All members were present with the chairman, C. Carleton Kimball presiding. The minutes of the Mar. 22 meeting were read and approved and the athletic association warrant of \$743.66 was approved on motion of Mr. Doherty. (Continued On Page Three)

Appointive Town Officers Re-Elected By Selectmen

Family Rescued At Salem St. Fire

A mother and four children were among the six persons rescued over ladders at a fire early last Friday morning that caused damage estimated at \$4000 at the home of Dr. Joseph P. McEneaney, 87 Salem st.

The blaze started in a sofa in the living room near the foot of a stairway leading to the second floor. Fire officials believe it smoldered for some time before the house was filled with smoke and aroused the family asleep in bedrooms on the second floor. Mrs. McEneaney called the fire department from a second floor phone and Box 37 was sounded at 2:54 a.m.

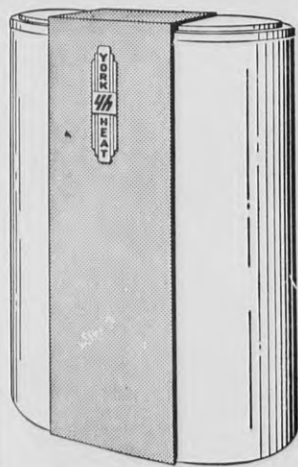

When firemen arrived the family (Continued on Page Four)

Very few changes were made by the selectmen in the list of the town's appointive officers, almost all of whom were re-elected at Monday night's meeting of the board.

The greatest change was made in the Andover Recreation committee of which Stafford A. Lindsay, now selectman, was chairman. His name was dropped from the committee with those of Alco Taylor and Alan F. Dunlop. The three were replaced by Glenn Yeaton, Walter Pearson and Bart Smalley.

All licenses were renewed for the year and in addition a Sunday (Continued On Page Three)

Dramatic Department

Rehearsals are now in progress for the 3-act play, "The Curious Savage", which will be presented Apr. 30 and May 1 at the Memorial auditorium, by the Shawsheen Village Woman's club and the Boosters club. The play is a comic fantasy. Mrs. Gordon Colquhoun will appear in the title role of Mrs. Savage, a pixilated and curious widow, who decides to use her late husband's fortune to help people to do the foolish things they have always dreamed of. Her step-children, played by Alan Chadwick, Harold Wennik and Mrs. Philip Winters, are horrified by this wanton use of the family fortune, and succeed in having Mrs. Savage committed to a mental sanitarium. There she encounters several happy people, who are fugitives from the harshness of daily living, and who find, in the "Cloisters", a pleasant retreat from the problems of the world. These amiable inmates are played

by Mrs. Walter Caswell, Albert Swenson, Mrs. Sherman Locke, William Schmidlin and Mrs. John Lowe. Harold Freeman and Mrs. Everett Hull will be seen as members of the staff, who manage this elegant refuge for illusions.

Discuss Teaching French In Grades

The subject of teaching French in the elementary grades of the public schools was discussed at a meeting held last Thursday night at the Memorial Hall library and various questions concerning the matter were brought up for consideration.

Stephen Whitney, instructor of French at Phillips academy, presided.

It was decided to organize a "workshop" to consider the program and confine its action only to a study of the question.

Elementary French is now taught in the fourth grade four days a week for 20 minutes a day on an experimental basis. It is the plan of those favoring the subject to extend it to the fifth and sixth grades so that the school committee could determine if it was worthwhile.

had gathered in a second story bedroom to which ladders from Engine 3 were promptly raised and Firemen James M. Gilland and George C. Williams assisted Mrs. McEneaney, together with the children, Joseph 8, Michael, 7, Joan, 5, and Anna, 3, to the street. Dr. McEneaney also made his way to the street over ladders. The family was cared for in the home of neighbors.

The blaze when firemen arrived was working its way along the walls and ceiling which were badly damaged together with some of the furniture. A stream from a water line soon had the blaze under control. Fire officials said the blaze started from a cigarette or hot ashes and estimated the damage at \$4000.

FIRE RECORD

Apr. 2 - 11:10 a.m. Grass and brush fire on land of Harold Tyndale, 30 Alderbrook rd.

Apr. 2 - 1:52 p.m. Box 52 for fire which damaged tool shed and two pine trees on land of the Andover Savings bank on Main st. Fire officials said that burning embers, from an uncovered incinerator on adjoining property in the rear ignited pine needles under the tool shed, which is raised about four inches off the ground, and with the high wind that was blowing started

burning through the timbers and continued along pine needles on the ground and spread to the trees. When the blaze hit the trees it flared upward and soon sent flames shooting high into the air making it appear that the Hill Hardware building was afire. The blaze and fire apparatus drew a large crowd to the scene but firemen quickly extinguished the flames and kept them from spreading further.

Apr. 2 - 3:45 p.m. Grass fire on land of Charles Langdell, 76 Clark rd.

Apr. 3 - 5:30 a.m. Box 77 for brush fire on land of Chandler Bailey on Bailey road off River road, across from the seminary. Apparatus from Tewksbury was also called. The relief sounded at 5:30 a.m.

Apr. 3 - 11:35 a.m. Brush fire off Webster street on land of Lawrence Rod & Gun club.

Bates To Lecture On K-2 Expedition

Robert H. Bates, a member of the faculty of Phillips Exeter academy and one of America's foremost mountaineers, will lecture with colored movies on the recent dramatic K-2 expedition at George Washington hall, Phillips Academy, Saturday, Apr. 17. Bates, who was a member of both the 1938 and 1953 American expeditions on the world's highest unclimbed mountain, will describe the 1953 attempt, which ended in failure after 10 days of isolation by blizzard at a height of 25,500 feet. This is the longest sustained period that man has ever lived at this height.

After the storm abated, the expedition started down and survived the descent only after what many mountaineers have called "the most skillful mountaineering ever demonstrated in the higher Himalayans." During the course of this descent one injured member of the party was swept to his death by an avalanche.

Since his return to this country, Bates has lectured widely, and he and other members of the expedition recently appeared on a national telecast. Bates has also recently authored two dramatic articles in the Saturday Evening Post and is currently working on two books covering the expedition.

Tickets will go on sale at George Washington hall beginning Monday, Apr. 12.

Our Future Growth

The obvious location of the town's future growth is in Precincts 4 and 5, John T. Blackwell, planning consultant pointed out at the recent hearing on the proposed easterly or westerly sites for the relocation of Route 28 through Andover.

Perhaps most townspeople were vaguely aware of the undeveloped area in this section of the town, but Mr. Blackwell's figures and an examination of the town map made his conclusions most convincing.

Retained by the town to study the advantages and disadvantages of the proposed routes Mr. Blackwell came up with some interesting data in his report at the hearing.

Based on a study of the voting lists he said that Precinct 6 had increased about 25% over its population of five years ago; Precincts 1, 2 and 3 about 11% and are virtually built up; Precinct 4 had shown a gain of about 22% and Precinct 5 about 15%, yet Precincts 4 and 5 which comprise about 57% of the town's area offer the greater opportunity for future population growth than other parts of the town.

It was largely on the facts brought out by Mr. Blackwell and the study made by the selectmen and Planning board in favor of the site just westerly of Greenwood and Lovejoy roads that this new western location was favored over the state's western proposal.

Build Faith In Our Children

In accepting the national chairmanship for the 10th annual observance of National Sunday school week, which will be celebrated April 12 through 18 this year, Irving S. Olds, prominent New York attorney, had this to say: "I think we will agree that Sunday School week is a week of great significance for the nation. No one can minimize the importance of Sunday schools in fostering among the youth of the country a faith in God and an ability to recognize what is fundamentally right and just."

National Sunday School week and National Bible week are staged annually by a hard-hitting organization, the Laymen's National committee. The slogan for Sunday School week this year is: "To Build Faith in Our Children - Take Them To Sunday School".

"Perhaps now more than ever before our nation", in the words of the committee, "is beginning to respond to those simple beliefs of our forefathers, those same tenets and principals that made this great country of ours what it is"

Parental education is more of a problem than juvenile education.

THE X-RAY

By Science Features

The X-ray, a comparatively recent invention, is now one of the most widely used medical tools, both for diagnosing illnesses and for treatment. Discovered almost accidentally by a German physicist, Wilhelm Konrad von Roentgen, in 1895, the X-ray became almost immediately accepted as a tremendous aid to the doctor. Photographs, showing the inside of the body, allowed the doctor to see the exact location and cause of the disturbance under consideration. Prior to that, it was a hit-or-miss proposition, with the doctor probing and guessing.

An X-ray is the radiation of a certain very short ray of light. When Roentgen discovered these odd rays, he didn't know exactly what they were, so he labelled them "X" rays.

These rays are also employed to treat various diseases. A two million-volt machine has shown promise in the treatment of cancer and the ray has helped to reduce the "blue baby" menace, to name two of the newer uses that have been developed.

There are many different types of machines and methods that have been devised for special purposes. The dentist uses the machine to spot tooth decay; by using certain dyes, a specialist can see what is happening in the body's vital organs and most doctors have a fluoroscope in their office to view the living body.

Roentgen never made anything out of his discovery and died of cancer when he was 78 years old. But, as hundreds of experts continue to work on his principle and devise more effective aids for the doctor, the rest of the world benefits from his invention.

Seek Coins, Stamps To Honor Billerica

Bills for coins and stamps commemorating the 300th anniversary of the founding of Billerica in 1955 have been filed in the house of representatives by Cong. Edith Nourse Rogers.

A bill authorizing the postmaster general to issue a special postage stamp was referred to the committee on postoffice and civil service; and a bill to authorize the coinage of special 50-cent pieces in commemoration of this event was referred to the committee on banking and currency.

Down the Years with The Townsman

50 Years Ago — April 1904

The public schools opened Monday for the spring term after a week's vacation.

The manager of the Punchard baseball team is canvassing the town for subscriptions for the maintenance of the team.

Muskrats are being killed in large numbers along the brooks and ponds in town.

Two houses and a barn on Essex street, the property of St. Augustine's church, are for sale and must be removed at an early date to allow the building of the new parochial residence.

Many people are complaining of acts of vandalism by young men. Gates are being removed, lawns cup up and street signs torn off. These acts must be stopped and if the culprits are caught they should be made to suffer for their misdemeanors.

On Monday evening a very enjoyable shirt waist dancing party was held in Grange hall by a number of young men about town. There was a good attendance and all were attired in summer fashion. In charge of the affair were: Roderick Cannon, James Abbott Jr., Gerald D'Arcy and George Chandler Jr.

Thomas Rhodes has installed a gas engine for use in his bakery and for freezing ice cream.

The first dandelion of the season was brought to The Townsman office by Peter D. Smith who picked it in his field.

Under the will of the late Mrs. Esther Beyers \$40,000 was left for an art museum under the control of Abbot academy but free to the entire Andover public. Other bequests included gifts to the West Parish and Christ churches.

The Andover Steam Fire Engine company will give another of their famous steamed clam suppers Saturday in the engine house. Admission will be by ticket.

New maple syrup \$1.25 a gallon. — Adv.

A home for aged people of both sexes who may be afflicted with an incurable malady and who may stand in need of charitable aid, to be erected in Methuen, is provided for in the will of Julia F. Nevins, who died in Washington last January.

The adjutant-general's office has issued orders accepting a company of infantry in Lawrence to take the place of Co. L, 8th Inf., of the same city, recently disbanded. Edgar C. Holt of Methuen is promoter of the new company.

Easter was observed in the churches of Andover this year in the usual fitting and appropriate manner.

25 Years Ago — April 1929

On Apr. 1 a fire department truck turning from William street into North Main street was struck by an auto driven by a Lawrence man. Both machines had their mud guards badly damaged.

Mr. and Mrs. Daniel Hartigan have moved from the Caronel Court

apartments to their new home on Avon st.

Camps at Foster's pond have been broken into, windows smashed and dishes stolen.

A new backstop will be erected at the playstead at a cost of \$398.

Hundreds of children took part in the Easter egg hunt held Saturday in the park under auspices of the Andover Guild.

A new policeman's shanty will be erected soon in Shawsheen square to replace the one recently damaged by fire.

10 Years Ago — April 1944

Easter will be observed Sunday in all the churches with special musical services.

In accordance with a vote taken at the annual town meeting, Moderator Howell F. Shepard has appointed a committee to consider plans for the 300th anniversary of the incorporation of the town and to report back at the next town meeting. The anniversary occurs in 1946.

Edward I. Erickson was re-elected superintendent of schools at the meeting of the school board Tuesday evening.

Pupils of the Pike school will present an operetta "The Blue Belt" in Balmoral hall Apr. 14.

The Ballardvale mills were sold this week to the Wool Warehouse of Boston. They will be used for wool storage.

Many Andover residents are engaged in filling kits for Russian war relief work.

Enter Art Work In Poster Contest

Pupils of the fifth grades of the public schools, under the direction of Mrs. Dorothy Sanborn, elementary art supervisor, have submitted posters in observance of "Be Kind to Animals Week," Apr. 25 to May 1.

The posters that win awards will be on display in the auditorium at the American Humane Education society, Boston, and as window exhibits in two Boston stores the week of Apr. 25 to May 1.

The 16 pupils whose posters were entered in the contest were: Susan Kenney, Walter Kimball, Joan Le Genère, Elaine Emmons, Malcolm Skinner, William Bredburn, Mary Lee Hopkins, Janet Wilson, Gary Dockray, Paul Fischer, John Sutton, Harold McGrath, Elaine Tisbert, Louanne King, Cynthia Turton and Hugh Blackmer.

A.P.C. SORORITY

Eight members of the A.P.C. Sorority of the South church will sponsor a baked ham luncheon which will be served at 12 noon Tuesday, Apr. 13 in the church vestry. Added attractions for this affair will include a bakery table and a talent dollar display table. Baby sitters will be provided at the church so mothers may attend.

Reservations may be made by calling And. 853-J or And. 1546.

PRECIOUS THINGS OF YEARS GONE BYE-

Antiques is a term often loosely used and one we employ with care. In our store are numerous articles of real worth which we invite you to examine: Pieces dating back to the Roman Empire; Pomo Indian Baskets; Imari Bowls of Japan fame; Chinese porcelain . . . and many others from remote corners of the earth. Pieces which transcend the word antique and are truly museum pieces — stop by and see them, won't you?

Moderator Names Four Committees

Announcement of the personnel of four committees has been made by the town moderator, Roland H. Sherman, three of which are the result of action taken at the last town meeting.

Roy E. Hardy is chairman of the town office building committee to prepare preliminary plans and estimates for a new town office building and to report at the next annual town meeting.

Other members of this committee are: Edmond E. Hammond, Ellsworth H. Lewis, Francis E. Steiner and Paul W. Smith, the latter a superintendent at the Western Electric plant and a resident of 23 Johnson rd.

This committee will have available \$2500 which was appropriated at the town meeting in 1944 for the purpose of preparing plans for the old Shaw property at 85 Main st.

On that committee the moderator, Howell F. Shepard, had named Selectmen Edward P. Hall and Roy E. Hardy, Edmond E. Hammond, Joseph A. McCarthy and Ellsworth H. Lewis.

A school building committee to study the needs and get preliminary plans to meeting requirements of the junior and senior high school populations was named as follows: Gordon L. Colquhoun, chairman; Fred I. Kent 2nd., Stanley F. Swanton, Edward I. Erickson, Fred W. Doyle, Melvin H. Weiner and Stephen F. Brennan Jr.

The committee to study zoning problems of the town, consult with the Planning board, and recommend to the next town meeting changes in the zoning by-laws was announced with Atty. Fredric S. O'Brien, chairman, together with Atty. Walter C. Tomlinson, J. Radford Abbot, Mrs. Eric A. Jones, George A. Grant, Roy E. Hardy and Roger H. Lewis.

Three changes are noted in the personnel of the finance committee. Charles W. Arnold, Louis E. Gleason and Leo F. Daley, all former members, have withdrawn from the committee which is now made up of William S. Titcomb, chairman; Norman L. Miller, William Mackintosh, Charles D. McDuffie, Ernest L. Wilkinson, Victor J. Mill Jr., and Harold Rutter Jr., the three latter being new members.

West Church Gives Call To New Pastor

At a meeting of the West Church and Parish last Monday evening in the church vestry a unanimous call was extended to the Rev. Hugh Burrill Penney, recently of Chicago, Ill., to become their pastor.

Mr. Penney comes from a minister's family, his father being pastor of the Federated church in Ayer.

Mr. Penney is married and has one child, born last year.

A graduate of Bates college in 1950 and a graduate of the Chicago Theological seminary with a B.D. degree in 1954, he did graduate study in religious education and counseling at the Chicago Theo-

logical seminary in 1953-54. He was ordained in June 1953 by the Middlesex Union association.

He served at West Auburn, Me., 1949-50, at the Chicago, Ill., Hyde Park Baptist church as youth director in 1950-52 and as director of religious education 1952-54.

Mr. Penney was highly recommended by the Rev. Horace Rob-

son, the faculty of the Chicago Theological seminary, and all of the lay people contacted by the board of ministerial supply in Boston and at the Hyde Park (Ill.) church.
