#### Police Cruiser Bashed Post

Police Officer George A. Porter escaped injury Dec. 26, when the cruiser he was driving hit a cement post on So. Main st.

The car was badly damaged. Police Chief David Nicoll said the accident happened at 7 a.m. the day after Christmas, as Porter was driving south on So. Main st., just beyond the gas station. The cruiser struck a cement post on its own side of the road, the chief stated.

"He (Officer Porter) doesn't know whether he blacked out or what happened. The first thing he remembers is standing up, leaning

#### Russell In Race For Selectman

School Committee Chairman Roy A. Russell has announced his candidacy for the office of Selectman-Assessor at the March election.

Mr. Russell, an officer in the Andover Police Department, will not seek re-election as a constable, although his name at this time appears on the official nomination paper prepared by Town Clerk George Winslow. He will re-

#### 3 Weeks Work Done In 3 Days

How do you do three weeks' work in three days?

The answer to that, from tree department foreman Philip Busby, is to use a crane with a 60-foot boom.

During the past few weeks, the use of a crane has enabled the

UPPER RIGHT CORNER - Fire Chief Henry Hilton said the fire, which destroyed the DAV Club 18, Monday morning, apparently started in the rear bar area - the upper right corner in this photo. That section of the Park st. building was burned through when firefighters reached the scene at 3:20 a.m. Frank Leone Jr. took this shot from the rear of the 100-year-old structure, as firefighters continued to battle the stubborn blaze. Deputy Chief Charles Murnane is at lower right, in white coat.

#### Water Damages City Cleaners

Fire totally destroyed the Disabled American Veterans' Club 18 Park st. early Monday morning.

City Cleaners, occupying the ground floor of the 100-year-old three-story building, escaped with extensive water damage, according to Fire Chief Henry Hilton.

Hilton said the blaze caused tremendously heavy damage to the club, which had been in operation only a few months.

The alarm was sounded at 3:20 a.m. and the all-out rang in at 8 a.m. No. Andover and Tewksbury apparatus filled in at the Central and Ballardvale stations, as every available piece of Andover fire-fighting equipment responded to the two-alarms.

Hurt during the fire was call

#### Experts Analyze Shopping Center

Some of the conclusions reached by a pair of professional market analysts, regarding a proposed shopping center in West Andover, have been made available, following a recent Planning Board meeting.

The analysts, G.K. Lewis and Saul B. Cohen, were retained by Harry Axelrod and Atty. Richard Simmers, who have expressed interest in the shopping center. They had been advised by the Planning Board to have a survey conducted before going farther with plans for re-zoning a site. Some of the report follows:

"We feel that 90 per cent of the volume of sale for the stores

#### 4-H Club Needs Toy Farm Sets

Andover's 4-H Club needs toy farm sets.

At a recent meeting of the Club, it was decided to enter an educational 4-H Club poultry exhibit in the Boston Poultry Show Jan. 22-25. But the group needs toy farm sets to make up the exhibit.

Arthur Levesque, 60 North st., was designated to receive inquiries from anyone having sets they might wish to give.

In other Club business, it was decided to adopt the name "4-H Knowledge Seekers". The session

The Selectmen's budget for 1958, containing 41 items, has shown a net increase of \$130,639.98 over the 1957 appropriation.

As noted in last week's TOWNSMAN, this increase is second to The School Department. And the Selectmen's budget also is the

second-highest in town, at \$989,918.50.

The most obvious reasons for the increase are found in the two items: interest and retirement of bonds.

**SELECTMEN'S BUDGET SHOWS INCREASES**

(Continued from Page One)

The interest category has climbed steeply, from \$51,847.50 in 1957 to \$82,132.50 for 1958.

And keeping pace is the retirement of bonds allocation, showing a total of \$252,000 for 1958 against \$190,000 in 1957.

For these two items alone, the increase amounts to \$92,285 or slightly over 70 percent of the total increase proposed for 1958.

**No Wage Increases**

As is the case with all town department budgets, except the Library, no wage increases have been included in the budget estimates. These will come after a study of the wage survey.

Thus the total Selectmen's budget will be somewhat higher than presented here, after all wage adjustments have been totalled, as will other departmental budgets.

Selectmen's budget, the Fire Department increase is the third largest, at \$17,775 over the 1957 appropriation of \$141,254. The proposed budget for 1958, \$159,010, includes three additional firefighters for Ballardvale, according to Chief Henry Hilton. The remainder of the increase, he said, comes from the general increase in costs of everything the department purchases during the year.

Fourth on the list, according to the amount of increase over 1957, is old age assistance. This is up \$10,140 over 1957 - \$74,200 compared to \$64,060.

Veterans Services also shows an increase, \$29,000 in 1957 to \$35,000 estimated for 1958.

**Some Go Down**

Taking a look at the items for which decreases are noted, aid to dependant children has dropped \$2440, from \$8820 in 1957 to \$6380 in 1958.

Public welfare has gone down by \$1800 - from the 1957 appropriation of \$11,300 to \$9500.

The town infirmary budget item shows a decrease of \$10,000, from \$12,000 to \$2000. Since the 1957 town meeting, the infirmary has been leased to an individual and is being run as a rest home. The main decrease comes in salaries, for the town no longer pays a matron or other employees nor furnishes supplies for the establishment.

**Other Budget Items**

Here are the other budget items, included in the estimated Selectmen's budget for 1958.

American Legion, \$900, in-

creased \$60; Veterans of Foreign Wars, \$900, increased \$80; Disabled American Veterans, \$900, increase of \$240; Patriotic Holidays, \$1490, decreased \$75.

Retirement fund, \$53,079, increase of \$230; damage to persons and property, \$500, unchanged; elections and registrations, \$11,181, up \$3771; insurance, \$32,000, increase of \$3000; printing town report, \$2000, unchanged;

Moderator, \$75, no change; town counsel, \$1500, no change; Finance Committee, \$75, unchanged; dog officer, \$325, no change; animal inspector, \$500, up \$350 over 1957; inspector of wires, \$1550, no change;

Sealer of weights and measures, \$1100, increased by \$300; brush fires, \$3200, up \$1000; disability assistance, \$7410, down \$1590 over 1957 appropriation; recreation, \$17,570, up \$1750;

Public dump, \$3500, unchanged; selectmen, \$8884, increase of \$479; treasurer, \$13,985, increased \$1362.50; parking meter account (meter fund), \$400, up \$11; collector of taxes, \$11,000, increased \$104.50; accountant, \$11,129, up \$214.50;

Assessors, \$19,858, down \$237 from 1957 appropriation; town clerk, \$7756, decrease of \$17.50; civil defense, \$7325, increase of \$3400; planning board, \$4727, decreased by \$112; building inspector, \$6000, unchanged; municipal buildings, \$14,000, up by \$2,000; police department, \$115,004, increase of \$3175; parking meter account (meter fund), \$10,445, down \$597.

tree crews to take down four of the tallest elms in town, in safety and quickly to boot.

Busby explained that the elms, all victims of the Dutch elm disease, were dangerous to climb. And ordinarily, using the usual equipment, two men would have to climb the trees and top them out in small sections. The pieces would then have to be carefully guided to the ground through a maze of electric and telephone wires.

But using the crane, the work went speedily. After once fastening the boom to the tree 60 feet in the air, one cut could be made at about 40 feet from the ground. The entire section of well over 20 feet could then be raised and lowered to the ground. The remaining trunk could then be easily dropped.

Busby said safety was a big factor in the town's decision to hire a crane for this work. The trees were dead and rotted, making climbing a dangerous job. By using the cranes, a man had to climb to 60 feet just once, to attach the boom. Then the power saw could be used at a height of 40 feet rather than climbing nearly to the top of the trees.

One of the elms was 95 feet high. Another, Busby said, was rotten. A pigeon had even built a nest inside the leader, going in through a hole that couldn't be seen from the ground.

The four elms were about the largest in town - two on Elm st.,

one on Lowell st. and another on High st.

They also presented each patient with a small gift, made by the girls. be accommodated to the site (crossing of Route 133 and new Route 28). Such a center would have about 20 stores, including a medium sized junior department store and a large supermarket. These stores could expect to gross \$8,000,000 during the first year of operations, and should be adjusted to the middle and upper middle family income characteristics of the trading area.

"On the other hand, the sparcity of population within one mile of the center, and the limited total population within the trading area may suggest a delay in center construction or may warrant the center's being built by stages. By 1962 when the trading area population will have grown to 78,000 and when anticipated store sales can be set at \$9,700,000, a more solid basis for a shopping center at West Andover will have been achieved."

Here is what the report says further about the future of Main st.: "Present Route 28 in Andover and South Lawrence is heavily traveled because of local business activity and movement across the Merrimack river to and from work in Lawrence. Most of this latter traffic will be removed by the new bridges that will be built. However, local business traffic will still meet bottle-necks along the secondary roads that feed into Andover Center, and this, coupled with lack of parking facilities and land for building purposes will limit business expansion in Andover Center."

Where will the customers come from for a West Andover shopping center? "It has been our experience that shopping centers (save regional centers) rarely draw convenience goods customers for more than 10 to 15 minutes drive, and shopping goods customers for more than 20 minutes drive. In the case of West Andover because of the competition from Lawrence, Lowell and North Reading 15 minutes can generally be regarded as the outermost driving-time boundary." And later "In general the 15-minute driving time boundary represents an area that is 5 to 6 miles from the projected shopping center.

And still further on, "The trading area as defined on the map thus includes Andover, much of North Andover, South Lawrence, Tewksbury and North Reading and parts of Methuen, Billerica, Wilmington, North Lawrence and Lowell. Only Billerica is non-contiguous to Andover.

"Based upon our experience, we have found that shopping centers in this type of location

have the following drawing power: within three miles, 50 per cent to 60 per cent of customers; within four miles, 60 per cent to 75 per cent; within five miles 75 per cent to 85 per cent and from the fringe area 5 per cent to 10 per cent.

"In the case of West Andover we suggest that 70 per cent of the customers will come from within four miles, 80 per cent from within five miles and 90 per cent from the entire trading area. We estimate that 10 per cent of the customers will come from the fringe area."

Here's the buying power based on average yearly family income after taxes: Andover, \$6,500; North Andover, \$6,200; Lawrence, \$5,100; South Lawrence, \$4,700; North Reading, \$5,000; Methuen, \$5,600, Wilmington, \$4,800; Lowell, \$5,000; Billerica, \$5,300; Tewksbury, \$5,300.

The total income after taxes for the entire trading area is estimated at \$106,000,000, and with the expected population increase is expected to reach \$120,000,000 in 1962.

## Dr. Reynolds Is New College Dean

Dr. Levering Reynolds Jr. was appointed the new Dean of the University in Pacific University, Forest Grove, Oregon, this week. Announcement of the new post and its first occupant was made to the faculty and students by the president, Dr. Charles J. Armstrong.

The duties of the new dean will be to coordinate the educational activities of the colleges and schools of the University and to serve as administrator of the academic offices. In addition he will act as liaison officer with the Congregational Christian and Evangelical and Reformed Church, with which the University is affiliated.

Dr. Reynolds went to Pacific University in September, 1956, as Harvey Scott, Associate Professor of Religion and Philosophy and has served as chairman of the departments of religion and philosophy and director of religious activities. Previous to 1956 he was a Lecturer in Theology in the Harvard Divinity School and pastor of the Free Christian Church for eleven years. Born in Boston he graduated from

Harvard College and Andover Newton Theological School and received a Th. D. degree from Harvard in 1952. He is currently engaged in a religious research project which has as its major aim a reexamination of the philosophic and theological rationale of the Christian college.

## HOME ON VACATION

David T. Lucey, a sophomore at New Hampton School, New Hampton, N. H., is at home for the Christmas vacation. He is the son of Mr. and Mrs. William F. Lucey, 187 Summer st. At the annual fall sports banquet held recently at the school, Lucey was awarded a junior varsity soccer letter.

# WALK THROUGH 1958

Have you saved as much in 1957 as you thought you would?

1957 is gone now. In 1958 are you going to wonder where all your money goes, or are you going to tell it where to go? A man makes for himself his own place and the determined start is the first step.

Deposit a certain amount each pay day before you go home. Make it a certain, reasonable fraction of your wages or salary, but allow no exceptions.

Determine now to start the New Year right and STICK with it. The passbook will be the record of your financial achievement.

**Truck Driver Painfully Hurt**

The driver of an oil delivery truck was painfully injured Friday morning, Dec. 27, when his truck rolled backward and pinned his hand between a wheel and a chock he was attempting to remove.

Benjamin Cardone, 48 Melvin st., Lawrence, was taken to the Lawrence General Hospital in the Police Department cruiser. Police said he suffered two broken fingers.

Cardone, they related, was removing a wheel chock at the rear of his truck, after making a delivery on So. Main st., when the vehicle rolled back and pinned the hand. He called for assistance for nearly half an hour before anyone realized that something was the matter.

And then a bystander, attempting to move the truck forward, shifted into reverse by mistake and drove the truck even more forcible against the hand. He finally was able to get it moved forward enough for Cardone to get his mangled hand out of the vise-like grip.

Officer Calvin Deyerdmond investigated and took Cardone to the hospital.

**Friends Honored Karl Haartz'**

On last Saturday evening, Dec. 28, from 8-10 o'clock, friends and relatives called at the home of Mr. and Mrs. Karl Haartz, High Plain rd. to congratulate them on their Silver wedding anniversary.

During the evening the couple was presented with gifts and light refreshments were served. They have two children, David, a student at the University of Michigan and Karla, a student at the Pike school where Mrs. Haartz is also a teacher.

The entire Haartz family have long been interested and ardent workers in the West Church, of which they are members.

### Can It Be Done?

Members of the Finance Committee raised a question a couple of weeks ago, when considering the new teachers' pay scale.

They asked whether the increases, some amounting to over \$1000, couldn't be handed out over a two-year period.

The School Committee thought not - claiming too many inequities would develop, too much confusion would ensue and too many claims for special treatment would probably follow. They feared the new schedule would never survive if it is not carried out in one year.

Now we see that the wage study recommends a two-year step for other town employees, setting a maximum of \$400 for any employee in 1958. The remainder of the increase would be granted in 1959. Apparently Wage Board members and the professional staff assisting them did not fear this method.

They have taken this step to soften the blow on the taxpayer - so that the full affect of the increase would not come in one fiscal year.

Perhaps, if it can be done for all other town employees, the School Committee might well reconsider its stand against the proposal. Possibly some method could be worked out so that the increases could be handed out over a two-year period, without too much confusion and with the understanding and cooperation of the teachers.

### Recommendations Seem Good

We were very much impressed by the wage and job evaluation, as reported by the professional firm to the Wage Board.

From the wealth of data included in the report, it appears that the firm did a thorough study on which to base its recommendations.

There will, of course, be some individual problems develop. The Board will almost certainly have to take action in a few cases, where an employee has a special problem.

But all-in-all, the report appears to accomplish what it set out to do - establish a fair and impartial method for paying all town employees. Inequities will be removed - an accomplishment that should be thoroughly appreciated by the town's employees as well as other residents.

The report, according to custom, did not include elected officials - thus the selectmen-assessors, town treasurer, tax collector, town clerk and secretary of the Board of Public Works were not included. It's quite possible that salaries of these positions should be adjusted too - and we hope the Finance Committee will take a close look at them to see if we are paying adequately for these jobs.

#### 25 Years Ago - December, 1932

One of the five men accused of participating in a holdup last month in a West Andover camp is being held for grand jury action, following a hearing in Lawrence District Court. Four others, all arrested in Boston, were convicted there of larceny and carrying firearms and have been sentenced.

The Selectmen presented their budget to the Finance Committee last night, including salaries at the same level as this year. They asked the Finance Committee for advice on the salary question. The budget is up over \$1300, directly attributable to increases in welfare and old age assistance costs.

A vast amount of town work has been done by Andover residents, otherwise unemployed, who have been hired by the Board of Public Works, Cemetery Trustees and other town departments. The work, mostly of a permanent nature, cost about \$8000. The Emergency Committee, under John O'Connell, says it has about \$8000 in its treasury. This money will be used during the winter.

The annual meeting and supper of the West Church was held Wednesday evening in the Vestry.

Some 1500 reclaimed toys were distributed to about 600 youngsters by the Veterans of Foreign Wars and the firemen, who repaired and painted the toys during December.

#### 10 Years Ago - December, 1947

The town has been digging itself out of 31 inches of snow, following last Friday's storm. That driving blizzard left 19 inches of snow, which was added to the snow of the 23rd. Many cars were stalled by Friday's storm and all forms of public transportation were at a standstill. However, town crews had broken through most roads by nightfall, although the presence of many stalled cars added to their problems.

In order to provide more playground space, the Sacred Heart School has acquired land near its property in Shawsheen.

against the hood", the chief stated.

The car was taken to the Shawsheen Motor Mart, but is not being repaired, pending receipt of bids on a new cruiser today. Selectman Sidney P. White said it has not yet been decided to buy a new car, but the one involved in the accident has gone 50,000 miles and probably would be turned in after town meeting. He said the Selectmen want prices on a new car, wondering if it will be cheaper to buy it now rather than spend in excess of \$500 on repairs, only to trade the vehicle within three months.

But the nice little surprises, notes from old friends, spicy tastes and Christmas smells and the expressions of goodwill you hear and feel from neighbors and friends make the frenzy so worthwhile!

Here it is practically the new year of 1958 and along with my good wishes to you are those from our editor, Dave Young and business and advertising manager, Ray DeRuisseau. Frankly speaking, I am asking them to extend their wishes with recipes, for these two busy gentlemen may munch hamburgers over a typewriter twice times six days a week, but I happen to know they are true gourmets at heart and know a spatula when they see one.

Ray, for instance, has a deep fondness for good oriental dishes - a taste he undoubtedly acquired while living in Japan. But the recipe I have been after for this column is his very favorite French pork pie, baked with two crusts just as it was always done in his family in Canada. Incidentally, this is a traditional New Year's dish there and could be a very good offering on your own table after the horns blow at midnight.

## TOURTIERE

(Raymond DeRuisseau)  
1 1/2 lbs. lean pork  
1 Tbl. minced onion  
Salt & pepper to taste  
1/2 tsp. (more or less) cloves and cinnamon  
Cracker crumbs, finely ground  
Pastry dough for 9" pie plate

The seasoning of this dish is what's so mighty all important. More than a hint of clove and cinnamon is required, the flavor should spread mellow throughout but should definitely not overpower. Mrs. DeRuisseau has the butcher grind her lean pork twice and prepares it thus: In a skillet over low heat pour boiling water over the pork just to cover. Dust with salt and pepper and allow to cook for about a half hour, 'till no trace of pink is left. Then add very fine cracker crumbs to absorb the pan juice, add the onion and cinnamon and clove, stir well and bake as a two crust pie, just until the pastry is done as you like it. A 450 degree oven for 15 or 20 minutes and an additional 15 minutes at 350 should turn it out nicely brown and done.

## BUTTER COOKIES

(Kourambiettes as baked by Mrs. David Young)

Dave loves these and enjoyed more than one batch this holiday season even though his wife, Betty, has a mighty busy time of it with their wonderful twin babies.

- 1 lb. sweet butter (soft)
  - 1 egg
  - 2 tsp. vanilla
  - 1 oz. whiskey
  - 2 Tbl. powdered sugar
  - 2 lbs. flour
- Heat oven to 400 degrees. Mix well the butter, egg, vanilla, whiskey and sugar. Add flour gradually until mixture is of moulding consistency. Mould dough into 12-inch long roll about 1-inch in depth, then cut in 2-inch slices, cutting at an angle. Place on ungreased cookie sheet and bake until golden brown. Cover liberally with powdered sugar while cookies are hot.

## CHEESE FONDUE

(Mrs. Richard Whipple)

We all wrote down this recipe at bridge club last week after we had completely cleaned up Bessie's delicious, golden-browned casserole. The proportions given here are for four servings but our hostess tripled the recipe, I believe, for almost all of us had seconds.

- 1 cup grated sharp American cheese
  - 1-1/3 cup stale bread crumbs
  - 1-1/3 cups hot milk
  - 1/2 tsp. salt
  - 1 Tbl. butter
  - 4 eggs, beaten separately
- Mix bread, cheese and milk together. Beat egg yolks well and add. Fold in stiffly beaten egg whites and pour into greased baking dish. Cook in moderate oven 45 min. This is not as tricky as a soufflé and holds together better and longer.

covered dish in warm place. Brown onion, garlic, carrot, parsley and bay leaf or basil in fat left in frying pan. Strain tomatoes (when strained you should have 2 cups pulp). Add tomato pulp to browned vegetables in frying pan, add 1 tsp. salt and pepper and bring to a boil. Add chicken and wine and simmer 30 minutes, or until chicken is tender. Serves 4.

## Taxpayers Assign Jobs To Members

Members of the Taxpayers Association have been given special municipal assignments by the board of directors.

Each year, members assume responsibility for investigating proposed budgets, comparing them with other years and finding out the reasons for increases. These findings are reported to the board of directors and form the basis for the board's recommendations to town meeting.

The assignments include: Selection's department; Chairman, Henry Wolfson with Vincent Treanor; Board of Public Works: Archie Maclaren, chairman with George Luedke and Harold Haller; School budget; chairman, Paul McKinnon with Dino G. Valz, Wendell Hopkins, Phillips Marsden and Stanley Swanton; Library; chairman, Ronald M. Valentine with Kenneth Bevan; Spring Grove cemetery; chairman, Donald S. Burns; Planning Board; chairman, Wendell Hopkins with Harold Haller; Health department; chairman, Robert D. Mayo with Milton Meyers; recreation; chairman, Kenneth Fulton with John F. Manning; special articles; chairman, Allyn B. Sears with Thayer S. Warshaw and Walter G. Tomlinson; Police and Fire; chairman, Phillips B. Marsden, with Wallace Haselton; pamphlet committee; chairman, Thayer S. Warshaw with members Walter C. Tomlinson, Allyn B. Sears and Dino Valz; publicity chairman, Henry M. Wolfson.

**Contractor Poured Well Foundations**  
Foundation walls of the chemical feed and pumping stations at the Abbot and Ballardvale well sites have now been poured.  
Water Department Supt. Donald Bassett said the foundation walls are being let stand, to dry, before additional construction work can be continued. As soon as possible, the floor will be laid and walls erected. Although the weather has been better than anticipated for working, he explained that the construction crew is prepared to cover and heat poured concrete, so that it will properly dry.  
Bassett also said that the Abbot well is still being pumped through the temporary arrangement, in existence since summer. As soon as the sub-structure of the chemical feed station is completed, a length of water main will be laid in its proper place and the well can be pumped through the permanently-installed main, avoiding any possibility of having the temporary pipes freeze. The one remaining length of pipe runs through the sub-structure. It was necessary to wait for its installation until workmen had finished that portion of the job.

**Dead Fish Not Due To Pollution**

Dead fish in the Shawsheen River this summer, which brought complaints to the Selectmen's office from Ballardvale residents about suspected pollution of the River, resulted from low water and high summer temperatures.

That's the opinion of Worthen H. Taylor, acting director of the state Division of Sanitary Engineering, who wrote to interested town boards this week.

Residents of the Vale had complained that good fishing spots along the River had been spoiled and that fish were found dead or nearly so. They charged that chemical wastes from the Reichhold Chemical Co. were polluting the stream.

The letter from the Department of Public Health said inspection of water samples indicates that "it is possible at certain times for small amounts of organic materials to discharge to the river." But the letter said the amounts would be small and of short duration. A system to effectively dispose of these wastes is being constructed, the letter noted.

The full report from the state follows:

"The Department of Public Health, in response to your letter dated Aug. 21, 1957, relative to fish dying in the Shawsheen River in the vicinity of Lowell Junction, has caused various examinations to be made by its engineers and has considered the information available.

"Examinations which were conducted from the latter part of August to the present time revealed that a number of dead fish were observed in the Shawsheen River in the vicinity of Lowell Junction. At the time of the early examinations in August, there was practically no flow in the river since it was during the time of the extreme drought experienced this past summer.

"An industrial waste survey conducted at the nearest source of possible pollution, which is the Reichhold Chemical Company, revealed that it is possible at certain times for small amounts of organic materials to be discharged to the river. These discharges, however, would be of short duration and in very small quantities. In order to prevent the possible discharge of such chemicals, the company has under construction a system, which will collect these sources near the plant and pump the liquid therefrom to waste pits which are to be located northerly of the Shawsheen River. liquid from the waste pits will then either evaporate or percolate into the ground. The area of the waste pits is owned by the company and there are at present no houses in the vicinity.

"The department is of the opinion that the fish kill experienced in the Shawsheen River was probably caused by the extreme low flows and high temperatures which prevailed during the summer."

Copies of the letter were sent to the Reichhold Co., Board of Health and Selectmen.

**Dates Of Political Events Listed**

A time-table of political events has been established by Town Clerk George Winslow.

Feb. 3 has been set as the last day for filing nomination papers, with a 4:30 p.m. deadline. Eighty five signatures of registered voters are needed to meet nomination requirements.

Jan. 17, now less than four weeks away, is the last day for filing articles for the annual town warrant. All articles must be in the town clerk's hands by 4:30 that day.

Several dates for registration of voters have been established in the various precincts.

Precinct one - Jan. 27, town hall, 7-9 p.m.;

Precinct three - Jan. 29, Sacred Heart School on Balmoral st., 7-9 p.m.;

Precinct four - Jan. 31, Grange Hall in West Parish, 7-9 p.m.;

Precinct five - Feb. 5, Fire Station in Ballardvale, 7-9 p.m.;

Precinct six - Feb. 7, Peabody House, Phillips Academy, 7-9 p.m.;

Precinct two - Feb. 11, Town Hall, noon to 10 p.m.

Election is March 3, 1958.

**Merch Breakdown During H**

Town crews embarked clean-up detail today, following Tuesday night's 12 1/2 inch snowfall. Hampered by occasional gusts and crippled by the six plows through disabling mechanical failures, the Board of Works crews spent Wednesday pushing the snow back along the side streets.

The snow loader came into operation at midnight last night, pushing the snow from the Main st. as fast as possible.

Highway Supt. Stanley Crockett said six trucks were available for use during the worst of the storm. They included the heaviest and best trucks by the Board during snow emergencies. Several are owned by individuals and ordinarily throughout a storm to keep streets open. Francis Reilly's truck, hired only this fall for work, burned out its clutch. Crockett's new truck also developed mechanical trouble and was

**Maclaren Sees Planning Bert**

Archibald D. Maclaren, former assessors' engineer, announced his candidacy for Planning Board.

Mr. Maclaren, a resident of Preservation rd., resigned his municipal post at the year to spend his full time in architectural business. He is a graduate of the Academy and Wentworth Institute.

The Planning Board's position is being vacated by Lee Noyes, who seeks a municipal office.

Mr. Maclaren, while serving as the Assessors, was responsible for establishing the routine, for reviewing the methods and has been responsible for working with the revenue and in obtaining the
