How to Be a Real American Beauty

It's the "bathtub look" that's going to get a girl places. Nothing in the way of beauty could be simpler, certainly—or cheaper—than bathing. Just whip up the lather and wear out the body brush, and come out of the tub glowing from top to toe. It's a lesson you might as well learn early—it's a nice long soak in the tub that makes a girl's face look smooth and free from tired lines. And a good scrubbing puts life in her eyes, pink in her cheeks, and a satin finish on her complexion. Add a shampoo, and there's an extra sparkle to her hair. Beauty begins in the bathtub!

Milk in bottles looks all alike . . .

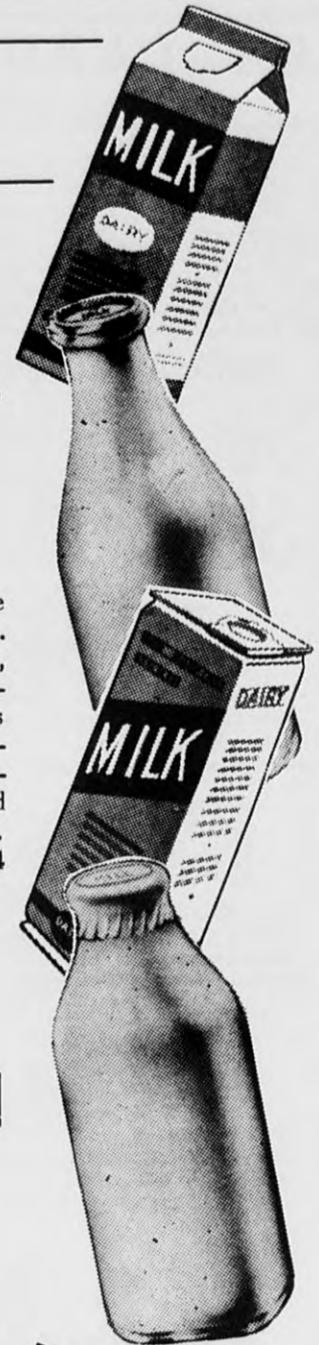

There IS A Difference - AND YOU SHOULD TAKE THE TIME TO KNOW ABOUT IT . . .

Where Does The Milk You Use Come From . . . ?

It probably comes from several different points in New England and the Mid-West. The composition of that milk is regulated by law, but its composition can be the minimum standard required. For instance, a vat of milk may be too rich in butterfat, but deluted with skim milk to increase the quantity and profits. Similarly, milk which isn't rich enough to meet the required standard will have cream added. It's all good milk...but little of it is the natural product as produced.

Why Is Our Product Superior . . . ?

Wild Rose Farm Milk is ALL WHOLE MILK... we do not add nor subtract from the natural product. It is produced here in Andover. We pasteurize, homogenize, and package this milk in our own sanitary processing plant. The Wild Rose herd is accredited and certified free from BOTH Tuberculosis and Bangs' disease. 11,553 herds are recorded in Massachusetts with only 124 vaccinated and accredited free from this terrible blood disease. We are proud that our herd is one of the 124 CLEAN, HEALTHY herds.

Do It Yourself

One of the revealing phenomena of the times — and one whose significance the economists and social historians haven't adequately covered as yet — has been the astonishing growth of the "do-it-yourself" movement. Millions of people, male and female alike, no longer rush to the phone to call a mechanic or a craftsman when something goes wrong. They do it themselves — and their efforts run the gamut from minor repairs to the plumbing to constructing a whole house with little or no outside help.

The most obvious reason for this is economic — the cost of labor. But it isn't the only reason. The five-day week has given the bulk of people far more leisure than they used to have, and thus the opportunity to do something besides rest up on their off-time. Furthermore, once people start doing some of the things for themselves that they used to hire others to do, and learn that they can wind up with an acceptable job, they enjoy it and find an abiding satisfaction in it. They can point to the result with pride. Finally, the manufacturers of all kinds of goods, seeing this vast new market, naturally have jumped in and made do-it-yourself a great deal easier and less forbidding than it used to be. New kinds of wallpaper and paint applicators; small power tools for the home; new types of building materials — these and a thousand and one other wares for the nonprofessional repairman and builder are now universally sold. Many big-scale and small-scale advertisers stress do-it-yourself. And the publishing of books which show through relatively simple texts and diagrams how to plumb, wire, carpenter, and so on has become a substantial business.

The do-it-yourself movement is by no means universal. The professional mechanics and artisans are keeping busy for the most part. But it has grown to an amazing extent in a very short period of time, and no end is in sight.

It is well to remember that troubles that never come give us more trouble than those that do.

SCIENCE and your Health

HOW DEEP IS "SKIN DEEP"?

by Science Features

Our everyday conversation is studded with references that link the skin with the emotions. People turn "purple with rage." We "sweat-out" an unpleasant situation. Trouble is only "skin-deep." We may occasionally "itch for revenge" or "get cold feet."

Scientists know that such expressions have a basis in fact. Emotions may greatly affect the health of the skin. Recently a Denver skin specialist, Dr. Gerald M. Frumess, stated that "the skin may reveal emotional states as eloquently as do the muscles of facial expression."

Emotional factors, the doctor said, affect two skin diseases known to have an organic cause. These are warts and the well-known "fever blister" or "cold sore." They may also lead to such common skin disturbances as rosacea, which causes discoloration and thickening of the skin, and eczema, or outbreaks of pimples and blackheads.

The specialist cited cases in which ten people suffering from recurring "fever blisters" were successfully treated with brief psychiatric care. He added that the value of suggestion in curing warts, used by such fictional heroes as Tom Sawyer and Huck Finn, is today a recognized scientific fact.

Rosacea occurs often in people with a tendency to blush easily and who are subject to various intestinal disorders. The Denver physician suggests that treatment requires that the personality pattern which causes excessive blushing be corrected as well as the skin disorder itself.

So it seems that many skin diseases are more than "skin-deep."

WOMEN'S CONFERENCE

Mrs. James Eastham, social action chairman for Andover, is a member of the panel that will discuss juvenile delinquency. Mrs. Harold Harshaw and Mrs. Wilfred Dwyer are among the committee chairmen who will make reports at the business session.

One of the boldest burglaries ever committed in this town was accomplished early Sunday morning at the residence of Mrs. George W. Coburn on Central st. Entrance was gained through a window on the first floor and the mauraders found their way to the second floor where Mrs. Coburn and her maid, Eliza Stafford, were asleep. They entered the maid's room and when the latter was awakened by a noise she found the electric lights turned on and a masked man standing in the room. He covered her with a revolver and told her to be still, while another burglar ransacked Mrs. Coburn's room taking a watch and several articles of jewelry. Mrs. Coburn did not awaken and did not know of the theft until she arose at her usual hour when she was informed of the break. Chief Frye was informed and went to Boston Monday in the hope of finding some of the stolen articles in a pawn shop.

Eleven Years In Soviet Prison Camps, Lipper.
Unique Soviet system of forced labor on an enormous scale, told by a woman who was a slave in the Kolyma gold region when Henry Wallace and Owen Lattimore visited there in 1944. Now after 11 years, she tells of the 12 million in the Soviet prison camps. Here is a human, sensitive story of the Russian masses. Author, born in Brussels of German-Jewish parents, Elinor Lipper studied medicine in Berlin where in 1931 she became a Communist. In 1935 through marriage, she became a Swiss, and this worked for her after her imprisonment in Russia where she was suspected of being a spy.

American Historical Views On Staffordshire China, Larsen.
Some of our most interesting historical events were given long

life by being used as historical scenes on the famous blue ware. This book, authoritative for collectors, has 133 half tones of rare Staffordshire.
The Hooked Rug, Kent.
From the numbers of books now

in print on the subject of hooked rugs and their craft, those by W. W. Kent are still outstanding, even though not new. This one, in print for several years, is still a fine book for beginner and experienced rug maker.

Mass. Selectmen Turn Down Tax Jump Proposals

The tax subjects which Roy A. Hardy, chairman of the board of selectmen proposed for discussion before the 25th annual statewide town meeting of the Massachusetts Selectmen's association were considered at the recent session held in Boston but were not adopted.

At the request of the association, the selectmen of each town were to submit topics for discussion. Mr. Hardy's proposals, which were submitted for the local board of selectmen were for an increase in the individual \$2 poll tax and an increase in the minimum motor vehicle excise tax.

Both were discussed at some length and both had many supporters but there were enough opponents to have both turned down when put to a vote. If adopted they would have been sent to the legislature for consideration by that body.

Leaves Property To Her Children

The will of Mrs. Mary A. Ganley of Andover who died Oct. 11, was filed this week in the registry of probate at Salem. No estimate of the value of her property was listed.

Household furniture and furnishings, pictures, books, jewelry, clothing, automobiles and other tangible personal property at 14 Marwood drive, and elsewhere were bequeathed to a daughter, Miss Jacqueline Ganley of Andover who was nominated as the executrix, and who was also left various shares of stock.

Residue of the estate was placed in trust for two sons, Edward H. Ganley, Jr., of Methuen and Thomas J. Ganley of Andover, who are to have the principal outright at the discretion of their sister, the executor-designate and trustee. Issue of the sons are otherwise to have the principal outright at the sons' deaths, the will stated, and the daughter is to inherit it if there be no issue of one beneficiary or both beneficiaries.

Lifetime gifts of money made to the sons are to be equalized if the one received more than the other, according to the testament.

TO GIVE SEWING HELP FOR MOTHERS' GROUP

At the next meeting of the Littlest Listener Bluebird group, at 10 a.m., Wednesday, Nov. 4, Mrs. O'Neill will bring a pattern for little boys' overalls, and will help mothers who bring material to cut overalls and put them together. Mrs. Wetmore and Mrs. Beyer will teach mothers of the little girls to do American and English smocking. For this, mothers are asked to bring in a small piece of plain broadcloth, without any pattern on it.

Mrs. Allen Gillingham is mother in charge of the Bluebirds for this year.

STATE APPROVES VALE SEWER PLANS

(Continued from Page One)

the first of November, after which the board will be ready to issue a call for bids on the construction of the new system.

The town meeting last March appropriated \$80,000 to engineer and construct the system and to construct a sewage treatment plant together with all necessary apparatus, and authorized the selectmen to secure land and rights of way for this purpose. The article was adopted with the understanding that \$40,000 be taken from free cash and \$40,000 raised by assessment.

The system is being constructed to relieve some of the undesirable conditions that exist in the Vale. Briefly, it will drain several streets near the center into a treatment plant after which the water will pass out into the Shawsheen river. It was recommended after a long study of the situation by the town's special committee on water and sewerage in cooperation with the board of public works and the local health board.

As it stands now calling of bids by mid-November and the awarding of the contract may result in some of the excavating and earthwork being started this winter.

Central Elem. PTA To Hold Auction

The next meeting of the Central Elementary PTA will be held in the school auditorium at 8 p.m., Wednesday, Nov. 4. Class visitation will be as usual from 7:30 to 8 p.m.

After a short business meeting in the auditorium the members will adjourn to the gymnasium for the white auction sale. Mrs. Paul Simeone, chairman of the ways and means committee, requests that members send or bring into the school articles suitable for the auction, on Monday and Tuesday, Nov. 2 and 3.

The PTA has many appeals for funds. It buys books for the library, films for the school projector, art materials, etc. The proceeds from the white auction sale will help make it possible to carry out the projects sponsored by the association.

YOUNG POETS INVITED

Boys and girls of grades 3 through 6 are invited to take part in a poetry contest to be held by the library which will be rewarded during book week. Details may be secured at the library or its Ballardvale branch. All entries must be in by Nov. 10.

If your doorbell hasn't been rung by a community chest solicitor yet, it will be. Andover's Red Feather Chest is off to a good start, with half of the town's residents being asked to give, according to Eugene A. Bernardin Jr., chairman.

"We have a good chance of reaching our goal if we continue to give us generous increases over their contribution last year," Mr. Bernardin said. "These increases are necessary because the Andover Youth Center, USO and 12 other Red Feather agencies are helping more than ever before, and their costs have gone up for much as the cost of living."

Chairmen and majors in the campaign met Sunday afternoon at the home of Dr. Milton J. Lawrence, Greater Lawrence Chest chairman, to make final plans for the Andover's campaign. Dr. Lawrence, Greater Lawrence Chest president, Mr. Bernardin and Dr. Meyers spoke to the group and a film on home ownership was shown.

Others present were Mrs. M. Barrett, schools chairman; Mrs. John N. Cole, Red Feather chairman; Roy E. Hardy, mental chairman; Stafford J. Say, special gifts major; William T. Rich III, Mrs. Wilson and Mrs. John J. residential majors.

The entire Greater Lawrence Chest campaign officially opened with a dinner meeting at the residence of Dr. C. Fuess, headmaster of Phillips academy, was the speaker.

"The most important thing for the United States now is to get together, nationally and locally," Dr. Fuess declared. "We are in precisely the same position as the Red Feather Chest would like to be in. We are fighting ourselves, our own government, even the UN, the best way to get together and one of the best ways to get together is to help our own community, with a little crusade like this chest drive."

Chest Fund Drive Off To Good Start

If your doorbell hasn't been rung by a community chest volunteer solicitor yet, it will be soon. Andover's Red Feather drive is off to a good start, with almost half of the town's residents having been asked to give, according to Eugene A. Bernardin Jr., Andover chairman.

"We have a good chance of reaching our goal if people continue to give us generous increases over their contributions of last year," Mr. Bernardin said. "These increases are necessary because the Andover Youth Center, USO and 12 other Red Feather agencies are helping more people than ever before, and operating costs have gone up for them as much as the cost of living has for all of us."

Chairmen and majors in the Andover campaign met Sunday at the home of Dr. Milton J. Meyers, Greater Lawrence general drive chairman, to make final plans for Andover's campaign. D. K. Webster Jr., Greater Lawrence Community Chest president, Mr. Bernardin and Dr. Meyers spoke to the group and a film on home soliciting was shown.

Others present were Miss Catherine M. Barrett, schools chairman; Mrs. John N. Cole, residential chairman; Roy E. Hardy, governmental chairman; Stafford A. Lindsay, special gifts major; Mrs. William T. Rich III, Mrs. James D. Wilson and Mrs. John C. Young, residential majors.

The entire Greater Lawrence campaign officially opened Monday with a dinner meeting in Lawrence at which Dr. Claude M. Fuess, headmaster emeritus of Phillips academy, was guest speaker.

"The most important thing in the United States now is to get together, nationally and locally", Dr. Fuess declared. "At present we are in precisely the state Malenkov would like to have us - fighting ourselves, our allies and even the UN, the best organ we have for international unity. We've got to begin somewhere as a unit, and one of the best ways is in our own community, with a constructive crusade like this community chest drive."

Mr. Webster, who also spoke at

the meeting, pointed out that although Greater Lawrence has had some hard knocks in recent years, it is attracting new industries.

"When an industry considers coming to a community, it wants to know how we take care of our people in the way of welfare and charity building agencies," he said. "A victory in this campaign would do more for the industrial future of our community than anything else we can do."

Dr. Milton J. Meyers, campaign chairman, emphasized that the community chest in modern society is the best way of "helping our neighbors when they need it."

Additional volunteers helping William T. Rich Jr., special gifts chairman, are Lyman Appleton, Donald S. Burns, Robert C. Chase Jr., Frederick W. Gould, Roy E. Hardy, Stafford A. Lindsay, Winthrop Newcomb, David G. Roberts Jr., James K. Selden and Richard C. Simmers.

Mrs. John N. Cole, residential chairman, and her majors have recruited the following additional captains and solicitors: captains, Mrs. Herbert Carter, Mrs. Archibald Davidson, Mrs. James M. Gillan, Mrs. Paul Goldman, Mrs. Gordon Lauder, Mrs. James Prout, Mrs. David M. Thompson, Mrs. Herbert Westbrook, Mrs. Walter Wilson Jr., and Mrs. John Winters.

Ringworm Cases Under Control

The few cases of ringworm reported at Punchard recently are being watched by school and health authorities who feel that everything necessary is being done to keep it under control. No new cases have been found since it was first discovered.

At the recent PTA meeting John J. McArdle Jr., the school physician, spoke briefly on the subject telling the parents something of its cause, effect and proper procedure to follow to combat it.

It is a hot weather type of infection and not a reportable disease.

Information For Veterans

Q—I'm a World War II veteran, and I've just taken a job in France, where I expect to remain for a good many years. Can I get a GI loan to buy a home in France?

A—No. Property bought with a GI loan must be located only in the United States, its territories or possessions, and not in any foreign country.

Q—I'm an honorably discharged World War II veteran interested in getting a GI business loan to open a neighborhood bakery. What are the down payment requirements?

A—GI business loans are not subject to federal credit restrictions. You and your local lender will have to work out between you the amount and terms of the loan he will make to you.

Q—I am a World War I veteran, and I've just passed my 65th birthday. Am I entitled to a VA pension based on my age alone? I've never been sick, and I'm not disabled — but I do need the money.

A—You would not be entitled to a VA pension based on age alone. Pensions are paid to veterans who are permanently and totally disabled for reasons not connected with their service, and whose yearly incomes fall below certain levels. However, age is considered in establishing eligibility in relation to employability and the degree of disability.

Q—I am a totally disabled World War II veteran. I want to convert my National Service Life Insurance term policy to some permanent plan of insurance. Is there any limitation because of my disability? A—Yes. You may convert your term to straight life, 20-payment life or 30-pay life. You may not convert it to any of the endowment plans while you are totally disabled.

Man Bites Dog

"Man bites dog!" thought the English judge the other day, as he listened from his bench in Cambslang to the strange case before him.

A police officer named Peebles was reporting that he had received a hurry-up call to come to a restaurant. There, he reported, defendant Henry Strachan had stumbled in, "walked over to a dog that was chained in a corner, knelt down, caught the dog 'round the neck, and bit it on the nose."

The judge blinked. "Was the dog hurt?" he demanded, sternly stifling a smile.

"No," replied the officer, "but Mr. Strachan's false teeth fell out!"

tend. So far there have been large orders for ice cream, cookies, candy and tonics for the younger element, and ice cream, cider and doughnuts for the boys and girls of junior high school age and over.

In the center of the town the youngsters in costume will gather at 6 p.m., at the corner of Elm and High streets for the big parade to the auditorium. Promptly at 6:15 o'clock this long line of merry-makers will march behind the Punchard Girls' band up Main street which will be lined with spectators, to the auditorium where a special entertainment has been arranged for those of pre-school and under junior high school age.

There will be over 100 prizes for the best costumes.

The entertainment at the auditorium will be presented by Beverly Arthur, Bob Kay, accordionist of children's music; Mrs. Blaine Saunders, reader of ghost stories; and Ralph Duncan, magician.

Following this program the youngsters will go into the cafeteria for refreshments. Parents are requested to have all children out of the auditorium by 8:30 p.m., at which time the boys and girls of junior high age and over will have the place for their dance.

Representatives of the veterans organizations and auxiliaries are requested to be present in the hall to assist in keeping the youngsters in line for the refreshments.

Groups To Help World's Children

This Hallowe'en for the first time in Andover, children will be raising money instead of havoc before they go to their Hallowe'en parties.

Between the hours of 5 and 6 p.m., groups will go their rounds dressed in costume, but instead of sweets they will be asking for coins for the underprivileged children of the world, helped through UNICEF.

Such children will have little coin boxes labeled UNICEF for the occasion and also wear an orange arm band with the silhouette of a child drinking a glass of milk.

The idea developed two years ago among church groups. It was introduced to the churches here through Douglas Dunbar, president of the Andover Council of Churches. It has been taken up by departments of the West Parish church with Warren A. Lewis, superintendent of the school, Mrs. William Stewart, Mrs. Dean Hudgins, Mrs. John Peatman and teachers; also in the South church primary department of which Miss Luella Dunning is superintendent. Mrs. John C. Brown of the South church social action committee is heading up the local effort.

The rain that fell Sunday as a northeast storm lashed the coast, relieved the parched conditions in Massachusetts woodlands which had been closed Oct. 19 on the eve of the hunting season because of the great fire hazard. The previous weekend had seen 45 forest

fires raging in this state.

The Sunday storm, however, which the rainfall was 0.82 inches locally but heavier in many places, was sufficient to reduce forest fire threat and allowed Herter to reopen the woods Monday.
