## Established Enviably Record

Walter C. Roberts, teacher-coach at Punchard high school since 1947 has accepted a similar position with Belmont high school and will close his Andover assignment in June.

Increased remuneration at Belmont was the sole factor in Coach Roberts' decision to leave Punchard where he has established an enviable coaching record and endeared himself to the students and faculty. He received a total salary of \$4,750 for his dual assignment at Punchard and will receive substantially more at Belmont high school.

Under Coach Roberts' leadership the Punchard high school baseball and football teams enjoyed marked success. His football teams won "Little Three" championships on two occasions and for the past two years his baseball teams finished in second place in the Merrimack Valley league. In the present season his baseball team won the first eight of nine games played.

Coach Roberts was graduated from Johnson high school in North Andover with the class of 1937 where he was a three-sport athlete. He was graduated from St. John's "Prep" school two years later after having distinguished himself there in baseball and football.

He entered Holy Cross college in 1939 where he played varsity end on the football team and was a regular on the baseball team in 1940 and 1941. He joined the United States Army Air Force in 1942 and served as an aerial gunner on a B-29 with 12 missions over Japan.

Discharged from the Air Force in Jan. of 1946, Roberts re-entered Holy Cross college and played varsity football in his senior year there. He was graduated with the class of 1947 and was named teacher coach at Punchard in the following September.

He played on several professional football teams during the next two years in the New England circuit.

He is married to the former Dorothy Adams of Methuen and the couple have one son, Gary, aged two years and twins, Gail and Peter, aged three weeks.

Coach Roberts has notified the Andover school committee of his decision to join the faculty of Belmont high school where he will also coach baseball and football as well as being a member of the

**FOR SAFETY'S SAKE** this loaded 50-ton crane at G. E.'s River Works has chains with a safety factor of 5 to 1. A limit switch prevents a load from ever going too high by automatically shutting off the power. Shown in the cab is Hugh McManus of Lynn, a skilled crane operator of 36 years' experience, who's never lost a load in all that time. Hugh has three sons who work for G. E.

What's "in the works" at **G. E.**

# It's Safer at G.E. Than At Home!

**HERE'S HOW WE KEEP IT THAT WAY...**

In the G-E works it's **SAFETY** — first, last and always. There are full-time people at the local works who do nothing else but see that the most advanced safety devices are used to give G-E workers complete safety protection.

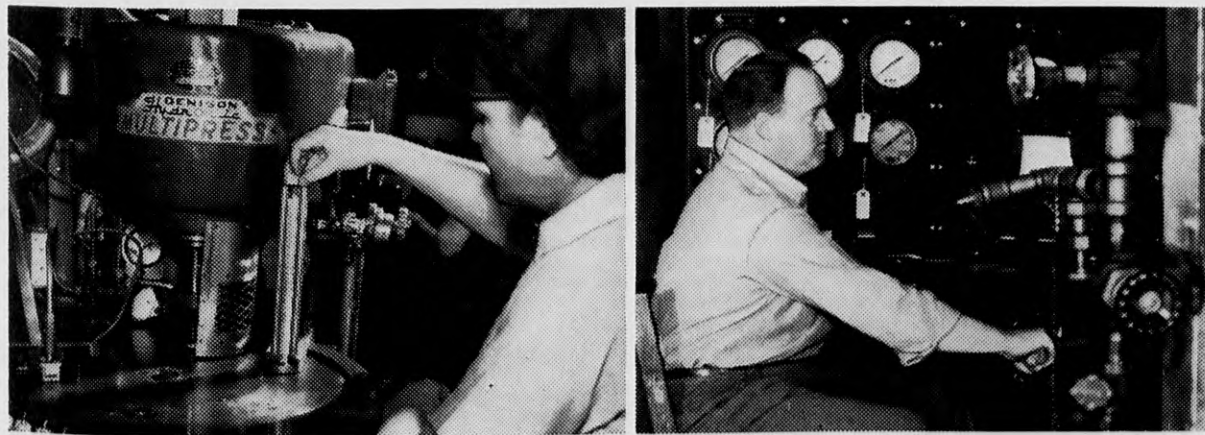

On such G-E machines as punch presses and high-voltage testing equipment danger is literally locked in. The minute an operator gets too close to dangerous moving machine parts or strong electric current, a safety lock or electric eye immediately shuts off the machine.

Safety on the job is a vital part of every employee's training at the River

Works, West Lynn Works and the Everett Plant. What's more, no employee is allowed to run a crane, lathe, punch press and other such equipment until he is thoroughly skilled in its safe operation.

The result is far fewer accidents at G-E plants than could happen in your own home such as falling down a flight of stairs or slipping in the bathtub. For its outstanding safety record, 21 national and state safety awards have been earned by G. E. locally during the past eleven years. Good safe working conditions are important reasons why "G. E." also stands for "Good Employment."

**SAFETY BARRICADE** of guards around this hydraulic press completely protects G-E operator, Mabel Sorrento of Lynn. Magazine loadings make it unnecessary for Mabel to place her hands near the machine.

**DANGER IS BURIED** in this high-speed test of a supercharger wheel which takes place inside a deep pit behind a barrier. Here Ralph Reynolds of Lynn operates the G-E test controls. The test pit is lined with a 14-inch thick steel ring, weighing 45 tons. In case the wheel fractures under test conditions, the ring and barrier in front of operator give safety protection from flying parts.

## A Desirable Exchange

The Andover Townsman this week received a request from Andover, England for a copy of this newspaper to be placed in the Municipal Library there, in return for a copy of their "Andover Advertiser." Relations between the English speaking nations could hardly be better served than through an interchange of newspapers, for when it is edited under the traditions of "freedom of the press" a newspaper reflects perhaps more intimately than any other medium the thought, customs, and desires of its community.

The fact that Andover, England first made the request should give pause to Andover, Massachusetts. How great a responsibility rests on the people of America! Many traditions of New England, as well as of the country as a whole, had their roots in old England. Yet many originated here. Let us of this community seek to reflect not only the best of our English heritage, but also show that our own traditions maintain their original integrity.

## One Vote Is Important

"Our forefathers fought for the right to vote - but do we care much for that right today?" wrote Hugh Forster, chairman, civic committee, Lancaster, Pa. "Apparently we don't!"

Mr. Forster then cited some facts which should make America ashamed of itself. In a recent election, 90 per cent of Belgium's eligible voters went to the polls. Almost as many eligible Italian voters cast ballots in the election that rebuffed communism, and 82 per cent voted in the last British election. Other nations have comparable records. But only 51 per cent of eligible Americans voted in the presidential election of 1948.

It's an easy alibi to say that just one vote doesn't matter, so why take the trouble to visit the polls. The fact is that one vote can be overwhelmingly important. Mr. Forster described cases where a very small number of votes made history. As an example, in 1884 James Blaine lost New York State by much less than one vote per precinct. Had he carried New York he would have defeated Cleveland and become president.

Such exceptional cases to one side, every American freedom rides solidly on the right of franchise. The secret ballot is the greatest defense against tyranny ever devised in the tangled history of mankind. No one who fails to vote can call himself a good citizen. He is, instead, a shirker of the worst possible kind.

Andover should follow the lead of many other cities and towns and water the principal streets on Sunday as well as week days, we say editorially. It is certainly true that the dust blows without any deference on the Sabbath.

The Other Child; The Brain-Injured Child, Lewis.

An easily read book about the brain-injured child - his description, symptoms, behavior, treatment and education. Non-technical language adds to its usefulness.

People Of The Deer, Mowat.

Fifty years ago there were 2000 Eskimos in the great Barrens to the northwest of Hudson Bay. Now, after the intrusion of the white man, there are 40 persons left. Farley Mowat, a young Canadian, lived among them as friend for two years. A thought-provoking book.

Israel, Lehrman.

Hal Lehrman spent years of study and observation at the scene of his book, and much thoughtful judgment went into its writing. The problems of economics, immigration, Arab question, foreign policy and conflict of east and west patterns of life are all given consideration. Author has written for Newsweek, New Statesman and Nation.

Mrs. Otis Severence elected president of PTA for the 1942-43 term.

Plans completed for big parade and other exercises by veterans' organizations for observance of Memorial day.

America's Garden Book, Bush-Brown.

Wildlife In Color, Peterson.

A different arrangement of this material about the wild life of America-mammals, birds, butterflies, fish, trees, flowers, etc. makes it easy to handle and pleasant to use. Wildlife in communities and areas, rather than by families, is the new treatment.

Superintendent of Schools Kenneth L. Sherman said Thursday that the school committee will consider all applicants to succeed Roberts in his coaching-teaching duties. Supt. Sherman said: "I consider Roberts to be an outstanding coach. He was cooperative with this department and I regret his leaving. tary school had an exhibit. The High school and the Junior High school displayed their work and materials. The Art department had a special exhibit.

Arrangements for the proposed new Central Elementary P. T. A. have been made by two committees.

the by-laws committee under the chairmanship of Mrs. Francis A. Barous has developed a new set of by-laws which will give the Central Elementary P.T.A. a smaller and more efficient Executive committee than the present Central P.T.A. has. Mrs. Barous has been assisted in this by Mrs. Glenn H. Roundy, Mrs. C. Edward Buchan, Mrs. Harrison Brown, and Miss Catherine Barrett. The nominating committee is composed of Mrs. Harold Wennik, chairman; Mrs. Charles Bowman and Mrs. Gilbert Cate.

The by laws for the new Junior high and High school P.T.A. include provisions for including students on the Executive committee. Another innovation is the provision that all sections of town must be represented on the Executive committee of the new organization. These by laws have been drawn up by a committee under the chairmanship of Mrs. Walter Mondale. Serving with her were: Mrs. John Auchterlonie of Indian Ridge; Mr. Walter Davis of Shawsheen; Mrs. John Wilson of Ballardvale; Mrs. John Hall Jr. of West Andover; and Harold Howe II.

## Veterans Join For Memorial Day Exercises

Veteran organizations of Andover will join in fitting exercises Friday for the purpose of honoring their departed comrades.

This observance among veterans has been an annual custom since 1868 when Commander-in-Chief John A. Logan of the Grand Army of the Republic issued his general order designating May 30 of that year "for the purpose of strewing flowers and otherwise decorating the graves of comrades who died in the defense of their country in the late rebellion."

Originally known as Decoration day it now has become generally known as Memorial day when veterans of all succeeding wars pay tribute to the memory of their departed comrades. On this day graves of those who served their country are decorated in almost every village and town of the nation.

Locally the parade in the morning will be the feature of the celebration. The parade will form on Florence and Park streets at 8:40

**Students Urged To Get S.S. Cards**

June graduates of high schools, vocational schools, and colleges are urged to apply for their social security account-number cards before they graduate. Also, students who are not graduating this June but who expect to work during their summer vacations should obtain their cards before classes end. Seasonal workers, who expect to be employed for the first time on jobs covered by social security, should likewise apply early. Many prospective employers will not hire a person unless he has his social security account-number card with him, and many a good job has been lost this way.

Miss Vose, manager of the Lawrence social security office, says that the importance of the account number lies in the fact that wages can only be credited through the use of the account number. Since the money recorded in a person's social security account is used to figure benefits, the more money credited in the account the higher the benefits. Thus, if for any reason wages are reported without an account number or with an incorrect number, then these wages may not be credited to the account. Not only may future benefits be smaller because of this, but in some cases no benefits may be payable at all.

**LOCAL TEACHERS HONORED**

Mrs. Leo E. Pimpare is chairman of the banquet committee. She is being assisted by Mrs. John Gillooly, Mrs. Henry Stanley, Mrs. Robert Walsh, Mrs. Frank Killilea, Mrs. Romeo King and Mrs. Martin Caughey of North Reading.

**District Scout Meeting Held**

The monthly meeting of the Andover district Boy Scouts of America, was held May 21, at the Free church. The committee was host to the North Essex council executive committee. A smorgasbord supper was enjoyed.

The meeting was opened by Arthur Thompson, president of the executive committee, and turned over to William McDonald, Andover district chairman. John Killilea of post 75 read the report of the last Andover district meeting. The report was accepted. Howard Johnson gave the report on the organization and extension committee. Edward Leidich gave the report on the camping and activities committee. Walter Caswell reported on leadership training. Arthur Thompson then introduced the executive committee. Joseph McCarthy made a request for more applications for the court of review. William McDonald read a finance committee report from Francis T. Kelley. Leslie Mullin gave the commissioners' report. Mr. Noury made a comment for the health and service committee. William McDonald brought up plans for Memorial Day. Six scouts and explorers from post 72 and troop 72 will decorate the West Parish cemetery. Troop 75 and post 75 will take care of St. Augustine's cemetery. Troop 73 will decorate the South church and Christ church cemeteries and troop 76 will decorate Spring Grove cemetery. Burke, assistant post advisor of Post 75, discussed the importance and the honor the boys have in decorating the graves of veterans. Arthur Thompson then took over the executive committee meeting. Reports were heard from different committees. The next executive meeting will be held June 25 with the North Andover district in North Andover.

John Souter of the Free church and Leon Duchesne of the Sacred Heart church were presented with certificates for their part in the three year program. John Souter also received a medal for the same program. Presentations were made by Walter Caswell.

Among those present were Col. Frank J. Killilea, committee chairman, explorer post 75, Harold Gurry and Eugene Zalla, committeemen, explorer post 75, William Burke, assistant post advisor, post 75 and James Tammany, scoutmaster, troop 75, and Thomas Heard, committeeman troop 75. Explorers John Killilea, post 75 and Peter Caswell and Robert Dominique of post 72 were also present.

**"Tanks For The Memory"**

"You never even hear of a 'tank-town' nowadays," said Bill as the 5:15 passed the big glass-walled enginehouse in the North Station yards. We were homeward bound from work, and Bill was in a reminiscent mood.

"I was born and brought up in a tank-town," he went on. "Not far from Boston, either — but the locomotives used an awful lot of water in those days. "It was wonderful fun to watch the big double-header night freight come through, west-bound for New York State. Our little town was in a hollow, with a two-mile up-grade on each side.

"The freight would stop at the top of the eastern grade and the two locomotives would uncouple and come on alone. All the kids in town would be on the depot platform, tossing off railroad slang and lingo as the engines took on water at the big wooden tank. They were Consolidation type locomotives I think — 2-8-0's — big for their day — and they puffed and panted in great style.

"It sometimes took quite a while for them to fill up, because each of their tenders could hold around 10,000 gallons of water. Then at last they'd run back up the line and couple onto the cars again. Pretty soon — it would be about dark on a summer evening — pretty soon we'd see the first great puffs of black smoke, and after a few seconds we'd hear them. They'd be getting up speed as fast as they could on the downgrade, so they wouldn't stall on the up-grade to the west.

"We'd see the headlight coming nearer and faster, and the noise would grow louder and louder. And then with a long whistle and a roar the train would come charging past the depot — engines wide open, snorting and puffing, smoke and cinders everywhere, brake shoes rattling, dust flying, cars swaying and groaning wheels grinding — really a terrific racket.

"There'd be 60 to 70 cars, sometimes — a big load for those days. I tell you, it always gave me a thrill to watch that freight go by."

Bill paused after this monologue and looked out the window.

"All gone, now," he remarked finally. "Only a few wayside tanks left on the whole B and M system."

"Why?" I asked.

"It's the diesels," he explained. "They don't need to take on water — and diesels today pull every B and M train, except some commuter trains and a few local freights. "That's progress, of course — the B and M is one of the most highly-dieselized railroads in the country — and I'm all for it.

"But this cold efficiency sure does away with some of the glamour and excitement!"

Seasonal workers, who expect to be employed for the first time on jobs covered by social security, should likewise apply early. Many prospective employers will not employ a person unless he has his social security account-number card with him, and many a good job has been lost this way.

Miss Vose, manager of the Lawrence social security office, says that the importance of the account number lies in the fact that wages can only be credited through the use of the account number. Since the money recorded on a person's social security account is used to figure benefits, the more money credited in the account the higher the benefits. Thus, if for any reason wages are reported without an account number or with an incorrect number, when these wages may not be credited to the account. Not only may future benefits be smaller because of this, but in some cases no benefits may be payable at all.

## Memorial Day

Memorial Day is a sparkling parade which provokes pride in the heart but a lump in the throat and a tear in the eye. It is an occasion when the collective and individual American heart swells with respect for its heroes but heaves with sorrow for the price which they paid. It is the shuffle of marching feet, the roll of military drums, the wail of the bugle dying over cemetery hills. It is a grieved mother biting her lip. It is a young widow looking into the eyes of her child.

Memorial Day is the blend of two American ideals. It is the one day in the year when 150-million inhabitants of these United States pause to pay tribute to the men and women who died that the beliefs and traditions of this nation might endure.

And in the spirit of this tribute, it is a day when America flexes its muscles, juts out its chin and with sorrowfully begotten pride gives notice to the world that no power or collection of powers have ever challenged the rights of this nation to live by its democratic principles and survived.

But Memorial Day is a national prayer for peace. It is a hushed accounting of the price of war. It is a little boy standing at his dead daddy's grave, bravely waving the American flag, while his mother utters a prayer that the day will never be forced upon America when this man-in-the-making will be called to arms.

We have been wondering why a thousand dollar automobile costs more than two thousand dollars and why a lot of other things seem to be out of our reach financially. We find that it is tied up with a lot of things, such as deficit financing, price controls, defense spending, high taxes, government debt, over-extension of credit and a multitude of other things. — Humbolt (Iowa) Republican.

## Down the Years with The Townsman

### 50 Years Ago — May 1902

Memorial day parade tomorrow will start at 8:30 a.m. After exercises at the library it will go via Main, Morton, School and Central streets to the South church where exercises will be held instead of at the town hall, now undergoing repairs.

All schools not closed by small pox will have appropriate exercises this afternoon.

Board of health makes vaccination compulsory for all of Andover's residents who have not been vaccinated within the past seven years.

Semi-custom made black suits for graduation \$18. — adv.

The thermometer went down to 36 degrees at the town farm this morning. Frost expected tonight.

Several minor bicycle accidents occurred Sunday without serious results.

The "class game" at Phillips academy scheduled for yesterday did not come off as the faculty forbade it. The game, we add, is usually more of a cane rush and mud and egg slinging contest than a ball game.

Atty. Charles A. DeCourcy of Lawrence, Andover's town counsel, is nominated as judge of the superior court.

### 25 Years Ago — May 1927

Children of St. Augustine's and St. Joseph's churches join in beautiful May procession.

Bradlee mothers put on amusing minstrel show in the Punchard hall before audience of Andover Mothers' club and their friends.

Boy scout day observed by Andover scouts with big parade, exhibition at Balmoral field and entertainment at town hall in the evening at which Big Brother Bob Emery awarded prizes. Troop 3 of South church was the winner of the events. Troops 6, 7 and 8 of St. Augustine's received their charters.

Dr. J. Edgar Park, former minister of West Parish church, inaugurated president of Wheaton college.

Farmhouse and outbuildings on River road leveled by fire Sunday owing to lack of an available water supply.

Orders issued by selectmen that all dogs be tied up, following killing of several hundred chickens by dogs. Owners of dogs which do this damage will have to pay \$2 for each chicken killed.

Frank McBride reappointed head lifeguard at Pomp's pond and John Robertson assistant.

Balmoral Gardens, delightful openair dance spot, opened Saturday night for its fifth season with large attendance. Jersey Jic-Jacs provide music.

### 10 Years Ago — May 1942

Andover's first wartime observance of Memorial day will take place Saturday. Parade at 8:45 a.m. will proceed to the Memorial Hall library for exercises, thence to the Memorial tower at Phillips academy, after which it will move via Phillips and Abbot streets to Spring Grove cemetery for various exercises. Visits to all cemeteries curtailed this year.

Arthur L. Coleman, prominent Legionnaire and district director of the army aircraft warning service, addresses large gathering of local observers at Free church parish house.

Andover Community orchestra closes its season with performance before large audience in Memorial auditorium.

### NEW BOOKS

Fourteen Men; The Story Of The Antarctic Expedition To Heard Island, Scholes.

A first hand account of the 15 month experiment expedition to Heard Island, the fragment of land separated from Australia by 2500 miles of the wildest and loneliest seas in the world — too small to be on any but the largest of maps. Here are their findings in meteorological conditions, flora, fauna, etc.

Toward Manhood, Bundesen.

Written for teen age boys by a brilliant doctor who is himself a father. Ideal for better understanding of a growing boy and his problems.

Menus And Recipes For The Discriminating Hostess, Lambert.

The author, Ella L. Lambert, a member of the American Dietetic Association, has served many years as Home Service Director of the Milwaukee Gas Light Company. Here are the recipes she has worked with and found absolutely satisfactory. Worth trying.

Pageant Of Netherlands History, Barnouw.

A long review of Netherlands history, not a complete or consecutive story but an arrangement of selected incidents and personal lives; it is first of all a study of the people — their manners, customs, beliefs, letters and arts.

Crisis In Freedom; The Alien And Sedition Acts, Miller.

In the period from 1798 to 1800 when Federalists were taking advantage of our undeclared war with France to brand the Jeffersonian Republic as "pro-French traitors." These laws pushed through Congress gave the President authority to deport aliens dangerous to the peace and safety of the United States and protected certain men from attacks in the press.

The Challenge To Isolation, 1937-1940, Langer.

The first complete and objective history of American diplomacy from Munich up to the time of the "Destroyers For Bases" deal, which ended American isolation.

The Nineteenth Century, Raynal.

Another in the Great Centuries of Painting series, this is a colour history of comparative painting in which works of art, created in the same century, are related and compared. An inspiration to both creative and appreciative artists.

Handbook Of Insurance, Crobaugh.

Over 5000 insurance ideas have been collected, classified and compiled for this new edition of the handbook. All forms of insurance are considered — fire, life, marine, inland marine, casualty, corporation bonds, annuities.

My Ringside Seat In Moscow, Myaradi.

Dr. Myaradi, banker and lawyer before he became the last non-Communist Finance Minister of Hungary, tells his personal experience as an important diplomat who was allowed to see Russia as

few others have been permitted. He draws a pattern of hopes and plans of the Soviet government for the rest of the world.

## Celebrity Series Will Sponsor Burl Ives Here

From Phillips Academy comes the eagerly awaited announcement of next season's Celebrity Series. The success of this year's performance by the First Drama Quartette with Charles Laughton, Charles Boyer, Sir Cedric Hardwicke and Agnes Moorehead, prompts the sponsors to include another notable theatrical attraction — Emyln Williams, the great English actor, who returns to America as Charles Dickens. Williams, known as a playwright and movie star, proved to be a highlight of the New York and Boston theatrical calendar this year.

Burl Ives, now on a European tour, will follow his Symphony Hall concert in Boston with an appearance at Phillips Academy in an all-request program which will undoubtedly include such popular numbers as "The Blue-Tail Fly," "Foggy, Foggy Dew" and "Rock Candy Mountain."

The third attraction in the Andover Celebrity Series will be Reginald Kell, acclaimed the world's greatest clarinet player and his instrumental ensemble in a program devoted to favorite compositions for clarinet, violin, cello and piano.

**LITTLE LEAGUE**  
Last Saturday the Andover Cardinals went down to their first defeat before the Lawrence Braves, 2-0. However, Manager Tom Law and his assistants Carl Eler and James Bissett feel they are now ready for the season's opener next Monday, June 2, at 6:30 p.m. at

the playstead. The following boys took their physical examination at the Andover Recreation center last Tuesday:

Pitchers: Phillip Colquhoun, 12 yrs., William Shaughnessy, 11, William McCullom 12, William Dubocq 10;

Catchers: William Cronin, 11 yrs., Douglas Anderson 12;

Outfielders: James Richardson, 11 yrs., Dennis Barous, 12, and William Simpson, 10;

Infielders: John Giovinco 11 yrs., Glenn Williams, 12, Richard Leete, 10, William Gallant, 10, John Matton 11.

Manager Law and his assistants have one more boy, 10 yrs. or under to pick in order to meet the league requirements of 15 players. Opening game festivities, according to Commissioner Charles O. McCullom will be brief, consisting of the opposing team and Cardinals riding in open cars through town to the playstead, where other events, brief in nature will round out the program. Game time will be at 6:30 p.m. and all parents and friends are invited to watch the results of three months training and screening of over 120 boys.

Uniforms were presented after the Tuesday evening practice game with the Groveland Red Sox. Tonight, May 29, the Cardinals will meet the Groveland Yankees in their last practice game before the opener June 2.
