Abbot Gets \$50,000 To Go Toward New Gym

An announcement which brings great gratification not only to Abbot academy but to this community as well, was made by Miss Marguerite C. Hearsey, principal, to the students and faculty of Abbot academy gathered in Abbot Hall for the daily chapel service.

Miss Hearsey informed the group that the school is the beneficiary of an anonymous gift of \$50,000, given as a memorial to the late George E. Abbot of Andover who at the time of his sudden death Nov. 22, 1952, was chairman of the school's board of trustees. The gift was made to the school as the initial portion of a fund which will be raised for the erection of a new gymnasium to be known as the George E. Abbot gymnasium.

As a gymnasium has long been greatly needed for an adequate physical education program, especially in the winter months, the hope is that ground may be broken in the spring of 1955. In the meantime the celebration this spring of Abbot's 125th anniversary will in all likelihood prove to be a strong incentive for the raising of the

JOHN F. O'CONNELL For Selectman and Assessor

If the voters want me for their next Selectman, I want them to know that I shall continue my unwavering convictions expressed frequently on the floor of many Town Meetings — that the people alone shall decide how much they want to spend; not officials nor aggressive splinter groups. I always fought for "controlled" taxation. (Taxes are too low unless we have everything other communities have — and a little more). If you think I have earned the honor of being Selectman, I'll be thankful. If you retire me from all future civic activity — I'll be thankful. To newcomers, I would like to direct your attention to the following: (1) I started the Pumps Pond recreation area with a group of citizens, using our own money; (2) Started Taxpayers Association and was its first President; (3) Unaided, and bitterly opposed by "officialdom", put across in Town Meeting the "secret ballot", your defense against the "fright" methods of minorities; (4) Procured Andover's first modern ambulance through a Town Meeting article; (5) At last annual Town Meeting a one-dollar tax increase was predicted by town officials — I succeeded in convincing the voters that many money items could be killed or postponed. There was no tax increase for the first time in many years.

Shawsheen Lighting Petition Rejected

The petition of the Lawrence Electric company for 25 poles with overhead wires and fixtures on North Main street was rejected by the selectmen Monday night after a public hearing in the central elementary school attended by about 50 residents of Shawsheen Village who recorded their unanimous objection to the proposal.

The hearing was held in the school auditorium as it was better fitted than any office in the town house to accommodate the large number present.

As explained by Sidney P. White, chairman of the board of public works, who was representing the street lighting committee, the latter has been making a study of the project for several years with engineers of the power company in view of improving the street lighting on several sections of Main street from the Lawrence line to Phillips academy.

The over-all plan includes the replacing of all old-type lights with mercury vapor lights having much greater lumens. The petition under discussion called for nine poles and fixtures on the westerly side of the street from a point opposite Kenilworth street north, and 16 poles and fixtures from the Shawsheen river northerly to Balmoral

Mr. and Mrs. Tenney Smith and their son, Robert, of Arlington, N.J., spent a few days in town recently, to attend the funeral of Mrs. Smith's mother, Mrs. Percy Schutt of Canterbury st.

Mrs. Walter Caswell of Dumbar-ton st., was the guest of the North Andover Woman's club at their American Home day meeting Monday.

Andrew Innes of Canterbury st., has returned from a business trip to Jackson, Miss.

Anyone watching the Dave Garroway television show in New York last Friday morning, could have seen Lester Thompson of Chandler circle, among the sidewalk spectators outside the studio windows. He was holding up a card saying "Hello" to his two small sons, Peter and David, and looked as natural as could be.

Notes

Pictures of all classes and clubs of Punchard were taken by the yearbook photographer Wednesday and Thursday.

A representative of the Chamberlain school of Retailing in Boston visited the guidance office Monday afternoon. Girls interested in the school were interviewed.

Generous Response To Heart Fund

When the Heart Fund volunteers called on their neighbors last Sunday afternoon, they distributed bookmarks which listed ten 'heart facts' and collected over \$255 for the Massachusetts Heart Association. This was a gratifying increase over the total amount collected for the Heart Fund last year and will be further augmented by the proceeds of the Heart Fund dance on Mar. 5, at the Andover Country club, and by collection from the plastic heart boxes.

The Heart Sunday chairmen are extremely grateful to the precinct leaders and all the collectors for their enthusiastic co-operation. A few streets that did not receive calls on Sunday due to the illness of collectors are still being visited.

The total amount collected throughout the Commonwealth Sunday afternoon was \$470,000 twice what was given last year.

Anyone who has not yet been solicited and who would like to contribute to the fund, may address it in a stamped envelope to HEART, c/o Postmaster, or call Mrs. Le 2746 or Mrs. Gillingham, 2349. The gift will be called for.

OPPOSE JAIL MERGER

The board of selectmen at Wednesday night's meeting registered opposition to the consolidation of the Essex county jails and wrote to the county commissioners suggesting that the jails be kept at each end of the county as at present. They felt that improvement could be made in both present buildings at a cost much less than the expense of consolidating them in a new structure.

Show Attractions Of Essex County

Some of the many attractions of Essex county were reviewed by David C. Adkins, managing director of the Lynn Chamber of Commerce who was the speaker at the meeting of the Andover Service club held last Thursday evening at the Andover Inn.

In connection with this program Donald B. Look showed a colored film of numerous historical places and recreational activities found in the county, some of the scenes showing views of the students at Phillips academy.

At the next meeting, which will be held Feb. 25 the Rev. Howard P. Kellett, for the past 15 years Protestant chaplain at the Mass-

achusetts state prison in Charlestown, will speak on "Inside Prison Walls".

The Rev. Mr. Kellett, formerly of Lawrence, was for five years probation officer of the Boston juvenile court and for five years chap-

lain at the Deer Island house of correction.

A Choice Of Candidate

A week from Monday the voters of the town will be called upon to decide six contests which will have a direct bearing on the future progress of Andover.

They will have to fill vacancies in public office caused by the decisions of Arthur Sweeney, moderator; Roy E. Hardy, selectman and assessor; Victor J. Mill Jr., of the board of public works, and Walter C. Tomlinson, of the planning board, to retire from the posts they have filled for many years.

To replace these officials the voters have a choice of two candidates for moderator, seven for selectman, seven for assessor, (selectman and assessor are separate offices), six for two places on the board of public works, and three for the planning board.

So many important problems are facing Andover today, especially those calling for large expenditures because of the town's rapid growth, that it is most essential for the voters to acquaint themselves with the qualifications of all candidates so that those best fitted to serve the town may be selected.

In this regard and as a public service to the electorate, The Townsman in another part of the paper today is presenting statements which it has invited the candidates to submit to show why they should be elected to the offices to which they aspire.

We ask you to read them carefully, weigh them in the light of existing and future town problems, and then, by all means, make it your business to get out and vote.

A Bad Tax

One thing can be said with virtual certainty about taxes — once a tax is adopted, even though it is supposed to be temporary or of an emergency nature, it is extraordinarily difficult to get rid of it.

The federal gasoline tax is a fine case in point. It was first enacted 20 years ago, purely on a temporary basis. And what has happened is that it has been periodically increased — instead of reduced or eliminated — and has reached the present level of two cents a gallon. There was hope that it would die this April — but the President has asked that it be continued.

The President's position is based upon the need for maintaining government revenues. But, aside from that, the federal gasoline tax is a very bad one. Gasoline taxation is properly a field for the states and the states only, under laws which allocate all the revenues to road work and prevent diversion to other purposes. According to The Oil Daily, the federal tax now brings in close to \$1,000,000,000 a year, while federal appropriations to the states for highways are only \$550,000,000 a year. In other words, close to half of the tax is being siphoned off. The motorist does the paying — but he doesn't get his money's worth.

PROBLEMS OF OLD AGE By Science Features

The song which laments that "the old rockin' chair's got me" expresses a feeling all too often characteristic of elderly people. In many cases these people suffer from no organic disturbance. They simply feel "old."

But the proverb that you are only as old as you feel has received considerable scientific support in recent years. Advances in medical science, which have added years to our life expectancy, have made old age healthier than ever before.

As a matter of fact, the complex problems involved in helping the ever-increasing elderly population lead healthy and useful lives has given rise to a whole new branch of medical science. This is called gerontology, the study of old age.

Many cases of elderly people who lack a sense of general well-being—who feel "old" and spiritless—can be traced to a deficiency in certain hormones, the life-regulating chemicals produced by the body's glands.

To help people suffering from this deficiency, a hormone drug, called Combandrin, has been developed. This drug, containing two important hormones, acts to help rebuild tissue and promote a sense of fitness. It can be given by injection or by tablet.

But this is only one aspect of gerontology. Others include psychiatry and preventive medicine—in fact, all scientific knowledge that can help old people live happier, healthier lives.

What Our Readers Say —

Town Meeting Ideas

Editor of The Townsman:

A pointed ritual for the opening of the annual town meeting, to be said in unison, is the following paraphrase of the Preamble of the Federal Constitution:

We the People of Andover, in order to form a more perfect Union, establish Justice, insure domestic tranquility, provide for the common defense, promote the general welfare, and secure the blessings of liberty to ourselves and our posterity, do gather and take part in this in this meeting.

That sums up the purpose of the town meeting and of all that is good in government. And of equal consequence, it sums up the purpose of the largest single expenditure which comes before the meeting, that for the essential public school.

Referring to another phase of town government, we all realize the imprudence of hiring a person for a specialized job, then a week or two later asking him about his qualifications for the job. Consequently, the town should hold its annual elections after the town meeting has been held and concluded, not before, as is the present practice, so that present officials, and those seeking the office, can be asked questions concerning their plans and understanding of what they seek to do for us.

Sincerely yours,

Appreciates Gifts On 93rd. Birthday

Winslow L. Knowles, 3 Punchard ave., who celebrated his 93rd birthday Feb. 8, wishes to express his deep appreciation for the many gifts, letters and cards received on that occasion.

"And best of all," he adds, "was the presence of so many friends who called to say, 'Happy Birthday!'"

He received a large basket of fruit from St. Matthew's lodge, A.F. & A.M., of which he has been a member for 47 years.

A group of friends from the Square & Compass club and the

I.O.O.F., call on him weekly for a game of cards which he enjoys.

"After all," he notes, "when you consider the vicissitudes of an active life you wonder how you can ever live to be 93. To quote Elbert Hubbard, 'Life is a dangerous business, very few get out of it alive.'"

SHAWSHEEN LIGHTING PETITION REJECTED

(Continued from Page One)

street. None would be placed in the square.

Mr. White explained that the committee has reached the point where it feels that the sections of Main street which have not got the new mercury light should be improved. He said that the main reason for asking for the new poles with overhead wires was efficiency plus the cost. The proposed plan would, with improved lighting, cost the town about \$230 more per year. To use the underground system would cost the town \$1530 a year more.

Sgt. James R. Lynch of the police department said that the new lighting in several sections of the town has cut down accidents as the type of lamps used throw the light down on the roadway.

Opposing the petition were C. A. Wood, Atty. Walter C. Tomlinson representing the Merrimack and the Cambridge Mutual Fire Insurance companies; Atty. Richard C. Simmers, Louis L. Ellenson, Tree Warden R. G. Abbott, M. J. Lane and others.

The main objection was to the overhead wires which they termed dangerous and unsightly. They advocated use of the underground system and felt the effect of the added cost on the tax rate would be negligible. They were also interested in maintaining the beauty of the village which they felt the overhead wires would impair.

At the close of the hearing a show of hands was requested. No one favored the petition and the show of hands against it was unanimous.

Rejection of the petition by the selectmen means that the street lighting committee will have to make a further study of the project in order to provide a plan to improve the lighting of the area that will be satisfactory to the residents

Voice Opposition To Zoning Plan

Opposition from several local builders was voiced at a hearing before the Planning board last Thursday night on the article which a lay committee on zoning has inserted in the town warrant to increase the frontages and areas of lots in single residence districts.

The article would provide for frontages of 125 feet and areas of not less than 15,000 square feet within a one-mile radius of the town house and within a half-mile radius of the Ballardvale fire station and a half-mile radius of Shawsheen square, and frontages of not less than 150 feet and areas of not less than 25,000 square feet beyond these areas.

The committee feels that the restrictions in its article will pre-

Local Ringworm Problem Being Well Handled

Ringworm cases in the local schools are being well handled in the opinion of officials of the state department of public health.

On repeated complaints of one or two parents a conference on the situation was held here recently by local and state officials with the result that the local authorities were congratulated by the state department upon the efficient way they are handling the situation.

In a letter to Supt. Edward I. Erickson of the school department, Dr. Roy F. Feemster, director of the division of communicable diseases of the department of public health states that conditions respond slowly to treatment and that if parents do not follow instructions of their physicians to the letter the conditions will go on indefinitely in such neglected cases.

The letter from the state department is as follows:

Be SURE To Vote On March 1st VOTE NO ON CONSOLIDATION

Look for the consolidation question at the end of your ballot.

A COSTLY EXPERIMENT

You would lose a tree warden subject only to the will of the voters.

You would lose a man with 17 years of experience, experience for which you have paid out many thousand dollars.

You would lose the experience and skill attained by men in the tree and moth departments.

In their place you would have a foreman far removed from the voters of the town. A foreman appointed by a board of public works, without any knowledge of tree care. He could be replaced at every whim of the board.

The present Tree Warden would regard a vote for consolidation a repudiation of his 17 years service to the town. It would act as a recall of an elected town official who has two years more of his present term to serve the town.

Andover is the noted community it is because the electorate has repeatedly chosen Town Officers who have dedicated themselves wholeheartedly to its interests. Such public service is an effort which takes time, sincerity of purpose and a keen business acumen.

In this candidacy, I feel that I offer Andover these requisites because of my qualifications: Air Force combat veteran; Practising attorney; Operate own real estate and insurance office in Andover; Have Town Office experience, having been elected to the Planning Board in 1952 which manifests my interest in governmental affairs; Have constantly been interested in all civic and fraternal activities relating to Andover.

Further, I am possessed of admiration for the manner in which our immediate past Town Officers have zealously protected the Town's best interests and regard their performance as a sound pattern of conduct for the Office to which I aspire.

Escorted by her father the bride chose a gown of nylon tulle over satin with a scalloped lace portrait neckline on a fitted bodice and a bouffant skirt with side panels of imported Chantilly lace. Her imported veil of French illusion was attached to a lace pillbox and she carried a cascade of white roses centered with an orchid.

Miss Eileen Locke of Andover, as her sister's maid of honor, wore a period gown of comflower blue which had a strapless velveteen bodice and full nylon skirt and matching velveteen shrug jacket. She carried a cascade of dubonnet roses. The bridesmaids were Miss Betty Ann Sunderland, Miss Frances Ratyna and Mrs. William R. Walsh Jr., all of Andover. They wore similar gowns in dubonnet and carried cascades of pink roses.

For her daughter's wedding Mrs. Locke wore a dress of aqua shantung with purple velvet accessories and an orchid corsage. Mrs. McIntyre wore navy blue lace with pink accessories and a corsage of pink camellias.

George W. McIntyre of Wellesley was best man for his brother. The ushers were Charles W. McCullom of Andover, Gerald A. Dubois of Methuen and Joseph M. Normandy of Lowell.

A reception in the Andover Country club followed the ceremony with guests present from Andover, Wellesley Hills, Southboro, Reading, Woburn, Buffalo, N.Y., Seattle, Wash., and Cleveland, O.

Following a wedding trip to Bermuda the couple will reside at 10 Morton st.

The bride is a graduate of St.

Augustine's grammar school and Pynchard high school. She is a secretary at Lloyd & Sherman, Lawrence. The bridegroom attended Northeastern university, Tufts college and Boston university. He served four years with the U. S. navy and is a member of the Pynchard faculty.

NORTHAM - DERBY

At a 2 o'clock ceremony Saturday in the First Grace Universalist church, Lowell, Miss Barbara Ann Derby, daughter of Mrs. Frances E. Derby, 110 Warwick st., Lowell, became the bride of Robert Edward Northam, son of Mrs. Jean Northam, 168 Highland rd. The Rev. Gaston Carrier performed the ceremony before an altar arranged with pink and white bouquets. Miss Carol Tewksbury, a friend of the bride, was the soloist.

Given in marriage by her uncle, Roland E. Derby, the bride chose a gown of eyelet and tulle, fashioned with illusion neckline, long pointed sleeves, and a bouffant tulle skirt which had panels of eyelet and ended in a sweeping train. Her fingertip veil of illusion was attached to a Juliet cap and she carried a bouquet of orchids and hyacinth.

Sandra Derby, sister of the bride, as maid of honor, wore a neptune green gown of iridescent taffeta and nylon tulle. She had a matching headpiece and carried a bouquet of light green baby orchids.

Bruce Noble of Andover served as best man and Roland E. Derby Jr., cousin of the bride, was the usher.

A reception at the home of the bride followed the ceremony with guests present from Lowell, Andover, Boston, California, New York, Connecticut and Florida.

After a wedding trip to the Southern states the couple will reside in Andover.

The bride is a graduate of Lowell high school and Lowell State Teacher's college. She is a member of the National Honor Society. The bridegroom is a graduate of Pynchard high school and is now attending Northeastern university. He served four years with the navy in World War II.

I spare you the dreary recital of "how good I am" to ask you to seriously reflect on the latest development in this Selectman-Assessor situation.

You are not only losing the trained Mr. Hardy, but the two remaining Selectmen have publicly announced their intentions to seek other elective offices.

Select the candidate Monday whom you think would be the best "anchor man" if there is an entirely new board a year hence.

If you elect me - thank you; if you retire me as an active Town Meeting figure - thank you.

VOICE OPPOSITION TO ZONING PLAN

(Continued from Page One)

vent outside builders coming here and with lots of 75-foot frontages crowd a large number of single dwellings in various localities which would result in a fast-rising tax rate through the demand for new schools and added sewer and water extensions. They believe that the proposed relocation of Route 123, perhaps in West Andover, would bring a fast-growing development in that area.

Opponents were of the opinion that frontages of 100 feet and lot areas of 12,000 square feet would be adequate.

The Planning board, after the meeting, took action and found it was divided 3 to 2 in favor of the article.

Regarding the Planning board's action, Chairman Walter C. Tomlinson said that the members were unanimous in their opinion that the present requirements were not adequate.

The majority felt that in the future all planning will be for larger lots as this has been the recent trend in construction in other towns. They felt that most of the future development here would be beyond the one-mile radius as there was little room available within that area for construction. The majority will recommend adoption of the article without change.

The minority, however, favor a change to the 100-foot lots with 12,000 square foot areas and will recommend such a change in their report.

Norman L. Miller, a member of the lay committee, explained the committee's plan at the hearing. Selectman Roy E. Hardy and Karl C. Killorin favored the article.

Speaking in opposition were Edward P. Hall, Ernest N. Hall, Lee Noyes, Alexander Henderson, Fred Doyle and George Cairns. They felt there were enough laws now with teeth in them to prevent objectionable developments here.

W. J. Smith Estate Worth \$1,189,141

The estate of Wilbert J. Smith, late of 73 Elm st., is valued at \$1,189,141.65 it was revealed when an inventory was filed last week at the registry of probate in Salem.

The Lawrence automobile dealer, who died Apr. 17, 1953, had personal property worth \$1,161,141.65, according to the document, and the realty, described as a farm at Ward Hill in Haverhill, was appraised at \$28,000.

He owned 1700 shares of stock, valued at \$1,076,104.86, in the Smith Motor Car Co., according to the inventory, which set the worth of his livestock at \$21,869.55. Other assets were listed as a checking account, a life insurance policy and miscellaneous property.

Mr. Smith's will bequeathed his tangible personal property, except the livestock and personal property on the Haverhill farm, to his widow, Mrs. Grace Ethel Smith. The instrument directed that the farm be sold.

After leaving \$25,000 to his sister, Mrs. Grace M. Munro of Haverhill, he placed the residue of his estate in trust for his widow. Upon her death, the testament stated, she may appoint beneficiaries of approximately half of the principal, with the rest remaining trust for Mr. Smith's sister, Mrs. Munro, and a brother, Charles F. Smith of Methuen.

Upon the demise of the widow, sister, and brother, according to the will, the remaining principal

LARGE VOTE EXPECTED IN MONDAY'S ELECTION

(Continued from Page One)

E. Hardy from the positions he has held on both for 18 years. There are seven candidates for selectman and the same seven are also candidates for assessor.

For the board of public works there are six candidates in the field and two places to be filled. The terms of P. LeRoy Wilson and Victor J. Mill Jr., expire this March. Mr. Wilson is a candidate for re-election but Mr. Mill is not seeking another term on the board.

There are two candidates for the office of moderator to succeed Arthur Sweeney, who is not running for re-election.

Three candidates have presented themselves for the planning board where there is one vacancy to fill due to Atty. Walter C. Tomlinson deciding not to run again for this office.

There are several other places for the voters to fill.

Merger of the tree and moth departments as divisions of the public works department was acted on by the town meeting a year ago and now the question goes on the ballot for a decision of all the voters of the town.

Interest in this election is the greatest that Andover has seen in many years and several new faces will appear in town offices this year to replace those who are retiring.

TRAFFIC BOX DAMAGED

The traffic box in Elm square from which numerous police officers over the past years have wiggled their stop-and-go signals to motorists, was put out of service early Saturday morning when struck by an auto. Dominic Longo, 25, of Lawrence, reported to police that he was travelling toward Lawrence about 1:45 a.m., when he fell asleep at the wheel and his car swerved into the box.

The first workout will be held at 9 a.m. Saturday and Sunday, Mar. 13 and 14 at the Case Memorial cage, Phillips academy. Other workouts will be held on successive weekends, Mar. 20-21, and Mar. 27-28.

P. H. S. SPORT

Punchard 66, Methuen 56
Before a crowd of 1200 roaring spectators at the Tenny gym in Methuen last Friday night Punchard staged a great third period rally to win its second game of the season from a scrappy Methuen five. The score was 66 to 56.

It was a ding-dong battle all the way with the two rival clubs going along almost neck and neck until the Blue Devils put on their third period spurt. Methuen was leading 34-30 at the half, mainly by keeping Capt. Billy Stack well covered. The Blue Devils got moving in the latter part of the third to pull away for a fairly comfortable lead. In the final quarter Methuen edged up to within four points of Punchard but the latter closed strong to retain its lead.

The Punchard JV team won its game 44 to 37.

Punchard 85, Amesbury 38
Punchard ran away from Amesbury 85-38 on the local court Tuesday night. The Blue Devils got rolling a few minutes after the first period opened and raced on to score their 17th victory in 19 starts this season.

Whitley ran up 27 points and Yancy hit for double figures while playing a stellar game on defense.

The Junior Varsity rolled up an impressive 56-33 win over the Amesbury JV.

Cole Takes Third

John Cole, Punchard's outstanding shot putter, captured third place in this event at the National Schoolboy meet held Saturday in New York with a heave of 53 ft., 1 1/3 in., his best effort to date. The local boy was accompanied to New York by his parents, Mr. and Mrs. John T. Cole, and Ray Doyle, a teammate of last year and now a student at Huntington Prep.

To Attend Hearing On Prison Colony

The Andover board of selectmen will be represented at the hearing in Lawrence Friday night in regard to a centralized prison colony for the county.

An invitation from Mayor Buckley of Lawrence to attend this meeting was read at the meeting of the selectmen Monday night and accepted.

The selectmen also received a letter from the Lawrence Electric company which stated that in reply to the inquiry of Feb. 8 payments paid directly to employees of the town of Andover were: for 1952, G. R. Abbott, \$111.40; James Buss, \$27.84; for 1953, none.

RINGWORM PROBLEM WELL HANDLED

(Continued from Page One)

Because certain persons seem to think that the problem of ringworm of the scalp is not being properly handled among the school children in Andover, our district health officer, Dr. Pennell made arrangements for me to have a conference with you, Dr. Emmons of the board of health, and your school nurse, Miss Westcott. This conference occurred on the morning of Friday, February 12. Before the morning was over, Dr. John J. McArdle, your school physician, joined the group.

We reviewed thoroughly the sequence of events since this matter first came to the attention of the school officials. I was very much pleased with the efficiency with which Miss Westcott has been using the Wood's lamp in discovering other infected school children and in following the course of the infection of those who are under treatment.

It is a well recognized fact that this condition responds slowly and that if full cooperation of parents in seeing that the children go to their physician regularly and follow his instructions to the letter is not attained, the condition will go on indefinitely in such neglected individuals. It is my understanding that most of the parents are giving their full cooperation and that the physicians are following recognized treatments in the care of those who have acquired the disease.

Since ringworm of the scalp is not a reportable disease in Massachusetts, the board of health, of course, has no direct responsibility in this problem. However, Dr. Emmons has shown his willingness to cooperate in any way possible in helping to solve the problem. This throws the responsibility for the treatment of the child upon the parents. . . .

This is not a new problem in Massachusetts. A number of other communities have had the disease occur among school children and by handling the problem in the same way that it is being handled in Andover, the condition has been eradicated from the schools. There is every reason to believe that the same procedure will prove equally effective in Andover. It must be remembered, however, that it takes time to obtain the desired end in this condition and that criticizing the school department because it does not wave a magic wand and eliminate the condition in a day will accomplish very little. I wish to congratulate you, your school physician, and your school nurse in the efficient way in which you are going about your work.

Very truly yours,
Roy F. Feemster, M.D.

University Of Life To Close Sunday

The main speaker at the final session of the University of Life Series, sponsored by the Andover Council of Churches, will be the Rev. Bruce George Beale of St. Paul's church, Monte Carlo. The topic of Dr. Beale's talk will be "Religious Faith in Daily Life."

Dr. Beale is visiting the United States for the purpose of speaking at various schools and colleges, and in different communities, at such occasions as those sponsored by the University of Life.

He served as a lieutenant in the British navy during the First World War, was severely wounded at the Battle of Passendale and recommended for the Military Cross. He returned to college to study for the Christian ministry and was ordained a priest in the Church of England in 1921. In 1923 he was commissioned as a naval chaplain and for several years served in all classes of ships in the British navy.

In 1942 he was appointed senior chaplain of combined operations under Lord Mountbatten, and as such had the control and direction of chaplains of all three services, navy, army and air force. He was awarded the C.B.E. (Commander of the British Empire) in December 1945. The citation at the time of this award read: "For outstanding services rendered during the European War 1939-1945." In 1949 he was appointed rector of All Saint's church, Thurlstone, Devon, and in 1951 he was appointed chaplain of Monte Carlo where he administers to Christians of all denominations.

Dr. Beale will meet with the Church Seminar group following his address at the chapel service and will answer questions regarding his experience and his present work.

GARDEN CLUB MEETING

The March meeting of the Andover Garden club will be held at 10 a.m., Tuesday, Mar. 2 at the Andover Inn. Prof. Richard A. Toward will present an illustrated lecture entitled "A Botanist in the Caribbean Islands." Coffee will be served before the meeting with Mrs. James E. Andover post, 8, American Legion, will hold a baked bean supper in the post rooms at 6 p.m. Saturday, Mar. 6. These suppers are held once a month for post members only and are catered family style.

However, plans are under way to make the April supper an "invited guest" night with entertainment following the supper. Cmdr. Albert Cole Jr., must have all reservations not later than Mar. 4. Members should make their reservations early either by phone or mail, as a large attendance is expected.

16,000 Shade Trees On Town Streets

There are over 16,000 shade trees on the public ways of the town and many miles of roadside growth under the care of the tree warden's department, says tree warden George R. Abbott in his annual report for the past year.

To take care of them the report says, there are two men paid out of the tree department appropriation, two paid out of the dutch elm disease appropriation, and one out of the moth department appropriation.

Salaries and wages amount to 80 percent of the appropriations, the remaining 20 percent being paid out for insecticides, two sprayings of elms by a helicopter, maintenance of trucks, tools and rentals of shop and garage.

The report states further that due to many storms last spring only 32 young trees were planted but in late October after heavy rains soaked the ground 35 more young trees were planted.

By an appropriation of the Andover Village Improvement society two years ago the tree warden purchased varieties of trees not often planted in Andover. These included thornless honey locust, moraine locust, globe locust, liquidambar, gingko, crimson king maple, Chinese flowering dogwood, magnolia and grey beech.

Two storms last year caused much damage to the trees and the hot dry summers within the last 14 years have caused the accumulation of excessive deadwood.

The report states that "the tree and moth departments in Andover are considered by state officials as one of the best of its size in the Commonwealth with higher quality work than many larger town and city departments."

It concludes by saying that when possible all young trees requested by the home owner, generally two trees in front of each home, either in the tree belt on the public ways or inside the sidewalk, are supplied.

WOMEN RESCUES NEIGHBOR FROM RIVER

(Continued from Page One)

Mrs. Edward R. Nolin, wife of a local fireman, was in her home at 17 River rd., about 2:30 p.m., when she heard a dog barking. Looking out she saw that George Sparks' Irish setter had broken through the ice and she ran to his rescue.

She had no more than stepped on the ice when she went through and into a part of the river where the steep banks make the water very deep. Her cries were heard by a neighbor, Mrs. John Duke, 11 River st. She ran to the water and bracing herself on the bank pulled out the dog and then pulled Mrs. Nolin ashore.

By this time a call to the Ballardvale fire house started Engine 2 on the way to the river with a rescue boat and another call to the central fire station brought Engine

4 with a rescue boat, Ladder 1, the ambulance, the jeep and the chief's car streaming to the scene with sirens wide open. Fortunately the services of the department were not required.
