While '87 Featured Construction Schools Will Be Focus For 1988

Things went as expected last year, according to Town Manager Kenneth Mahony.

"There was a little more action in the comprehensive permit area, but I wasn't really surprised," said Mahony.

Eight affordable housing projects proposed for Andover were featured in headlines all summer.

One of last year's goals—the Riverina pumping station—has been realized. The station needs two more weeks of work before it's completely ready for operation, although its official opening was Saturday, Dec. 12.

Training at the police station is on-going, Mahony said, and he thinks the department will receive accreditation during 1988.

Getting a new radio band for the fire station is in the works.

Mahony said the town is making progress on widening of River Road.

Memorial Hall Library is in the middle of renovations. Now that the new wing is complete, all the books and resources have been moved from the original building, so restoration can begin there.

"Things have gone about as well as expected," Mahony concluded.

While much attention was focused during the past year on such major projects as Memorial Hall Library renovation, anticipated renovation of the old town hall and the construction of the Riverina Road pumping station, the coming year is expected to be concentrated on school issues.

Two major decisions will be made in the early part of 1988, one dealing with the grade structure of the town's school system, the other

To Intern In Washington

Andrew Joel

Brendan McGrail

Andrew Joel and Brendan McGrail, 11th graders at Phillips Academy, have been selected to spend the spring term in the school's Washington Intern program. Joel will work in Washington, D.C., as assistant to Rep. Tim Johnson (D-SD) and McGrail with Rep. Andy Ireland (R-FL).

Each year 12-15 PA juniors or seniors in high academic standing are chosen to work in Congressional offices along with a similar group from the Phillips Exeter Academy in New Hampshire. The Washington interns will live in the Bellevue Hotel within walking distance of the Capitol Building, under the supervision of an Andover or Exeter faculty member. Special seminars will feature Supreme Court Justices and other key figures and the interns will gain an insider's view of the U.S. government in action. Public service has been encouraged at Andover since its founding in the middle of the American Revolution.

Joel is the son of Helmuth and Penny Joel of Bartlet Street, faculty at Phillips Academy. He attended University Liggett School in Grosse Pointe, Mich., before coming to Andover. Joel is on the JV soccer

team and JV hockey team. He has participated in the PA Special Olympics programs, plays guitar and is a peer tutor. McGrail is captain of the JV football team where he won the MVP award, plays JV

baseball, is a member of the Newman Club, WPAA, the school radio station, and president of the Press Club (sports journalism club) and is a member of the student council. Son of Dr. Richard and Suzanne McGrail of Shipman Road, he attended Doherty Junior High School.

Baumel Elected Secretary

Claire Baumel of Andover has been elected national financial secretary of Women's American ORT.

Mrs. Baumel is responsible for reviewing and tracking dues and other income to the organization. She advises areas on billing and collecting dues from members and is involved in all aspects of organizational growth.

Baumel originally joined Women's American ORT when she was living in Long Island, N.Y. She held numerous positions in the North Shore Long Island region, including president and chairman of the executive committee. In 1970 she was named to the national executive committee and has held several national positions since.

A former elementary school teacher, Baumel says, "As a teacher, I was particularly attracted to an organization which used education to free people from charity. And as my own children became part of the American educational scene, I felt even greater concern for the world's children."

ORT (Organization for Rehabilitation Through Training) was founded in 1880 in Russia as a self-help program to train Jews in agricultural, industrial and craft skills. Today, ORT is the largest non-governmental technical education system in the world with schools and training programs in 34 countries.

Women's American ORT celebrates its 60th anniversary this year. It is the largest of the ORT member groups supporting its world-wide network of schools. Women's American ORT also functions as a grassroots, activist organization.

What's in a name?

"The name Arlington Trust Company means peace of mind for us."

Arlington Trust Company officers Eileen Zuppari, Vice President/Manager at the Andover branch (2nd left), and Donald Schroeder, First Vice President/Commercial Loan Officer (3rd left), visit on-site with the Tisbert family: (from left) Stephen, Estimator; Claire, Vice President; Louis, President; and Joseph, Project Manager. They are admiring the masonry skills of foreman Ron Rogers.

The Louis Tisbert family has been banking with Arlington Trust Company for over 35 years, so it was only natural that they came to us for financial backing when they started L. Tisbert Masonry Inc. 27 years ago.

"The name Arlington Trust Company means peace of mind for us," says Claire Tisbert. "Whenever the emergencies come, they're always there to see us through. It gives us a real sense of security to know that if a check we're counting on doesn't come in and we have 30 or 40 men waiting to be paid, we can pick up the phone and call Don Schroeder at the bank and he'll have the payroll money waiting for us with Eileen Zuppari at the Shawsheen branch."

BABY TALK

by Jack Resnick

Babies are fascinated by older children. If your baby is not your first child, you'll soon discover that he or she is just as interested in her brother or sister as she is in you. Once your baby is old enough for them to play together, this will be one of her favorite pastimes. If you provide the opportunity and encouragement for this kind of play, you benefit your whole family. You get a brief relief from baby care, and most mothers certainly need that from time to time.

See the largest in depth selection of baby furniture in N. E., when you come to **TINY TOTLAND**. Open 9-5:30 M. & Th. 9-9. Famous makers including Simmons, Childcraft and Bassett. Delivery Anywhere. Students Aid Easter Seals

West third-graders Tim Abbot, left, and Ron Hajj helped their class raise money for the Massachusetts Easter Seals Society by shooting baskets before school Thursday, Dec. 10. The kids gave the money to Easter Seal representative Barbara Teittinen during their Christmastime sing-a-long last week.

More than \$2,000 was raised by 60 third-grade students at West Elementary School for the state Easter Seals Society.

Tim Abbot was the high money raiser at the school and contributed \$574.05 toward Easter Seal services for people with disabilities. Ron Hajj was the second highest money raiser at \$101.

Under the direction of physical education teachers Arthur Iworsley, Louise Rozzi and Cathy McDermott, students shot baskets for three minutes and collected money based on the number of baskets they made.

Basketball shootouts are sponsored by Zayre for schools throughout Massachu-

setts, and Kevin McHale of the Boston Celtics is honorary chairman of the event.

The high money raisers, statewide, will receive an autographed Celtics' team basketball and two tickets to a Celtics' game. Those students raising more than \$500 will receive an official Boston Celtics' hooded sweatshirt.

All proceeds from the shootout are used to support Easter Seal services. These include a therapeutic swim program at the Andover-North Andover YMCA, a stroke club at the North Andover Senior Citizen Center, an equipment loan program and Easter Seal home health care.

AHS Cited For Drug Program

Five Massachusetts schools have been nominated by the Governor's Alliance Against Drugs for the national Drug-Free School Recognition Program, sponsored by the U.S. Department of Education.

Andover High School, Arlington High School, Chatham Junior/Senior High School, Gardner High School and Westfield High School were the schools nominated by the Governor's Alliance out of a number of schools that applied for the recognition program from across the state. They will join 31 other schools nationwide that have been nominated for the recognition award. Some 100 schools will be selected as national drug-free schools and be honored at a ceremony in Washington next spring.

Governor Michael Dukakis praised the schools on their nominations stating, "Massachusetts is proud to focus national attention on the success of these schools in creating and maintaining an exemplary prevention education program that other communities can follow. The administrators, teachers, students and parents of Andover, Arlington, Chatham, Gardner and Westfield are to be congratulated for working together to insure that

our schools are drug free."

The Massachusetts school selected have implemented comprehensive drug and alcohol education programs that has prevented or reduced alcohol and drug use among the student population and have implemented an ongoing plan to become drug free.

All of the schools are members of the Governor's Alliance Against Drugs and, if chosen as national finalists, will be visited by representatives of the U.S. Department of Education in the next few months so officials can take a look at the programs and evaluate the merits of each program.

HEADACHES? NECK PAIN? BACK PAIN?

The simplest movement could have pinched one of the 34 nerves running through these vertebrae. It doesn't take a hard force or an audible snap to pinch a nerve. It doesn't even have to cause pain at the time of injury. It does take just 15 minutes to determine if chiropractic treatment can relieve your back pain, headache, or neck pain. I'll take the time, will you?

FREE CONSULTATION

Don't suffer needlessly. Call my office today and let's arrange a convenient time to see if chiropractic can bring you relief. Chiropractic care is recognized and covered by Workers' Compensation and most insurance companies, so if treatment is indicated, it may be at little or no cost to you, according to the limits of your policy. Chiropractic has had great success in treating:

New Day Care Center Scheduled For Spring

After four years of planning, the groundbreaking for Cuddle Care Day Care Center at 511 S. Main St. (across from Santina's) took place Monday, Dec. 28.

According to director Gwen Hedrick, the location is readily accessible to many surrounding towns as well as to people commuting to Boston.

The one-story building was designed by Gerald Bruno of North Andover and will be constructed by Michaud Construction Co. of Methuen. A wide U-shaped driveway will make drop-off and pick-up easy for parents.

Hedrick says it's evident that "there is a large segment of our children who are being denied quality care because of the lack of available day care facilities, during their most crucial developmental years."

She says statistics show that 52 percent of working women have children under the age of 6. By 1990, it is estimated that there will be 23 million children under 6 whose mothers will be in the workforce and who will require child care. The fastest growing segment of the labor force is the category of mothers of preschool children.

Hedrick said she got the idea to start the center because of the experiences of her own children trying to find day care for their youngsters.

Companies Apply For Town Hall Renovation

Three companies have placed bids for the renovation of Old Town Hall and a decision is expected to be made by the first of the year, according to Kenneth Mahony, town manager.

Masco Inc., Woburn, submitted the lowest bid of \$1.6 million. Anchor Construction, Lowell, proposed a bid of \$1.9 million and Didio Construction, North Andover, bid \$2.2 million. All three are smaller than the approved budget of up to \$2.8 million; however, the lowest bidder won't necessarily win the contract.

Since renovation work is being done on a historical building, state law permits Andover to review all contractors and to choose a company with the most restoration experience. Even then, cautions Mahony, the bid offer won't necessarily be the bottom line figure. Expenses such as permit fees are not figured into the bids, he said.

The old Town Hall was the first public building built after the Andover/North Andover town split in 1855. After about 70 years, the building first saw some ren-

ovation work done in the 1920s, but by the time the 1940s had rolled around, citizens began talking about tearing the structure down, said Mahony.

When Mahony arrived on the Andover scene as town manager in 1982, interest in doing something with the old building had been revived. Money for renovation was finally appropriated at a town meeting in 1987.

Mahony pointed out that many civic events were held inside the old building's brick walls but, he said "the key to its use is not only for historical value, but as a means to draw people downtown." When all the work is completed, hopefully in 18 months, Mahony says, the venerable building will be the site for community theater, dances, art shows and benefits of all types. The old Town Hall will become a new community center.

Most of the work that will be done is pure renovation. Brass tacks-style work like complete replacement of all plumbing, heating and electrical systems will be done.

Red Raider John Rimas rebounds the ball over Andover's big guys.

Andover Meets Haverhill In Championship Game Tonight

Tonight at 8:30 p.m. the Andover Warriors meet the Haverhill Hillies in the championship game of the 13th Greater Lawrence Christmas Festival basketball tournament.

There will also be three consolation games, starting at 3:15 p.m. in Merrimack College's gymnasium.

The four-day tournament started Dec. 23.

Tonight's game will be the fourth for Andover, who are now undefeated in the Christmas tournament.

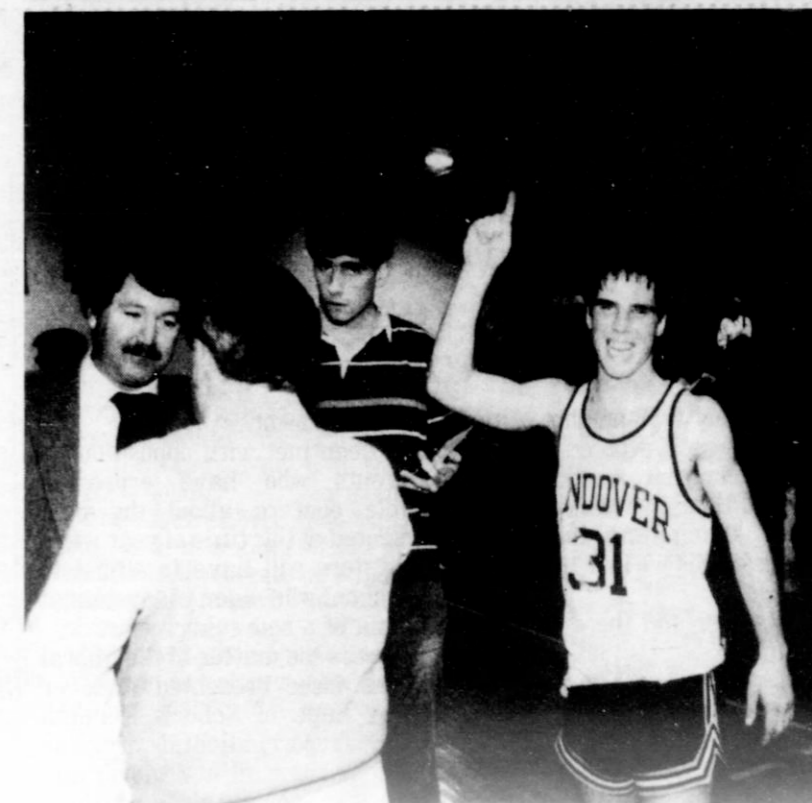

Christine Doyle cheers her team on.

A New Year

It hardly seems possible that another year has slipped into the record books.

Seems at this time every year, we look forward to a new year, the dawn of new promises and hope, anticipating that time, indeed, is on our side as we face the challenge of a new year.

Then, suddenly, it's over and there is another new beginning.

The year ahead, of course, will be as challenging as any other, with maybe some added incentives along the way.

There will, of course, be the national election process which will occupy much of the attention during the course of the year as the long, arduous task of selecting a new President culminates in November.

But, at home, Andover will be facing several challenges to which response will have far-reaching effects.

As the new year dawns, the town still wrestles with the matter of low and moderate income housing proposals. Differences remain between municipal leaders on the merits of the various proposals, the result being that in some instances response to this most pressing need for the young of our community as well as those on fixed incomes, remain unresolved.

Then, of course, there is the matter of the proposed collaborative school, a decision due early in the year on whether Andover and Lawrence will join together to present this educational opportunity to the youth of the two communities.

The proposal has already spurred controversy particularly among Andover parents, fearful that their children will be compelled to attend to meet Andover's commitment of 400 attendees in the 1,200-pupil school.

The building itself is planned for the Beacon street area of Andover, provided environmental standards are met.

Too, there is the possibility of combining grades within the town's school system to more efficiently distribute the student population and relieve overcrowding.

It has been suggested that sixth grades in Andover be assigned to the town's two junior high buildings, thus creating a

middle school concept.

This has been met with opposition by some parents who have expressed considerable concern about the plan being presented at this time of year when their youngsters will have to adjust to attending school with older youngsters at the beginning of a new school year.

Then, there is the matter of the 'moral vacuum,' an issue presented Andover residents by Supt. of Schools Kenneth Seifert when a report indicating drug use continued to be rampant in Andover and that there was an uncaring attitude about the community by many residents and parents, and presented to selectmen a short time ago.

The furor caused by Seifert's remarks clouded the basic issue. Even some school committee members admonished the superintendent for making the remarks without first informing them of his intentions, a matter which could be doubted.

The report and its following controversy, however, has focused on an issue which is in need of attention by Andover residents and has produced some ideas currently being explored by municipal officials, such as a teen center, among other thoughts.

Inherent in all of this would seem to be the need for Andover as a community to make a firm resolve as this new year dawns.

That commitment should be to have an open mind about all these issues and to study the proposals and the ramifications of the far-reaching decisions which will be ultimately be made in the year ahead.

There is sufficient time to study the issues, digest their effects on a growing community, consideration of the decisions on the future of the community.

There is value in having time to study the matters, provided one views the proposals with an open mind rather than a pre-disposed opinion.

Thus, as we greet this new year, and it is our hope that 1988 will be happy and healthy far all, let us resolve to make it a year of open minded consideration of matters which will concern the direction of our community.

Just A Thought

By Bob Finneran

Think through the glories of the Christmas season, I've discovered the key to longevity.

Lots of times those who have reached the ripe old age of 100 or thereabouts are interviewed and their response to questions as to their length of life generally centers about the virtues of eating, drinking and smoking, absence or partaking thereof.

But viewing the freshly unwrapped remembrances of the Christmas season, the real key to longevity must lie in the rechargeable devices so plentifully given this time of year, plus the various items labelled, 'batteries not included.'

As for me, there are three rechargeables all plugged in getting revved up for operations.

One is an electric screwdriver, so forcefully driven home via the tube during the holiday season. The scene compares the virtues of driving a screw manually vs. the power driven mechanism.

One day a friend, observing the scene on TV, said what in the world would a person do with something like that, to which I replied that the power device would be a most useful addition to any tool box.

Christmas Eve, there was a neatly wrapped power screwdriver under the tree.

Next rechargeable job is a Dust-Buster, a small mechanical, hand-held vacuum cleaner, handy for picking up crumbs, small spills, etc.

Particularly good this time of year when the ants are hibernating and unable to carry off crumbs from the floor, or from counter tops.

Third, and most important, in the rechargeable category is a five-inch portable television set, which can be operated by a rechargeable battery, or by a number of regular 'D' batteries.

Had looked at one of those things for the longest time with the thought of obtaining same. Good for the back yard, day trips, beach visits, etc.

Particularly useful during power loss due to storms, or whatever and living in an area where the men have to agree on shaving times in the morning to avoid total power blackouts, the set will more than likely become most useful.

By the way, my electric razor is also rechargeable, thus, I'm exempt from the morning electric rationing.

Now, I may be mistaken but, while these gifts were welcome and useful, there seemed to be a moral in all of the pleasantness of the Christmas exchange.

For instance, the person who presented the electric screwdriver apparently was desirous of insuring that I would continue to work beyond the usual hours, leaving the confines of the electronic newsroom to don handyman togs and work around the homefront. A little fix-up, paint-up never hurt anybody being the underlying theory.

As for the dustbuster, well, there could be some editorial comment on the general condition of the house contained therein.

But, my opinion of such things is that a little dust here and there really never hurt anyone and it does kind of make a home look lived in, just as long as it doesn't get to the plantable stage.

As for the TV set, the message seemed to be a little rest and relaxation never hurt anyone. It's good to take time to smell the roses.

Thus, recharged, I guess I'll stick with that gift-giver.

Warrior Swimmers Win

The Andover High School men's varsity swim team took on Haverhill December 21 and outswam them 99-71.

Co-captains Chris Hart and Albert Garcia teamed with freshmen Craig DerAnanian and Corey Ouellette to win the medley relay.

Hart captured the 50 yard freestyle and just missed first in the 100 butterfly. Garcia won the 100 yard breaststroke and was second in the 200 yard individual medley. DerAnanian won the 100 free and was second in the 50 while Ouellette won the 100 yard backstroke and was second in the 200 free.

The team of Geoff Schaake, David Grace, Eric Jones and Michael DiMartino was third in the medley relay.

Kyle Marcella had six good dives to win the diving event with Scott Goddess second. Ed Pascucci, with

only three days' practice, narrowly missed fourth place.

Jones was second in the 100 fly while DiMartino took runner-up honors in the 100 free with Brad Cronin fifth.

Freshman Schaake, swimming his third 500 yard freestyle in the last four days, showed a five-second and two-place time improvement as he took second in the event. Paul Mitchell was third and Grace placed fourth.

Fred Hohn placed third in the 100 yard backstroke with Dave Friedenson fifth while Jones was third in the 100 breaststroke with Cronin fifth.

Cronin, Marcella, Goddess and Hohn placed second in the 400 yard free relay with John Eckels, Pascucci, Tony Wolcott and Paul Jayne third.

PeeWee A Loses Two

The Andover PeeWee A hockey team suffered two losses in recent league action.

Chelmsford 6 - Andover 1

Andover was defeated by Chelmsford 6-1 in a Wilmington League contest at Hockeystown in Saugus. Defenseman Brendan Finneran intercepted a Chelmsford clearing pass and fired the puck past the Chelmsford goalie at 7:57 of the first period.

Chelmsford took a 2-1 lead before the end of the period. They increased the lead to 4-1 in the second period and coasted to a 6-1 final score.

Billerica 3 - Andover 2

Andover played a much more inspired game in another Wilmington League game played in Tyngsboro, but still came out on

the short end of a 3-2 score.

Danny Trede jammed the puck into the Billerica net at 3:06 of the opening period. Brian Flanigan started the play as he stick-handled into the zone and put the puck in front of the goal for Trede. About a minute later, Billerica tied the game to close the scoring for the first period.

Andover again took the lead at 2:29 of the second period when Dan McKew took a pass in the slot from Flanigan and fired it waist high past the Billerica goalie.

Billerica tied the score 20 seconds before the end of the period and then scored the game winner with 2:28 left in the third period.

The defense of Brendan Finneran, Paul Allard, Adam Gurry and Bob Daley played a strong game, continually breaking up Billerica rushes.

Audit Revision Proposal Submitted

State Auditor A. Joseph DeNucci has fled his 1988 legislative package submitting seven innovative proposals. Two goals of his legislation are to increase the efficiency and effectiveness of audit operations and to address significant audit results. Both kinds of legislation seek to improve agency management and the delivery of government services.

In addition to updating the language of

the statute of the Office of the State Auditor, this legislation codifies certain duties regularly carried out by the state auditor and requires agencies to respond to audit findings as part of the budget process.

"My proposal represents the first major revision of the enabling statute in more than 20 years. It is based on recommendations made by the federal General Accounting Office to further professionalize and

increase the effectiveness of state auditing departments," DeNucci explained.

Two of the other bills, An Act Relative to Improving Internal Controls Within State Agencies and An Act Providing for the Deposit of Unclaimed Money with the State Treasurer and Receiver General, address audit results.

PeeWee A Team Splits

The Andover PeeWee A hockey team split a pair of league contests this past weekend.

Melrose 4 - Andover 0

Andover was shutout by Melrose 4-0 in a rough, penalty-filled Wilmington League game played at Saugus.

The first period was scoreless, but Melrose exploded for three second-period goals to ice the victory. Danny Trede was a standout for Andover with his hustle and hard-hitting performance.

Murphy Swim Team Co-Captain

Bates College senior Paul Murphy, son of David and Ann Murphy, 1 Punchard Avenue, Andover, is co-captain of the 1987-88 Pobjat men's swim team.

The team as 4-4 last season.

Murphy, a two-year letterman, is a graduate of Phillips Academy.

Coached by George Purgavie, the team competes against some of the toughest Division II schools in New England.

Andover 4 - Amesbury 2

Andover defeated Amesbury 4-2 on Sunday in a Valley League game at Methuen.

Missing four regulars, Andover called up Richie Enos and Darren Cianci as replacements. The move paid off early as Enos took a pass from defenseman Paul Allard, moved in on the Amesbury goal and fired the puck past the goalie at 3:23 of the first period.

Brendan Finneran intercepted an Amesbury play at center ice and took the puck to distance to score Andover's second goal at 4:40 of the same period.

Three and a half minutes later, center Danny McKew fired home a 15-footer after taking Trede's accurate pass to up the lead to 3-0.

With 21 seconds left in the first period, Amesbury cut Andover's lead to 3-1. At 4:35 of the second period, McKew scored his second of the game with Trede and Finneran assisting. The play originated in the Andover end with Finneran passing

up to right winger Trede who fed McKew in the slot.

Amesbury finished the scoring at 10:11 of the final period to put the final score at 4-2.

Riehl Awarded Letter

Jennifer Riehl, a junior at Wesleyan University in Middletown, Conn., and former resident of Andover, earned her first varsity letter in cross country, head coach Elmer Swanson announced recently.

A top-five finisher among Wesleyan's entries in four out of seven events for the Cardinals in 1987, Riehl was a consistent contributor to the scoring. Her strongest race of the year came during the Connecticut Intercollegiate Conference (CIC) Meet where she placed 41st of 70 runners by covering 5,000 meters in a time of 20:51.

Wesleyan closed the season with a 6-3-1 dual-meet record, giving Wesleyan its 11th consecutive winning campaign. In the CIC meet, the Cardinals placed sixth out of 10 teams while Wesleyan ranked ninth of 11

squads at the New England Small College Athletic Conference (NESCAC) Meet. Wesleyan finished 20th of 26 teams entered at the New England Division III championship.

She is majoring in biology and is a track letterwinner.

Hospital Receives Accreditation

Lawrence General Hospital has received another three-year accreditation from the Joint Commission on Accreditation of Healthcare Organizations (JCAHO), the longest possible accreditation term. Lawrence General also received a three-year accreditation in 1984.

"This accreditation award is a tribute to the outstanding ongoing efforts of physicians and all of our hospital staff to provide quality patient care," said Thomas F. Hennessey, president of the hospital.

To become accredited, Lawrence General voluntarily requested an on-site evaluation by joint commission surveyors who applied standards designed to further the objectives of quality patient care and the safety of the environment in which that care is provided. These national standards represent a consensus among health care professionals and are periodically updated to reflect changes in the delivery of health care.

During July 1987, many Lawrence General Hospital physicians, nurses and other health care professionals met with the joint commission surveyors—a physician, nurse and administrator. In addition to evaluating Lawrence General's efforts to provide quality care, the survey team also consulted with hospital staff to help efforts to continually enhance patient care.

The JCAHO is a private, not-for-profit organization created by and composed of

health care professionals. It is governed by a board of commissioners whose members are appointed by the American College of Surgeons, American College of Physicians, American Dental Association, American

Hospital Association and the American Medical Association. A public member is appointed by the Board of Commissioners to represent consumer interests.

PeeWee B's Shut Out Haverhill

Andover's PeeWee B team posted a 2-1 record over the last two weeks with wins over Haverhill, 4-0, and Tewksbury, 3-1, and dropped a 6-3 decision to North Middlesex in a game they could and should have won. Phil Smith played an alert game in goal as Andover blanked Haverhill with scores from Sheehy (Enos), Sean Donohue (Enos and Sheehy), Darrin Cianci (Loomer) and Donohue (Kenny and Sheehy). Doug Batchelder and Ryan Doyle played aggressive defense to assist in the shutout.

A shorthanded goal by Tewksbury early in the first period was all Andover would allow as they won a well-played game last Saturday. Andover tied the game at 8:08 of the first period when Brendan Sheehy was awarded a penalty shot which he successfully converted. Andover went ahead for good in the second period on a goal by Mike Lombard (Cianci) and put the game on ice in the third period with Lombard's second goal of the game (unassisted). Mark Pirri played left wing on the Sheehy-Donohue line as Enos shifted to defense.

Andover led North Middlesex 3-1 after two periods with goals from Sheehy (unassisted), Ritchie Enos (Donohue and Sheehy) and John Brodbine (Lombard and Cianci) on a spectacular blast from the point. Andover gave up five unanswered goals in the third period as they tired against the larger squad.

Come see the new Audi 80s.

It's no secret the Germans are among the most demanding drivers in the world. And, it just so happens the sports sedans they demand most are the Audi 80 series, Audi 80 and 80 Quattro.

Well, now they're here and available to equally demanding American drivers.

In 1988, the permanent all-wheel drive system of the new Audi 80 Quattro perhaps best exemplifies Audi's commitment to automotive advancement. This worldwide rally-proven system has been refined to include a new TORSEN® differential that automatically distributes engine power to all four wheels.

The new Audi 80, meanwhile, is equipped with reassuring front-wheel drive.

The shape of both cars is very distinct and almost aerodynamically perfect.

Their interiors are engineered with the driver in mind. Controls for features like air conditioning,

electronic cruise control, AM/FM stereo cassette, power windows, power locks and power mirrors are all conveniently within reach.

They also happen to be the only sports sedans in the world featuring 100% galvanized steel bodies, backed by a 6-year limited warranty against corrosion perforation and a 3-year/50,000 mile new vehicle limited warranty. See us for the details.

With all the 80 and 80 Quattro have to offer and with a starting price of \$19,095* they truly represent an outstanding automotive value.

To fully appreciate these remarkable Audis come in for a test drive today.

Only then will you understand why these exciting new sports sedans are sold out in Germany, and are out-selling their two venerable German competitors.

New Supply Of Natural Gas Enters New England

Last week, for the first time, natural gas began to flow directly from Canada to consumers in New England. The new gas supply is being delivered to the 241,000 customers of Bay State Gas Company through an idled crude-oil pipeline that has been converted to natural gas.

To announce the start-up of the Portland Gas Pipeline Project, energy officials from the United States and Canada joined the project developers, Granite State Gas Transmission, Inc., a subsidiary of Bay State Gas, and Shell Canada Limited, in the ceremonial opening of a pipeline valve in Portland, which allowed the Canadian natural gas to begin flowing to area consumers.

"The Portland Gas Pipeline Project will dramatically increase our company's gas supply and help meet the growing demand

Safety

Allan R. McKinnon, chairman of the Massachusetts Turnpike Authority, urged all travelers on the highways over the New Year holiday to drive carefully, courteously and stay within the speed limit. The Marriott Corporation will provide free coffee at all Burger King, Roy Rogers and Howard Johnson's Restaurants along the turnpike. Certificates will be distributed at all toll plazas allowing pike patrons to be served free coffee from 10 p.m. Thursday, Dec. 31, to 7 a.m. Friday, Jan. 1. McKinnon advised holiday travelers to take occasional rest stops and coffee breaks to keep alert and improve driving performance.

The 55 m.p.h. speed limit and the Commonwealth's drunk driving laws will be enforced to ensure a safe holiday.

Weight Loss

A medically and nutritionally sound weight control program will be offered at the Regional Health Center in Wilmington.

Participants will learn how to lose weight and improve nutritional habits and choices through the 12-week weight group, "Learning to Lose."

This program is for those who need to lose 30 pounds or less and have no medical complications. An orientation session will be held Monday, Jan. 18, from 7:30 p.m. to 9 p.m. The course is limited to 12 participants per group. Registration must be completed by January 11.

Marie Whelen, MS, RD, nutritionist and program leader, said, "It's better to be patient and lose weight slowly and safely, about a pound or two a week, and know that it can be a permanent weight loss, rather than losing five pounds in a week, only to regain it soon after." A computer dietary assessment will be completed for each participant to assess their nutrition and vitamin/mineral intake.

for energy in our region," said Charles T. Ellis, president of Granite State, which converted and is operating the gas pipeline. "The new gas supply will enable thousands of additional residential and business customers to take advantage of this clean-burning, premium fuel and it will help us hold gas costs down for our existing customers as well.

"Because the Canadian gas feeds into the northern end of our system, it also adds an element of security to our supply that could not otherwise be achieved," he said. Ellis added that, because the gas is flowing through an existing pipeline, project costs were minimized and the surrounding environment was left undisturbed.

Deliveries of gas will be made on an interruptible basis until November 1988 when additional pipeline facilities will be completed in Canada, allowing deliveries to begin on a firm basis and increase to a level of 25 million cubic feet per day.

Granite State is leasing and operating the 160-mile United States' portion of the 18" diameter pipeline, owned by Portland Pipe Line Corporation, which runs from Portland through New Hampshire and Vermont to the Canadian border at North Troy, Vermont. Shell Canada Products Limited, a subsidiary of Shell Canada Limited, will lease and operate the 70-mile Canadian section of the same pipeline that runs from the border to a point in Quebec where it connects with the Canadian natural gas pipeline network. The converted oil pipeline intersects the existing Granite State transmissionline at Portland that runs from the Massachusetts-New Hampshire border at Plaistow, N.H., to Portland.

Bay State Gas Company is New England's largest independent natural gas distributor. The company serves more than 241,000 customers in the Brockton, Springfield and Lawrence areas of Massachusetts and, through its subsidiary, Northern Utilities, Inc., in the seacoast region of New Hampshire and in the Greater Portland and Lewiston-Auburn regions of Maine.

Sutton Travel: Where the Holidays Never End

Now that the holidays are just about over, why not think about the holidays! Don't you agree, it's time to break away from the every day routine? Can't you just feel the warmth of the sun on your pale face and body?

Take yourself over to Sutton Travel at 141 Main St., North Andover or to 237 Essex St., Lawrence and talk to experts on travel. They have the ability to create a vacation you'll long remember.

There was a time that most of us thought that a cruise was just for the rich and famous....not any longer! There

are cruises lasting a week or longer and there are cruises for just two or three nights. Some plans include air-fare or if you prefer, a Rail/Sail program.

Elena Covarrubias, Travel Consultant in the North Andover office, considers a cruise one of the best vacation buys for the money. "It's all inclusive and there is something for everyone," she stated. There are exciting ports of call, eight meals a day, plus snacks, access to all shipboard facilities, entertainment, activities, duty-free shopping on board and year-round supervised chil-

dren's activities.

Another destination offered by Elena, was Mexico. "With the high value of the U.S. dollar against the Mexican peso, you will enjoy how far your money will go," she said. Mexico is a land of cultural heritage. You will be able to trace its rich history through the well preserved temples and pyramids of pre-Columbian archaeological sites, to the achievements in art, industry and government.

Visit Sutton Travel at either their North Andover or Lawrence locations or call 687-3007 or 686-9521 and talk to the travel experts. Bon Voyage!

Fund Drive Aids CLASS

The CLASS Inc. of Andover, one of the leading day service centers in Essex County for adults who are mentally retarded, has begun their annual holiday fund drive.

These funds are used to provide the "extras" which they use in daily programs. In past years CLASS Inc. purchased a handicapped accessible van and other training equipment which increases clients abilities and independence with funds donors have given.

This year's drive is being chaired by Robert Hemme, assistant to the president of Bay Banks Merrimack valley. He is an experienced fundraiser, having worked for the Boy Scouts and is a member of various chambers of commerce and service organizations.

Currently working in customer development and service for Bay Bank, Hemme's goal is to increase contributions to CLASS by at least 25 percent.

This is the third year CLASS has organized a fund drive. More than \$35,000 has been raised. Information is available on the drive by contacting the CLASS office, 16 Haverhill St., Andover.

Benefit

Liza Minnelli and Ben Vereen will be joined by The Rockettes in "The Gift of Life Concert" at the Wang Center in Boston on Friday, April 29, to benefit the National Kidney Foundation of Massachusetts, Inc. on its 35th anniversary.

The National Kidney Foundation of Massachusetts is a non-profit health organization dedicated to fighting kidney and urological diseases. "The Gift of Life Concert" will celebrate the organization's three and one-half decades of service.

Snow & Ice Injuries

A person injured in a fall on snow or ice must ordinarily notify the owner of the property where the accident took place within 30 days of the accident in order to be able to recover for injuries suffered in the fall. The assistance of an attorney can protect your right to just compensation for your injuries.

Contact Neil E. Onerheim or John S. Wessler, who represent accident victims seeking compensation for their injuries.

Schruender Real Estate**KNOWING WHAT YOUR HOME IS WORTH**

Even if you don't plan to sell your home, it's important to know how much it is worth. This information will, among other things, help you to maintain proper insurance coverage and assist in developing an overall financial plan for your family. It can help you make an informed decision about renovations or other home improvement projects you may be considering if you're concerned about over-improving your property.

As a free service, our agents can provide you with an analysis of your property's value. They will inspect your home and show you recent sales prices for houses in your area that are similar to yours. They can explain the market trends, as well as factors such as location, public transportation, nearby commercial development, schools and interest rates, all of which can affect your home's value. Meeting you and seeing your home increases our knowledge of our market area, and we're glad to do it with no obligation to you.

For solid advice on buying or selling real estate, consult the professionals at **Realty USA Schruender Real Estate**. Please call us at 685-5000 or stop by our offices at 73 Chickering Road, North Andover.

WHEN THE PROSPECT ARRIVES
When the Realtor and prospective buyer arrive to inspect your home, here are a few points to remember:
Greet them courteously, then disappear. If you can, leave the house. Don't tag along. Your presence will inhibit free discussion, making it difficult for the Realtor to ferret out the buyer's likes and dislikes.
Avoid having too many people in the house. This can make a buyer feel like an intruder. Children and pets should be housed elsewhere during the showing.
Do not try to interest

the buyer in purchasing furnishings before signing the sales contract. This can ruin a transaction. After the sale is made, there will be plenty of time for such discussions.
Do not discuss the terms of the sale, occupancy, or related matters with the buyer. Refer these questions to the agent. The answers given may make or break the sale.

.....

If there is anything we can do to help you in the field of real estate, please phone or drop in at **THE HOWE AGENCY, 4 PUNCHARD AVE., ANDOVER. Phone: 475-5100. We're here to help.**

Real Estate Happenings

GOING IT ALONE

Some people feel confident that they can sell their homes at a fair price without bringing in a broker. Before you go solo, however, ask yourself a few questions: Are you highly motivated? Do you have a schedule that leaves you free to field phone calls and show the house? Are you a good salesperson who is comfortable with bargaining and negotiation? People often underestimate the work involved with selling a house. You must be willing to research selling prices of comparable homes in the neighborhood, figure out a fair price, familiarize yourself with various complex financing options, plan and execute an advertising campaign, and deal with the public. Even if you think that you are up to this considerable challenge, set a time limit on your efforts.

CENTURY 21 SHAWSEEN REALTY, INC. looks forward to being

the real estate professionals you select to assist you in marketing your home. We will help you choose a fair market price for your property and then will offer you maximum exposure through our extensive advertising program. Only qualified buyers will be brought to your home. We're here for you at 8-10 Haverhill St., 470-3875. We are open daily, evenings and weekends.

The Key to Results in Real Estate

Schools

(Continued from Page One)

with a proposed collaborative school.

The restructuring of the town's grade levels has already evoked controversy with the suggested creation of a middle school.

This would place the town's sixth graders in the present two junior high buildings and move ninth graders in a four-year high school.

Parents already are opposed to the plan based primarily on the decision being made late in the current school year and not providing enough time for youngsters, currently fifth graders, to adjust to a new school environment with older youngsters.

A decision on the matter is expected to be made by the school committee at its Jan. 5 meeting.

The collaborative school concept has also created considerable controversy among the townspeople.

The school which is scheduled to be built on Beacon Street, would house 1200 pupils, 400 of which would be from Andover the rest from Lawrence.

The state-funded program would have limited class size and provide modern educational programs for those attending. Pupils would attend on a volunteer basis, although some Andover parents are concerned that failure to obtain sufficient volunteers would result in some students being assigned to the school, a condition education administrators affirm would not happen.

A decision on the proposed collaborative school is expected at the annual town meeting.

Also in the area of education, the school committee and superintendent are expected to come up with a master plan for the town's school system in the year ahead.

McGravey
Appointed
Deputy

James McGravey, an Andover native, currently serving as deputy city clerk in Lawrence, has been appointed deputy town clerk in Andover.

Town Manager Kenneth Mahony announced the appointment Monday night, receiving the selectmen's approval.

McGravey will replace Cathy Cronin, who was a recent appointee, but has submitted her resignation to return to her former employment with the American Red Cross.

McGravey is expected to assume his new duties on January 15.

Workshops

Lowell National Historical Park will hold application workshops for all those interested in summer employment at Lowell National Historical Park on Friday, Jan. 15 and 22, in the Park Visitor Center conference room at Market Mills, corner of Market and Dutton Street, downtown Lowell, from 10 a.m. to 7 p.m. Interested applicants may attend the workshops in order to receive assistance in filling out the application.

Application deadline for summer employment at Lowell National Historical Park is Monday, Feb. 15.

Lowell National Historical Park will hire park rangers and park laborers. Rangers carry out a variety of duties including staffing the park visitor center, preparing and delivering guided tours and protecting park resources and visitors. Laborers perform a variety of indoor and outdoor maintenance duties. The work involves direct contact with the visiting public.
