The Andover lidren's department. The Andover he brary is a rewarding place to ob-serve, and I think it was well-chosen by the graduate student of Rutgers university Library school studying under a special founda-tion aspects of adult education and eccurrentity uses in a medium and community use in a medium sized public library.

> observed the shelves in the library I was astonished to find so many I was astonished to find so many English books. I had expected to find that our old battles would die hard and that many of our books and much of our literature would be unattractive to an American pub-lic. I now find that a number of people over here know rather more about us than we do ourselves. I have found the London Times, the Manchester Guardian and even the Manchester Guardian and Chartan Yorkshire Post in Boston public libraries; and shelves of Han-sard's "Reports" are to be seen in some New England libraries, not to speak of Halsbury's "Laws and Statutes"

American films in general fail to do justice to the people of this country and I was quite unprepared for the magnitude of the generosity and kindness I have met. I shall look forward to telling the people at home that to know the Americans is to like them. In conclusion, Ishould like to thank the trustees of the library and Miss Put-nam for enabling me to have this most rewarding experience in And-over, and I should like to express gratitude to all the people here who have made my visit so pleasant.

LAWRENCE DAYS

The Glare Of Publicity

The bill in the legislature which would prohibit the televising or broadcasting of any proceedings in which the testimony of witnesses is taken under oath comes up at a good time when the McCarthy-Army hearings at Washington serve as an example of the way modern publicity methods make actors out of participants.

In the past many jurists have balked at the televising of court proceedings on the grounds that witnesses are always conscious of being in the center of a stage with a tremendous television and radio audience following the actions and the words of each with avid interest.

The Judicial Council of Massachusetts has recommended the passage of the bill now before the legislature. (At this writing it has passed the house). It would not prevent open hearings but it would tend to allow proceedings to be carried on quietly and more speedily without the fanfare that accompanies the "show" effect of television or radio.

There is no doubt that this "glare of publicity" distracts witnesses and is hardly in keeping with the tradition of American justice.

Sonia's Galling Garb

The Soviet male may be satisfied with habiliments of Communism. Even with baggy pants and a coat that looks like a sheepherder's jerkin, the comrade may grow up one day to be a commissar. But the Muscovite gals are getting sore at their drab clothes, sore enough to write raspy letters to the press. The Sonias and Olgas are in yaking Red revolt at the "sack-like" dresses, garish colors and shrinking textiles they are forced to wear.

They want glamour and allure. More cosmetics and better perfumes, a little less of fashion's mess production lines. They want to be better shod and less shoddy, to look and smell nicer. They are sick of peasant styles and ugly kulak accessories. They ask, in sharp soprano gripes, what's with this more abundant life the propaganda magazines are boasting?

If Malenkov et al. want to keep their Red Star fat and safe, they had better give big ear. In free or Communist demos, the female of the proletariat can be more deadly than the male. - St. Louis Globe-Democrat.

with an upset when it met Concord high on the latter's outdoor track last Thursday, the Blue and Gold losing 48 to 29. One of the surprises of the meet was the defeat of John Cole in the shot put by Charlie Napoli. Cole's best heave was 51 feet, 1 inch, which is far below his best mark Napoli tossed it 51 feet mark. Napoli tossed it 51 feet, two and a half inches.

In the other events Punchard took only three firsts, two of them being in field events.

TEACHERS APPROVE FRENCH IN GRADES

(Continued from Page One) Mary A. Collins, principal and Mrs. Dorothy Minzner, teacher of French

in the Bradlee school. All five members of the school committee were present.

Chairman Kimball called first upon the principals for their opinions and comments and then upon the teachers of French. Miss Barrett opened the discussion with the remark that she is completely sold on the French program. She paid a splendid tribute to Miss Spanos and stated that she couldn't have a better teacher. She did, however, speak of the problem caused by the changing of teachers from one classroom to another but added that the teachers have expressed themselves as enjoying the change and the idea of working with another group of children. Miss Barrett expressed an opinion that the present system does leave the children with some degree of insecurity since it is better at that age level for the children to have one teacher throughout the day.

However, she said, in spite of the difficulties she felt that the pro-gram should be carried on. Continuing her discussion Miss Barrett stated that because of the great change in the world in the past 15 years there is a need for the knowledge of more than one language and she spoke of the cultural benefits. She said that the children are very impressionable and not self-conscious in the elementary years. She expressed an opinion that it would be a big mistake to drop the French now. She said that it would be better to have a special full-time teacher but as she understood, that is impossible.

Miss Hamedy was the second speaker. She said that she likes the French very much and she gave greatcredit to Mr. Goulet for the manner in which he has han-dled the subject. She expressed an opinion that the subject is helping the children. She said that the teachers in her building are am-azed at the progress of the youngsters and very much enthused with their progress. She said that the children have gained a lot. Miss Dobbie said that it is a

very worth-while program and in the cost her .school the children voted to teacher. stay in school on "early Wednes-day" rather than go home so that they could have their French. Miss Spanos expressed enthusia asm with the progress of the child-ren. She said they have finally reached the culmination whereby they are now at the point of carrying on a conversation between themselves. Miss Spanos recommended that different mediums of approach be tried and she suggested introducing a little written work into the program. She felt work into the program. Our Tax Rate Goes Up

Announcement of a \$3 increase in the town's tax rate to a new high of \$47 for the present year is not much of a surprise to those who follow municipal affairs.

After the last town meeting when the largest appropriations in the town's history were voted J. Everett Collins, chairman of the board of assessors announced that there would be an increase in the tax rate and foresaw a jump of at least \$2.50.

Several factors enter into the increase in the cost of running the town government. Total requirements for the year are greater than in 1953 and there has been a drop in estimated receipts from the amount received last year.

In arriving at the rate the assessors had an average yearly increase in valuation to help them but this has been offset by a general increase in all departments.

For instance, the town's growing school population accounts for an increase of over \$40,000 in the school department budget. Then there was the \$5 weekly pay increase granted to town employees by the 1953 town meeting, only 40 weeks of which were paid last year while provision for a full 52 weeks has to be made for this year.

Other items enter into it with the result that the amount to be raised by taxation this year is more than \$100.000 over 1953.

The town is well served by capable officials who are conscientious in their duties to the town and to the taxpayers. They exercise due care in the manner in which funds are budgeted and are aware of the burden which growing expenses places upon those who pay.

A pleasant part of the picture is that the town is in good financial condition. Municipal services have not been curtailed and with judicious management of its funds the town is capable of matching strides with the advancing times.

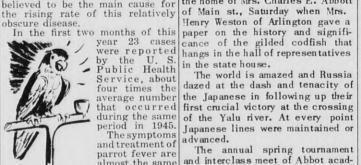

If money really talked an old nickel could do some bragging about the things it once bought.

WHERE DOES THE **MONEY GO...?**

BUDGET

In these days of tax returns, installment buying and a higher cost of living, only a family budget will answer the week in, week out question: "Where Does The Money go''?

Many home-makers look upon a budget as a financial straight-jacket and a nuisance - actually it should be neither. Using a simple form for keeping the record, the regular use of a budget will point the way to sound buying and insure that each family dollar does the biggest job possible!

Methuen 1, Punchard 0 In a closely contested game on the Gill avenue grounds in Me-thuen one unearned run gave Methuen a 1 to 0 victory over Punch-ard last Thursday afternoon.

That run came in the second inning. Wainright singled to open the inning and stole second. Donoval sacrificed him to third and on another bunt Fisher's throw got away from Anderson for an error and the run was in. Other than this the game was

pitchers duel between Johnny Mur-ry and Ed Sperling. The latter pitched a four-hitter and Murray allowed only five. Methuen pro-duced one or two more threats but in each instance the Punchard de-

fense shut them off without dam- | in favor of Wilmington. e. The score: METHUEN AB R 0 age

Red Cross Group Visits Bedford

The board of directors of the lo-cal Red Cross chapter visited the Bedford Veterans' hospital last Thursday evening. Miss Pitman and Mr. Griffin of the hospital staff described the rehabilitation work and showed slides of various phases of activities there. The lo-cal members had an opportunity to nest S. Young.

cal members had an opportunity to tour many of the buildings and to look in on a dance which the pa-tients were having. They say feeding a machine keeps a man in a trance—and drivtients were having. Those who visited the hospital ing one often has that same effect.

Several Reasons For Tax Increase

In announcing the tax rate last week the assessors noted several reasons for the \$3 increase which boosted the 1954 rate to \$47.

There was a general increase in all departments. One reason for this was that the full effect of the \$5 increase to all town employees granted by the 1953 town meeting was felt in the 1954 budget which had to provide for 52 weeks of this raise in comparison with last year when it was paid for only 40 weeks, having gone into effect in April.

The large increase in the school department budget accounted for more than \$40,000; the returns from state this year on new se chool buildings was about \$18,000 less due to the fact that only one payment will be received this year while last year the town received two such payments, one of which was for the year previous.

The increase in valuation was about the same as in past years, \$600,000 on real estate and about

Trade Board Plans For Spring Outing

Tickets for the Andover Board of Trade get-together a, the Log Cabin at Phillips academy next Wednes-day are now on sale and early re-ports indicate that a large gathering will be in attendance. Committees making arrangements

for this event, the first of its kind to be held in recent years, are planning to have the lobster supper served at 6:15 p.m. This will be followed by an entertainment and general dancing. The string outing is being held

general dancing. The spring outing is being held for employers and employees of all local business places and a good time is promised all who attend this first annual event. There will be no business session, just an open meeting where merchants and clerks of the town will have an op-portunity to join in a social time and renew acquaintances.

You'll see more Fords parked in front of the finest homes and country clubs than any other car in its field. One reason is that many people who have owned the costliest cars realize that Ford offers the same beauty, quality and distinction-and for a far more practical price.

Ford is unsurpassed in riding comfort or ease of handling. A big reason is Ford's new Ball-Joint Front Suspension . . . which allows more total up and down front wheel travel for a smoother ride ... keeps front wheels in line longer ... so handling stays easy longer.
