E. Baillie, son of Mr. and Mrs. Andrew Baillie, 9 Carlisle st., is pledged to Alpha Delta Phi, and Walter C. Tomlinson Jr., son of Mr. and Mrs. Walter Tomlinson, 53 Cheever circle, will become a member of Kappa Sigma.

MISS GLADYS THOMSON

Students To Stage Brilliant Comedy

The annual Pynchard junior-sophomore play, "Brother Goose", will be presented at the Memorial auditorium at 8 p.m., Friday, Nov. 16.

This brilliant comedy will find Miss Gladys Thomson of the class of '54 in the leading feminine role, that of "Peggy who comes to the rescue." Peggy appears to be rather self-conscious and different - even light-headed - at times but she knows what she is doing.

Miss Thomson was in the junior high play "Yankee Doodle American" last year.

Featuring an excellent cast "Brother Goose" is definitely a play of delightful comedy. Mervin E. Stevens, who in the past has presented many hit productions, is directing.

"Holiday Fare" Demonstration

Alpha Phi Chi sorority will meet in the South church vestry tonight at 8 p.m. Many members are expected to be present to enjoy the "Holiday Fare", the demonstration to be presented by Mrs. Marvella Morse Mitchell, Haverhill caterer. Slides of wedding cakes, fancy foods and table decorations will be shown after the party sandwiches have been made.

An added feature is the harlequin loaf that Mrs. Mitchell is donating to the sorority. This loaf will be auctioned off at the end of the meeting.

Refreshments are in charge of Mrs. Lucius Jones, chairman; Miss Louise Sherman, Miss Margaret Bascom, Mrs. Alvin Zink Jr., Mrs. Harold Dennison, Mrs. Kenneth Wallace, Mrs. William Hanson.

ENROLL AT MAINE

Andover students registered at the University of Maine (Orono, Me.) include Paul F. Desmond, 101 Elm st., Patricia Hamblet, 62 Chestnut st., and Ruth A. Johnson, Bancroft rd.

Library To Hold Open House Nov. 18

Friends of the library are cordially invited to attend the annual Open House, to be held there from 3.30 to 5.30 p.m. Sunday, Nov. 18.

As in the past there will be a display of new books in both the main reading room and in the young people's library. These displays will be more complete than those earlier in book week, observed from Nov. 11 - 18. All books on display will be held on reserve for those who sign for them.

The highlight of the afternoon will be a talk by Mrs. Bradford Washburn, who, with her husband, was part of the scientific expedition that reached the top of America's highest mountain, Mount McKinley, Alaska's 20,000 ft. peak.

Mrs. Washburn will accompany her talk with colored movies and slides.

Bedford Veterans Honor Gray Ladies

The Gray Ladies of Andover Red Cross chapter were entertained recently at a party given by the hospitalized veterans at the Bedford VA hospital.

Honored on this occasion were all the volunteers who give time and service to the social therapy programs of the hospital. Birthday parties, holiday celebrations, entertainments of various kinds are given from time to time. Most significant of all however, is the day each week (Wednesday is Andover day) spent in reading to patients, writing letters for them, taking the ambulatory patients for walks or drives, sewing, decorating and doing any of the many things which help to make the hospital days less tedious.

The printed programs for this fourth annual volunteer appreciation

party were done in the hospital's print shop under the guidance of Mrs. Herbert Allicon, leader of the Andover group. Included also are Mrs. Leon Field, Mrs. John Connors, Mrs. George Symonds, and Mrs. Winsor Gale. The Canteen group, Mrs. C. D. McDuffie chairman, rotate in service given by the membership of over 30 women. Cooperating with the hospital in

this program are about 30 organizations, of which the Garden club and the Red Cross are active.

## 90% For! 10% Against

Railroad workers are represented by 23 standard unions. By mutual agreement, 20 of these unions—comprising about 1,200,000 men, or more than 90%—are working under wages and rules agreed to by them and the railroads. But leaders of three unions—with only about 130,000 men, or less than 10%—still refuse, after more than a year of negotiations, to accept similar wage and rules agreements. These are even more favorable than the terms recommended by the Emergency Board appointed by the President.

Yes, it certainly seems to be finally about time that the leaders of the three unions stop their delaying tactics—their quibbling. But the leaders of the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors continue to refuse. They continue a course of dillying and dallying. It is definitely time to

# END THIS QUIBBLING!

On June 15, 1950, an Emergency Board appointed by the President under the terms of the Railway Labor Act—an Act largely fathered by the unions themselves—made its recommendations on certain wage and working conditions ("rules" in railroad language) which had been in dispute between employes and the railroads.

**More Than 90% of Employes Accept**  
Since then, terms equal to or better than the Board recommendations have been accepted by about 1,200,000 railroad employes—more than 90% of the total of all workers. They are represented by 20 of the 23 standard railroad unions.

**Less Than 10% Refuse**  
But three unions—with about 130,000 men, or less than 10% of the total—have refused to accept, even after months of negotiations. These three unions are the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Order of Railway Conductors. These are three of the so-called "operating" unions. Already the highest paid men in the industry, their leaders demand still further advantages over other workers.

In all, there are about 270,000 operating employes. But not all of them, by any means, are represented by BLE, BLF&E, or ORC. As a matter of fact, less than half—132,000 to be exact—are in these three unions. More than half—about 140,000—are in other unions, principally the Brotherhood of Railroad Trainmen. What makes the whole situation so hard to understand is that these 140,000 operating employes are working under wages and rules which the leaders of the other 130,000 say they cannot agree to.

**What Do the Railroads Offer?**  
They offer these three unions the same settlement which was contained in a Memorandum of Agreement signed at the White House on December 21, 1950, by four brotherhoods and the railroads. Later these brotherhoods sought to repudiate this agreement. But on May 25, 1951, the Brotherhood of Railroad Trainmen signed a complete agreement carrying out the

principles of the Memorandum Agreement of December 21. They have been working under this agreement since May 25.

**What About Wages?**  
Under the terms of the agreement, yard engineers, firemen and conductors would now be receiving a wage increase of \$.34 an hour (\$2.72 a day) and road engineers, firemen and conductors would now be receiving an increase of 19½ cents an hour (\$1.56 per day). Large sums of retroactive pay have already accrued and if the agreement is carried out, will be paid promptly.

**What About "Cost of Living" Increases?**  
The White House Agreement includes an "escalator" clause under which wages will be geared to changes in the Government's cost-of-living index. Two such increases—April and July, 1951—have already been paid to the 90% of railroad employes covered by signed agreements.

**What About the 40-Hour Week?**  
The White House Agreement calls for the establishment of the 40-hour week in principle, for employes in yard service. The employes can have it any time after January 1, 1952, provided the manpower situation is such that the railroads can get enough men to perform the work with reasonable regularity at straight time rates. If the parties do not agree on the question of availability of manpower, the White House Agreement provides arbitration by a referee appointed by the President.

**What Else Do the Union Leaders Demand?**  
The continued quibbling of the leaders of the three unions has to do principally with

rules changes, which have already been agreed to by the Brotherhood of Railroad Trainmen. Of these, the principal one seems to be that having to do with so-called "interdivisional service"—runs which take in two or more seniority districts.

The union leaders would bar progress and efficiency in the industry, and better service to the public, by maintaining a situation where they can arbitrarily stop a railroad from establishing such interdivisional runs. The carriers propose that if a railroad wishes to set up an interdivisional run, the railroad and the unions should try to agree on such run and the conditions which should surround its establishment, and if the railroad and the unions can't agree, the matter will be submitted to arbitration.

But the three union leaders still refuse.

**Rules Can Be Arbitrated**  
The railroads have not only offered these three unions the same rules agreed to by the BRT and covered by the White House Agreement, but have even agreed to submit such rules to arbitration.

**The Industry Pattern Is Fixed**  
With the pattern so firmly established in the railroad industry, it seems fair to suggest that the leaders of BLE, BLF&E, and ORC stop their quibbling and take action to make the railroad labor picture 100% complete. Certainly today's economic and international situation calls for a united front. And certainly no good reason has been advanced why these three unions should be preferred over all other railroad employes.

We are publishing this and other advertisements to talk to you at first hand about matters which are important to everybody.

### Films To Augment Book Discussions

Anyone interested in the new film discussion project to be held in Ballardvale is cordially invited to attend an orientation meeting at 8 p.m. Monday, Nov. 5, in the branch library. This series will continue every other week, and nine men who have played important roles in the progress of our country will be the subjects of the discussions. Benjamin Franklin, Thomas Jefferson, Alexander Hamilton, Lincoln, Calhoun, Webster and others will have a place in the programs, some of which will include biographical films.

The idea behind this series of programs is to see if a combination of good reading, films, and special discussion guides can be used to advantage with relatively untrained leaders. It is sponsored by the fund for adult education on the Ford foundation.

### MOVIES AT VALE

TURNABOUT

FOUR young men, visiting the Orient before the war, delighted in playing all sorts of pranks on a servant. With no trace of resentment in his attitude, he brought in their coffee, day after day. Finally they decided to play no more tricks on such a good fellow and told him so.

"No more nail shoes to floor?"  
"No."  
"No more put sand in bed?"

### Phone Company Increases Wages

Wage increases affecting most of its 34,000 employees were announced recently by the New England Telephone and Telegraph Co., following negotiations with the International Brotherhood of Telephone Workers representing employees in the plant department and the New England Federation of Telephone Traffic Workers representing switchboard operators and other employees in the traffic department.

It is estimated that the result of these increases, together with comparable adjustments being made for clerical workers and other employees in all departments, will be to add almost \$7 million per year to the cost of providing telephone service in the five New England states served by the company.

Under the new schedules, maximum weekly wage rates for telephone craftsmen are increased by \$5, and other rates in the plant department are increased by either \$3 or \$4 a week. For switchboard operators, the new schedules provide for increases of \$2.50 in maximum weekly wage rates, and either \$2 or \$3 a week at other steps in the schedule.

### Central Schools Plan Open House

Open house will be observed at the senior and junior high schools beginning at 7:30 p.m. Tuesday, Nov. 6. It is being arranged to give an opportunity to the parents to discuss any problems concerning their children and the report cards which came out Oct. 26.

The following evening from 7 to 8:30 p.m. the class rooms in the Stowe, John Dove and Jackson schools will be open. The principal, Miss Catherine Barrett, believes it to be a most important opportunity for parents of the younger children to cooperate with the teachers by visiting the schools at that time.

Much benefit can be received by those both at home and at school by individual discussions of problems, and she urges all parents to attend.

### IN RADIO SCHOOL

Pfc. Herbert T. Peterson, army signal corps, has returned to his studies at Fort Monmouth, N.J., after spending a 15-day furlough with his parents, Mr. and Mrs. Theodore P. Peterson, 79 Pine st. Pfc. Peterson is in specialty radio and at present is unattached.

### Trade Committees To Report Monday

The new Andover board of trade will meet Monday night when the committees appointed by the officers and board of directors will make their first reports.

The merchants committee, Stanley F. Swanton, chairman, met last Monday and discussed such matters as store hours for the Christmas season and for Armistice day.

The membership committee, William A. Doherty chairman, met to go over its plans for a campaign to enlist new members in the organization.

The publicity committee, Miss Miriam Putnam, chairman, held a meeting Monday when it discussed its functions and advanced suggestions for promoting the town and its advantages through the new organization.

The Christmas lighting committee, T. Augustine Farragher chairman, is planning for this event together with the parade to be staged by the Boosters club.

As the lights are being turned on the committee expects that merchants along the street will be in their stores and have their window lights turned on. The event, coming the night before Thanksgiving, is expected to draw a large crowd not only from all parts of town but neighboring communities.

The Legasse company, which is installing the lights, will have

two floats in the parade. Other merchants have expressed their intention of having floats and the rest of the parade will be in the nature of a football rally for the Thanksgiving day game.

### SALE FOR HOSPITAL

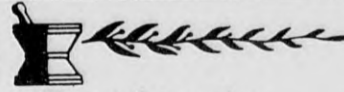

The Lawrence General hospital aid association will hold a monster sale at the Lawrence armory Nov. 9. Proceeds of the sale will go toward the purchase of hospital equipment.

### LEGION TO MEET

The Legion post will meet tonight in the post rooms and make final preparations for Poppy day and the Armistice day banquet, both of which will be held Nov. 10. The post will conduct a paper drive Sunday.
