Report On Schools Is Submitted

Andover public schools are in a "good" condition: its graduates have achieved "excellent scholastic records in private schools and colleges"; its teachers have done a "fine job" and its school committee members are "devoted to the welfare of the children".

That's the report which the League of Women Voters of Andover made Wednesday night to the Andover Parent Teachers Association at an enthusiastic meeting held in Memorial auditorium.

With determination to retain the high standards, now enjoyed by the Andover public school system, the committee, appointed by the League of Women Voters one year ago to study the public school system here, made definite recommendations for future action.

A growing school population, which is expected to reach 1900 children in the Fall of 1952, a growth of more than 600 in six years, inspired many of the proposals for a continued good educational system.

The committee, which has studied the educational system here for the past 12 months, all members of the League of Women Voters, comprised; Mrs. Lathrop Merrick, chairman, Mrs. Karl Haartz, vice-chairman, Mrs. Jack Barry, Mrs. Byron Weiner, Mrs. Robert Sides, Mrs. Dudley Fitts and Mrs. S. Marcus Sweet.

Members of the league, who assisted in the study were: Mrs. William Bennett, Mrs. Miles S. Pendleton, Mrs. J. Kenrick Butler, Mrs. Herbert Klein, Mrs. John C. Brown, Mrs. Adeline Wright, Mrs. Hart Leavitt and Mrs. Rodney Ball.

Miss John P. S. Doherty, president of the Andover Parent Teachers Association, presided at the business meeting and turned over the session to Mrs. Dudley Fitts, president of the Women League of Voters.

Extend Visiting Nurse Drive

The Visiting Nurse Association of Andover, Inc., furthered their plans for the current drive, which opened Jan. 21 and is scheduled to close on Jan. 31, this week.

Chairman of the drive, Robert F. MacMackin, said Thursday, that there is a possibility the drive will have to be extended another week owing to the great response which has been given to the drive. He said that the large area covered made it impossible to complete the drive in the scheduled time.

24 Candidates File For Elective Posts Annual Town Elections March 3 - Deadline For Filing Friday

With Friday at 4:30 p.m. set as the deadline for filing nomination papers with the town clerk, a total of 24 candidates for municipal positions had signified intentions of seeking office at press time and the annual town elections, scheduled for the first Monday in March, appeared to be shaping into a dull and spiritless affair.

Andover Man Hurt In Crash

George J. McCarthy, 16 Hidden rd., was injured Tuesday in Lowell when the car he was driving and a transportation truck were involved in an accident on the Lawrence-Lowell boulevard.

He was taken to St. John's hospital, Lowell, and discharged following treatment for rib fractures and abrasions on the right hand and left knee. Mr. McCarthy will be confined to his home for several days.

Police said Mr. McCarthy, who was traveling west on the boulevard, skidded on a curve and came in contact with the truck, which was traveling in the opposite direction.

Andover Couple Married Jan. 29

Dr. and Mrs. Charles P. Gabler, 25 Central st., announce the marriage of their daughter, Georgeanna Casper, to James Kirtland Selden, 42 School st. on Tuesday, Jan. 29.

LATE LOCAL

Frank J. A. Humphrey, Foster Circle, Townsman Editor, is confined to his home with an illness.

Contests loomed in the fight for positions in the board of public works where five sought the two vacancies which shall exist for three year terms. Alexander H. Henderson, incumbent, was joined by John M. MacKenzie, Ernest N. Hall, Joseph W. Connor and James V. Irvine in seeking election to this position.

Only other contest was in the planning board, where Vincent F. Stulgis and Richard C. Simmers were seeking the single election for a five year term.

It appeared Thursday that when Andover needs a constable it will be a case of "let George do it".

Candidates, who have filed for the position of constable at the annual town elections on March 3, are as follows: George A. Dane, George B. Brown, and George N. Sparks.
"By George".

Otherwise on Thursday, the annual town election shaped up as being devoid of the usual, spirited action, which makes political ambitions so inviting to many.

Twenty-four hours away from the deadline for filing this is how the town election picture took shape: Moderator, one year, Arthur

College President Warns Against Military Apathy

Opening the fifth annual University of Life session of the Andover Council of churches, Dr. Charles F. Phillips, president of Bates College, Lewiston, Me., made a strong plea for greater military preparedness on the part of the American people. By presenting a more determined front to the Communist nations, Dr. Phillips implied, the war in Korea might have been avoided. "We gave every indication that we would make no effort to protect either Korea or Formosa," he declared. "Consequently Russia was led to the conclusion that she could take those by a brief military attack."

He implied that we had demobilized too hastily after World War II, and that we must not be led by the current peace negotiations into apathy. We must take direct steps to prevent being drawn into further military action at points selected by the Communists.

These steps include an ultimatum along the lines that Winston Churchill proposed recently, clearly stating that further acts of military aggression will be met by direct action against Red China and Russia.

To back up such an ultimatum, some type of Universal Military Training should be instituted; although he suggested setting a term-

ination date for such a program.

"Such a program," he added, "must be backed by a strong military force but it must not reduce our willingness to continue negotiations with Communist nations so long as the Communists do not supplement such negotiations by military action."

In a discussion period following the address, Dr. Phillips enlarged upon his idea of Universal Military Service, since the idea stirred up many questions among the listeners.

Boy Scout Week To Be Observed

The nation's 2,900,000 cub scouts, boy scouts, explorers and their adult leaders will observe Boy Scout week, Feb. 6 to 12, marking the 42nd birthday of their organization by giving the nation a unique birthday present.

The Boy Scouts of America will launch a new three-year program known as "Forward . . . On Liberty's Team," a program of action designed to help keep America strong and free.

The boy scout birthday will be observed throughout the United States, its territories and wherever American families live, either in service in the armed forces, or as representatives of the government and business.

This year's celebration will honor the organizations and institutions whose sponsorship make possible the existence and growth of the nation's 80,298 packs, troops and explorer units.

University Of Life To Hear Lecture On Dartmouth Bible

After a successful beginning last Sunday, the University of Life continues with its second meeting at the Free Christian church on Sunday evening Feb. 3. Buffet supper will be served at 6:15 by the women of the West Parish church and the Union church of Ballardvale with Mrs. Frederick Ortstein and Mrs. William MacIntyre as the leaders of the two committees.

At 7 o'clock the Chapel service will be addressed by the Rev. Roy B. Chamberlin, Professor of Biblical literature at Dartmouth college, Hanover, N.H., on "The Making of the Dartmouth Bible". Professor Chamberlin, a graduate of Wesleyan university and Union Theological seminary in New York city, is a former pastor of the Church of Christ, Congregational, Hanover, N.H., and has been a fellow in religion at Dartmouth since 1927, where he is also chaplain. He is the only living editor of the famous Dartmouth Bible, an edition which is the result of years of painstaking scholarship, and which has proven so helpful to many since it came off the press in 1950.

Rev. Roy E. Nelson will lead the devotional service which precedes the chapel address. Mr. Alexander D. Gibson, who was chairman of last year's University of Life and who is a Dartmouth alumnus, will be chairman of the church seminar from 8 to 9 o'clock. Rev. Mr. Chamberlin will discuss "God and Man at College".

Rev. Charles H. Buck, Jr. will bring to the Bible seminar, which runs simultaneously, the second of his series of studies on the New Testament, "The Life and Teaching of Jesus". Rev. Dr. Buck is proving to be one who can stir one's thoughts and challenge one's opinions by the simple straightforward presentation of the facts which lead to his own faith and belief.

The young people are fortunate in having with them Mr. Suichi Muto, a graduate student at Harvard, who also studied at the University of Michigan, after graduating from the University of Tokyo. He studied law and banking in Japan where he also was a correspondent for a widely circulated Tokyo newspaper. In this country Mr. Muto is studying political science and economics, and is prepared to speak on "An Interpretation of the Bible; Buddhism and Christianity". He brings with him some Japanese paintings and is prepared to use some Japanese music to compare and contrast the culture of our two countries. Mr. Herbert Otis, president of the Andover council of churches will preside at the youth seminar.

B.P.W. Will Request Funds To Complete Water System

In order to complete the final link in the new 16-inch water main which in 1945 was brought down Lowell street from Haggett's pond to the center of the town, the board of public works will sponsor a special article in the town warrant next March for the installation of the last section in this system, a 16-inch line from Phillips street to the low distribution reservoir off Bancroft road.

The proposed route would be to continue the line from its present dead end at Phillips street, along Main street to Bancroft road and thence to the reservoir.

It is estimated that the present cost for the work will be about \$55,000, and that sum will be requested. Back in 1944 when the system was being planned it was figured that this section could be done for about \$22,000.

This remaining link of the system in the opinion of Sidney P. White, chairman of the board of public works, "is a necessary step to complete the service we started out to do in 1945". It will cut down the friction in pumping and will be of great value in the event of a large fire.

The board is also going to ask for an appropriation of \$4000 to buy an area of about four acres of land adjoining the Bancroft road reservoir. This would be used for the future enlargement of the reservoir

and allow sufficient surrounding space for its protection.

The land is owned by George J. and Melrena Flathers. In connection with this proposal Chairman White has recently received a communication from the owners stating that this is the last opportunity the town will have to purchase the land at the present price, which was set some years ago.

Boy Scout Week

In these days when the evidence points to a widespread weakening of the American moral fibre it is encouraging to note that a great moral force in America is growing even stronger.

The Boy Scouts of America celebrates its 42nd birthday during Boy Scout week, February 6 through 12. It is an occasion when we can pause and consider its mark on the youth of the nation. Since 1910 more than 19 million American boys and men have been influenced by this scout oath:

"On my honor I will do my best---
To do my duty to God and my country, and to obey the scout law;
To help other people at all times;
To keep myself physically strong, mentally awake, and morally straight."

Today nearly three million boys and men are actively enrolled in over 80,000 different units. Scouting is indeed a great asset to the nation. May it continue to succeed in influencing the lives of countless more boys as you go "Forward . . . on Liberty's Team."

Autoists Make Insurance Rates

Insurance rates are made by arithmetic. This is the statement of William Leslie, general manager of the national bureau of casualty underwriters discussing rates for automobile liability insurance.

It is most interesting to local motorists who have noted the increase in their 1952 auto insurance bills over those of a year ago.

For rating purposes, Mr. Leslie said, accidents are charged against the community in which the cars are garaged, not in the territory where they occur. This has been brought to the attention of motorists in this state on previous occasions when zone rates were being established, yet many who are paying higher rates are inclined to blame visiting motorists from low-rated communities for their plight.

The motorists in any given community make the arithmetic, Mr. Leslie pointed out. They can add it up as high or low as they wish without worrying that visitors from other territories are going to throw it out of balance to any important extent.

"The man behind the wheel makes the rates for his own community," he added, "whether he lives in Chicago and cracks up in the wide open spaces of Wyoming, or whether he is a planter from the South trying to show the Yanks in swirling New York how to drive."

This is important to remember while driving. The cost of an accident is charged right back to the driver's territory. Perhaps this knowledge will help persuade motorists to drive more carefully everywhere.

Fingold Speaker At Service Club

Drawing upon his experience as a former assistant attorney general of the state, Atty. George Fingold of Malden, known as the "racket buster of Suffolk county," related numerous stories of crime and racketeers in his address at the Andover Service club meeting at the Andover Inn last Thursday night.

Discussing the topic, "Is there a cure for crime and corruption?" the speaker told his audience that there was and that it could be done through the election of the proper officials. This, he said, is a matter entirely up to the public.

Atty. Fingold was introduced at the meeting by Frank L. Brigham, a past president.

The supper was opened with blessing by the Rev. Roy E. Nelson Jr., of the Andover Baptist church. Sam Osgood was winner of the free dinner.

The next meeting of the club will be held Feb. 14 and the program will be in charge of William F. Lucey who will present a panel of three newspapermen for a discussion of international, national and state affairs. The panel will be made up of William Heath, managing editor of the Haverhill Gazette, John A. O'Hearn managing editor of the Lawrence Eagle-Tribune, and Arthur Woodman of the New England Newspaper service of the state house. A question and answer period will follow the discussion.

PUNCHARD HIGH

By JANET THOMPSON

Drama Festival

A tentative Punchard cast is now rehearsing for a one-act play, "Among Those Present", to be entered in the Massachusetts High School Drama Festival. Since approximately forty-seven high schools wish to enter the Festival this year, the contest procedure has been changed. Instead of holding the state festival at one high school only, as in previous years, three sectional contests will be held.

Schools in northeastern part of the state will compete at Lynn Classical high; those in the western part of the state will meet at Northampton high; the southern high schools will present one-act plays at B.M.C. Durfee high in Fall River.

Eight or ten winners will be chosen from these three sectional contests. These will compete at the finals of the state festival to be held here at Punchard April 5.

First Aid Demonstration

Fire Chief Edward Buchan and Deputy Hilton demonstrated the fire department inhalator resuscitator to the Punchard First Aid Classes Monday. Deputy Hilton explained the procedure in using this mechanical means of artificial respiration and then compared the advantages of the inhalator and those of the manual means of artificial respiration, as taught by the American Red Cross.

The entire eighth grade will go into Boston next Tuesday, Feb. 5, to visit the Museum of Science. Through the course of the day, the

eighth graders, accompanied by G. Arthur Danforth, Robert Collier, and Benjamin Dimlich of the Junior High faculty, will hear a lecture in the planetarium and will be guided on a tour through the Museum.

Red Cross Plans Fund Campaign

The Red Cross Fund organization for 1952 swung into action with the joint meeting, on Jan. 23, of the fund planning and fund operation committees.

The first group to begin active participation in the campaign will be the Advance Gift committee, on Feb. 5. Joseph Allen, chairman of this group, re-emphasized the importance to Andover chapter of a Share-the gift plan on the part of those who live in Andover and work in other communities. He pointed out that the money used to support Andover chapter programs must be raised in Andover. Money given outside this community goes to other chapters, while Red Cross service required by Andover residents must be cleared through the local chapter, whether it be a request for blood, a problem of emergency communication with a person in the armed forces, a request for transportation or any other of the services this chapter is prepared to provide. Everybody living in Andover is urged to remember his own chapter with at least a part of his gift to Red Cross.

Fund chairman David M. Thompson announced a change in the traditional plan for the drive. This year there will be no solicitation of employee groups at their place of work. Instead, the contact will be made through the residential teams at the homes of all residents.

Working with Mr. Thompson and Mr. Allen are the following divisional heads: Arthur Reynolds,

corporate gifts; Charles Dalton, business; Mrs. Harold Johnson, residential; Harold Howe II, public schools; G. Grenville Benedict, Phillips academy. Also present at the meeting were chapter chairman Ernest S. Young; John E. Gilcreast, treasurer; Miss Barbara A. Loomer, executive secretary.

Shawsheen School Single Session

A group of parents whose children attend the Shawsheen school are interested in having the school department put the school on a single session program for a trial, for the remainder of the year. Many of the children live a long distance from the school and must walk both ways twice a day. All children are being given a ballot this week to deliver to their parents. These should be filled out by the parents giving their preference either for

or against the proposed single session, and returned to the school as soon as possible. If the single session is adopted, there will be a 30 minute lunch period, supervised by teachers, and children will carry their lunches. There will still be two kindergarten sessions, one from 8:30 a.m. to 10:45 a.m., the second from 11 a.m. to 2 p.m.

The starting and closing times will be set by Mr. Sherman and Miss Harnedy and the single session will give the pupils the same number of school hours per day as the present 2 session program affords. Mr. John Broderick is chairman of the group which is working on this project with Mr. Sherman and Miss Harnedy, and others on the committee include Mrs. James Jennings, Mrs. Alfred Bonanno, Mr. and Mrs. Paul McKinnon, John Winters, Knut Hansen, Frank Barkalow, Mrs. Andrew Baillie, William McCarthy, Mrs. Charles Benedetti, Mrs. Joseph Calcina, Mrs. Herbert Westbrook, Mrs. Murray Mealey, Mrs. Joseph DeMuyser and Mrs. Gerard Pelletier.

Woman's Club

The Shawsheen Village Woman's club will meet in the school hall next Monday, February 4 at 8 p.m. A vote will be taken on a recommendation which was made by the board of directors at the last club meeting. The board recommended that the past presidents, who had been members of the club for twenty-five years, may become honorary members. In order to become effective, this recommendation must be voted in the affirmative by two-thirds of the members present and voting.

Mrs. William Thompson, program chairman, will present Barbara Warren Shure, as the speaker of the evening, who will talk on "Current Theater". It is interesting to note that Miss Shure is the daughter of Phyllis Edwards, who presented the living pictures at the Christmas meetings. She is an actress herself and will recreate both plays and performances of stars in the theater world, thus assuring a very entertaining evening. Mrs. Irving Piper and Mrs. Herman Seinwerth will be hostess chairmen during the social hour which will follow the program.

Polio Drive

A large number of Shawsheen women will march through the streets of their immediate neighborhoods on Thursday evening when the Mothers March On Polio, sponsored by the Infantile Paralysis fund drive gets underway. At 7 p.m., when the fire sirens and horns signal the beginning of the drive, they will set out to visit all homes which display some form of illumination. Mrs. Frank Barkalow of Enmore st. has been in charge of recruiting mothers for the drive. This section has been divided into seven blocks and the block leaders and workers are as follows:

Block 1, Mrs. Albert Carpentier, leader; Mrs. Alfred Hahnenstein, Mrs. Stephen Licciardello, Mrs. Alan Woodcock, Mrs. Arthur Minzer, Mrs. Chester Kopatch, Mrs. Betty Richards, Mrs. Romeo King, Mrs. John Winters, Mrs. James Jennings, Mrs. Alfred Bonanno, Mrs. Morris Campbell, Mrs. John Broderick, Mrs. Harold Whitman; Block 2, Mrs. Alan Dunlop, leader; Mrs. Thayer Warshaw, Mrs. Walter Davis, Mrs. Harold Haller, Mrs. John Tansey, Mrs. James Prout, Mrs. John Moriarty, Mrs. Joseph Gibbons, Mrs. Priscilla Manning, Mrs. Arthur Redfern, Mrs. Lindsay Shuford, Mrs. Thomas Neit; Block

3, Mrs. Joseph Gaudette, leader; Mrs. Harold Jackson, Mrs. Joseph Bergeron, Mrs. George Snow, Mrs. Harold Wright, Mrs. Thomas Bevan, Mrs. Joseph Bresnahan; Block 4, Mrs. Allen Flye, leader; Mrs. Herman Seinwerth, Mrs. Alden Walls, Mrs. James Byrnes, Mrs. Norman Miller, Mrs. John Guild; Block 5, Mrs. Robert Watters, leader; Mrs. F. Jerry Leone, Mrs. Charles Benedetti, Mrs. Thomas Noyes, Mrs. David Bell, Mrs. Richard Locke, Mrs. Stanley Chart, Mrs. Frank Killilea; Block 6, Mrs. John Ehardt and Mrs. John Hewitt, co-leaders; Mrs. Frank Henrick, Mrs. Arthur Pomerleau, Mrs. Herbert Dawson; Block 7, Mrs. William Skully, leader; Mrs. Martin Finerty.

PTA Fun Night

On Wednesday evening February 13 at 7:30 p.m. the Shawsheen PTA will hold its annual "Fun Night" at the school hall. This is the time when all the children and their parents gather for an evening of merrymaking, game playing and bargains galore on the white elephant and bakery tables. A balloon man will peddle his wares, a handwriting expert will be on hand to analyze the handwriting of any who wish for it, grabs will be on sale, and refreshments of hot dogs, pop corn, coffee and "coke" will be available. Mrs. Allen Flye is general chairman and she is being assisted by a large group of interested parents.

The committee heads are as follows: bakery, Mrs. James O'Shea; white elephants, Mrs. Albert Carpentier; preserves, Mrs. John Ehardt; grabs, Mrs. James Byrnes; parcel post, Mrs. Harold Haller; popcorn, Mrs. Leslie Jolliffe; Refreshments, Mrs. Gerard Pelletier; handwriting expert, Miss

Eunice O'Donnell; balloon man, Mr. Rocco Mirisola; games, Mr. Paul McKinnon; decorations, Mrs. John McCarthy.

This is the only money making affair which is run by the PTA during the course of the year and the money is used for special equipment for the school. In recent years the PTA has provided a movie projector and funds for film for the visual education program of the school.

League Report

The report of the Women Voters on public schools system, as follows:

The League of Women Voters of Andover has undertaken the Andover public school because, good importance to our citizens and parents make sure that our time to be the best can afford. For a year a committee has spent hours learning facts, comparing schools, discussing league members and reading books about them. Four members of the League have been teachers and parents. All are represented.

Because we have our schools more developed, we think that and recommendation interest to the community. The Andover school can be proud of excellent scholastic private secondary colleges. We admire who have done a large classes in our schools. We are fortunate school committee are devoted to the children.

For lack of space list the services we good, and enlarge improvements we recommend.

General Comments

The dominant factor in Andover schools is the increasing school population. There will be 1900 children in public schools, an over 600 in six year buildings will not be space; undoubtedly in years, Stowe school be used, and an addition to the Shawheen school size means more teacher budget, and a complexity of administration.

Andover has a average percentage taking advanced education. The high school graduates, and 20% of the graduates go to colleges, and 20% of the graduates go to 20% and 20% respectively.

The teachers do not include the basic subjects: at the elementary level, recess yard duty, rec teaching art, music education under direction children's sight weighing and measuring for physical education, giving health instruction, collecting and charitable donations, notices home; at the level, helping with ties, dramatics, athletics, etc. In addition we are encouraged to do what we expect and receive them than we give security.

We mention with interest the fine guidance (though a dean of helpful), the thoroughness, the music program, the kind program, the kind we hope transport be provided for the high school librarian.

League Of Women Voters Report On School Survey

The report of the League of Women Voters on the local public school system is, in part, as follows:

The League of Women Voters of Andover has undertaken a survey of the Andover public school system because, good as it is, its importance to our children makes it worthy of constant scrutiny. As citizens and parents we want to make sure that our schools continue to be the best that the town can afford. For a year the education committee has spent hours and hours learning facts about our schools, comparing them with others, discussing them with league members and teachers, and reading books about education. Four members of our committee have been teachers. All of them are parents. All sections of town are represented.

Because we have considered our schools more deeply than most people, we think that our comments and recommendations would be of interest to the community.

The Andover schools are good; they can be proud of their students' excellent scholastic records in private secondary schools and in colleges. We admire the teachers who have done a fine job with large classes in outmoded buildings. We are fortunate to have school committee members who are devoted to the welfare of the children.

For lack of space we will merely list the services which we find good, and enlarge upon the improvements we recommend.

General Comments

The dominant fact in the Andover schools is the rapidly growing school population. Next year there will be 1900 children in the public schools, an increase of over 600 in six years. The new buildings will not provide enough space; undoubtedly in the next few years, Stowe school will have to be used, and an addition built on the Shawsheen school. Increased size means more teachers, a larger budget, and a greater complexity of administration.

Andover has a higher than average percentage of students taking advanced education. 37% of the high school graduates go to colleges, and 20% to vocational schools. The national average is 20% and 20% respectively.

The teachers do more than teach the basic subjects. Their duties include: at the elementary level, recess yard duty, room housework, teaching art, music, and physical education under direction, testing children's sight and hearing, weighing and measuring them, watching for physical abnormalities, giving health and safety instruction, collecting milk money and charitable donations, sending notices home; at the high school level, helping with social activities, dramatics, the year book, athletics, etc. In addition, teachers are encouraged to do further study. We expect and receive more from them than we give in financial security.

We mention with approval

The fine guidance program (though a dean of girls would be helpful), the thorough health service, the music program (though we wish the bank were open to boys as well as girls), the art program, the kindergartens (though we hope transportation may soon be provided for the pupils), the high school libraries with a librarian,

We recommend

The more frequent use of imaginative teaching devices, such as: Group projects, field trips selected to suit the age group, assemblies with student-directed programs, audio-visual aids, original dramatization of stories and characters.

We feel that the importance of reading, writing, and arithmetic as basic tools cannot be over-emphasized. These recommendations are offered as aids and supplements to teaching the three Rs, and other subjects as well. These ideas are not brand new, but have been tried and proved in other localities and to some extent in our own schools, and are based mainly on the fact that a child learns more easily and quickly from actual experience than from second-hand information. He will be more readily taught if his imagination and creative ability are stimulated. Many children, who do not learn best from book-reading, will be reached with these aids. The new school buildings are planned to facilitate the use of these supplements. With more community understanding of the reason for these devices, the teachers could use them more effectively.

Elementary School Library

There is a room in the new central school designed for a library, and we urge that it be so used, with a qualified librarian in charge at least part of the time.

Miss Lane, the children's librarian, deposits one book per child in each elementary classroom and changes them once a month or once in two months according to the requests of the schools. These classroom libraries should be continued. The librarian could also manage the audio-visual aids for all the elementary schools.

The Memorial Hall library has offered, at a sacrifice, the part-time services of the children's librarian through next year to establish an elementary library properly, and to work out the details of its program in cooperation with the principal. Whether the school library should be a function of the town library, a function of the school, or a cooperative effort must be decided next year.

Two more remedial reading teachers

This year there are one hundred and six children who are a year or more behind in their reading ability. The majority of these children can be corrected. The one remedial reading teacher, remarkable as Miss Hopkins is, has too heavy a burden. Miss Luella Dunning does some work on a development program in reading in her classes in the high school. If we accept the theory that the schools should give individual help to those with reading problems, then we should see that they are given all the help they need. If uncorrected, they are not only themselves handicapped throughout their academic careers, but they also remain a problem to all their teachers and lower the standards of their classes. At least two more remedial reading teachers are necessary.

An athletic program for the elementary schools, and an expanded one for the girls in the high schools.

We should like to see one afternoon a week given to games and team sports for children in

grades 4 - 6. In developing the whole child the physical abilities are as important as the mental, and may well be more important to the child's emotional growth.

In the high school we suggest that soccer be restored to the athletic program, and that more girls be urged to participate in spring sports.

An Elementary Supervisor

We recommend that eventually an elementary supervisor be appointed, to train the new teachers and recommend their appointment to tenure, to coordinate the teaching in the five schools.

Extra-Curricular Activities

Most of the Punchard graduates who answered our questions felt that more diversified extra-curricular activities would have given them a more rounded education.

Child Guidance Clinic

Many emotional problems of children and their parents can only be solved by professional help. Plans for such a clinic are being considered by the school committee.

Anyone interested in reading the report in full may obtain a copy from the Memorial Hall library.

Information For Veterans

Q - Several years ago, I obtained a GI home loan, when the top guarantee was \$4,000. Now that the guarantee has been raised to \$7,500, may I use the difference to get another GI loan to go into business?

A - No. The additional guarantee may be used only in connection with a GI home loan.

Q - I was disabled in service in 1949. Would I be eligible for vocational training under the program that recently was set up for Korean disabled veterans?

A - No. One of the requirements of the law is that the disability must have occurred after June 27, 1950, the official date of the

outbreak of Korean hostilities.

Q - I intend to apply for an increase in my pension to \$120 a month, since I'm so severely disabled that I need the regular aid and attendance of another person in order to get about. If the increase is granted, will it be retroactive to the date that I first got on VA's pension rolls?

A - No. If VA awards you the increase, it will become effective as of the date you filed your application.

Q - I'm a Korean veteran, hospitalized for a service-connected disability, and I'm now awaiting my final discharge. May I apply

for vocational training available to Korean veterans?

A - Yes. Members of the armed forces hospitalized while awaiting final discharge may qualify for the training provided they meet all requirements. They may not receive subsistence payments, however, prior to actual discharge or separation.

THE GREATEST CAR EVER BUILT

IN THE LOW-PRICE FIELD

The big 1952 FORD

Out-performs them all!

Ford's completely new 101-h.p. high-compression, low-friction Six, with free-turning overhead valves, is the most modern Six in the industry. And Ford's high-compression V-8, now 110 h.p., is the most powerful engine in the low-price field. Both are available with performance-proved Fordomatic Drive.

Exclusive Power Pilot Economy!

Both the new Ford Mileage Maker Six and the Strato-Star V-8 have the exclusive Ford Automatic Power Pilot. This completely integrated carburetion-ignition-combustion system gives you high-compression "go" on "regular" gas.

New Coachcraft Bodies!

Ford's new Coachcraft Bodies are longer, stronger... distinctive in their modern beauty. They offer new hull-light construction which seals out dust, weather and noise. And Ford has more color and upholstery combinations than any other car in its field!

Out-values them all!

With such modern design and engineering features as new Flight-Style Control Panel, new Power-Pivot Clutch and Brake Pedals, new Center-Fill Fueling, and new counterbalanced hood and deck lid, Ford adds up to more dollars and cents value than any car in its price class!

Out-rides them all!

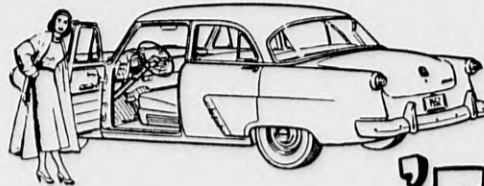

The '52 Ford gives you riding comfort such as you have never before experienced in a car in the low-price field. With front springs tailored to the weight of each model, longer rear springs and diagonally mounted shock absorbers, Ford's Automatic Ride Control gives you the smoothest, easiest ride of them all—a level ride on straightaways, an even keel on curves.

Out-sizes them all!

The '52 Ford has longer wheelbase, wider front tread and greater length. It's big outside and big inside, with spacious seating for six and the largest luggage locker of them all.

Full-Circle Visibility!

With narrower corner pillars, picture windows all around and a rear window that's 48% larger you have "all-direction" vision that adds to your enjoyment and your safety.

You can pay more but you can't buy newer or better!

Added interested has been injected into the coming town election with the filing of several nomination papers just prior to the 4:30 deadline last Friday.

Until this time the election in March appeared to be one of the quietest in recent years but the entrance of new candidates has resulted in several contests for town offices.

Albert Cole Jr., deputy fire chief, on leave of absence to perform the duties of civil defense, has filed papers as a candidate for selectman and the board of public welfare. The term of Sidney P. White, the present incumbent, expires this year and he is a candidate for re-election.

Five candidates are now in the contest for the two places to be filled on the board of public works.

The terms of John H. Kelly and Alexander H. Henderson expire this year. Kelly will not run again but Henderson is seeking re-election. Other candidates include Joseph Connor, Ernest N. Hall and James V. Irvine.

For the school committee there are four candidates for the two (Continued on Page 15)

Ask Final Returns For Visiting Nurse

All workers engaged in the Visiting Nurse drive are urged by Robert F. MacMackin, 1952 campaign chairman, to make a final effort to complete their assignments by the end of the week and made returns at the office of the visiting nurse, 8 Elm st.

Based upon the percentage of returns to date the results are encouraging but until reports from all six precincts are received the campaign directors will not know how the over-all drive is progressing.

Due to the large area being covered many people may not have been contacted as yet. Those who have not are requested to use the coupon published on page one of today's Townsman and send their contributions to headquarters at 8 Elm st.

Double Sessions Stay At Shawsheen School

Mothers Get \$2301 In March On Polio

The Mothers March on Polio last Thursday night was highly successful in Andover where the sum of \$2301.90 was realized in that one hour of solicitation.

That sum represents only part of the amount raised here in town in the drive against infantile paralysis.

Under the leadership of Fire Chief C. Edward Buchan, general chairman, the splendid organization of volunteer workers collected approximately \$6000.

The Mothers' March which was under the guidance of Deputy Fire Chief Woodrow Crowley, turned in the largest single amount. The scrap metal drive under the direction of James W. Deymond netted 22½ tons valued at about \$600. (Continued on Page 14)

After a lengthy discussion with a delegation from Shawsheen Village the school committee Tuesday night decided to make no change in the double sessions at the Shawsheen school.

A poll of parents recently taken resulted in 134 being in favor and 45 against having the single session put on trial for the rest of the year.

At the meeting Tuesday night John J. Broderick spoke at some length in favor of the single session. The rest of the delegation opposed the change. Mrs. Edith Sorrie was chairman of the group and Walter R. Davis the principal spokesman.

Letters were read from Dr. James A. O'Shea and Andrew M. Innis against changing the present system. Various phases of the problem were discussed after which the committee voted on motion of Mrs. (Continued on Page 18)

The story centers around some California hill people who live in the fabulous "Green Valley", a real paradise of nature where strawberries grow as big as your fist and bean-stalks shoot up and grow before your very eyes! Many other amazing things take place during this play.

Mervin E. Stevens, well-known for his many previous successes, is directing "Green Valley".

Stevens, Owen Hinckley, Bernard M. Kellmurray, Charles A. Gregory and Benjamin Dimlich.

Ernest N. Hall

**Ernest N. Hall
In BPW Contest**

Ernest N. Hall, 73 Chester st., is a candidate for the three year term on the board of public works at the annual town election on March 3.

Mr. Hall has resided in Andover for the past 31 years. He was educated in the Andover public schools and later graduated from Wentworth Institute, Boston, where he majored in building construction.

In June, 1942, he entered the United States Navy and served three and one half years with the construction corps, three of which were spent in the Pacific Theater

of Operations. In this capacity he gained considerable experience in light and heavy road and earth moving equipment. Since the end of the war he has been associated with the contracting firm of C. P. Hall and Son.

In 1948 he was appointed a member of the Andover Housing Authority. He was elected to a six year term on the authority in 1949 and is now serving as vice-chairman of this group.

He is a member of the Andover Post, Veterans of Foreign Wars and the Andover Sportsman's club. He is married to the former Barbara Parker. The couple have three children.

**What Our
Readers Say —**

THE L.W.V. REPORT

Editor of the Townsman:

I read with great interest the Townsman's story and condensation of the school report by the education committee of the Andover League of Women Voters. I also read the complete report available at the library.

No community service is more commendable than an able survey of our school system and the League deserves the town's thanks for undertaking so arduous a task.

I would like to make two comments on that report.

Nothing in the report points out a single defect in the present operation of our schools. I'll go along with the L.W.V. when they say "by these standards the Andover schools are good." But how can our schools — or any other organization — be THAT good. Of the seven recommendations made, not one aims to correct any present wrong. Most of them are fringe benefits. All but one are in the "more of the same" class.

Secondly, I was intrigued by the statement that reading, writing and arithmetic cannot be over-emphasized, but was disappointed that they were so severely under-emphasized in the report. Reading is discussed only in a negative way while writing and arithmetic are never mentioned again. Yet one hears it said that some high school graduates can neither write nor do elementary arithmetic.

The committee has gathered a great deal of information which it could not make public, but if it has information along these lines I hope means can be found to publicize it. If no information is now available on the writing and computing ability of high school students, why not conduct a simple test and find out? If the test turns out satisfactorily, it will refute the criticism; if it were to prove less than praiseworthy, the League will have done something which could become highly constructive.

Amateurs Showing Favorite Pictures

Several amateur photographers have loaned the Memorial Hall library pictures for an exhibit which is both attractive and interesting.

William Orr loaned 17 snapshots of various sizes and a colored picture of two skiers; Ted Cole is showing a lovely mounted scene enlarged from a small picture made at sunset in the South Pacific; a snow scene, the harbor and a pet kitten were loaned by Arthur Bliss; there is a large sepia photograph of Mount Chocorua and its lake, taken by James Christie. Four in color, one of which is an oval portrait of a little boy, were selected from Dr. Nathaniel Stowers' collection, and Alden S. Cook brought in the picture of Miss Goldsmith's garden which was used on the cover of Horticulture magazine a while ago; he also has a pet picture and a scene of Mill river in Methuen. This last mentioned was made from a small original and is called a Bromoil print, which accounts for its unusual texture.

In addition to a color scene of Lawrence, Dana Clark loaned a portrait called "Grandmother"; another portrait with a family feeling is that loaned by Robert Hatton of his father deep in thought over a cross-word puzzle. Mr. Hatton also brought in a pet shot and three scenes.

The pictures will remain on display until the middle of the month. Others who wish to bring in "favorites" will be very welcome.

Before the talk a business meeting was held with John Wilson acting as president in the absence of the president, Charles Allen.

At the next meeting Saturday, Feb. 9, movies will be shown. Edwin and Roy Brown will have charge of refreshments.

What's "in the works" at **G.E.**

WE HIT A POSTWAR HIGH IN '51!

How Local G-E Plants Rang Up New Records for this Area

★ **OVER 4,000 MORE EMPLOYED** — Local G-E employment averaged 24,400 during 1951 at General Electric's Lynn and Everett plants. This was approximately 4,000 more than the average employed during 1950.

★ **INCREASE IN EMPLOYEE EARNINGS** — Local General Electric employees earned \$110,510,000 in 1951 (including overtime and night shift bonus). This is an increase of \$35,000,000 above 1950 earnings. Most of these dollars flowed back into the community buying goods and services. This in turn stimulated local business in a volume many times the G-E payroll itself. What's more, during 1951 G-E folks received a 9¢ an hour wage increase in March and at the moment a further 3.58% increase is now awaiting approval of the Wage Stabilization Board.

★ **OVER A MILLION IN EMPLOYEE BENEFITS** — Last insurance, sickness and accident benefits, hospital care, insurance, surgical operation insurance and maternity benefits. One local G-E employee received \$1,327 in benefits for two different periods of illness since the plan went into effect December 1, 1950. Also in 1951, 209 local employees retired under the G-E Pension Plan, many after 35 and 40 years of service.

★ **APPRENTICE TRAINING** — G. E. has always believed in

\$35,000,000 above 1950 earnings. Most of these dollars flowed back into the community buying goods and services. This in turn stimulated local business in a volume many times the G-E payroll itself. What's more, during 1951 G-E folks received a 9¢ an hour wage increase in March and at the moment a further 3.58% increase is now awaiting approval of the Wage Stabilization Board.

★ **OVER A MILLION IN EMPLOYEE BENEFITS** — Last year, insurance, sickness and accident insurance, hospital expense insurance, surgical operation insurance and maternity benefits. One local G-E employee received \$1,327 in benefits for two different periods of illness since the plan went into effect December 1, 1950. Also in 1951, 209 local employees retired under the G-E Pension Plan, many after 35 and 40 years of service.

★ **APPRENTICE TRAINING** — G. E. has always believed in training young men for a good future. Last year a monthly average of 171 young men from Lynn and neighboring towns were members of the G-E "earn while you learn" Apprentice Training Program. This is a four-year course that turns apprentice workers into highly skilled machinists, tool and die makers, pattern makers, foundry moulders, draftsmen or construction and maintenance specialists.

★ **SUGGESTION AWARDS** — Last year G. E. paid out more extra dollars than ever before for good business ideas submitted by employees. An average of about \$1,500 a week was paid out in awards in 1951. More than 5,000 local employees received extra money for their suggestions. The highest single award was \$2,765.

★ **STOCK BONUS PLAN** — Last year local G-E people set aside over \$2,780,000 for their future through the Stock Bonus Plan. After a 5-year holding period employees will collect a bonus of regular G-E stock equal to 15% of whatever they've invested annually in U. S. Savings Bonds. For this purpose General Electric can contribute more than 4½ million dollars worth of stock each year.

★ **DIRECT COMMUNITY CONTRIBUTIONS** — Local G-E people contributed generously to many civic and charitable organizations in Lynn and Everett by payroll deduction. Employee contributions to the Red Cross and Community Fund alone amounted to \$127,000. For local civic needs in these two communities, General Electric contributed \$198,000 including a \$125,000 pledge to Union Hospital. Continuously through 1951 hundreds of G-E people gave many hours of their time working for the Boy Scouts, Girl Scouts, Community Fund, hospital and church groups and many similar organizations to help make this community a better place in which to live.

★ **FOR LOCAL G-E FOLKS, 1951** was a year of great progress — a year in which G. E. constantly strived to make better working conditions — a year in which G. E. continued to develop new and better ways to make more products to benefit all mankind.

The 12-Cent Postal Card

Washington arithmetic has gone awry.

Remember the good ole penny postcard. It was once the toast of the postal department, an outstanding example of United States efficiency, service and "know how".

For a mere, naked penny a message could be dispatched to the most remote outpost of this sprawling nation, with every good reason to believe that the recipient would have it in his hands within a short time. Americans bought penny post cards by the hundreds. It provided the most economical means of good communication ever devised by man.

Well let's see what the boys in Washington have done to "our pride and joy."

You might not have noticed but there is now a 12-cent postal card. The same card sold for a cent on December 31 and was upped 11-cents on January 2, 1952.

Postal cards now sell for two cents each. But if you buy 50 cards in one batch, the fiftieth one costs 12 cents. It's okay to buy 49 cards for 98 cents but 50 of them costs \$1.10.

Not so simple arithmetic. Quite in contrast to the American concept of "cheaper by the dozen" or reduced costs through mass usage. For the first time in memory, the buyer pays a penalty for ordering something in quantity.

A two-cent post card is still a good bargain, although there are many who will think affectionately back to the good old penny variety.

And yet don't think it strange if on your next visit to the Andover post office you hear the secretary of the church ladies committee say;

"Forty-Nine post cards, please."

Sometimes one pays most for the things one gets for nothing. — Einstein.

Births-

A physician attends the birth of almost 95 out of every 100 babies born alive in the United States today.

The exact figure for 1949, the latest year for which figures are available is 94.8 per cent, the National Office of Vital Statistics reports. In 1935 the figure was 87.5 per cent.

Biggest difference during the past fifteen years was in the number of babies born in hospitals. In 1935 this was 36.5 per cent. In 1949 it was 86.7 per cent. This means almost three million babies were born in hospitals in 1949, which is more than twice the number of hospital births in 1940.

NEW BOOKS

Life In America, Davidson.

There are over 1200 pictures and 250,000 words in this pictorial history of America, published in association with the Metropolitan Museum of Art. The author has been more concerned with social forces than with political personalities or military matters. By far the largest number of pictures used in the two-volume work were made by eye-witnesses or contemporaries.

Navaho Means People, McCombe.

Over 180 photographs of the Navaho Indians - at work, at play and in their secret ceremonies. Leonard McCombe of LIFE made these remarkable pictures.

Over A Bamboo Fence, Brown.

Mrs. Brown took her four little girls, fourteen bags, eight trunks and 5500 lbs. of household belongings to join her husband for two years in Japan. They went first to Tokyo, then Kyoto, where she worked on a Japanese paper. She wanted above all to meet the people informally and she did accomplish this. Excellent reading.

Monday to Friday Is Not Enough, Meek.

Another book on basic Christian living in a world of turmoil. Rev. Frederick M. Meek of the Old South Church in Boston has made this an alive, real study of the ways in which to make the week full and satisfying.

Skygirl, Murray.

With so much interest in airline professions and jobs, this should appeal to girls interested in preparing to be air stewardesses. It includes a history of American commercial aviation and 32 pages of fine pictures.

Grass Beyond The Mountains, Hobson.

Three men made this trek into the uncharted regions of British Columbia to open up a vast new grazing frontier. Thrilling, adventurous, exciting!

Golden Treasury of Needlecraft, Stevenson.

Several hundred patterns of things to sew, knit, crochet, embroider, applique for the home, family and gifts. Many readers will want to buy this after seeing it.

building.

Daylight saving time to go into effect next Monday.

Fifty Billion Dollars, Jones.

Jesse Jones was with the construction Finance Corporation for thirteen years and tells the story of the financial rescue which loans money to small business, real estate interests, mortgages, surety companies - and where from \$20 to \$200,000,000.

Big Cats, Brentano.

Fascinating stories, fact and fiction, about "big cats," king of the jungle.

First Frontier, Coleman.

When asked "What book will give a busy fellow like myself the inside story of how our country began?" the author found himself with hundreds at his finger-tips but with none that filled the exact need. To do so, he wrote this very human, personal story of America. It reads like fiction and yet is the studied work of an expert in the field of history.

Other non-fiction which may be found among the new books: He To Get From January To December; Cuppy; Illustrated English Social History, volume 3, Trevelyan; Handbook of English, Clark; Heating, Ventilating, Air Conditioning; Guide; A Documentary History of the American People, Crane; Elements Of Livestock Judging; Smith; The Magic People, Usher; The New Yorker Twenty-fifth Anniversary Album; Crisis And Hope In American Education, Ulich.

Old Valentines Shown At Library

An interesting collection of old Valentines owned by Mrs. Walter Dodge, have been loaned to the library by her daughter, Mrs. Johnston Bird and are on display in the exhibit case in the Young People's room. Most of the tokens of love were made in the 1870's, and the pledges of undying devotion were given to a Salem school teacher by her pupils. Though the verses are quaint, there is no question but that the workmanship and delicacy of the lace patterns is a lost art today.

She is a native of South Carolina, advantageously situated to gain a deep understanding of the themes of the spirituals which she interprets with rare artistry and a beautiful voice.

The program will include some rarely heard ballads and some of the more familiar songs as well. Miss Jenkins comments on her numbers, giving some background and tradition in connection with each one.

The public is cordially invited.

Shawsheen School

During the past week ballots concerning the proposed single session at the Shawsheen school, were sent home to the parents. The ballots were signed and returned to the school, and were counted at the close of the week by Mrs. Frank Barkalow, Mrs. Knut Hansen, Kenneth L. Sherman, supt. of schools, and Miss Ann Harnedy, school principal. The result showed that 134 families were in favor of the single session, 45 were against, and 3 were undecided. The matter is now in the hands of the school committee, which will make the final decision. If the single session is adopted, it will be on a trial basis for the remainder of the year, with the opening and closing times being decided by the authorities.

PTA Fun Night

All efforts of the parents, teachers and children of the Shawsheen school are now pointed toward making the annual Fun night of the PTA a huge success. This will be held at 7:30 p.m. Wednesday, Feb. 13, in the school hall with fun, entertainment and bargains for all.

Several new ideas are being incorporated into the affair this year. There will be a parcel post table with Mrs. Harold Haller in charge. Members of the association have been sending post cards to their friends asking them to send a package via parcel post containing a worth while gift. These will be sold unopened. Mrs. Leslie Jolliffe will have a table of potted plants for sale. Members are asked to bring slips of plants rooted in either water or soil, and large plants too. Home made preserves of jelly, jam, pickles, relish, etc., are being solicited for the preserve table by Mrs. John Ebhardt and her committee. Bargains may be procured from Mrs. Albert Carpentier on the white elephant table, all kinds of home made bakery will be available on the bakery table under the direction of Mrs. James O'Shea, and Mrs. James Byrnes will have plenty of "grabs" for the children. Paul McKinnon and a large group of men will be in charge of several games, including darts, fish pond, etc. Refreshments will be served at the refreshment bar under the direction of Mrs. Gerard Pelletier. Rocco Mirisola, the balloon man, will be calling his wares and Miss Eunice O'Donnell will read character from handwriting. Mrs. Allen Flye is general chairman of the whole affair and urges all to attend for an evening of fun.

Mothers March

The Mothers' March on polio, conducted throughout the village last Thursday night, was successful far beyond expectations of those in charge. Mrs. Frank Barkalow, the local chairman, was most enthusiastic about the large group of workers who were recruited for the drive. Many of the mothers reported that every light on their street was lighted and that the response was very generous. The drive in Shawsheen netted a total of \$650.00 with Mrs. Alan Dunlop's group bringing in the largest sum of \$205.00.

Leave For New Orleans

Mrs. Donald Dunn and her two daughters Dawn and Dorothy of Sutherland st., left by auto Tuesday morning for New Orleans, La., where they will join CMDR. Dunn for the duration of his naval service. They will stay at the naval base until they are able to find suitable quarters. Dawn will register at Tulane University in New Orleans for the second semester, having completed the first semester at Colby college in Waterville, Me., and Dorothy will attend high school in New Orleans.

Farewell Party

Miss Jane Ann MacAskill, 8 Sutherland st., entertained Miss Dorothy Dunn at a farewell party at her home Friday evening. A group of classmates gathered with Jane Ann to shower Dottie with gifts and wish her well on her trip to New Orleans, La., where she will make her new temporary home. A delicious luncheon was served by Mrs. MacAskill, and those present included Joyce Mowatt, Marion Glennie, Peggy MacLaughlan, Elizabeth Hatton, Diana Nicoll, Eleanor Mondale, Ruth Morgan, Norma Howard, Dorothy Dunn and Jane Ann MacAskill.

Womans' Club

The Shawsheen Village Womans Club met in the school hall Monday evening for its regular monthly meeting. A recommendation of the board of directors, that past presidents who have been members of the club for 25 years, may become honorary members, was favorably acted upon. Miss Ruth Whitehill, representing the Andover chapter of the Red Cross, made an appeal to all members to support the Red Cross drive which will open in the near future.

The program chairman, Mrs. William Thompson, introduced the speaker of the evening, Barbara Warren Shure, whose subject was "Current Theater". This charming young actress gave a delightful "one-man show" of several popular favorites in the theater world. She recreated Cornelia Otis Skinner in many of her interpretations, gave a complete resume of the play "The Four Poster", and several scenes from "I am a Camera". Her delightful performance was enthusiastically received by a very appreciative audience. During the social hour, at the close of the program, refreshments were served by the hostesses, headed by Mrs. Irving Piper and Mrs. Herman Seinwerth.

Literature Department

The literature department of the club will meet at the home of Mrs. Herman Seinwerth, 20 Canterbury st., at 1:30 p.m. Wednesday, Feb. 13.

Preservation of Antiques

The antique department of the Shawsheen Village Woman's club will meet at the Historical House at 2:30 p.m. Friday, Feb. 8. The speaker will be Miss Ruth Woodbury, who will take as her subject, "The Story of Wallpaper". Tea will be served with Mrs. Herbert Clegg and Mrs. George Weldon as hostesses.

Woman's Club Directors Meet

The board of directors of the club met at the home of Mrs. Walter Caswell of Dunbarton st., last Wednesday afternoon. The meeting was originally scheduled to be held at the home of Mrs. Carleton Shulze, but due to her illness that was impossible. Mrs. Irvin Wilkinson was invited to be present to make plans for the American Home day meeting in March. This will be held Mar. 3 instead of Mar. 5, as the year book states, at the Andover Country club.

Valentine Buffet

The ways and means committee of the Shawsheen Village Woman's club will sponsor a Valentine buffet supper at the Andover Country club at 8 p.m. Friday, Feb. 9. A large number of members and their friends are planning to attend and it promises to be a very gala affair.

Personals

Everett MacAskill, son of Mr. and Mrs. Everett MacAskill of Sutherland st., and Edward Carey, son of Mr. and Mrs. Edward Carey of Balmoral st., have been spending a few days at their homes at the conclusion of mid-year examinations at Middlebury college.

Punchard 44, Newburyport 29

In the preliminary game the Newburyport J.V. team raced away from Punchard J.V.'s in the last half to win 65 to 29.

Inter-Church Basketball

As the Interchurch Basketball league comes to a close Monday, Feb. 11 the committee in charge announces the following plan:

Chapter 90 Funds For River Road

Tentative allotments of the 1952 Chap. 90 funds show Andover is scheduled to receive \$3000 from the state and \$1500 from the county for a \$6000 project on River road, in addition to \$667 from the state and \$1333 to be provided by the town for maintenance.

Under Chap. 90 the state pays one-half of the cost of local highway construction while the other half is shared by the county and the town.

Here's a money-earning opportunity for you!

Now—a new law lets your maturing Series E Bonds go on earning for you ten years longer! And you don't have to do a thing!

ARE YOU one of those patriotic citizens who began buying—and holding—U. S. Series E Bonds ten years ago? Now your government is going to reward your faith with a chance for your bonds to earn extra money—over and above what you'd expected!

According to the bill passed by Congress last spring, it is now possible for your U. S. Series E Bonds to continue earning for ten years longer than was originally planned. For example, a Series E Bond which cost you \$18.75 in 1942 will pay you \$25 in 1952. But if you hold that bond ten extra years, until 1962, it will pay you \$33.33, an average interest of 2.9%.

And there is nothing for you, as a bond holder, to do. You simply keep your bonds as you have been keeping them.

You may still redeem any Series E Bond at any time after you've owned it for sixty days. (The tables on this page show what you can get for it.) But, unless you really need the cash you're much better off to hold your bonds. Cash is too easily spent on nonessential things. And if you lose or accidentally destroy it, you're out that much money. But when you have cash in Defense Bonds, you're more apt to hold on to it. And if your bonds are lost or destroyed, the Treasury will replace them for you at no cost.

The cash you have in bond savings is safe and solid; and it's steadily growing toward a sum big enough to buy a dream—something really worth while—a home, a business, a retirement fund, an education for your children.

So if you have bonds coming due, take advantage of this new offer—just sit back and let them go on making money. Meanwhile keep adding to your savings by buying more U. S. Defense Bonds regularly—through the Payroll Savings Plan where you work or the Bond-A-Month Plan where you bank.

If you want to be paid your interest as current income—

The new law also allows you to exchange your Series E Bonds, in blocks of \$500 or more, for Special Series G Bonds which pay interest semiannually at the rate of 2½% per year. For full details, ask at any Federal Reserve Bank or Branch.

Look how your maturing bonds go on earning under the new law!

Red Cross Groups Prepare For Drive

Some 200 to 300 volunteers are deep in preparations for the annual Red Cross fund campaign to be held next month.

Mrs. Harold Johnson, residential chairman for the drive, has enlisted 15 area captains and held a meeting with them to check plans and review facts about Red Cross responsibilities wherever human need exists.

"We like to be sure that the people who accept task of going out to ask their neighbors to dig into their pockets once more for contribution money understand how much potential service for others — or perhaps, quite unexpectedly, for themselves — contributors buy with their donations to the Red Cross fund. Busy men and women would not take on the job if they did not believe that people need Red Cross," Mrs. Johnson commented as she worked on the schedule for area meetings arranged by the captains for the solicitors in their respective areas.

They are as follows:

Center area: 10:30 a.m., Thursday, Feb. 7, at the home of Mrs. Harold C. Goddard Jr., captain; 10 a.m., Monday, Feb. 11, at the home of Mrs. Frank J. Sweeney, co-captain.

—from SMALL HOMES GUIDE—

An additional small sink installed in the kitchen countertop is especially welcome in farm homes during the canning season because it provides a place for helpers to work while the main sink is being used. Such an extra sink can also be used for wash-up purposes, thus relieving bathroom traffic.—I. W.

A Dutch door between your home workshop and the basement playroom allows family conversation between areas, yet keeps wood shavings and metal chips out of the playroom.—L. E. D.

We're going to use glass blocks for part of our basement foundation and build shelves for seed flats below them. Seeds will get enough sun through the blocks to germinate and start their first leaves without burning as they often do when sun streams through ordinary window glass.—Mrs. J. K.

Remodeling your bathroom? Well, don't discard the old bathtub, because it's a handy place to wash venetian blinds, dye clothes or give the dog a bath. We moved our old tub to the basement, set it on bricks to raise it to a convenient work height. Water flows into the tub through a rubber hose connected to the laundry tub faucet; a short piece of pipe connected to the tub outlet carries soiled water to the basement floor drain.—Mrs. M. F.

When you have a left-over roll of linoleum to store, slip a discarded bucket over each end, tie the buckets together with a rope to protect edges and corners of the linoleum.—R. G.

TWO American music-hall artists sought employment in one of London's leading theaters.

The manager inquired the length of their act.

The pair hadn't had an act for a month of Sundays and didn't know just what to say; but, being resourceful, replied, "Twenty-five minutes."

"Twenty-five minutes!" exclaimed the manager. "Why, my dear sirs, ours is a long bill. I cannot give you 25 minutes. I suggest that you go on for eight minutes."

The performers stared at him aghast.

"Eight minutes!" they screamed.

"Why, we bow for seven minutes!"

Double Sessions At Shawsheen

(Continued from Page One)

Katherine A. Baldwin seconded by Mrs. Dorothy T. Partridge that "since the committee contemplates no change in the double session at the Shawsheen school it hereby authorizes the superintendent to hire a noon-hour supervisor.

Members of the delegation from from Shawsheen were:

Raymond Collons, Norman L. Miller, John A. Ebhardt, Francis A. Herrick, Mrs. Arthur J. Walsh, Etziel B. Davis, Ernest J. Krakauer, Marian E. G. Woodcock, Gerry A. Lebach, Harold S. Jackson, Edith S. Sorrie, Walter R. Davis, John J. Broderick, Edmond Sorrie, Thomas B. Noyes, Gladys Ortstein, Anna Burns, Thaddeus Michalski, Mary Michalski, Bertha Dwyer, Richard C. Germaine, Mrs. Richard Germaine, Kaye Noyes, Grace L. Henrich, Helen F. Dunlop, Alan F. Dunlop, James A. O'Shea, M. D., Herbert L. Ortstein, Monica F. Skulley, Marion M. O'Shea and Irma Collins.

Headmaster Harold Howe 2nd. discussed the proposed changes in the high school program of studies for next year after which the committee voted to approve the action of the high school faculty regarding the following policy: (1) All seniors must pass English plus work carrying 10 points; these 10 points being earned in not more than two subjects; (2) Students are required to pass English each year in order to be promoted. To graduate a student must pass a course in U. S. history in his junior or senior year.

The meeting was held in the Goldsmith library with all members present. Secretary William A. Doherty read the minutes of the Jan. 8 meeting which were approved, and it was voted to approve the warrant of bills and accounts amounting to \$2890.94

The noon-hour supervisor will be in charge of the children at noon periods so that they may carry lunches to be eaten at school.

Woolen-Worsted Problems Important

(Continued from Page One)

\$1,289,925, or a little over 7% of Andover's total assessed real estate (\$18,168,090). Of the total taxes paid in the town in 1951 (\$851,840.68), this company alone paid \$51,597. Thus the American Woolen Company contributed about 6% of the town's tax income last year.

The importance of the woolen textile industry to Andover, however, is even more widespread than this figure indicates. A number of officials and employees of the American Woolen Co., live in Andover. Removal of these citizens to other places of employment would mean that their financial and civic support to the town would have to be replaced.

Moreover, the textile industry itself employs about 2,600 workers in Andover, according to an estimate by John J. McKenna, manager of the Lawrence office of the Massachusetts division of employment security. The greater number of these are employed by the American Woolen Company's Shawsheen Mills, and the Marland Mills (M.T. Stevens Company), both manufacturing concerns.

Residents of Andover who have been accustomed to think of the town largely in terms of its secondary educational institutions may be interested to learn of the part which the textile industries play in its community life.
