48% Of Voters At Polls Monday

Monday's election brought out 3596 of the town's 7338 registered voters, or slightly over 48%, which is considered a good showing. The vote by precincts:

	Total	Voted
Pct. 1 . . .	1737	928
Pct. 2 . . .	1391	663
Pct. 3 . . .	1465	619
Pct. 4 . . .	853	456
Pct. 5 . . .	661	384
Pct. 6 . . .	1231	546
	7338	3596

Sidney P. White was re-elected selectman and assessor over Civil Defense Director Albert Cole Jr., in the annual town election Monday which drew 3596 of Andover's 7338 voters to the polls, or slightly better than 48%.

Two spirited contests developed in the vote for board of public works and the school committee. In the former Alexander H. Henderson was re-elected with Ernest N. Hall second to take the place vacated by John Kelly, who retired. Just 150 votes behind was Joseph W. Connor, making his first bid for public office. John M. MacKenzie was fourth in this race and James V. Irvine fifth.

For the school committee William A. Doherty was returned to office for his 22nd consecutive year and C. Carleton Kimball was elected to the post vacated by Mrs. Katharine A. Baldwin. Close behind was George B. Westhaver, a newcomer in the political field who was just 96 votes ahead of Robert C. Vogt of Ballardvale.

More Elm Trees Must Come Down

In his annual report to the board of selectmen George R. Abbott, moth superintendent, calls attention to the widespread growth of the dutch elm disease in nearly all parts of the town.

Laboratory tests, he reports, showed 95 trees to be infected. Of these 60 were removed and the remaining 35 must be destroyed before Apr. 1.

The moth superintendent believes the best protection of elms by spraying is by helicopter from overhead and by mist blower from underneath. This seems to be borne out in the towns of Marblehead, Swampscott, Lynnfield, Wakefield, Reading and Lexington where several hundred of the more valuable elms in each town were sprayed by this method. The town furnished the insecticide and the helicopter cost about one dollar per tree.

Research men have developed several chemical compounds which when washed into the ground or sprayed on the leaves gave promise of protecting healthy elms. This

Cost Of Sewers Borne By Abutters

Referring to certain articles in the town warrant calling for the construction of sanitary sewers, the board of public works is calling attention of various residents to the fact that the cost of such sewers is borne entirely by abutters fronting on the sewers and is prorated on a front foot basis.

Two places where such construction is requested are Shawsheen road and Lincoln street, and Ferndale avenue and Magnolia avenue.

Taxpayers' Assn. Reports On Articles In Warrant

Finance Com. Gives Report On Warrant

The finance committee in its annual report and recommendations concerning the town warrant urges voters to give serious attention to the comparison of 1951 appropriations with the requested and recommended 1952 appropriations in its report.

Even if the cuts it suggests are approved there will be an increase of \$224,377 in 1952 which if applied directly to the tax rate would mean an increase of approximately \$12 per \$1000. It adds, however, that due to other moneys available to the town the rate will not rise this year by any such amount but in any case the rise will be substantial. An estimate of \$4 is the probable increase.

The total requests for 1952 are \$1,403,983 of which \$1,274,258 is contained in the department bud-

The Andover Taxpayers' Assn. has made its study of the town warrant and is sending a report in a pamphlet to all voters of this town.

Noting that this year each \$22,000 voted at the town meeting represents about \$1 of the 1952 tax rate, it says that acceptance of its recommendations will materially assist in keeping the tax rate increase as small as possible consistent with the best interests of the town.

"Our tax rate in 1950 was \$36. If the 1952 tax rate reaches \$43 (as estimated by the selectmen) it will mean that you have had an increase in two years of almost 20% on your tax bill, despite increased valuations," the report states. "This, when considered with the increase in federal and state taxation, should cause you serious concern for economy in government. You have the power to control directly your local taxation if you come to town meet-

Pushbutton exhibits, live animal demonstrations, and such exciting exhibits as the world's first model of the U-235 atom or the nine million candlepower lens of Navesta light translated the textbook stuff of the group into dramatic three dimensional terms.

Visiting the museum were Diane Morley, Bette Lois Hart, John Walvius, Gene Sztucinski, Alice Miller, Alice Sargent, Bruce Elliot, Elliot Palmer, Jack Brownhead, Kathy Sztucinski, Pat Schwenke, Walter Wilson, Clara Lewis, Blake Adams, John McIntyre, Phillip Busby, Robert Elliot, Benjamin Osgood.

What Is Lobster O'Neill?...

As the King and Queen of crustaceans, Lobster deserves royal treatment - and receives it at Allenhurst, where Lobster O'Neill was born.

For years many people held an unreasoning resentment, even antipathy, toward Le Bel and La Belle Lobster because of the armor, particularly the well sheathed claws. These people (and who doesn't?) loved baked stuffed lobster. It's the alpha and the omega of dining delight.

But the detractors didn't want to clash with those claws, especially in a restaurant where bits of this and that became unguided missiles, however ingenious the tools provided by the management. The result: Spotted suits and, worse, ladies' gowns; embarrassed explanations to the neighboring diners, sometimes three tables or booths removed. Sure. Fingerbowls were provided but a pail would have been better.

So these suffering souls and it's not fair to call them introverts or cowards, sulked and resolutely eschewed the baked stuffed lobster they yearned for in favor of the comparatively hazardless lobster salad, fried lobster, lobster stew - all delicious but not the crustacean at its succulent, savory best, to many of us.

And then like the birth of the blues, there burst upon the Allenhurst clientele - Lobster O'Neill. Mine Host Sotir C. Adams of Allenhurst will tell you later how it got that name, but this grateful scribe is intent only on recounting how this method of serving the meat from the claws, baked along with the stuffing in the body of the lobster, has released from the bondage of self-denial countless lovers of lobster served in the royal manner.

Why, with Lobster O'Neill, one needs scarcely to lift his knife (they're that tender at Allenhurst), let alone trying to remain suave and sympathetic to your dining companion while wielding those crackling and excavating tools of torture that used to be standard equipment.

Now, at long last, we come to the naming of Lobster O'Neill. Here's how Mr. Adams of Allenhurst tells it: John (Tip) O'Neill, now a retired official of the Peabody Electric Light Department and a long-time patron of Allenhurst, gave this delightful variation of baked stuffed lobster the title that is destined to bring him imperishable fame in a detached sort of way.

Our Mr. O'Neill was under even more business pressure than the average person, during the war, because of the nature of his work (and who of us wasn't subjected to some form of nervous tension?), and when he could get away for the occasional luxury of a fine meal, he still had to ration (a familiar word; remember?) his time. So he conferred with the Allenhurst chefs. How could he get a baked stuffed lobster without the time-consuming, patience-exhausting business of cracking the claws, etc., etc.? They suggested the advance removal of the luscious claw meat, and the cooking of it with the rest of the crustacean.

Mr. O'Neill's delight knew no bounds. His enthusiasm was contagious. First his friends, then their friends and families were calling for Lobster O'Neill. Then complete strangers were demanding it, word-of-mouth advertising being what it is.

No man to fly in the face of fate, or to try to bail out the sea with a sieve, Mine Host Adams put "Lobster O'Neill" on the menu. Perhaps it isn't yet a household phrase but if the test of fame is imitation by the competition, it "arrived," in the lexicon of the show world, at least three years ago.

Oh, yes, there's one more thing Adams of Allenhurst wants to make clear, and the word "clear" is used advisedly. He insists, and no layman would ever quarrel with him on such matters, only OCEAN CLEAR lobsters, the most select specimens spawned by the sea, can give you truly unforgettable LOBSTER O'NEILL. Of course, only OCEAN CLEAR lobsters are served at Allenhurst.

It's really not fair to dismiss "OCEAN CLEAR" lobsters so lightly, either. Not only are they the best trapped in the cold, crystal waters of the Provinces, but they are kept that way until they reach Allenhurst—they're never stored or "held" in inner harbor pools and thus exposed to oil or other pollution. This is the reason that sweet, full-meated, tender OCEAN CLEAR lobsters bear the seal of approval of the American Medical Association's Council of Foods.—Adv.

Precinct officers did an excellent job in tabulating the vote and reporting early. YOUR NEW
SOCIAL SECURITY

Wage earners and self-employed persons planning to retire this year under the new social security act should promptly get in touch with the local social security administration field office at Lawrence, Miss Vose, manager, has announced. Because of the nature of certain changes in the law, it is important that these persons know just how they may be affected by them before actually retiring.

"Those who retire before July 1, 1952, will not qualify for the for the maximum benefit - except in rare cases," she declared. "And only in a few instances can the \$80 monthly benefit be paid before January 1953. This is the main reason why those planning retirement this year should ask us where they stand."

The maximum retirement payment under the new formula is \$80 a month and the minimum is \$20 monthly & depending on the average monthly earnings.

"Beginning April 1952, two new factors enter the old-age and survivors insurance picture," she said. "One, the new formula for figuring benefits may be used for the first time. And secondly, those aged persons whose work came under social security for the first time beginning January 1951 may, by April, have enough credits to qualify them for benefits."

The manager pointed out that beginning January 1951 regularly employed domestic and farm workers, many self-employed persons, and others were brought under the provisions of this federal insurance system for the first time in its history.

Booklets explaining the new law are available upon request, the manager said.

The Lawrence office, 202 Broadway, is open from 8:30 a.m. to 5 p.m. Mondays through Fridays.

ing and vote."

The report says that the proposed departmental budgets show an increase of almost \$200,000. Some of this is unavoidable, but the association believes that reductions can be made.

Regarding the selectmen's budget the report says it totals \$557,000, an increase over last year of \$110,000. This is \$126,000 over 1950. "Of this year's increase \$66,000 is for the interest and retirement of notes on our new schools, and is unavoidable because of the action taken at last year's town meeting."

It proposes reductions which would reduce a large part of the remaining \$44,000.

Some of the major items it would reduce are: Civil defense, \$12,230 in budget, \$6,000 recommended, which will maintain the office on a stand-by basis; parking meter account, \$3900 in budget, nothing recommended, as it believes all costs of operating meters should come from meter receipts, not by taxation; fire department, \$89,993 in budget, \$86,983 recommended, as it has been told that figure is sufficient; tree warden, \$12,675 in budget, \$9,675 recommended.

Of the \$426,000 submitted in the school committee budget the full amount is recommended with note that it believes the town economy will be seriously threatened unless school expenses are rigorously controlled.

Of the \$177,676 asked by the board of public works it recommends the whole amount with the comment that in spite of salary increases voted last year this department is maintaining the same service without asking for any in-

Heart Fund Ball Plans Completed

Final arrangements for the forthcoming Heart Fund ball at the Andover Country club Friday evening, Mar. 7, were completed at a recent meeting of the committee under the direction of Mrs. Donald S. Burns and Mrs. Charles L. Davidson, co-chairmen.

With Ruby Newman providing the music for dancing and the widespread interest being shown in the current Heart Fund drive, members of the committee are hopeful of a large attendance, thus assuring a substantial contribution to the drive from the proceeds of the ball.

crease in its budget.

Discussing the special articles the report approves the re-zoning of the Shaw property for off-street parking; \$5500 for the Ballardvale community center improvements; \$1500 for two police cars; \$17,000 for a new fire engine; \$55,000 for the 16-inch water main extension and the proposed methods of financing it; and the re-zoning of the corner of Lowell and Poor streets in Shawsheen Village. It believes that a limited shopping center should be available to the residents of this area.

The report disapproves sick leave for town employees and recommends a committee to study a group health plan; it disapproves appropriation for police and fire uniforms; \$4000 for the purchase of land near the Bancroft road reservoir; fireworks appropriation and several other articles.

The association approves a quorum of 350 at the town meeting with the note that this is an essential safeguard to assure proper consideration of matters to be brought before the town.

SLIGHT FIRES

Fire starting in the kitchen from a short-circuited radio spread through the partition up to the attic in the home of Miss Bessie P. Goldsmith, 60 Elm st., and caused damage estimated at about \$1000 Tuesday morning. Firemen responding to an alarm from box 51 at 8:30 a.m. battled the fire and smoke for nearly an hour before the relief was sounded.

An alarm from box 336 Monday evening was sounded for a slight fire in the scaffolding outside the new gym at Phillips academy and was confined by firemen to a small section of the staging.

INJURED BY AUTO

Robert Lester, 13 York st., was taken to the Lawrence General hospital for treatment after an auto accident on North Main street in Shawsheen Village about 5:20 a.m. Wednesday. A complete report of the accident had not been filed at the police station when this was written. Police said Richard Gallant was operator of a vehicle involved in the accident.

TO DEDICATE CHIMES

The chimes for the West Parish church provided in the will of the late Deacon William A. Trow have been installed and will be dedicated at the morning service Sunday, Mar. 9. A new baptismal font in memory of Mr. Trow, the gift of Mrs. Trow, will be dedicated at the same time.
