Hurricane Damage
Townsmen Photos
 The three recent editions of the Townsman carrying pictures of the damage done by the two hurricanes are of special interest on the west coast when they were received by the children of the late Lt. Cmdr. Al Edmonds and taken to the school they attend. Mrs. C. Edmonds of High st., sent The Townsman editions to Centralia, Wash. She received a letter from her children telling her of the interest displayed by the coast pupils in getting graphic information about the damage done here by the two storms.

United Fund Campaign To Open Here Next Week

Andover's first United Fund campaign will open Monday under the leadership of a large and enthusiastic group of local citizens acting on the general and special committees with Selectman Stafford A. Lindsay local chairman.

The drive, part of the campaign of the United Fund of Greater Lawrence, is a "one shot" effort to solicit financial support for 18 individual agencies. They embrace almost all of those that were in the community chest and others that had conducted separate drives in the past.

A meeting of the general committee and the special gifts committee will be held Friday night at Legion headquarters. Roy E. Hardy is chairman of the special gifts committee which will get the local drive rolling Monday when it starts its solicitations.

The meeting, originally scheduled for the town house had to be changed to the Legion headquarters because of the large increase in membership since the local campaign was organized.

The house-to-house workers are being organized and will start their part of the campaign late this month.

The Greater Lawrence campaign was launched Monday with an outdoor program in Lawrence.

Stafford A. Lindsay, Andover's chairman, speaking at that meeting said that Andover would do more

A three-year contract for an additional school bus was awarded by the school committee Tuesday night to Francis J. Twombly of North Andover using a 1953 Ford bus driven by himself at an annual figure of \$4050 plus 40 cents a mile for all mileage over 75 miles per day.

This action was taken at a meeting of the full board on motion of Miss Anna M. Greeley seconded by Mrs. Dorothy Partridge after the opening of bids from eight bidders.

The extra bus was made necessary, the board decided at a meeting last month, because the increased enrollment in the Andover

Trade Board Plans For Dinner Meeting

Arrangements for the open dinner meeting of the Andover Board of Trade to be held at the Log Cabin on Wednesday, Oct. 20 include plans for an evening of entertainment similar to the employers and clerks dinner meeting held last spring.

Officers and directors of the club making preparations for the coming event anticipate a crowd of members and guests equally as large as the former party and are busy making up a program that will be a fitting entertainment for the gathering.

There will be a short business meeting at the conclusion of the dinner when the annual Christmas lighting will come up for action. The display of colored lights festooned across Main street and the square in past Christmas seasons have added much to the holiday aspect of the Yuletide and have given the business section of the town a gay and colorful appearance.

What Our Readers Say—**Commends Police**

1 Garden st.
Lawrence, Mass.
Sept. 28, 1954

To the Editor:

I'd like to make an observation about your Andover Police. Those whom I have had some contact with are indeed gracious and most willing to be helpful. I would like to mention especially the policeman stationed at the Andover square and the one in charge of parking meters.

Today when I had a little difficulty with a meter, both of these men were not only on the job but most kind to me in helping me out of a predicament. If all the men on the force are as kindly and willing to assist as these men were, I must commend your town and congratulate it.

I have had to visit many towns during the years in the course of my work and have had some occasion to approach policemen for various and sundry reasons. Generally they are civil but often do not go out of their way to be helpful. Since my home is in the midwest, I am glad I return there with a happy feeling about those men who assisted me today.

Sincerely,

A MIDWESTERNER

Danvers Topples Punchard

After a close first half which saw the teams tied 7-all, Danvers romped off for two more touchdowns while keeping Punchard from scoring and earned a 20 to 7 victory at the playstead last Saturday.

It was the opening home game of the season and the Blue and Gold gave their followers plenty to cheer about as they started off with a quick touchdown and took a 7-0 lead in the first period.

The visitors came back midway through the second period with Dick Lamontagne spearheading the attack. He did most of the carrying to get the ball on the Punchard 15 when Douras passed to Tlande for the score. Sadaway rushed the extra point to tie up the game.

In the third Lamontagne scored after making most of the advances into local territory, and again in the fourth he carried for considerable yardage before skirting left end for another score. Sadaway rushed the extra point.

Sid Watson, Northwestern captain and fullback, went over from the 11 yard line to give N.U. an 18-8 lead over Bates in the fourth quarter before Bates unleashed a drive for another score making the N.U. win a 18 to 14 victory.

Public Evangelistic Services Continue

Last Sunday evening the public evangelistic services continued at the November club auditorium as Evangelist John Hayward presented the subject "The Blessed Home of the Redeemed". A community hymn fest was conducted preceding the preaching service, in which the congregation joined in singing several old time gospel songs. The song service is conducted each Sunday evening because as Mr. Hayward states: "Music constitutes a very important phase of man's religious worship and experience."

In presenting the topic of the evening Evangelist Hayward exclaimed: "One of the great questions puzzling the minds of many, is 'What lies beyond the grave?' If there is such a place as heaven, what is it like and where is it?" Mr. Hayward continued by stating, "The Holy Scriptures contain the only answer to these questions dealing with eternity. The promise of Christ that He was going to prepare a place for the righteous, and that He would return to take them with Him, will be fulfilled just as are all divine promises. Many have erroneous conceptions of what heaven is like, many thinking that it is merely a mythical tale of fanciful thinking, but God reveals to us that heaven will be a real place with real people living a real life of eternal bliss."

Pastor Hayward continued with the Biblical description of physical conditions in heaven and the reality of living in the place which is to be the eternal abode of the righteous of all ages.

The next service will be held at the November club auditorium on Locke street at 7:30 p.m., next Sunday. Evangelist Hayward will then present the subject, "The Second Return of Christ".

The severe washouts caused by the excessive rains in this Sept. 11 hurricane were again discussed at some length Monday night as they were when the matter was brought up at the selectmen's meeting Sept. 20.

To avoid a repetition of the washouts it was thought that adjacent catch basins should be installed and it was suggested that the finance committee be requested to transfer funds for a survey as to what should be done to eliminate the trouble at Rogers brook and in the drainage at Shawsheen Heights. At Monday night's meeting with

all present the N. E. Tel. & Tel. Co. was granted permission to erect one pole on Park street, and the Lawrence Electric Co. was granted permission to install an underground crossing at Sunset Rock road below Ballardvale road, from the base of an existing pole to private service on the opposite side of the road.

Arthur F. Sherman, 17 Lincoln circle, was drawn as a juror to serve in the session of superior civil court opening Nov. 1 at Lawrence.

George Cheyne and William Reilly, both of Ballardvale, appeared before the board to apply for additional space at their store in town-owned property in the Vale.

This was granted. They also stated that the present 110 voltage in the store was inadequate and the board voted to install 220 volt service.

Fire Prevention

This is Fire Prevention week. Various means are being taken to bring this to the attention of the public, but fanfare and public speeches won't make Fire Prevention week a success. It takes action.

Each year there are hundreds of thousands of people for whom Fire Prevention week is a failure. They are the victims of this country's 900,000 fires. Many of them lose their homes and their jobs — 11,000 of them lose their lives.

Human carelessness is responsible for most of our fires. Matches and smoking are still the top causes of fires and have been for years. An old story — but thousands have evidently never listened.

In public places fire safety rules are enforced by law. But you, alone, have the authority to enforce safe living in your home. If it only inspires all of us to do that Fire Prevention week will be a success.

Competition Provides The Drive

A British industrial engineering team visited this country some time ago. It proved what it termed the "dynamic and aggressive" American approach to industrial problems. It found that "competition provides the drive" underlying American material progress, and is also responsible for "the constant efforts to achieve the most economic usage of men, materials, machines and money." The team's report also had the highest praise for our living standards, and made this significant observation: "What is especially remarkable is the growth of interest in human relations on the part of management . . ."

Those who are unduly critical of our free enterprise system would do well to consider this British view. In millions of foreign eyes, American industry's contribution to the welfare of the masses of people is little short of miraculous.

Many a young man makes his way through college by working his father.

Some people are never satisfied until they have troubles that drive them to drink.

THE ALMOST HUMAN ANIMAL By Science Features

Many owners of household pets claim that their favorite animals are almost human. Well, as far as their ability to carry and transmit disease is concerned, they are almost human. In North America there are 24 diseases that can be carried from the dog to man and about 12 from the cat, according to James H. Steele of the Public Health Service.

Rabies is perhaps the worst pet-borne disease, but it is controllable through prior vaccination of the dog and treatment of the bite. More than half a million dog bites are reported in the U.S. each year, but fewer than 50 deaths result from rabies.

A number of parasites that infest dogs and cats can be transmitted to man. Hookworm can cause a creeping eruption of the skin. The tick, which is carried by animals, easily bites man and is a carrier of Rocky Mountain Fever, a disease that has been reported in all but four of the states. In many cases the pet carries a disease without being affected by it.

But, where dogs and cats are almost human in their transmission of disease, they are also able to take the same drugs as people to cure their own illnesses. Drs. S. M. Pessin and L. Joran of New York City, administered the antibiotic terramycin by mouth, injection and ointment to 44 dogs and 9 cats. They concluded the drug was effective in combatting the "almost human" infections that have not responded to other treatments.

Five Andover Girls In Perry School

Down the Years with The Townsman

50 Years Ago — October 1904

The engine on the 8.21 a.m. train to Boston broke down at the Andover station and caused much delay for commuters. Temporary repairs were made here and the train limped into Boston hours late.

The flag at the post office has been placed at half staff out of respect to the memory of the late postmaster general Henry C. Payne.

The Andover Athletic association is making plans for a dance at the town hall. Candidates for the football team have been called out by Captain Thomas Maloney.

Thomas Platt has been drawn as a juror to serve at the civil session of superior court at Lawrence.

Johnson high of North Andover defeated Pynchard high school 6-0 in the annual football game played at North Andover.

Principal Alfred E. Stearns of Phillips academy is in Germantown, Pa., attending the funeral of Robert Singleton Peabody who presented the academy with the archaeology building and its contents.

Special cars are being run from Andover to Lawrence for three evenings during the grand bazaar of Clan McPherson which is being held at Lawrence.

George F. Swift of Andover has sold to Ivar L. Sjostrom 45 acres of land comprising a part of the Dean Chickering farm on Green and Railroad streets in North Andover, and also a tract of land on the west side of Railroad st.

25 Years Ago — October 1929

Nine Ballardvale citizens appeared before the school committee with a petition that the seventh grade of the Bradlee school be reopened instead of taking the pupils to the Stowe Junior high school. The committee declined to approve the petition when it was pointed out that the signers did not have children in the seventh grade and that the present system has the approval of the parents of children being taken to the Stowe school. Announcement of the decision was made by Henry C. Sanborn.

Trustees of Phillips academy have sanctioned the erection of a new Phillips Inn on Chapel ave. on the site of the former Stowe house, which will be ready by June, 1930. They have also approved plans for the new Addison Art Gallery and for a new infirmary.

The Shawsheen Mills paid the largest corporation tax of \$90,841.30. Central Elem. PTA To Meet Oct. 13

The first meeting of the Central Elementary PTA will be held at 8 p.m., Oct. 13.

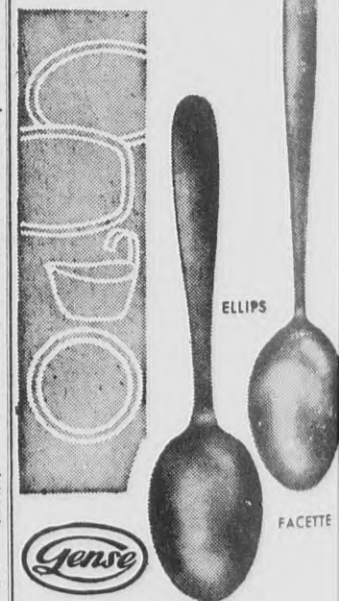

The classrooms will be open from 7:30 until 8 p.m. in order that parents may speak with the teachers and see the displays of the classroom work by the pupils.

The speaker for the first meeting will be Parker Wheatley, educational program director for Station WGBH. This station is devoted to educational broadcasts, and Mr. Wheatley's subject will be "Educational TV."

This topic is a very timely one as many educators have long felt the need for just such a program, and believe that radio and television have only begun to tap the vast resources of educational broadcasts.

The annual membership drive is now taking place under the direction of Guy B. Howe.

PREVENT FIRES!

The job is yours! It's a big job and a vital one . . . that of protecting lives and property against the ravages of fire! Carelessness is fire's greatest ally! L.W.V. Launches Drive For \$650

The League of Women Voters of Andover launched a finance drive to raise \$650 at their fall luncheon Tuesday, Oct. 5, at the Andover Country club.

League workers will contact Andover residents and merchants who have shown an interest in the organization's projects asking them for contributions. The drive will be conducted from October 5 to 13. Mrs. David L. Darling and Miss Eleanor M. Tucker, co-chairmen of the finance committee, explained that the money would be used to carry out the League's program. The League of Women Voters is a non-partisan organization whose purpose is to promote political responsibility through informed and active participation of citizens in government.

The luncheon heard a panel discuss the interdependence of the national, state and local programs of the League of Women Voters. Mrs. Moses H. Lurie of Belmont, a national director, described the national office in Washington and the organization's participation on the national scene. Mrs. Rodney Long of Boston, finance director of the League of Women Voters of Massachusetts, Mrs. Dudley Fitts, former president of the Andover League, and Mrs. Lurie composed the panel. Questions about League policy were directed to the panel from the floor.

New members were greeted by Mrs. John Edmunds, local president, and Mrs. J. D. Wilson and Mrs. Harry Axelrod, membership co-chairmen. The hospitality committee includes Mrs. Lyman Bullard, chairman, and Mrs. A. W. Fuller, Mrs. Samuel Rogers Jr., Mrs. John Hobbs and Mrs. Robert Zollner.

The following members are working on the finance drive:

Mrs. Robert Sides, Mrs. Harry Axelrod, Mrs. Joshua Miner, Mrs. James Grew, Mrs. Waters Kellogg, Mrs. Hart Leavitt, Mrs. Samuel Rogers, Mrs. Lyman Bullard, Mrs. Elmer Onthank, Mrs. Glen Grant, Mrs. Heinrich Rohrbach, Mrs. Richard Hornidge, Mrs. John Edmunds, Mrs. R. C. Holland, Mrs. H. W. Schereschewsky, Mrs. F. W. H. Stott, Mrs. John M. Forbes, Mrs. Edward Flint, Mrs. Arthur Howes, Mrs. Robert Saltonstall and Mrs. Myron Clark.

Planning Annual Hallowe'en Parties

At a meeting of the Andover Recreation committee last night preliminary plans were made for the annual community Hallowe'en parties which have proved so popular with old and young alike since their inception here a few years ago.

Representatives of the various organizations who cooperate annually with the recreation committee in sponsoring these festive affairs were present to give their aid in this venture.

The usual large number of prizes will be awarded at the parties and an entertainment program will be arranged for the youngsters.

than its share to make the drive a success.

He said he was proud to be associated with the United Fund and told the large assembly present that where there were 10 volunteers present at the first local meeting a week later the group had increased to 26 while another large group is working on the special gifts.

He said the success of the drive would depend upon three things: first, a worthy objective; second, sincere workers; and third, generous givers. He felt that the campaign would find all three joined in the weeks ahead.

The United Fund embraces 18 agencies. Others have been invited to join. Early this week representatives of the Arthritis Foundation were in conference with the Fund officials and it is expected that this organization will participate.

President Richard J. Sullivan of the Greater Lawrence fund announces that it now has the following member agencies: Lawrence and Methuen Chapters of the Red Cross, Salvation Army, Boys' club, Greater Lawrence Guidance Center, Inc., Cerebral Palsy, United Defense Fund including the USO, Andover Youth Center, Boy Scouts, Catholic Charities Centre, Family Service association, Girl Scouts, International Institute, Mass. S.P.C.C., St. Ann's orphanage, Jewish Community center, Y.M.C.A. and Y.W.C.A.

BPW Reduces Extra Hurricane Force

The use of all extra trucks engaged by the board of public works to assist in clearing the streets after the two hurricanes was discontinued early last week and the force of extra employees on this work has been reduced to 10.

The work of removing broken branches and limbs from trees and repairing the damage caused by both storms is still being continued.

Removal of the unheaved stumps in sidewalks and streets should start soon. The board has issued a call for bids on this work and it will be done under contract. Special equipment is needed for the removal of these stumps, some of which will run up to eight or 10 tons.

Clothes are gently tumbled through currents of warm, clean air and dried "Sunshine Fresh" in a G-E Dryer. Lovely colors don't fade — as they do when hung to dry in the sun. Finest fabrics get the gentlest treatment.

Your work is done so quickly and so easily. Take a whole washer load of wet clothes, put them in your dryer, and select the proper drying time for your wash — that's all it takes. Depending upon your selection, clothes come out damp-dry for ironing or dried just the right degree for folding and putting away.
