Total Largest In History Of Public Schools

The largest enrollment in the history of the town's public schools — approximately 2400 students — is expected when the schools reopen Wednesday, Sept. 8 for the fall term.

All the public schools will open at the usual hours on that date with the following exceptions: — (a) the afternoon kindergarten groups at the Central elementary, Shawsheen and West elementary will begin Thursday since the elementary grades will attend school only in the morning (a single session) the first day; (b) Grades 8 and 9 of the junior high school will open Thursday, Sept. 9. Grade 7 will begin sessions on Wednesday which will enable this group to be oriented before the other two grades report. Grade 7 and Pynchard high school will have a full session Wednesday.

Transportation routes will remain the same as at the close of school in June, although it is expected that adjustments will be made after the first few days of school.

Competition Serves Consumer

Every motorist has seen announcements of new gasolines, designed to give better and more economical car performance. Reports say that the nation's oil companies are spending more than \$1,000,000,000 this year alone to produce these fuels.

In an editorial on the development, the Daily Journal, International Falls, Minn., said: "Competition among the gasoline marketers is the chief spur behind the 'souped-up' gasoline project. The trend reflects the oil industry's swing from a seller's to a buyer's market. With gasoline in abundant supply and price wars frequently breaking out, competition is keener than at any time since before War II.

"To the credit of those who manage the oil companies, they are trying to meet this situation by sinking millions into research and hundreds of millions into new refining equipment. Their purposes — to improve the quality and sales appeal of their product and to increase the proportion of gasoline that can be extracted from the crude oil — are certainly laudable from the public viewpoint."

The oil industry is to be commended for its enterprise. But the principal credit goes to something intangible — the free enterprise system. It is the force which keeps competition alive — and the force that gives us better products at a reasonable price.

War-Time Measure Dead

After all the hubbub raised about the continuance of rent control last summer that war-time measure appears to be on its way to extinction.

Of the 351 cities and towns in Massachusetts, over 300 of them are now completely free of rent control. Myron C. Robets, president of the Rental Housing association of the Boston Real Estate board, in making this announcement says that the decontrol of rents in dozens of Massachusetts communities on July first has caused no more than passing comment. No reports have been heard to date that property owners have taken undue advantage of the free market.

Apparently these decontrolled communities found that there is no shortage of adequate rental housing. This was the same experience in Andover which, after voting at a special (and most unruly) town meeting to continue the measure found that the rent control board that was set up had to quit after a few months because of lack of business.

Reports of hundreds of decontrolled towns tell the same story, Mr. Robets adds, and show graphically that rent control is a war-time measure not needed nine years after the war has ended.

MOTION SICKNESS

By Science Features

To millions of sensitive travellers, life on the bounding main means just one thing: seasickness. And these same unlucky travellers will often be subject to other forms of motion sickness such as air and road sickness.

The symptoms of motion sickness—and it is actually quite a serious condition—are well-known to most of us. The stomach begins to churn like the sea itself, the face becomes pale and breaks out in a cold sweat, there is dizziness and often nausea and vomiting.

These unpleasant sensations result from the stimulation, by constantly repeated motion, of certain of the body's sense organs. In the past few years science has developed several drugs in the hope of counteracting this stimulation in queasy travellers.

The most recent, and apparently the most effective, of these drugs is one called Bonamine. Tested by the Army, Navy and Air Force, Bonamine proved to give 24-hour protection against air and seasickness with just one tablet, in contrast to the repeated dosages necessary in other such drugs.

Army doctors gave Bonamine to 115 soldiers on a troopship crossing the Atlantic and found that it protected against motion sickness in 109 of the cases. When 302 paratroopers were given the drug 97.4 per cent suffered no symptoms of air sickness.

Larceny By Check Case Continued

A charge of larceny by check brought by Andover police against John F. O'Keefe of Chesterton st., Roxbury, was continued until Aug. 27 after the defendant had entered a plea of not guilty in Lawrence District court last Friday.

The complaint centered around the alleged passing of a check for \$65.25 on the W. R. Hill Hardware store July 20 for which he received an electric iron valued at \$9.95 and change of \$55.30.

The defendant informed Judge John J. Darcy that he was supposed to be represented by counsel but did not see the latter in the court room.

Police Chief David L. Nicoll felt that under the circumstances he would like to see the man represented by counsel. O'Keefe is already on bail in Somerville.

The library has received the first issue of the new magazine "Sports Illustrated", which sports enthusiasts will want to look over. The first issues has articles by such well-known people as Henry P. Davis, Red Smith, Budd Schulberg, Herbert Wind, Herman Hickman, to mention but a few and covers such topics as running the mile, trout fishing, baseball and many more.

NEW BOOKS

Villains Galore, Noel.

A fascinating story of the popular story weekly, whose weekly installments brought excitement and thrills to the Victorian millions from the 1840's to the middle 80's in which the author shows how they developed and first made the writing of light fiction a regular business and in their way were the prototype of our soap operas.

French Stories and Tales.

Geist.

The third book in the Borzoi series, whose predecessors included "German Stories and Tales" and "Spanish Stories and Tales", which includes 16 stories, ranging from the anecdote to the short novel, selected for their merit and pleasurable reading, from Stendahl to Gide.

An English Year, Fairbrother.

Quiet charm pervades this day-to-day preceptive record of life during a wartime year in Buckinghamshire in which the author shares with us her thoughts, recollections, observations, whether of stars and field mice, of her two small sons, or of her memories of places visited, paintings seen, or of books enjoyed.

The Aircraft of the World,

Green.

A picture book designed to encompass every type of aircraft with the arrangement of broad structure groups. Aircraft flying in greatest number today are described in detail, illustrated by three-view silhouette and photograph.

The Age Of The Moguls, Holbrook.

A brilliant study of the building of America's first great fortunes, through shrewdness, ruthlessness or determination. Discusses Vanderbilt, Carnegie, Rockefeller, Ford, Drew, Fisk, Harriman, Du Pont, Morgan, Gould, etc.

A Seal's World, Stuart.

The author intended this as an adventure story although it is a true picture of a harp seal, named "The Wanderer" during the first three years of her life.

The Motion of the Heart,

Cabot.

"The exciting behind the scene story of medical research in diseases of the heart and the new techniques to combat them".

Unto A Good Land, Moberg.

Many readers of his earlier book "The Emigrants" will recognize the characters in the present one which is another panel in his saga of Scandinavian immigrants, seeking new lives and good lands in this country to which they came in the middle of the 10th century.

NEW HOME BUILDING

New home building in Massachusetts during April held practically even with the substantial volume a year ago. Reports to the department of labor and industries by 146 cities and towns show permits

issued for 2,043 new dwelling units, compared with 2,025 in April 1953. All were privately financed as there was no public housing undertaken during the month either this year or last.

WATER CARNIVAL HELD AT POMP'S

be at the pond on a voluntary basis to continue giving swimming and lifesaving instruction to those students who either failed to pass their tests for various Red Cross ratings, or who were near completion of their tests at the close of the regular season. For the above people the beach may be considered supervised on a voluntary basis.

The water carnival was one of the most highly attended in recent years. Auxiliary police on duty at the pond reported over 200 cars packed into the two parking areas, and in addition lined the road leading into the beach. The estimated attendance was put at 1350.

The feature event of the afternoon was the "Ballet of Andover Mermaids" which saw a group of local girls performing difficult water maneuvers with surprising skill.

This group included Jessie Gill, leader, Linda Fisher and B. J. McEvoy, assistant leaders, Patricia Murnane, Norma Heseltine, Elizabeth Gillis, Cecily Roberts and Joyce Nason. Included in the team but absent due to illness were Priscilla Reynolds, Priscilla Alden and Edith Leidich.

There were an unusually large number of entrants in the competitive events. Prizes for the winners were provided by Andover merchants in cooperation with the Andover Recreation committee.

The winners were:
Underwater distance swim: 1, Paul Johnson; 2, Richard Leete; distance swim for girls, 1, B. J. McEvoy; 2, Elizabeth McBride; 3, Jessie Gill; distance swim for boys, 1, Alan Nowell; 2, Jack Gillespie; 25-yd. freestyle for boys up to 10 years, 1, Larry Sullivan; 2, Ronald Hajj and Richard Lowry (tie); 3, Glenn Williams; 25-yd. free style for girls 10 to 14 years, 1, B. J. McEvoy; 2, Elizabeth McBride; 25-yd. freestyle for girls up to 10 years, 1, Janet Workman, 2, Joyce Fisher; 25-yd. swim for girls 10-14 years, 1, Cynthia Cooke; 2, Carol Cheever; 25-yd. freestyle for boys 10 to 14 years, 1, Glenn Williams; 2, Paul Johnson; 50-yd. freestyle swim for boys over 14, 1, Jack Burke; 2, John T. Cole Jr.; 50-yd. race for lifeguards, 1, John T. Cole Jr., 2, Anthony Sullivan; 3, Donald Light; 4, Paul Cronin.

According to the report of Gregory H. Arabian, head lifeguard, Pomp's swimming beach averaged about 600 individuals a day. The total attendance for the entire season was approximately 30,500 persons.

The daily attendance of persons using the beach was estimated as follows: Boys 150; girls 350; men 40; women 60.

For swimming classes there were 368 registered students and to date 207 passed their respective courses.

MOTORIST FINED

George P. Govostes of Winchester was fined \$75 in the Lawrence District court Wednesday morning on a charge of operating after the revocation of his license brought by Andover police.

Patrolman Robert V. Deyermond stopped the defendant on the bypass Aug. 8 for a minor traffic violation and further investigation showed, police told the court, that the defendant's license was revoked in 1940.

AIDED BEDFORD VETERANS

Mrs. Frank Crawford, Mrs. Charles Thompson, Mrs. Otto Escholz and Mrs. Myron Smith, members of the Andover Red Cross canteen, helped recently to provide a picnic for the hospitalized veterans at Bedford. The picnic, which was held in the Oval at the hospital, was given by the volunteer organizations which serve the hospital.

GROW CANCER IN MICE

Scientists are now able to transplant some types of human cancer into small laboratory animals, mice or guinea pigs, the American Cancer Society says. This provides an important avenue for cancer experiments to test new chemicals and study how cancer starts.

"You'll have to keep the smaller size - I can't get them off."

Lowell Man Fined For Topsy Driving

As the result of a complaint by Andover police, George R. Lefebvre, 39, of Cabot st., Lowell, was fined \$45 for operating while under the influence of liquor following a hearing before Judge John J. Darcy in Lawrence District court last Thursday. He was also found guilty on a complaint of speeding but this was filed. The defendant entered pleas of not guilty to both counts.

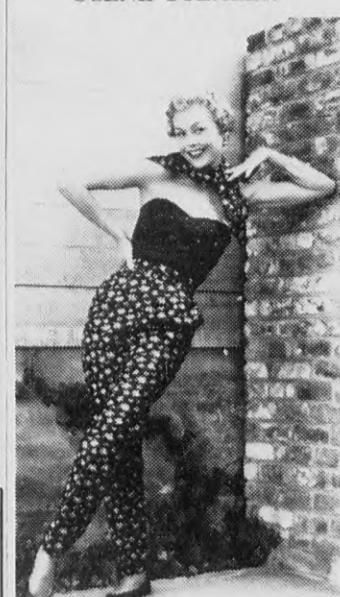

Officers Calvin Deyermond and Raymond Collins told of observing the defendant's car being driven through Shawshen square without lights about 12:20 a.m. Aug. 10 and followed it. They continued to Lowell during which time the car lights were turned on and the defendant was clocked at 70 miles an hour over a three-mile stretch.

When they stopped the car in Lowell the defendant, they said, admitted having eight beers in Lawrence. The officers told the court that while the defendant was not drunk he was under the influence of liquor.

Some men are content to remain in the background if allowed to get a good view of the effect.

EXPECT BIG ENROLLMENT IN PUBLIC SCHOOLS

(Continued from Page One)

All principals, teachers and supervisors will meet at 2 p.m. Tuesday, Sept. 7 in the Central elementary school to plan for the opening. This meeting will be in charge of Supt. Edward I. Erickson.

For the large number of students expected to report this fall additional classroom space has been provided during the summer months.

Three rooms in the Stowe school will be used for a sixth grade transferred from the new Central elementary building and a fifth and sixth grade transferred from the new West elementary school.

An additional room has been constructed in the basement of the Shawsheen school to take care of added pupils in that area of the town.

Facilities have been added for a hot lunch program for the Bradley school.

Various other improvements have been made in the school property throughout the town. The custodial staff under the direction of Fred L. Collins, head custodian, has been busy cleaning and preparing classrooms for another term.

St. Augustine's parochial school will open Wednesday, Sept. 8 with an enrollment expected to be larger than that of last year.

Start Sewer Work On Chestnut St.

The board of public works has started work on the construction of a relief sewer on Chestnut street to relieve the load put on the present sewer at different times of the year.

The work is being done under an article passed at the last town meeting in which \$15,000 was appropriated for relief sewers in Chestnut, Elm and Essex streets and other necessary locations.

The new construction on Chestnut street will be a 12-inch line which will run from Bartlet street to Stratford road beside the present 8-inch sewer. It is expected that the section now being constructed between Bartlet and Whittier streets will be completed before the opening of school.

ANDOVER GIRL HAS ARTICLE IN MAGAZINE

(Continued from Page One)

left that field of endeavor over a year ago and made a trip to Italy.

Her twin sister, Helen, has also worked for Life and is now engaged in writing another article which is expected to appear in that magazine in the near future.

Mary Jane during the time she was on the editorial staff of Coronet did considerable work on other

articles for that magazine but this story "Where Is Mrs. Forstein" in the coming issue is the first that has been done under her name.
